Journal of Proceedings Board of Supervisors

City and County of San Francisco

Franklin Typesetting Corporation
447 Sansome Street, S. F.

entered into an agreement with the Housing Authority of the City and County of San Francisco (herein called "the Authority"), dated the 20th day of July, 1938, wherein the City and County agreed to eliminate in the manner therein provided, unsafe or insanitary dwelling units of a number at least equal to the number of new dwelling units to be provided in Holly Park-Potrero Projects Cal. 1-1, Cal. 1-2 and Cal. 1-7, therein referred to as "the Project," but in no event to exceed 660 unsafe or insanitary dwelling units; and

Whereas, the Authority proposes to develop and administer further low-rent housing projects (herein called "the Projects") within the territorial limits of the City and County of San Francisco, including in the aggregate approximately three thousand (3000) dwelling units; and

Whereas, in connection with the development of the projects, the Authority desires to eliminate unsafe and insanitary dwelling units situated within the territorial limits of the City and County substantially equal in number to the number of new dwelling units to be constructed by the Authority; and

Whereas, the Authority has requested the City and County to cooperate with it and assist in the elimination of such unsafe and insanitary dwelling units;

Now, Therefore, Be It Resolved:

1. That the City and County hereby determines that for the purpose of aiding said Authority in its efforts to eliminate unsafe or insanitary dwelling units in the City and County, the City and County shall cooperate with the Authority by eliminating unsafe or insanitary dwelling units within the territorial limits of the City and County at least equal to the number of newly constructed dwelling units to be provided by the Projects (less the number of unsafe or insanitary dwelling units to be eliminated from the site or sites of the Projects by the Authority during the development of the Projects), but in no event to exceed three thousand (3000) unsafe or insanitary dwelling units.

2. That the City and County shall enter into a contract with the Authority substantially in the following form: AGREEMENT BETWEEN THE CITY AND COUNTY OF SAN FRANCISCO AND THE HOUSING AUTHORITY OF THE CITY AND COUNTY OF SAN FRANCISCO.

In consideration of the mutual promises of the City and County of San Francisco (herein called "the City and County"), the Housing Authority of the City and County of San Francisco (herein called "the Authority") hereinafter set forth, the City and County and the Authority agree as follows:

1. The City and County agrees to eliminate unsafe or insanitary dwelling units of a number at least equal to the number of new dwelling units to be provided in the low-rent housing projects (herein collectively called the "Projects," which term is more specifically defined in paragraph 12) to be undertaken by the Authority (less the number, if any, of unsafe or insanitary dwelling units to be eliminated from the site or sites of the Projects by the Authority during the development of the Projects), but in no event to exceed three thousand (3000) unsafe or insanitary dwelling units.

2. The City and County agrees to eliminate such unsafe or insanitary dwelling units within the territorial limits of the City and County.

3. The City and County agrees to eliminate such unsafe or insanitary dwelling units in one or the other of the following ways, or partly in one of these ways and partly in another:

(a) By demolishing dwelling units which are on land acquired by

the City and County by purchase or otherwise, including demolition of such dwelling units on land purchased for any public uses; or

(b) By causing the compulsory demolition, effective closing, repair or improvement of such unsafe and insanitary dwelling units; or

(c) By inducing private owners voluntarily to eliminate such dwelling units.

4. In computing the number of unsafe or insanitary dwelling units eliminated under the terms of this agreement, there shall be included all unsafe or insanitary dwelling units eliminated under this agreement from the date hereof and those unsafe or insanitary dwelling units eliminated from and after July 20, 1938, in anticipation of the execution of this agreement, exclusive of those unsafe or insanitary dwelling units which have been and are being eliminated in connection with the development of the Holly Park and the Potrero Projects in pursuance of the provisions of the Equivalent Elimination Agreement between the City and County and the Authority, dated the 20th day of July, 1938.

5. In computing the number of unsafe or insanitary dwelling units eliminated under the terms of this agreement, the remedying of violations of local building codes or ordinances by compulsory action of the City and County, in so far as it results in the elimination of unsafe or insanitary dwelling units, shall be considered as elimination. The voluntary remedying of such violations shall not be considered as elimination.

6. For the purpose of this agreement a dwelling unit shall be considered unsafe or insanitary whenever by reason of dilapidation, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, it is detrimental to safety, health or morals.

7. The Authority agrees:

(a) To advise the officers in charge of appropriate departments of the City and County of the existence of any unsafe or insanitary dwelling units in the City and County, which the Authority finds as a result of its surveys or studies;

(b) To make reports to the City and County, from time to time, regarding such matters; and

(c) To cooperate with the City and County in securing the elimination of unsafe or insanitary dwelling units required hereunder.

8. The City and County agrees to cause its officers in charge of appropriate departments to make reports to the Authority from time to time regarding:

(a) The action taken by the City and County in the elimination or repair of unsafe or insanitary dwelling units hereunder;

(b) The dates of such action;

(c) The location of such dwelling units; and

(d) The condition of such dwelling units which made them unsafe or insanitary.

9. The Authority and the City and County agree that the elimination undertaken and required hereunder shall be considered as a part of the Projects.

10. The City and County agrees to complete the elimination of unsafe and insanitary dwelling units required hereunder at such a rate that, in connection with each Project, a number at least equal to the number of new dwelling units constructed in each Project shall be eliminated within one (1) year from the date of the physical completion of that Project.

11. The Authority agrees that it will use its best efforts to de-

velop the Projects as rapidly as possible, to operate and maintain such Projects for families of low income, and to keep the City and County fully informed as to the status of the Projects.

12. The term "Projects" as used in this agreement shall mean any low-rent housing projects now or hereafter undertaken within the City and County by the Authority with respect to which a contract or contracts to obtain Federal annual contributions have been made, or will be made with the United States Housing Authority. The term "Project" shall mean any one of such Projects which is to be aided under a separate Annual Contributions Contract between the Authority and the United States Housing Authority relating solely to annual contributions on that particular project.

In witness whereof, the City and County of San Francisco, California, and the Housing Authority of the City and County of San Francisco have, respectively, caused this agreement to be duly executed, in triplicate, as of the.....day of....., 1939.

Discussion.

Following the reading of the foregoing Resolution, the Chair called attention to the language thereof, pointing out that there was no reference therein to Calvary Cemetery, as a site for a Project.

Supervisor Ratto, following the statement by the Chair, asked the City Attorney if any change in the set-up, or procedure, had been

made, stating that during the discussion on the Holly Park-Potrero Projects, for which the local agency had requested the Board's approval, the statement was made by Mr. Sullivan, then of the local agency, that the Board would have an opportunity to approve sites for any contemplated project.

The City Attorney, in reply to Supervisor Ratto, advised that there had been no change in the law; that the local agency having been appointed, with the approval of the Board, was an independent entity and could carry on its work without aid or assistance from the Board of Supervisors. Resolution No. 362, the repeal of which was under discussion, committed no one to any location, but merely stated that the city would cooperate in the elimination of unsafe and insanitary dwelling units. The City Attorney further advised that Resolution No. 362 was duly adopted by the Board and approved by His Honor the Mayor, and if the contract therein approved has been signed, it has gone beyond the control of the Board, and could not be rescinded.

During the discussion information reached the Board that the contract provided by Resolution No. 362 had been signed by His Honor, the Mayor.

Mr. Alexander Watchman, member of the local agency of the Housing Authority, in reply to further questioning by Supervisor Ratto, stated that there had been no change in the set-up since the approval by the Board of the Holly Park-Potrero projects. In reply to questioning by Supervisor Ratto as to why the approval of the Board had not been requested for other sites since that time, Mr. Watchman answered by explaining that through the activities of certain real estate operators, once a selection of a site had become known, options thereon were secured and attempts made to sell to the Housing Authority at a greatly increased, and exorbitant price, and for that reason it was impractical to make public the locations of sites contemplated. At present the Authority has a number of sites under consideration but whether or not they can be acquired, Mr. Watchman stated, he was not in a position to state. However, the purchase of Calvary Cemetery, to the best of his information, has not been concluded.

Supervisor Uhl stated that although Calvary Cemetery was not mentioned in the Resolution sought to be rescinded, nevertheless, Mr. Evers, of the Authority, had read to the Board a list of desired locations in which that site was included.

Following the reading of newspaper article of June 29, by Marshall Dill, Vice President of the local Authority, in which he expressed the opinion that the Authority had no desire to force on a locality a project against which there was strong disapproval, but would keep in mind the welfare of the city as a whole, Supervisor Uhl announced his intention as merely to request the Authority to forego further consideration of Calvary Cemetery and the site of the old Seals Stadium on Valencia, as sites for proposed Projects.

Thereupon, the Chair suggested the adoption of a resolution condemning the use of Calvary Cemetery as a site for a low cost housing project.

Supervisor Mead, following brief discussion on the motion to rescind action whereby Resolution No. 362 had been adopted, suggested the motion be withdrawn in order that a resolution along the lines as suggested by the Chair might be considered.

Communication from the Local Housing Authority.

Thereupon, the following communication from the Housing Authority of the City and County of San Francisco, expressing the aims of the Authority and the progress already made, was read by the Clerk:

Housing Authority of the
City and County of San Francisco
525 Market Street
San Francisco, California

July 5, 1939

The Honorable Board of Supervisors
City Hall
San Francisco, California
Gentlemen:

In view of the agitation now under way in organizations and publications concerning the use of the Calvary Cemetery site as a low rental housing project it would seem fitting that on behalf of the Housing Authority I attempt to express their attitude with regard to this site and give some explanation of the program in general.

The function and program of the San Francisco Housing Authority is to develop low rental housing projects for that portion of our population who could not otherwise afford safe, sanitary and adequate housing for themselves and their families. The tenants are definitely limited by selection to the low income group and must be living under substandard conditions.

Low rental housing is made possible by Federal enactment permitting the loan of money to local communities who wish to improve housing conditions for their low income families. The money for these loans is raised by bond issues which must be repaid from the income derived from rental of the projects and the United States Housing Authority provides for each project an annual subsidy which is used to keep the rental within the reach of the low income group.

The dwelling units are not for sale but are to be owned by the local Authority, in our case, the Housing Authority of the City and County of San Francisco, and the projects will be owned perpetually by them and be managed and operated by them.

One of the objects of the program is to eliminate housing not fit for human habitation. This is done by means of the regular channels legally provided for the Department of Public Health to compel demolition or reconstruction to legal standards and also, if possible, by clearing substandard housing areas and erecting housing projects on the land so cleared. Both methods eliminate slum conditions which do exist to a far greater extent than is generally known and for which no other cure has been found.

The housing projects will provide safe, sanitary, clean dwelling units for families of low income and while they will be minimum in their accommodations, they will have the maximum of light and air, sunshine and sanitation.

Surely it is a worthy movement which provides at reasonable cost houses for children who would otherwise be condemned to live in squalid, sordid and unhealthful surroundings and which will reduce the cost of hospitalization, control of crime, juvenile delinquency and fire hazards.

The program now contemplated in San Francisco is founded upon an earmarking of \$15,000,000 of loans from the United States Housing Authority and \$1,666,000 which will be raised by local bond issues to be sold to the public.

The bond issues will not increase the indebtedness of the City but will be the obligation of the San Francisco Housing Authority, secured by their projects.

Contrary to general misconception, the dwelling units will not be in the form of closely built apartment houses nor yet detached single

family dwellings. Dwelling units will be grouped into buildings of about ten units, mostly two stories in height and covering, in most cases, less than 30% of the ground area of the project. The balance of the grounds will be planted and maintained as gardens, streets, walks and playgrounds. They will be attractively designed by competent architects and landscape architects, insuring the maximum of attractiveness at a minimum of cost and continued upkeep is guaranteed by the fact that the Housing Authority itself is under obligation to maintain management standards for the entire life of the project. Some idea of the life of a project can be gleaned from the fact that the bonds run for 60 years.

The entire program, as now proposed in San Francisco, contemplates about eight such projects which must be placed at strategic points in the City where they will be suitably located for the persons for whom they are intended and not concentrated to oversupply any one portion of the City. These projects will not be institutions but will rather become a part of the neighborhood in which they are located. The tenants will be placed in projects most harmonious to them in all of their characteristics and in neighborhoods where they will be welcome.

Protests from property owners are most often based on misconceptions of what the projects really are. It is not the wish nor the function of the Housing Authority to force low rental housing on San Francisco nor yet to insist on any particular location if a reasoned and well-informed majority of public opinion is opposed to location on that particular site.

The program, if considered from no other basis, will afford many hundred thousand hours of employment for the building trades and will provide a large volume of work for our industries and business.

The Housing Authority at the present time is proceeding and has well under way a number of projects which will fully occupy their efforts for some time to come. All of these sites are under consideration except the three now definitely being acquired, namely Holly Park, Potrero and Sunnydale, which are approaching construction.

The best interests of San Francisco are certainly matters which must be considered and will be considered for all proposed sites.

The Housing Authority asks that your Honorable Board take no action adverse to low rental housing until ample time has been afforded to all interested parties to obtain correct information and to hear fully the case of those in such dire need of the help which low rental housing will afford.

Respectfully yours,

MARSHALL DILL, Chairman.

Motion Withdrawn.

Supervisor Uhl, with the consent of his second, Supervisor Schmidt, and pursuant to suggestion by Supervisor Mead, withdrew his motion for the rescinding of the action whereby Resolution No. 362 had been adopted.

Resolution Opposing the Use of Calvary Cemetery Site by the Housing Authority as the Site of a Low Cost Housing Project.

Supervisor Schmidt presented the following resolution:

(Series of 1939)

Resolution No., as follows:

Whereas, The Board of Supervisors of the City and County of San

Francisco has gone on record favoring the principle of slum clearance and the construction of low cost housing projects in order to properly house people included in the low income brackets, as well as giving work to our building trades unionists, and

Whereas, The Board has no objection to the use of the land in the so-called area of sub-standard buildings or cheaper unimproved lands in the outlying portions of our City, and

Whereas, There appears to be a vast number of San Francisco residents opposed to the use of the Calvary Cemetery site for the purpose of low cost housing development; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record as opposed to the use of the Calvary Cemetery site by the San Francisco Housing Authority as the site of a low cost housing project, and does hereby request said San Francisco Housing Authority and the United States Housing Authority not to select or approve said Calvary Cemetery site for a low cost housing site, and be it

Further Resolved, That a copy of this Resolution be forwarded to the San Francisco Housing Authority and to Nathan Straus of the United States Housing Authority as expressive of the sentiment of the people of the City and County of San Francisco.

Objection to Suspension of the Rules for the Purpose of Immediate Consideration of the Proposed Resolution.

Supervisor Colman objected to the suspension of the rules for the purpose of the immediate consideration of the proposed resolution, stating that he felt same should be heard in committee, stating that insofar as it has been developed that the site of the Calvary Cemetery has not been purchased, nor could any action be taken thereon for a considerable time, the resolution should be studied and no hurried action be taken thereon.

Supervisor McSheehy objected to suspension of the rules, stating he felt the Housing Authority should be given time to prepare its case in the matter if it wishes so to do. He further requested that the matter be referred to the Board, sitting as a Committee of the Whole, the Committee of the Whole to meet on July 10, 1939.

Roll Call on Suspension of the Rules.

At the request of Supervisor Colman, the roll was called on the motion for suspension of the rules for the purpose of immediate consideration of the proposed resolution, made by Supervisor Schmidt and seconded by Supervisor Uhl, and the motion was defeated by the following vote:

Ayes: Supervisors McGowan, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—7.

Noes: Supervisors Colman, McSheehy, Mead—3.

Absent: Supervisor Brown—1.

Thereupon, the Chair referred the proposed resolution to the Public Buildings, Lands and City Planning Committee.

Committee Recommendation.

Supervisor Uhl, Chairman, after brief consultation with Supervisor Schmidt, member of the Committee on Public Buildings, Lands and City Planning, and with the consent of Supervisor McGowan, also member of the Committee, announced the committee was reporting the resolution to the Board, with its favorable recommendation.

The Chair, thereupon, announced the matter to be before the Board.

Committee of the Whole Convenes.

Supervisor Uhl, seconded by Supervisor Schmidt, moved that the Board resolve itself into a Committee of the Whole:

Motion carried by the following vote:

Ayes: Supervisors McGowan, McSheehy, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—8.

No: Supervisor Colman—1.

Absent: Supervisors Brown, Mead—2.

President Shannon to Preside as Chairman of Committee.

Supervisor Uhl moved that President Shannon preside as Chairman of the Committee of the Whole.

No objection and so ordered.

Limitation of Time for Discussion.

On motion duly made, time for discussion was limited to thirty minutes for proponents and thirty minutes for opponents of the proposed resolution. The time, however, was subsequently increased ten minutes for each side of the controversy.

Privilege of the Floor.

The privilege of the floor was granted to the following:

Proponents.

Mr. Wesley McKenzie, Chairman of a Citizens' Committee to oppose present plans of the City Housing Commission; Mr. Joseph A. Brown, Attorney for Apartment House Industries of San Francisco and for Divisadero Street Merchants and Improvement Association; Mr. Eugene Fritz, representing Apartment House Association of San Francisco; Mr. Charles Christin, representing Owners and Lessees Apartment House Association, Apartment House Owners Council and taxpayers; Mr. Heyman, representing himself and Home Builders Association; E. J. Carroll, representing Owners and Lessees Apartment House Association; Mrs. Annie Scanlon, representing Women's Civic Center; Mrs. Rankin, representing herself; Mr. R. J. O'Rourke, President of San Francisco Property Owners' League; Mr. George Baker, representing Citizens Voters Unity Council, were heard, urging the adoption of the proposed resolution.

Opponents.

Mr. Alexander Watchman, speaking as President of Building Trades Council; Mr. Wattles, representing himself as a carpenter; Mr. James E. Ricketts, representing the San Francisco Building Trades Council; Mr. Arthur C. Nelson, representing the Carpenters Union; Mrs. Audrienne Laurier Stroman, representing San Francisco Housing Council; Mr. Herman Stuyvelaar, of the San Francisco Industrial Council; Mr. W. D. Coglein, for the Associated General Contractors; Mr. Wesley Peoples, representing himself; Mr. Herbert Nugent, representing Workers' Alliance; and Mr. Wilfred Wilson, representing Civil Rights Council, opposed the adoption of the resolution under discussion.

Explanations of Votes.

Supervisor McGowan, in explanation of his vote, stated he believed the matter under discussion should be given deep and serious consideration. He expressed his firm belief in equality and his objec-

tion to class legislation, which he considered the proposed resolution to be. For that reason, he stated, and having heard both sides of the discussion, he was ready to vote "No" on the resolution.

Supervisor Roncovieri, in explaining his views on the proposed matter, stated that he, too, had given very careful consideration to all that had been said. Seventeen thousand five hundred dollars, he reminded the Board, was proposed to be spent per acre for the land in the Catholic cemetery. With that same amount of money, the Board had been told, the Housing Commission could get four times as much land, and that, he considered, was a matter for serious economic consideration. The more land that could be purchased for the money available, the more buildings could be erected, and more labor employed, and consequently the more good could be done for the poor people whom the Board is striving to help. Decent living doesn't consist in living on such expensive land. "I am sure," continued Supervisor Roncovieri, "that the Authority did not pay \$17,500 for land in Holly Park. If that type of land is good enough for the Holly Park buildings why is not the same type of land in other places, that costs less money, equally good to low cost buildings?" Supervisor Roncovieri stated further that he was the first to bring back from Washington, and to call to the attention of the Board, the matter of low cost housing, following which the Board did everything the law required. He appeared at Sacramento to press enabling legislation, and did everything possible to further construction of low cost dwellings, to which no one objected. Now, continued Supervisor Roncovieri, the Authority should make the money available go as far as possible, and he criticized the Authority for wanting to spend \$17,500 per acre for land, when, he felt, they could purchase several times as much land for that amount. By so doing, the Authority is depriving our under privileged people of low cost housing by wasting its money on too high priced land. The same type of buildings as are proposed for the Calvary Cemetery site could be erected on much cheaper land.

Supervisor Roncovieri called attention, also, to the fact that the Authority is not demolishing any slums, but is putting up buildings in other places. The slums should be cleaned out and fine new building erected in their place. That was his idea, and it was the idea of the proponents of the Federal Act. He was, therefore, he stated, ready to vote "Yes" on the resolution, because he conscientiously believed it to be the right thing to do, and that he was heartily in favor of the continued development of low cost housing for the under privileged. His objection applied merely to this particular site, as too expensive, thus depriving the poor of more buildings which could be erected by the excess money.

Supervisor Colman, in explaining his views, stated that certainly it is mighty inspiring that we have a form of government that allows a free and open discussion. However, there were two points that, in his opinion, could not be denied, although opposite statements were made, namely, there are thousands of sub-standard dwellings in San Francisco, call them slums or call them what you will, that are below the proper standard for Americans to live in; Also, there is no possible way to correct this condition by private investment. It is economically impossible. Therefore, the only way it can be corrected is by taking advantage of this offer of the federal government. It is not a new story at all, but throughout the whole country for more than 100 years, sub-standard dwellings have been the object of one survey after another, but for economic reasons, and because the government did not show an interest in it through all these years, nothing has been done and the need is more crying today than ever before. Continuing, Supervisor Colman expressed the greatest respect for the citizens protesting the proposed program, for which they had a perfect right, and he considered a great deal had been accomplished

by their protests. He felt that in view thereof, the Housing Authority would not act further regarding Calvary Cemetery without very careful thought. However, regardless of the act of the Authority, the Board had not relinquished its control over the Calvary Cemetery project, for before the proposed plans could be consummated, the Authority would be obliged to apply to the City Planning Commission for rezoning the property to permit Second Residential uses, following which, an appeal from the Planning Commission's decision, whatever it might be, could be heard by the Board of Supervisors. Supervisor Colman further stated that he did not want to see the selection of sites in the hands of the Board of Supervisors, because the Supervisors were not experts in such matters, nor did they have the machinery to set up rules to guide them intelligently. He felt it well that the selection of proposed sites for projects had remained with the Authority, and if, in this case, an error had been made by the Authority, that error has been called to its attention most emphatically. Supervisor Colman called attention to sentiments expressed, stating that many are in favor of low cost housing—but. He was, he declared, in favor of low cost housing—no buts. In closing, Supervisor Colman called attention to the reduction of crime and disease as the result of elimination of slum conditions. He expressed himself, also, as disliking to disagree with such a substantial group of citizens, but felt that they would be very well pleased with the results of the low cost housing program. For these reasons, Supervisor Colman stated, he intended to vote "No" on the proposed resolution.

Supervisor Mead, before explaining his vote, stated that it had been pointed out that the Calvary Cemetery site could be purchased for 40 cents per square foot, a statement which was confirmed by both Mr. Watchman and Mr. Evers, of the Housing Authority. Other proposed sites, it was stated, would cost from \$2.50 to \$3 per square foot.

Thereupon, Supervisor Mead, in explanation of his vote, stated that he had always been utterly opposed to class legislation, which he believed the proposed resolution to be. At no time, now or in the future, would he vote for class legislation. For that reason he would vote against the proposed resolution.

Supervisor McSheehy, in discussing the proposed legislation, and in explanation of his vote cited that some \$800,000,000 had been appropriated for slum clearance and low cost housing for the underprivileged, of which amount \$15,000,000 had been allocated to San Francisco. The total amount appropriated would amount to about \$6.15 per person for each of the 130,000,000 of our population. San Francisco's allocation, based on a population of 750,000, would, therefore, be \$4,305,000, but to date we have \$6,300,000, way over the allotment to which we are entitled. He expressed fear that if this proposed resolution were adopted and sent to Washington the outcome would be the cancellation of the additional \$9,300,000 which had tentatively been allotted to us. We do, he continued, have slums here, and we should take care of the fellow who is not so fortunate as we are. Therefore, he would vote against the proposed resolution.

Supervisor Roncovieri, in explaining his views, announced that he was not opposing slum clearance at all, but there had been mentioned many sites on which projects could be located, sufficient in area to provide for all the units possible with the funds allocated to San Francisco. In addition thereto, on statements made by the advocates of the removal of the cemeteries that the cemetery sites would be used for the building of high class homes, he was absolutely opposed to the use of Calvary Cemetery by the Housing Authority for one of its projects. It would, he considered, be breaking faith with the people of the district. For that reason he would vote "Yes" on the resolution.

In discussing further the use of Calvary Cemetery as the site of a

low cost housing project, Supervisor Roncovieri remarked that it was a mystery to him, why labor did not see that the contemplated high class development of that site would give some \$7,000,000 to \$10,000,000 of new construction work to labor and in addition thereto, there would still be the \$15,000,000 of Federal money to spend elsewhere for low cost housing.

In reply to the foregoing statement, Mr. Watchman stated that he had pointed out that the proposed resolution constituted class legislation; he was not discussing financing, but with him, it was a question of class legislation.

Mr. Nelson, who had previously opposed the resolution, stated that the Calvary site would be a home district but in the so-called blighted areas would arise some of the greatest, finest apartment houses ever seen in San Francisco. Those areas would be developed by speculators.

Mr. Wattles, pursuant to remarks by Supervisor Roncovieri, stated that labor would not receive from \$7,000,000 to \$10,000,000 of work, as suggested, and then have \$15,000,000 elsewhere. It is proposed, he insisted, to take up each of these projects, one at a time, as they are proposed, and defeat them.

Thereupon, Supervisor Roncovieri replied emphatically that he was still unanswered.

Supervisor Schmidt, in closing, urged against being ruled by passion. The Board, he stated, had gone on record as favoring a number of slum clearance projects, and the proposed projects, with the exception of Hayes Valley, would not rid the city of any slums or substandard dwellings. He denied allegations that an attempt was being made to sabotage a worthwhile humanitarian project, but that the city should first get rid of some of these old buildings which the Authority is not getting rid of. The people of San Francisco would still be saddled with this cemetery were it not for the fact that the people immediately west and east fought hard and gave moral support to members of this Board in getting rid of the cemeteries. We would not be keeping faith with the people here if we did not oppose this particular proposition.

Committee of the Whole Arises.

Thereupon, Supervisor Schmidt, seconded by Supervisor Colman, moved that the Committee of the Whole rise and report to the Board. No objection.

Amendment to Resolution.

Before the roll was called on the proposed Resolution, at the request of Mr. James E. Ricketts, representing the San Francisco Building Trades Council, and no objection being made thereto, the resolution was amended by striking out the word "unionists," in the last line of the first "Whereas," and inserting in lieu therefor, the words "mechanics and labor."

Refused Adoption.

Whereupon, the roll was called and the proposed resolution amended to read as follows, was refused adoption by the following vote:

The following communication from the Assessor was presented and read by the Clerk:

San Francisco, California, July 5, 1939.

Honorable Board of Supervisors, City and County of San Francisco,
City Hall.

Gentlemen:

This day, Wednesday, July 5 (the first Monday and Tuesday, July 3 and 4, being holidays) there has been delivered into the custody of the Clerk of your Board, forty-four (44) volumes (together with indexes for same) representing the 1939 Assessment Roll covering the taxable land and the taxable buildings in the City and County of San Francisco.

Very truly yours,

Meeting of Board of Equalization

On motion duly made and seconded, the Board agreed to meet on Tuesday, July 11, at 10:00 A. M. to consider applications for corrections or reductions of assessments for the fiscal year 1939-1940.

San Francisco Sheriff's Posse at the Exposition

Supervisor Colman called attention to the Horse Show at the Exposition, at which is appearing San Francisco Sheriff's Posse, composed of about 21 San Franciscans. Supervisor Colman called special attention to the very colorful and clever drill, and the favorable publicity accruing to San Francisco therefrom, and requested that the attention of the Chief Administrative Officer be directed thereto. An enterprise of this sort, concluded Supervisor Colman, is entitled to financial support by the City from its Publicity and Advertising fund.

Supervisor Ratto, in reply, stated that the Sheriff's Posse was receiving very favorable publicity because of its display at the Exposition. He remarked further that the Posse had been invited to attend the Oregon State Fair, at Salem, in September, all expenses paid, and called attention to the publicity San Francisco would receive therefrom, and at no cost to the city.

Commendations to Supervisor Mead

Supervisor McSheehy extended congratulations and commendations to Supervisor Mead, Chairman of the Citizens Committee for the observance of Independence Day, for the successful conduct of the Day's activities at Treasure Island on Tuesday, July 4, 1939.

Raker Act Amendment

The following telegram, with reference to the proposed amendment of the Raker Act, received after adjournment of the Board at its meeting of June 26, 1939, was read by the Clerk:

Washington, D. C., June 26, 1939, 4:00 p. m.

David Barry, Clerk, Board of Supervisors, City Hall.

We conferred today with Chairman Derouen of House Public Lands Committee, Representative Harvey Englebright, ranking Republican member, and other members of that committee with reference to hearing on amendment to Raker Act at this session of Congress. Stop. Chairman Derouen immediately conferred with Majority Leader Saburn, who informed him that it was the aim of majority party leaders to conclude the work of this session of Congress within the next thirty days. Stop.

When bill is introduced and sent to committee, it will be referred to the Department of the Interior for a report, and reports will also be requested from the Department of Justice, the Bureau of the

Budget and the National Planning Board. Stop. This is the regular committee procedure. Stop. Chairman Derouen informed us that he is definitely committed to policy of clearing his committee calendar, which contains about thirty bills that have been awaiting final committee action for some time, before the end of the present session, and that he cannot promise hearing on amendment to Raker Act until these bills are disposed of by his committee. Stop. *He expressed very definite opinion that it would be impossible to hold hearings on Raker Act Amendment at this session of Congress, but assured us that his committee would give prompt hearing to representatives of San Francisco when Congress convenes again next January.* Stop.

Letter from Chairman Derouen to this effect will follow. Stop. *We suggest that amendment be forwarded to Washington for introduction as soon as it has been prepared and approved by Board of Supervisors.* This will assure completion of departmental reports referred to above so that hearings may be started promptly in January.

Communication from Senator Hiram W. Johnson

The following communication from Senator Hiram W. Johnson was read by the Clerk:

United States Senate, July 3, 1939.

Mr. David A. Barry,
Clerk, Board of Supervisors,
Room 235, City Hall,
San Francisco, California.
My dear Mr. Barry:

I received yours of June 27 requesting me to offer a Bill amending the Raker Act by striking out the words "or the electric energy" in Section 6 of said Act. I would be very glad if you would inform the Board of Supervisors, because I take it that this is the wish of the governing body of the City of San Francisco. I will present the Bill at the earliest possible date, which will be probably July 5. Your letter was not received by my office in time for the presentation of the Bill before this present recess, which expires July 4.

Because the Board of Supervisors desire a hearing before the appropriate committee I will endeavor to obtain it, but it is so late in the session now that I doubt if this can be done. I think the Board ought to be advised that the lateness of the presentation of this Bill will make it well-nigh impossible, if it encounters the opposition that can be foreseen, to obtain action upon it at this session of Congress.

Sincerely yours,

HIRAM W. JOHNSON.

Communication from Representative Richard J. Welch

Congress of the United States

Greetings to Supervisor Ratto on His Return to the Board, Following His Recent Illness.

Supervisor Colman extended greetings to Supervisor Ratto on his return to the Board after several weeks' illness. The Board concurred with his remarks.

In reply thereto, Supervisor Ratto stated that he wished to have inserted in the records that the first Board meeting he had missed in his five and a half years as a Supervisor was on May 29, 1939. This was due to illness which necessitated hospitalization. He also desired the record to show that he had always answered roll call on time and at no time had he ever evaded voting on any issue that came before the Board of Supervisors, regardless of how controversial it was.

There being no further business, the Board, at the hour of 7:17 P. M., adjourned.

SPECIAL ORDER—2:30 P. M.

Consideration Postponed

Consideration of the following matter presented by the Fire, Safety and Police Committee without recommendation, *was postponed* to July 17, at 2:30 P. M.

An Ordinance Providing for the Inspection and Regulation of Paint and Lacquer Spraying Shops.

(Series of 1939)

Bill No. _____, Ordinance No. _____, as follows:

Providing for the inspection and regulation of paint and lacquer spraying shops in the City and County of San Francisco; defining certain terms used in this ordinance; authorizing the Chief of the Division of Fire Prevention and Investigation of the Fire Department of the City and County of San Francisco to adopt, promulgate, and enforce rules and regulations governing such inspection; providing for the issuance of permits by the Chief of the Division of Fire Prevention and Investigation, subject to the prior approval of the City Planning Commission, the Chief of the Department of Electricity, and the Director of Public Health, to conduct such paint and lacquer spraying shop; providing for the payment and collection of fees to defray the cost of such inspection; repealing conflicting ordinances; and providing penalties for the violation of this ordinance.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. As used in this ordinance, the following words shall have the following respective meanings:

"Paint shop" shall mean a shop where the spraying of paint or lacquer materials is permanently established on the premises.

"Spray room" shall mean a room or booth or any division of a paint shop separated from the remainder of the paint shop by fire-

resistant materials approved by the Division of Fire Prevention and Investigation.

"Storage room" shall mean any room or compartment in a paint shop wherein any paint or lacquer materials of a combustible nature are regularly stored or kept.

"Mixing bench" shall mean a bench or table in a paint shop whereupon paint or lacquer materials are mixed, combined or prepared for application.

Section 2. The Chief is hereby authorized to adopt, promulgate, and enforce such rules and regulations relative to paint shops as will enable the Division of Fire Prevention and Investigation to enforce and carry out the meaning and intent of this ordinance.

Section 3. (a) No paint shop shall hereafter, from the date of passage of this ordinance, be established in any building other than a Class "A", "B", "C" or mill-constructed building as defined by the building ordinances of the City and County of San Francisco. If hereafter established in a building of Class "C" or mill construction, the ceiling shall be of not less than three-quarters ($\frac{3}{4}$) inch plaster on metal lath, and the floor shall be of cement at least two (2) inches thick, or other approved fire resistive material.

(b) No paint shop shall hereafter be established in any building which is used or occupied in whole or in part as a residence, dwelling, hotel, or apartment house, as defined by the California State Housing Act; or as a hospital, theater, or place of public assemblage. "Paint shop", as defined in this ordinance, shall not apply to any building or structure, or any portion thereof, in the course of construction, alteration or repair. *Provided, however, that nothing in this section contained shall prevent the owner or occupant of any hotel or apartment house from spraying furniture, under such regulations as may be provided by the Chief when said furniture is actually used in said hotel or apartment house.*

(d) All windows in paint shops hereafter established shall be of wire glass in metal frames and sash or wooden frame and sash covered with metal, except windows facing a street or public space. The glazing of skylights shall be as approved by the Division of Fire Prevention and Investigation.

(e) Every paint shop shall have the following accommodations conveniently located to the paint shop for employees: toilet, running water for drinking purposes, and general sanitary conditions that meet the requirements of the Department of Public Health.

(f) No spraying of paint or lacquer materials shall be conducted within a paint shop except in a spray room; provided, however, the Chief may at his discretion issue a written permit to the owner or operator of a paint shop to do minor spraying within said paint shop

outside of said spray room. Said permit shall be revocable at the discretion of the Chief without the necessity of a public hearing.

(g) No open flame or spark-emitting device of any kind shall be permitted to be used in any storage room or spray room or paint shop, or in close proximity to any spraying operation. Only indirect heating systems, approved by the City and County of San Francisco, shall be used for heating purposes.

(h) Every spray room shall be equipped with fans capable of changing the air in such spray room every six (6) minutes. The number of fans, inlet and exhaust ducts required, and the location of same, shall be determined jointly by the Division of Fire Prevention and Investigation and the Department of Public Health.

(i) The construction and design of all fans and the installation of all electrical devices and appliances in paint shops and spray rooms shall be approved by the Department of Electricity.

(j) The spraying of paint or lacquer materials shall not be conducted unless the fan or fans are in operation; and said fan or fans shall continue to remain in operation until the conclusion of such spraying.

(k) The amount of paint or lacquer material stored or kept, and the manner of its storage in a spray room or storage room, shall be prescribed and approved by the Division of Fire Prevention and Investigation.

(l) A mixing bench shall be permitted in each spray room, provided that such bench shall have a working surface covered with sheet zinc or nonsparking or absorbing material. A limited amount of paint and lacquer material shall be permitted to remain on such bench for the purpose of mixing or the matching of color. Such bench shall be kept clean and free from accumulated drippings, waste paint, or lacquer. Tightly fitting metal covers shall be provided for all containers.

(m) Metal waste cans with self-closing covers shall be provided, not less than one (1) for each spray room, to accommodate rags and other waste.

(n) Signs containing the words "SMOKING STRICTLY PROHIBITED" in black letters not less than three (3) inches in height upon a white background shall be conspicuously displayed in storage and spray room.

(o) Each paint shop shall be equipped with fire extinguishers of such number and kind, and so located, as shall be determined by the Division of Fire Prevention and Investigation; but in no case shall there be less than two (2) of said fire extinguishers. At least one (1) barrel of clean dry sand containing a scoop, or at least four (4) metal buckets of clean dry sand, shall be kept on the premises at all times.

(p) Every sprayman or painter shall be provided with a mask while spraying, which mask shall be of a type approved by the Department of Public Health.

Section 4. Every spray room and storage room shall be kept free from all unnecessary combustible materials. The use of sawdust for absorbing waste material or for cleaning of floors is strictly prohibited.

Section 5. Whenever any paint or lacquer material is to be sprayed or applied to a motor vehicle, or parts thereof, the battery of said motor vehicle shall be disconnected and shall remain disconnected until such time as the room has been cleared of vapor.

Section 6. It shall be unlawful for any person to conduct, operate or maintain a paint shop as defined in this ordinance of the City and County of San Francisco without first obtaining a permit so to do as set forth in this ordinance.

Section 7. Every person desiring to establish, conduct, or operate

a paint shop in the City and County of San Francisco, shall make application for a permit so to do to the Division of Fire Prevention and Investigation on forms provided by the Division of Fire Prevention and Investigation, and shall pay to the Division of Fire Prevention and Investigation a fee of \$..... in advance to cover the cost to the City and County of San Francisco of the necessary investigations provided for in this ordinance prior to the approval or disapproval of said application.

Any person engaged in the business of conducting or operating a paint shop in the City and County of San Francisco prior to the enforcement date of this ordinance, and who desires to continue the conducting or operation of said paint shop, shall make application for a permit so to do as hereinabove provided within thirty (30) days subsequent to the effective date of this ordinance and shall pay the fee as set forth above.

This fee shall be in addition to any and all fees required to be paid by any ordinance or ordinances of the City and County of San Francisco for the erection or alteration of any such paint shop or the installation of any equipment therein.

An application for a paint shop permit shall be acted upon within ten (10) days after the filing of such application and the fee collected shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn.

Section 8. Upon receipt of said application provided for in the preceding section, the Chief shall cause to be investigated the facts as set forth in the application and the premises for which the permit is requested. The Chief shall cause to be forwarded copies of said application to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity for investigation by their respective departments as to whether the ordinances, rules, and regulations of the City and County of San Francisco, pertaining to their departments, are complied with. The City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity shall after such investigation either approve or disapprove such application and return same within seven (7) days after receipt with such endorsement thereon to the Division of Fire Prevention and Investigation. If the application is disapproved the reason or reasons for such disapproval shall be stated.

In the event that the application for a paint shop permit is disapproved, the Chief shall give the reason for such disapproval. Upon receiving such written notice from the Chief, such person shall have the opportunity of correcting such conditions in and about the premises wherein the paint shop is located and the equipment used therein as have been decided hazardous. This work shall be completed within thirty (30) days after receipt of such written notice, and if said conditions have been corrected to the satisfaction of the departments involved said permit may be issued.

Section 9. The Chief may issue a permit to said applicant, subject to the above approval of the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity as above provided, which permit shall be serially numbered and shall expire on of the current fiscal year; or, in the exercise of sound discretion, he may deny said permit.

The Chief shall cause to be forwarded to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of his granting or denial of the permit.

Section 10. When any permit is issued under the provisions of this

ordinance, the Chief shall cause said permit to be forwarded to the office of the Tax Collector for delivery to the permittee upon the payment of an annual license fee of \$..... in advance to defray the cost to the City and County of San Francisco of the necessary inspection and regulation as provided for in this ordinance.

The Tax Collector shall issue a license for each paint shop for which the fee was paid, showing thereon: (a) Name and address of the permittee. (b) Address of the paint shop. (c) Number of the permit. (d) Expiration date of the license, which date shall be the expiration date of the permit.

Any person establishing, conducting or operating a paint shop subsequent to of any year shall pay one-half of the annual fee provided for that fiscal year.

Section 11. The permit and license herein provided shall not be transferable. If the paint shop is discontinued no refund shall be made.

Section 12. Application for renewal of a permit shall be made in the same manner as provided for the original application for a permit, and shall be made within thirty (30) days prior to the expiration of the current permit and shall be accompanied by a fee of \$....., which fee shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn. The same procedure as set forth in Section 8 of this ordinance shall be followed.

Section 13. After written notice to the permittee and after due and proper hearing the Chief shall have the power to revoke or suspend any permit issued under the provisions of this ordinance for violation by the permittee, or by any of the permittee's servants, agents, or employees, or any of the provisions of this ordinance, or when the Chief shall determine that the permittee in the use thereof is violating or attempting to violate any ordinance, rule or regulation of the City and County of San Francisco or any department thereof; or if in the opinion of the Chief it is deemed necessary for the protection of the public.

The Chief shall cause to be forwarded to the Tax Collector, the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of any revocation, suspension, or reinstatement of any permit herein provided for.

Section 14. Every permit and license issued under the provisions of this ordinance shall be plainly posted in a conspicuous place for the public to see, on the premises for which the permit and license was issued.

Section 15. It shall be the duty of the Chief to ascertain that all of the provisions of this ordinance and any ordinances, rules or regulations of the City and County of San Francisco or any department thereof pertaining to paint shops and the equipment used therein are strictly complied with, and for that purpose the inspectors or representatives of the Division of Fire Prevention and Inspection, the Department of Public Health, and the Department of Electricity shall have access to any paint shop at any reasonable hour.

Section 16. Every person paying the fees provided for in this ordinance shall be exempt from the provisions of Ordinance No. 5132 (N. S.), Section 75, in so far as paint spraying shops are concerned, any and all ordinances, or parts thereof, in conflict with the provisions of this ordinance are hereby repealed but only to such extent as conflict may exist.

SPECIAL ORDER—2:30 P. M.**Notice of Reconsideration****Opposing the Use of Calvary Cemetery Site by the Housing Authority as the Site of a Low Cost Housing Project**

(Series of 1939)

Resolution No., as follows:

Whereas, The Board of Supervisors of the City and County of San Francisco has gone on record favoring the principles of slum clearance and the construction of low cost housing projects in order to properly house people included in the low income brackets, as well as giving work to our building trades mechanics and laborers, and

Whereas, The Board has no objection to the use of the land in the so-called area of sub-standard buildings or cheaper unimproved lands in the outlying portions of our City, and

Whereas, There appears to be a vast number of San Francisco residents opposed to the use of the Calvary Cemetery site for the purpose of low cost housing development; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record as opposed to the use of the Calvary Cemetery site by the San Francisco Housing Authority as the site of a low cost housing project, and does hereby request said San Francisco Housing Authority and the United States Housing Authority not to select or approve said Calvary Cemetery site for a low cost housing site, and be it

Further Resolved, That a copy of this Resolution be forwarded to the San Francisco Housing Authority and to Nathan Straus of the United States Housing Authority as expressive of the sentiment of the people of the City and County of San Francisco.

Ayes: Supervisors Ratto, Roncovieri, Schmidt, Shannon, Uhl—5.

Noes: Supervisors Colman, McGowan, McSheehy, Mead, Meyer—5.

Absent: Supervisor Brown—1.

Before the result of the foregoing vote was announced, Supervisor Uhl changed his vote from "Aye" to "No" and gave notice that he would move for reconsideration at the next meeting of the Board, at 2:30 P.M.

The vote then stood:

Ayes: Supervisors Ratto, Roncovieri, Schmidt, Shannon—4.

Noes: Supervisors Colman, McGowan, McSheehy, Mead, Meyer, Uhl—6.

Absent: Supervisor Brown—1.

Motion to Reconsider

Supervisor Uhl, seconded by Supervisor Schmidt, moved, pursuant to notice given at the meeting of July 5, 1939, that the vote whereby the foregoing resolution was refused adoption, be reconsidered.

In explaining the reasons for his motion, Supervisor Uhl stated he was not objecting to low cost housing. His objection was to spending \$17,500 per acre for land when land could be purchased for about \$2,500. Using Calvary Cemetery for a low cost housing project would have the effect of keeping from the assessment roll about \$684,000 for real estate and \$1,800,000 for improvements.

Privilege of the Floor

On motion by Supervisor Colman, seconded by Supervisor Mead, the privilege of the floor was granted to all citizens who desired to discuss the motion, the proponents of reconsideration to be heard first; then the opponents. A limit of ten minutes for each speaker was agreed to.

Proponents

Mr. Wesley McKenzie, representing the Central Council of Civic Clubs and Committee Opposed to Calvary Cemetery for Slum Clearing Housing Project; Mr. Harry A. Barbor, speaking as a citizen; Mr. Hugh McKevitt, Attorney, representing Apartment House Owners Association; Mr. James A. Brown, Attorney, representing Apartment House Owners Association; Mr. C. A. Christin, representing himself as a taxpayer, and Apartment House Owners and Lessees Association, addressed the Board, urging reconsideration. Subsequently during the proceedings, additional time having been allotted both sides, Mr. E. J. Carroll, representing the Apartment House Owners and Lessees, and Mr. Leonard Blackmers, representing Apartment Owners Council of San Francisco, urged reconsideration.

Opponents

Mr. Alexander Watchman, President of San Francisco Building Trades Council and member of the Housing Authority of San Francisco, presented Mr. John Spaulding, who called on and presented the opponents to the proposed reconsideration. Dr. Langley Porter, Dean of the Medical School of the University of California; Mr. Marshall Dill, President of San Francisco Chamber of Commerce and President of San Francisco Housing Authority; Mr. David A. Ryan, Secretary of Bay District Council of Carpenters; Mr. John F. Shelly, State Senator and President of San Francisco Labor Council; Miss Elizabeth Ashe, representing Telegraph Hill Neighborhood Association; Mr. Kenneth Pinney, President Commercial Producers Club of San Francisco; Mr. Marvin E. Lewis, Attorney and an apartment house owner; Mr. James E. Ricketts, representing San Francisco Building Trades Council; Miss Sarah Jenkins, speaking for the Negro Women's Housing Council; Mrs. John Elsasser, President of San Francisco League of Women Shoppers; Mrs. Marian Schultz, of the Divisadero Housing Club; Mr. James H. Mitchell, President Northern California Chapter of the American Institute of Architects; Mr. Paul Pinsky, representing the C. I. O. opposed the motion for reconsideration.

Communications Received

As a matter of record it is here noted that upwards of 400 post-cards and eight other communications, approving the use of Calvary Cemetery site for a low cost housing project, and endorsing in its entirety the low cost housing program.

Twenty-eight communications were received, in protest to the con-

templated use of Calvary Cemetery site for a low cost housing project, and in some cases, opposing the entire low cost housing program.

Thirty-eight clippings from the Apartment Industry News and district papers, protesting the use of Calvary Cemetery site for a low cost housing project were also received.

Matter in Hands of the Board

On motion duly made and carried, all citizens having been heard, the matter was taken into the hands of the Board.

Discussion

Supervisor Colman, in discussing the motion for reconsideration, and in explanation of his views on low cost housing and his intended vote on the motion, stated that the Board of Supervisors had nothing to do with the selection of the sites for the various projects, and any protests thereto should, of course, go to the Housing Authority. He repeated the statement previously expressed that the Board had not relinquished control over Calvary Cemetery, again reminding the Board that before the proposed plans could be consummated, rezoning of the property from First Residential to Second Residential classification must be effected; opportunity for the airing of views before the City Planning Commission would be afforded, as well as the right of appeal to the Board of Supervisors from any decision of the City Planning Commission in the matter of rezoning. Reconsideration as requested, and adoption of the resolution under consideration, Supervisor Colman pointed out, would have no effect beyond expressing the views of the majority of the members of the Board. The entire matter would still rest, where it belongs, in the hands of the Authority, and it is before the Authority that the people should go with their protests. The Authority, he was confident, in accordance with the statement of its president, Mr. Marshall Dill, would be guided by the reasoned and well-informed majority of public opinion, and would do nothing not in the best interest of the city. In support of his views, Supervisor Colman read excerpts from an editorial in the San Francisco News, July 8, 1939, entitled "Don't Jump the Gun," and from the column of the same paper, also on July 8, 1939, "Behind the News" written by Arthur Caylor.

Supervisor Colman commented on an estimated tax loss of from \$26,000 to \$40,000 to be expected by the withholding of the Calvary Cemetery site from the Assessment Rolls, should it be approved as a site for low cost housing, and compared that loss in taxes with the far greater cost to San Francisco for the cure of disease and the restraining of crime, much of which is directly attributable to disease and crime breeding environment of slums and sub-standard dwelling conditions.

Supervisor Colman reasserted his previously stated conviction that it is an economic impossibility for private capital to build low rental dwellings which the low salaried groups of our citizens would be able to rent. Such a program as proposed must either be done by government subsidy or not done at all. Eradication of slums and improvement of housing conditions for the under privileged group of people is not a new thing. For over one hundred years, sub-standard dwellings have been one of the curses of our country, and yet nothing has ever been done about it. Now we have a real opportunity to meet the problem in an intelligent manner, at a comparatively low cost. He again called attention to sentiments expressed as "I am for low cost housing, but—" and reaffirmed his views by saying, "I am for low cost housing, no buts."

Supervisor Roncovieri, in explaining his views on the matter under consideration, said:

A number of speakers have taken the floor today, including my good

friend Mr. Colman, and made beautiful talks on the necessity of low cost housing. I heartily agree with all the arguments made in favor of low cost housing. I, too, want low cost housing, and at the same time provide a saving of \$700,000 that will go into the pockets of our mechanics for additional building construction. I take it that the expenditure of \$830,000 for an area of land which can be bought in some other equally good location for less than \$100,000 is squandering the people's money and depriving labor of over \$700,000. I want the difference between the \$830,000 that is proposed to be spent for Calvary Cemetery and \$100,000 for the same area of land elsewhere, a difference of \$730,000 to go into the pockets of our working men. Besides, this \$730,000 saved on the land will build approximately two hundred more family units for the poor people who need them most, and that, after all, is the true basis of low cost housing. Common sense tells us—get that well in your heads—that if you spend most of your money for expensive pieces of land you will have little left to spend for building construction, and labor will suffer the loss. Do you want to spend large sums of money for expensive pieces of land, or do you want to erect buildings for our underprivileged fellow citizens? That, to me, is all there is to the story, and it is my well-considered opinion that the Housing Authority should appropriate as much of its money as possible to erect buildings to properly house those of our citizens who need them most. I want it known that I have voted in favor of low cost housing from the beginning. I voted for every resolution and ordinance that created the Housing Authority, and I shall continue to fight for low cost housing to the very end. I sincerely believe in this great humanitarian movement. But I think it is wrong to spend \$830,000 for an area of land that can be bought elsewhere for less than \$100,000, thus depriving labor of over \$700,000 and also depriving our underprivileged citizens of over two hundred buildings of habitation. If the Housing Authority spends \$830,000 for an area of land, the equal of which can be purchased for \$100,000, it is wasting \$700,000 that should go into the pockets of labor, and in my opinion, is making a serious mistake. I cannot find it in my judgment to support such a waste of money. In spite of the fact that some labor leaders are opposing this resolution, I feel that it should be adopted. In voting for it I can still hold my head high, knowing that it is for the benefit of labor. In all good conscience I am going to vote for this resolution because I sincerely believe it will provide hundreds of construction jobs and put \$700,000 into the pockets of labor, and provide in addition some two hundred decent living units for our under-privileged citizens.

Supervisor McSheehy, in explaining his views on the motion for reconsideration, and on the entire subject matter under discussion, reminded the Board that it was Supervisor Roncovieri and he who represented the city at the Conference of Mayors in Washington, at which time they heard the report made by Mr. Nathan Straus. He reviewed his statement made at the previous meeting as to the allocation of funds already made for San Francisco, which, at the average nation wide rate per person of \$6.15 would allow but \$4,305,000 for San Francisco. San Francisco's allotment to date, amounting to \$6,300,000 was way over that to which we were entitled, on the basis of a population of 750,000, and he feared that if this resolution under consideration were adopted and a copy sent to Mr. Straus, in Washington, the balance of the funds earmarked for San Francisco, \$9,300,000 might be cancelled and reallocated to other communities.

Supervisor McSheehy expressed opposition to refusing the opportunity for people to live in any section of the city, and he objected, as well, to saddle the proposed low cost housing units all in any one section of the city.

In further opposition to reconsideration, Supervisor McSheehy stated he felt the Housing Authority would not be treated fairly should the

proposed reconsideration be had and the resolution adopted. Property in Calvary Cemetery, he pointed out, would cost but 39½ cents per square foot, whereas other property suggested for the construction of units would, together with the cost of improvements thereon which must be razed, cost from \$2.50 to \$3.00 per square foot.

Supervisor Brown, in expressing his opinion, announced that when the subject of low cost housing first came before the Board, and presented in accordance with certain conditions, it sounded good, and he still thought that if those conditions were lived up to, it would be good, and he felt confident that the apartment house people would not be objecting thereto. The theory of low cost housing is the elimination of slums in exchange for the building of low cost housing units. The unit elimination agreement has not yet been carried out to the extent to which it should be, and to date, no units have been eliminated directly because of the housing program, but exactly the same number of housing units would have been eliminated by the normal processes of the Department of Public Health. If the Housing Authority will make the eliminations equal to the number of new units they build, they will have a lot easier time with the Board of Supervisors. Supervisor Brown objected, also, to taking a piece of vacant property and building thereon. About the only way in which equivalent elimination could be effected would be by the simple process of building on a site formerly occupied by slums.

Supervisor Schmidt, the author of the resolution, urged the Board to keep in mind that the entire matter is a low cost housing in which the government, the people of San Francisco, and the Board of Supervisors is trying to do the greatest good for the greatest number of people, and that cannot be done if it is to be made a high cost housing project rather than a low cost one. Only by using reasonably priced land can a low cost housing project be erected. The Board of Supervisors, continued Supervisor Schmidt, has gone on record in favor of low cost housing, and has voted for Holly Park and for Potrero. At that time it was distinctly understood that the Housing Authority would appear before the Board for its approval on each project.

Amendment to Resolution

In concluding his remarks, Supervisor Schmidt requested an amendment to the resolution, by striking out the words "as expressive of the sentiment of the people" and inserting in lieu thereof the words "as expressive of the sentiment of the majority of the Board of Supervisors."

Amendment Ruled Out of Order

The Chair announced the proposed amendment to be not in order, since the question under discussion was one of reconsideration of the vote whereby the proposed resolution was refused adoption, rather than the question of the resolution itself.

Motion for Reconsideration Carried

After very brief remarks by Supervisor Uhl, maker of the motion for reconsideration, the roll was called and reconsideration had by the following vote:

Ayes—Supervisors Brown, Ratto, Roncovieri, Schmidt, Shannon, Uhl—6.

Noes—Supervisors Colman, McGowan, McSheehy, Mead, Meyer—5.

Amendment

Thereupon, Supervisor Schmidt, seconded by Supervisor Brown, moved that the last "Resolve" in the proposed resolution, be amended by striking out the words, as previously suggested, "as expressive of the sentiment of the people" and inserting in lieu thereof the words

"as expressive of the sentiment of the majority of the Board of Supervisors."

Objection to Amendment

Supervisor McSheehy announced that as he was opposed to the entire resolution, he would be obliged to vote against any amendment thereto. He repeated his thought that should the resolution be adopted, the result might be the cancellation of the balance of the money earmarked in Washington for low cost housing for San Francisco. However, feeling that the resolution would be adopted, he suggested the elimination of the entire last "Resolve" of the resolution, stating that since he was opposing the entire resolution, he could not, of course, offer any amendment to that effect.

Amendment Carried

Thereupon, no motion for further amendment, as suggested by Supervisor McSheehy, being made, the roll was called and the motion by Supervisor Schmidt was carried by the following vote:

Ayes—Supervisors Brown, Ratto, Roncovieri, Schmidt, Shannon, Uhl—6.

Noes—Supervisors Colman, McGowan, McSheehy, Mead, Meyer—5.

Adopted

Whereupon, the roll was again called and the resolution, amended to read as follows, was adopted by the following vote:

Opposing the Use of Calvary Cemetery Site by the Housing Authority as the Site of a Low Cost Housing Project.

(Series of 1939)

Resolution No. 405, as follows:

Whereas, The Board of Supervisors of the City and County of San Francisco has gone on record favoring the principles of slum clearance and the construction of low cost housing projects in order to properly house people included in the low income brackets, as well as giving work to our building trades mechanics and laborers; and

Whereas, The Board has no objection to the use of the land in the so-called area of sub-standard buildings or cheaper unimproved lands in the outlying portions of our City, and

Whereas, There appears to be a vast number of San Francisco residents opposed to the use of the Calvary Cemetery site for the purpose of low cost housing development; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record as opposed to the use of the Calvary Cemetery site by the San Francisco Housing Authority as the site of a low cost housing project, and does hereby request said San Francisco Housing Authority and the United States Housing Authority not to select or approve said Calvary Cemetery site for a low cost housing site; and be it

Further Resolved, That a copy of this Resolution be forwarded to the San Francisco Housing Authority and to Nathan Strauss of the United States Housing Authority as expressive of the sentiment of the Board of Supervisors of the City and County of San Francisco.

Ayes—Supervisors Brown, Ratto, Roncovieri, Schmidt, Shannon, Uhl—6.

Noes—Supervisors Colman, McGowan, McSheehy, Mead, Meyer—5.

Memorializing President, Senate and House to remove Federal prison on Alcatraz Island, and to replace same with statue of "PACIFICA."

Supervisor McSheehy presented Resolution No....., as follows:

(Series of 1939)

Whereas, The Golden Gate and San Francisco Bay are famed throughout the world as forming one of the greatest and most beautiful natural harbors in the world and a haven to travelers, a port to world commerce and the Western Gateway to this land of abundance, democracy, freedom and peace; and

Whereas, At the Eastern Gateway to our nation, in New York Harbor, the Statue of Liberty stands as a fitting tribute to our ideal of freedom and an example to the oppressed of other lands; and

Whereas, At the Western Gateway in San Francisco Harbor our nation displays no symbol of any ideal but instead maintains on Alcatraz Island a desecration and a symbol to crime and stern punishment in the form of a Federal prison; and

Whereas, Peace is another great ideal to which we aspire for ourselves and all the world and it is most fitting that this be symbolized at this Western Gateway; therefore, be it

Resolved, That this Board of Supervisors of the City and County of San Francisco, memorialize The President of the United States and The Congress to replace the Federal prison on Alcatraz Island in San Francisco Bay with a great statue of Pacifica, as a symbol of Peace, and that in anticipation of this magnificent objective, the United States Government immediately take steps to remove the Federal prison from this great Western Gateway; and be it

Further Resolved, That copies of this resolution be sent to The President of the United States, to our representatives in the United States Senate and House of Congress, and to the Press.

Supervisors Mead, McGowan and McSheehy presented Resolution No.; as follows:

Whereas, The WPA was set up by the Congress of the United States

to the end that people who were unable to find gainful employment in the industry, might be employed in a gainful manner and thereby be given an opportunity to earn a subsistence wage; and

Whereas, It was declared by Congress and the Works Progress Administration that it was not their intent or desire to in any way interfere with or endanger the wages for various crafts of work which had been set by collective bargaining and were recognized as the prevailing wage in each of the innumerable districts throughout the country; and

Whereas, Organized Labor evidenced a desire to further this program by doing everything humanly possible to supply experienced craftsmen wherever needed by the WPA, thereby cooperating with the Federal Government's effort to relieve the misery and want in which a great number of the people in this country found themselves; and

Whereas, The present Congress of the United States has recently enacted new legislation calling for a minimum of 130 hours per month on WPA Projects, thereby breaking down all of the prevailing wage standards paid on such Projects and extending the hours worked without upward revision of the total monthly amount to be earned; and

Whereas, This policy is in direct conflict with the previously announced policy of the Federal Government and the Works Progress Administration, and can terminate in only one result—i. e., a general breaking down of wage scales and hourly conditions for men employed in this type of work, not only on the WPA but eventually in private employment, especially as applied to members of the Building Trades Crafts; now, therefore, be it

Resolved, That the San Francisco Board of Supervisors in meeting assembled on this the 10th day of July, 1939, does emphatically protest the enactment of this Legislation to the end that the former recognition of the prevailing wage scales shall be reinstated even to the extent of insisting that new Legislation correcting this wrong be immediately introduced and pursued to passage before adjournment of Congress; and be it

Further Resolved, That copies of this resolution be forwarded to the President of the United States, United States Senators Hiram Johnson and Sheridan Downey, Congressmen Franck R. Havenner and Richard Welch and the National Administrator of the Works Progress Administration.

Commending Officer Ray Stone

Supervisor Ratto presented Resolution No. 396, as follows:

(Series of 1939)

Whereas, Officer Ray Stone, Star 85, of the San Francisco Police Department, detailed to the mounted patrol at the Ocean Beach, has, in the course of his official duties, rendered valorous and heroic service to San Francisco and its people through his rescue of several persons from the waters of the Pacific Ocean, the latest of such incidents involving his successful effort to save the life of Gordon Jackson, a schoolboy, who was at the point of drowning, and

Whereas, Such brave and gallant conduct on the part of Officer Stone is worthy of official recognition and highest commendation; now, therefore, be it

Resolved, That this Board of Supervisors, acting on behalf of the people of the City and County of San Francisco, does hereby express the highest approbation for the conduct of Officer Stone in his perilous duties and wishes him continued success in his already noteworthy career, and be it

Further Resolved, That a copy of this resolution be sent to Officer Stone.

Adopted by the following vote:

Ayes—Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl.—11.

Mayor to Appoint Committee for Observance of Armistice Day
Supervisor Schmidt presented Resolution No. 404, as follows:

(Series of 1939)

Resolved, His Honor the Mayor be and he is hereby requested to appoint a suitable Citizens Committee for the proper observance of Armistice Day, November 11, 1939.

Adopted by the following vote:

Ayes—Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl.—11.

**In Memoriam, Emmet Seawell, Associate Justice of Superior Court,
State of California.**

Supervisor Shannon presented Resolution No. 395, as follows:

Whereas, The Honorable Emmet Seawell, Associate Justice of the Supreme Court of the State of California, after a distinguished and honorable career, has been summoned before the Supreme Judge of all; and

Whereas, As Superior Judge of Sonoma County for twenty years prior to his elevation to the Supreme Bench in 1922, and as Justice of the Supreme Court, up to the time of his death, Judge Seawell, by his indomitable courage and understanding, his intelligent and humane conduct of office, won the admiration and respect of all our people; and

Whereas, The passing of the Honorable Emmet Seawell, Associate Justice of the Supreme Court, is a distinct loss to the State of California, and his distinguished and lovable character will be long mourned by his many, many friends and associates; now, therefore, be it

Resolved, That when this Board of Supervisors adjourns today, it does so out of respect to the revered memory of the late Associate Justice Emmet Seawell, and that a copy of the foregoing resolution be sent by the Clerk to the bereaved family of the late Honorable Emmet Seawell.

Unanimously adopted by rising vote.

**Requesting the Mayor to Negotiate with Traffic Engineers re
Furnishing Transportation Plan for San Francisco.**

Supervisor Uhl presented Resolution No....., as follows:

(Series of 1939)

Whereas, The problem of transportation and traffic is daily becoming more acute, due to the visitors to the Exposition, large numbers of Delegates attending Conventions and the extensive home building program under way throughout our City, and

Whereas, It is essential that action be taken to provide adequate modern transportation to insure the proper growth and future prosperity of our City, and

Whereas, Numerous surveys have been made at a tremendous cost to the taxpayers of San Francisco, notably the McClintock report upon which no action has been taken and which contains some valuable

recommendations which should be studied and adopted at the earliest possible moment, and

Whereas, The proposed employment of Mr. Chas. Purcell on a part time basis, as advocated by the Mayor, is declared to be "*quite impracticable and therefore inadvisable*" in the opinion of Frank W. Clark, State Director of Public Works, and

Whereas, The money has been appropriated for the purpose of getting technical advice on our Transportation and Traffic Problem, and many valuable suggestions are being held in abeyance pending the expected survey, and

Whereas, San Francisco is in need of aggressive, intelligent traffic planning at once to provide rapid transit and relief to our citizens who are taxpayers and who are clamoring for adequate transportation to their homes, and

Whereas, Bus transportation will provide rapid transit and promote the development of our City, and the private company is now demonstrating this by adding buses to their system as rapidly as possible; now, therefore, be it

Resolved, That this Board of Supervisors request the Mayor to immediately negotiate with Traffic Engineers of proven ability on what terms they will furnish a Transportation Plan, so that immediate attention may be given the problem of transportation and traffic in this City; and, be it

Further Resolved, That the Mayor be requested to submit to this Board of Supervisors information as to the cost and time required by Traffic Engineers to properly recommend a plan of action to provide modern, rapid and adequate transportation for San Francisco, taking into consideration the proper system to be extended into San Mateo County and the Peninsula.

Referred to Public Utilities Committee.

Lombard Street Widening

In reply to question by Supervisor Brown, as to the present status of Lombard Street widening, Supervisor Ratto, Chairman of the Streets Committee, explained that because of so many urgent improvements needed, and on account of shortage of funds the widening of Lombard Street could not go forward this year. Funston Avenue Approach to the Golden Gate Bridge, alone, has taken funds that would have enabled the improvement of many streets.

Supervisor Brown, in reply thereto, stated that it was his understanding that there would be sufficient funds to purchase rights of way on the first three blocks of Lombard Street, costing about \$100,000, and that the work could be done by WPA labor. The condition was serious, he stated, due to the increased traffic over the bridge.

Negotiations re Franchise for Distribution of Gas and Electricity by Pacific Gas and Electric Company

President Shannon announced that the Joint Committee on Finance and Public Utilities had held conferences with representatives of the Pacific Gas and Electric Company regarding franchise, and amount to be paid therefor and for the use of streets for distribution of gas and electricity for other than lighting purposes. Further conferences were contemplated, and it was hoped a settlement could be agreed on and payment could be received from the Company prior to the fixing of the tax rate for the current fiscal year.

Appointment of Committee to Attend the Salinas Rodeo.

President Warren Shannon announced that pursuant to the provisions of Resolution No. 145, he had appointed Supervisors McGowan, Mead, Ratto and himself to represent the Board at the Salinas Rodeo, to be held July 13 to 16, 1939.

Recess

There being no further business, the Board, at the hour of 6:40 P. M. recessed, to reconvene on Tuesday, July 11, 1939, at 10 A. M. to sit as a Board of Equalization.

DAVID A. BARRY, Clerk.

Bill No., Ordinance No., as follows:

Providing for the inspection and regulation of paint and lacquer spraying shops in the City and County of San Francisco; defining certain terms used in this ordinance; authorizing the Chief of the Division of Fire Prevention and Investigation of the Fire Department of the City and County of San Francisco to adopt, promulgate, and enforce rules and regulations governing such inspection; providing for the issuance of permits by the Chief of the Division of Fire Prevention and Investigation, subject to the prior approval of the City Planning Commission, the Chief of the Department of Electricity, and the Director of Public Health, to conduct such paint and lacquer spraying shop; providing for the payment and collection of fees to defray the cost of such inspection; repealing conflicting ordinances; and providing penalties for the violation of this ordinance.

Section 2. The Chief is hereby authorized to adopt, promulgate, and enforce such rules and regulations relative to paint shops as will enable the Division of Fire Prevention and Investigation to enforce and carry out the meaning and intent of this ordinance.

Section 3. (a) No paint shop shall hereafter, from the date of passage of this ordinance, be established in any building other than a Class "A", "B", "C" or mill-constructed building as defined by the building ordinances of the City and County of San Francisco. If hereafter established in a building of Class "C" or mill construction, the ceiling shall be of not less than three-quarters ($\frac{3}{4}$) inch plaster on metal lath, and the floor shall be of cement at least two (2) inches thick, or other approved fire resistive material.

(b) No paint shop shall hereafter be established in any building which is used or occupied in whole or in part as a residence, dwelling, hotel, or apartment house, as defined by the California State Housing Act; or as a hospital, theater, or place of public assemblage. "Paint shop", as defined in this ordinance, shall not apply to any building or structure, or any portion thereof, in the course of construction, alteration or repair. *Provided, however, that nothing in this section contained shall prevent the owner or occupant of any hotel or apartment house from spraying furniture, under such regulations as may be provided by the Chief when said furniture is actually used in said hotel or apartment house.*

water for drinking purposes, and general sanitary conditions that meet the requirements of the Department of Public Health.

(f) No spraying of paint or lacquer materials shall be conducted within a paint shop except in a spray room; provided, however, the Chief may at his discretion issue a written permit to the owner or operator of a paint shop to do minor spraying within said paint shop outside of said spray room. Said permit shall be revocable at the discretion of the Chief without the necessity of a public hearing.

(g) No open flame or spark-emitting device of any kind shall be permitted to be used in any storage room or spray room or paint shop, or in close proximity to any spraying operation. Only indirect heating systems, approved by the City and County of San Francisco, shall be used for heating purposes.

(h) Every spray room shall be equipped with fans capable of changing the air in such spray room every six (6) minutes. The number of fans, inlet and exhaust ducts required, and the location of same, shall be determined jointly by the Division of Fire Prevention and Investigation and the Department of Public Health.

(j) The spraying of paint or lacquer materials shall not be conducted unless the fan or fans are in operation; and said fan or fans shall continue to remain in operation until the conclusion of such spraying.

(m) Metal waste cans with self-closing covers shall be provided, not less than one (1) for each spray room, to accommodate rags and other waste.

(n) Signs containing the words "SMOKING STRICTLY PROHIBITED" in black letters not less than three (3) inches in height upon a white background shall be conspicuously displayed in storage and spray room.

(o) Each paint shop shall be equipped with fire extinguishers of such number and kind, and so located, as shall be determined by the Division of Fire Prevention and Investigation; but in no case shall there be less than two (2) of said fire extinguishers. At least one (1) barrel of clean dry sand containing a scoop, or at least four (4) metal buckets of clean dry sand, shall be kept on the premises at all times.

(p) Every sprayman or painter shall be provided with a mask while spraying, which mask shall be of a type approved by the Department of Public Health.

Section 4. Every spray room and storage room shall be kept free from all unnecessary combustible materials. The use of sawdust for absorbing waste material or for cleaning of floors is strictly prohibited.

Section 5. Whenever any paint or lacquer material is to be sprayed or applied to a motor vehicle, or parts thereof, the battery of said motor vehicle shall be disconnected and shall remain disconnected until such time as the room has been cleared of vapor.

Section 6. It shall be unlawful for any person to conduct, operate or maintain a paint shop as defined in this ordinance of the City and County of San Francisco without first obtaining a permit so to do as set forth in this ordinance.

Section 7. Every person desiring to establish, conduct, or operate a paint shop in the City and County of San Francisco, shall make application for a permit so to do to the Division of Fire Prevention and Investigation on forms provided by the Division of Fire Prevention and Investigation, and shall pay to the Division of Fire Prevention and Investigation a fee of \$12.84 in advance to cover the cost to the City and County of San Francisco of the necessary investigations provided for in this ordinance prior to the approval or disapproval of said application.

Any person engaged in the business of conducting or operating a paint shop in the City and County of San Francisco prior to the enforcement date of this ordinance, and who desires to continue the conducting or operation of said paint shop, shall make application for a permit so to do as hereinabove provided within thirty (30) days subsequent to the effective date of this ordinance and shall pay the fee as set forth above.

This fee shall be in addition to any and all fees required to be paid by any ordinance or ordinances of the City and County of San Francisco for the erection or alteration of any such paint shop or the installation of any equipment therein.

An application for a paint shop permit shall be acted upon within ten (10) days after the filing of such application and the fee collected shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn.

Section 8. Upon receipt of said application provided for in the preceding section, the Chief shall cause to be investigated the facts as set forth in the application and the premises for which the permit is requested. The Chief shall cause to be forwarded copies of said application to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity for investigation by their respective departments as to whether the ordinances, rules, and regulations of the City and County of San Francisco, pertaining to their departments, are complied with. The City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity shall after such investigation either approve or disapprove such application and return same within seven (7) days after receipt with such endorsement thereon to the Division of Fire Prevention and Investigation. If the application is disapproved the reason or reasons for such disapproval shall be stated.

In the event that the application for a paint shop permit is disapproved, the Chief shall give the reason for such disapproval. Upon receiving such written notice from the Chief, such person shall have the opportunity of correcting such conditions in and about the premises wherein the paint shop is located and the equipment used therein as have been decided hazardous. This work shall be completed within thirty (30) days after receipt of such written notice, and if said conditions have been corrected to the satisfaction of the departments involved said permit may be issued.

Section 9. The Chief may issue a permit to said applicant, subject to the above approval of the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity as above provided, which permit shall be serially numbered and shall expire on June 30 of the current fiscal year; or, in the exercise of sound discretion, he may deny said permit.

The Chief shall cause to be forwarded to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of his granting or denial of the permit.

Section 10. When any permit is issued under the provisions of this ordinance, the Chief shall cause said permit to be forwarded to the office of the Tax Collector for delivery to the permittee upon the payment of an annual license fee of \$8.51 in advance to defray the cost to the City and County of San Francisco of the necessary inspection and regulation as provided for in this ordinance.

The Tax Collector shall issue a license for each paint shop for which the fee was paid, showing thereon: (a) Name and address of the permittee. (b) Address of the paint shop. (c) Number of the permit. (d) Expiration date of the license, which date shall be the expiration date of the permit.

Any person establishing, conducting or operating a paint shop subsequent to January 1 of any year shall pay one-half of the annual fee provided for that fiscal year.

Section 11. The permit and license herein provided shall not be transferable. If the paint shop is discontinued no refund shall be made.

Section 12. Application for renewal of a permit shall be made in the same manner as provided for the original application for a permit, and shall be made within thirty (30) days prior to the expiration of the current permit and shall be accompanied by a fee of \$1.50, which fee shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn. The same procedure as set forth in Section 8 of this ordinance shall be followed.

Section 13. After written notice to the permittee and after due and proper hearing the Chief shall have the power to revoke or suspend any permit issued under the provisions of this ordinance for violation by the permittee, or by any of the permittee's servants, agents, or employees, or any of the provisions of this ordinance, or when the Chief shall determine that the permittee in the use thereof is violating or attempting to violate any ordinance, rule or regulation of the City and County of San Francisco or any department thereof; or if in the opinion of the Chief it is deemed necessary for the protection of the public.

The Chief shall cause to be forwarded to the Tax Collector, the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of any revocation, suspension, or reinstatement of any permit herein provided for.

Section 14. Every permit and license issued under the provisions of this ordinance shall be plainly posted in a conspicuous place for the public to see, on the premises for which the permit and license was issued.

Section 15. It shall be the duty of the Chief to ascertain that all of the provisions of this ordinance and any ordinances, rules or regulations of the City and County of San Francisco or any department thereof pertaining to paint shops and the equipment used therein are strictly complied with, and for that purpose the inspectors or representatives of the Division of Fire Prevention and Inspection, the Department of Public Health, and the Department of Electricity shall have access to any paint shop at any reasonable hour.

Section 16. Every person paying the fees provided for in this ordinance shall be exempt from the provisions of Ordinance No. 5132 (N. The following recommendations of Public Welfare Committee were taken up:

Request that Congress Change the Federal Relief Appropriation Act of 1939.

(Series of 1939)

Resolution No., as follows:

Whereas, The Federal Emergency Relief Appropriation Act of 1939, contains many controversial provisions; and

Whereas, Some of these provisions have aroused widespread protest, and apparently will work great hardship among certain of those groups receiving subsistence from Federal Emergency Relief Appropriations; and

Whereas, The Board of Supervisors of the City and County of San Francisco desires to see decent living standards maintained among the citizens of San Francisco, whether on W.P.A. or not; now, therefore, be it

Resolved, That the Board of Supervisors requests Congress to review the proposed changes in the 1939 Act as compared with the 1938 Act, and to eliminate such changes as are detrimental to the citizens of San Francisco receiving subsistence from W.P.A.; and be it

Further Resolved, That copies of this resolution be forwarded to the President and Representatives from California in the Senate and Congress, with the request that immediate steps be taken to that effect.

Requesting Congress to Restore Administrative Power to Operate the Federal Theater, Writers, Art, Historical Records and Music Projects of the WPA.

(Series of 1939)

Resolved, That the Board of Supervisors of the City and County of San Francisco, strongly urges Congress to restore administrative power to operate the Federal Theater, Writers, Art, Historical Records and Music projects, in the Federal Emergency Relief Appropriation Act of 1939; thus continuing to provide employment for the thousands who are now working on these W.P.A. projects, who otherwise would be thrown on our relief rolls, as there is no place in industry for them at the present time, and be it

Further Resolved, That copies of this resolution be forwarded to the President and Representatives from California in the Senate and Congress, with the request that immediate steps be taken to that effect.

Committee of the Whole

On motion by Supervisor McSheehy, the Board resolved itself into a Committee of the Whole for the purpose of considering the foregoing recommendations of the Public Welfare Committee.

President Shannon to Preside as Chairman

Supervisor Brown moved that President Warren Shannon preside as Chairman of the Committee of the Whole.

No objection.

Statement by Chairman of Public Welfare Committee

Supervisor Brown, Chairman of the Public Welfare Committee, ex-

plained the purport of the resolutions presented by that Committee requesting that Congress change the Federal Relief Appropriation Act of 1939 and requesting Congress to Restore Administrative Power to Operate the Federal Theatre, Writers, Art, Historical Records and Music Projects of the WPA. The subject matter of both resolutions was originally submitted by Supervisors McGowan, McSheehy and Mead. Supervisor Colman, member of the Public Welfare Committee, had, in committee, opposed requesting Congress to change the Federal Relief Appropriation Act of 1939. The request for the restoration of the Federal Theater, Writers, Art, Historical Records and Music projects of the WPA was unanimously approved by the Committee. In view of the foregoing, it was deemed advisable to present the two requests in separate resolutions.

Privilege of the Floor

Mr. Andrew J. Gallagher, on motion by Supervisor McSheehy, was granted the privilege of the floor. Mr. Gallagher urged that the resolutions under consideration be so amended as to make the following specific requests of Congress:

a. Repeal the provisions requiring that the hours of work for all WPA workers be 130 hours per month, for the same monthly wage the majority of San Francisco WPA workers previously received for 68 hours;

b. Repeal the 30-day forced layoff provision for those on the rolls more than eighteen months, and retain WPA eligibility on the present basis of need;

c. Restore to the WPA administration the right to expend funds on the basis of need and eligibility without arbitrary cuts in employment or expenditures;

d. Repeal all provisions calling for monthly and hourly wage reductions;

e. Restore administrative power to operate the Federal Theater, Writers, Art, Historical Records and Music projects.

Proposed Amendments Offered to the Board

Whereupon, Supervisor Uhl announced that he was in sympathy with the requests made by Mr. Gallagher, and he would be glad to offer them to the Board.

Supervisor McSheehy presented the following proposed amendment, requesting that it be inserted in the first resolution recommended by the Committee, just before the first "Resolve" therein:

"Whereas, The Federal Emergency Relief Appropriation Act of 1939 is in direct conflict with the previously announced policy of the Federal Government and the Works Progress Administration, and can terminate in only one result, i. e., a general breaking down of wage scales and hourly conditions for men employed in this type of work, not only on the WPA but eventually in private employment, especially as applied to members of the Building Trades Crafts";

Supervisor McSheehy requested, also, that there be substituted, in lieu of the language of the first "Resolve" in the Committee's recommendation, the following language:

"Resolved, That the San Francisco Board of Supervisors in meeting assembled on this the 17th day of July, 1939, does emphatically protest the enactment of this legislation to the end that the former recognition of the prevailing wage scales be reinstated even to the extent of insisting that new legislation correcting this wrong be immediately introduced and pushed to passage before adjournment of Congress";

Motion

Supervisor Uhl, in discussing the above proposed amendments, suggested that an appeal to Congress would be more effective than a

demand, and moved that the words "emphatically request" be substituted for the words "emphatically protest."

Motion failed for want of a second.

Supervisor McSheehy thereupon presented an additional "Resolve" which he suggested be incorporated in the proposed resolution, reading as follows:

"Further Resolved, That Congress administrative power to operate the Federal Theatre, Writers, Art, Historical Records and Music projects";

This addition, he stated, would make unnecessary the second recommendation of the Public Welfare Committee.

President Warren Shannon called attention to clumsy construction of the last "Resolves," in both of the recommendations of the Committee. As a substitute of the language of the resolutions as recommended, Supervisor McSheehy proposed the following language:

"Further Resolved, that copies of this resolution be immediately airmailed to the President of the United States, United States Senators Hiram Johnson and Sheridan Downey, Congressmen Franck R. Havenner and Richard Welch, and the National Administrator of Works Progress Administration."

In urging the adoption of the Resolution, amended as suggested, Supervisor McSheehy pointed out that the adoption of the second recommendation of the Committee requesting the restoration of the Federal Theater, Writers, Art, Historical Records and Music Projects of the WPA would be unnecessary.

Objection

Supervisor Colman objected to the resolution as outlined, urging that if the resolutions, as recommended by the Committee, be acted on, the second resolution, urging the restoration of the Federal Theater, and other projects would receive unanimous approval by the Board.

Point of Order

Supervisor Brown raised the point of order that the Board had resolved itself into a Committee of the Whole for the purpose of hearing interested citizens, but instead the floor had been taken by members of the Board.

Chair ruled point of order well taken.

Privilege of the Floor

Thereupon, the privilege of the floor was granted Mr. Henry Stuyveelaar, Secretary of the Industrial Council, who advocated the adoption of the resolution incorporating the proposed amendments.

Temporary Postponement

The Chair reminded the Board that at the morning's meeting, sitting as a Board of Equalization, citizens were told that the Board of Equalization would resume consideration of applications for reduction or equalization of assessments at 4 P. M., and that the business of the Board of Equalization must be concluded, July 17th being the last day for such hearings. The Chair stated further, that he felt, in justice to citizens who were present at the suggestion of the Board, and interested in Board of Equalization matters, that consideration of the balance of the Calendar be postponed temporarily until after the Board of Equalization had concluded its business.

Committee of the Whole Arises

Whereupon, Supervisor McSheehy moved that the Committee of the Whole rise and report.

No objection.

Reconvening As Board of Supervisors

Supervisor McSheehy further moved that the Board reconvene as a Board of Supervisors.

No objection.

Board to Sit As Board of Equalization

Thereupon, Supervisor McSheehy moved that the Board sit as a Board of Equalization.

No objection and so ordered.

Resumption of Hearing on Memorializing Congress re Federal Relief Appropriation Act of 1939

At the conclusion of the business before the Board of Equalization, the Board reconvened as a Board of Supervisors.

Supervisor Ratto Presiding

During the temporary recess as a Board of Supervisors, and while sitting as a Board of Equalization, Supervisor Shannon was excused and on motion duly made and seconded Supervisor Ratto took the Chair.

On reconvening as a Board of Supervisors, Supervisor Brown moved that Supervisor Ratto retain the Chair.

No objection and so ordered.

Presentation of Substitute for Committee's Recommendations

Thereupon, Supervisor McSheehy presented the following resolution, incorporating amendments previously suggested, and accepted by the Public Welfare Committee in lieu of that Committee's previous recommendations:

Protesting the Federal Emergency Relief Appropriation Act of 1939 (Series of 1939)

Resolution No. 414, as follows:

Whereas, The Federal Emergency Relief Appropriation Act of 1939 contains many controversial provisions, and

Whereas, Some of these provisions have aroused wide-spread protest, and apparently will work great hardship among certain of those groups receiving subsistence from Federal Emergency Relief Appropriations, and

Whereas, The Board of Supervisors of the City and County of San Francisco desires to see decent living standards maintained among the citizens of San Francisco, whether on W.P.A. or not, and

Whereas, The Federal Emergency Relief Appropriation Act of 1939 is in direct conflict with the previously announced policy of the Federal Government and the Works Progress Administration, and can terminate in only one result—i. e., a general breaking down of wage scales and hourly conditions for men employed in this type of work, not only on the W.P.A. but eventually in private employment, especially as applied to members of the Building Trades Crafts; now, therefore, be it

Resolved, That the San Francisco Board of Supervisors in meeting assembled on this the 17th day of July, 1939, does emphatically protest the enactment of this legislation to the end that the former recognition of the prevailing wage scales be reinstated even to the extent of insisting that new legislation correcting this wrong be immediately introduced and pushed to passage before adjournment of Congress; and be it

Further Resolved, That Congress repeal the 30 day forced layoff provision for those on the rolls more than eighteen months, and retain WPA eligibility on the present basis of need; and be it

Further Resolved, That Congress restore to the WPA Administration the right to expend funds on the basis of need and eligibility without arbitrary cuts in employment or expenditures; and be it

Further Resolved, That Congress repeal all provisions calling for monthly and hourly wage reductions affecting those on WPA in the City and County of San Francisco; and be it

Further Resolved, That Congress restore administrative power to operate the Federal Theatre, Writers, Art, Historical Records and Music projects; and be it

Further Resolved, That copies of this resolution be immediately airmailed to the President of the United States, United States Senators Hiram Johnson and Sheridan Downey, Congressmen Franck R. Havenner and Richard Welch, and the National Administrator of Works Progress Administration.

Explanations of Vote

Supervisor Brown explained that the entire matter covered by the foregoing resolution had been heard at length before his Committee, and no one appeared in opposition thereto. Inasmuch as nothing was proposed in the resolution which the WPA workers did not have heretofore, he could see no objection to it.

Supervisor Colman, in explaining his vote, stated that he thought there was one man, who, every citizen of the United States will agree, has always had at heart the interest of those in distress, and that is the President of the United States, and it must also be admitted that every humanitarian measure has had the support of Congress. So when the President of the United States, through the voice of the Director of Relief whom he appointed, makes recommendations, it is evident they are recommendations of a kind hearted man who wants to do everything, and has done everything in his power to help those who require to be helped. Congress has passed certain rules to regulate WPA. We are asked to memorialize Congress to change those rules which have been put into effect. It is quite true that no citizens have appeared here in protest or asking us to take any action.

In continuing his explanation, Supervisor Colman stated that he felt that the action of Congress and of the President was predicated on knowledge of the sentiments as they exist today in this country. He considered it to be a mistake to memorialize Congress in the name of the people of San Francisco, when the views of the people of San Francisco are not known on this particular question. He did not feel that the Board should memorialize Congress to keep these rules in effect, and most certainly it should not memorialize Congress to change them. As an index to public opinion, Supervisor Colman stated, he read the following editorial which appeared in the San Francisco News on July 8, 1939:

UNWISE AND DANGEROUS

Those labor leaders who encourage the WPA strikes by asserting that the new relief bill's 130-hours-a-month provision is a deliberate blow at unions are doing an unwise and dangerous thing.

It simply is not true that this provision was "railroaded" through Congress by "reactionary enemies of labor" whose purpose was to "destroy wage standards in private industry." The record proves that it was adopted after careful consideration, at WPA's own request, to correct a system shown by four years of experience to be inefficient and contrary to the proper purposes of the work-relief program.

In 1935, when legislation to create WPA was before Congress, President Roosevelt vigorously opposed "prevailing wages" for relief work. Wages paid by WPA, he said, should be larger than the dole but not

so large that those drawing them would be encouraged to reject private jobs or to leave private jobs for Government projects.

The American Federation of Labor insisted on the "prevailing wage," contending then, as some of its officials do now, that without that, private wage standards would be wrecked. For example, union plasterers who could not get private employment must draw \$1.66 an hour from WPA. Congress yielded to the AFL and wrote the "prevailing wage" into law. Under it skilled workers got their high hourly wages and, though their working hours were limited to 50 or 60 or 80 a month, drew larger monthly pay than unskilled workers who put in twice as many hours.

That was a mistake. The relief program is entirely different from private employment or from employment on contract public works. Relief work is done on projects that otherwise would not be undertaken at all. By reducing the competitive pressure for private jobs, it does tend to hold general wage levels up. But WPA's function is not to support union scales; it is to make the available money go as far as possible in providing "security wages" for the needy unemployed.

The WPA "prevailing wage" produced all the bad consequences foreseen by Mr. Roosevelt, and more. It did encourage workers to reject private jobs. It did enable many skilled men to earn their WPA wages in a few days and spend the rest of each month in outside employment, sometimes at pay that undercut union scales. And the difficulty of operating projects under the conditions it imposed was responsible for a great deal of the program's inefficiency and excessive cost.

It is unfortunate that skilled workers on relief were permitted to become accustomed to earning more money for less work than the unskilled. But that special privilege did not become a right when it was unwisely extended to them. Their natural dislike for giving it up is not a reason why it should be restored, and in no way justifies the WPA strikes.

It is, of course, their right to petition Congress to undo what has been done. But we believe Congress, having abolished the "prevailing wage" and ordered the 130-hours-a-month rule, should refuse to retreat. The new rule is fairer and wiser than the old system, and will vastly improve the program. It is strongly supported by Administrator Harrington, and it represents the original idea of the President, who certainly can not be justly accused of enmity for labor or of desire to lower private wage standards.

Following the reading of the foregoing editorial, Supervisor Colman stated that he did not present the same as his own views, but he had quoted it to indicate what public opinion might be on this particular question.

Supervisor Colman inquired as to the basis for the claim that the change in WPA regulations would result in the reduction of wages in private employment, and stated that in his opinion there would be no such wage reductions in private employment, nor would this action of Congress, if it should be maintained, result in any such thing.

When he felt the cause of labor to be just, he would try to go the limit for it, Supervisor Colman stated, but he was sorry he could not go along on this particular thing, and he did not believe the Board would be justified in expressing the opinion of the people of San Francisco on this particular question.

Supervisor Colman, in concluding, stated his reason for voting against the proposed resolution was primarily the second "Whereas," reading: "Whereas, Some of these provisions have aroused wide-spread protest, and apparently will work great hardship among certain of those groups receiving subsistence from Federal Emergency Relief Appropriations." He could not agree with that because he was con-

vinced that wages in private employment would not be affected by this particular action. He was in favor of letting Congress itself decide the matter as it sees fit. As for the federal theater and allied projects, he was for them heartily because he believed those people affected contributed very much to our life, and that music, art and writing are worth-while enterprises. Those people affected are entitled to the same consideration as are any other working people. If that portion of the resolution could be acted on alone, it would receive the unanimous vote of the Board. However, he regretted that he must vote "No" on the resolution as presented.

Adopted

Thereupon, the roll was called and the foregoing resolution was adopted by the following vote:

Ayes:—Supervisors Brown, McGowan, McSheehy, Mead, Meyer, Ratto—6.

No—Supervisor Colman—1.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted

The following recommendation of the Public Welfare Committee presented by Supervisor Brown, Chairman, was taken up:

Requesting the Institution of the Surplus Food Commodities Food Stamp Program of the Federal Government in San Francisco
(Series of 1939)

Resolution No....., as follows:

Whereas, The Federal Government through the Federal Surplus Commodities Corp. has instituted an amplification of relief allowances in certain cities by use of Food Stamps, and

Whereas, Said Food Stamps permit those persons on relief to whom they are issued to receive surplus food commodities in addition to their regular relief allowances, and

Whereas, Those on relief in San Francisco would benefit materially from the use of such Food Stamps as a supplement to relief programs locally; now, therefore be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record as favoring the institution of the Surplus Food Commodities Food Stamp program of the Federal Government in San Francisco at the earliest possible date, and be it

Further Resolved, That a copy of this resolution be sent to the proper Federal Authority and to our Congressmen and Senators in Washington.

Adopted by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Shannon, Uhl—10.

Absent: Supervisor Schmidt—1.

Action Rescinded

Subsequently during the proceedings, Supervisor McSheehy announced that he had just been informed that there were a great many people on relief who were opposed to the foregoing resolution, and he moved that the action of the Board, whereby the foregoing resolution was adopted, be rescinded. Motion seconded by Supervisor Mead.

Following his above motion, and before the roll was called thereon, Supervisor McSheehy announced his intention to move that the Board sit as a committee of the whole to hear those citizens present who were interested in the matter.

Discussion

Before the roll was called on the motion to rescind, Supervisor Brown stated that the matter had been referred by the Board, at his request, to the Public Welfare Committee, but that recommendation thereon by the Committee had been withheld until the return to San Francisco of Messrs. Hadelar and Tissier from the Annual Grocers' Convention in the east. On their return from east, Mr. Tissier appeared before the Committee and reported that the plan had worked admirably in cities where it had been tried. The result of the proposed plan, would be merely to increase the relief allowances in San Francisco about 40 per cent. No opposition thereto was voiced in committee.

Supervisor McSheehy, in closing, stated that his only desire was to afford an opportunity of being heard to those citizens protesting the adoption of the proposed resolution.

Thereupon, no objection being heard, the Chair announced the motion carried and the action of the Board in adopting the resolution rescinded.

Re-reference to Committee

Thereupon Supervisor Uhl moved re-reference to Committee.

No objection, and so ordered.

Action Rescinded

Subsequently during the proceedings on the objection by Supervisor Brown, the foregoing action was rescinded.

Consideration Postponed

Whereupon, on motion by Supervisor McSheehy, no objection being raised, consideration of the recommendation of the Public Welfare Committee, requesting the institution of the surplus food commodities Food Stamp program of the Federal Government in San Francisco, was postponed to July 24, 1939, and made a special order of business at 3 P. M.

Referred to Public Utilities Committee.

Use of Calvary Cemetery Site for a Low Cost Housing Project

The following communication was received from His Honor, the Mayor, read, and ordered filed:

July 17, 1939

To the Honorable Board of Supervisors,
City and County of San Francisco,
City Hall, San Francisco.
Gentlemen:

I am returning to you, unsigned, your Resolution No. 405 dated July 10, 1939.

I do so because the Resolution above mentioned is merely an expression of opinion of Members of the Board and not a legislative act.

You will recall that the San Francisco Housing Authority was appointed by me following the request of your honorable body that such action be taken. In the personnel of the Authority, I have complete faith. I believe the Housing Authority is proceeding with its work under the jurisdiction of the Federal Government regulation, in an honest, sincere and civic minded manner. Its personnel is one in which the people of the City cannot help but have faith.

The possibility of the selection of the site of Calvary Cemetery for a Housing Authority project has stirred much interest and considerable opposition. Mr. Marshall Dill, Chairman of the Housing Authority, in a letter to your Board, has in no uncertain terms, assured the citizens of San Francisco that it is not the policy nor the future intent of the Authority to proceed with projects against the best interests of the city or its residents. I am emphatic in stating that Mr. Dill means just what he says and that he speaks for all the members of the Authority.

Therefore, in returning the above mentioned Resolution for the reasons stated, I would suggest that proponents and opponents of Calvary Cemetery site as a Housing project, present their arguments to those who must make the final decision—the Housing Authority.

Yours sincerely,

ANGELO J. ROSSI, Mayor.

July 17, 1939

Board of Supervisors,

Gentlemen:

I have been advised by His Honor, Mayor Rossi, that the local administrator of the Public Works Administration in San Francisco has advised him that all contracts on which any PWA grant has been made by the Federal Government must be approved by the Mayor; that at the present time there is pending before the Director of Public Works bids received for the construction of the Auditorium for the Francis Scott Key School.

The Mayor is now giving consideration to these bids and has asked that the time for their acceptance be extended by your Board, in conformity with the provisions of Ordinance No. 9.0871.

I am, therefore, enclosing you a Resolution authorizing such an extension, approved by His Honor, the Mayor, the Director of Public Works, and as to form, by the City Attorney.

I recommend its adoption.

Yours very truly,

ALFRED J. CLEARY, Chief Administrative Officer.

SPECIAL ORDER—3 P. M.

Recommendation of Public Welfare Committee

Requesting the Institution of the Surplus Food Commodities Food
Stamp Program of the Federal Government in San Francisco.
(Series of 1939)

Resolution No....., as follows:

Whereas, The Federal Government through the Federal Surplus Commodities Corp. has instituted an amplification of relief allowances in certain cities by use of Food Stamps, and

Whereas, Said Food Stamps permit those persons on relief to whom they are issued to receive surplus food commodities in addition to their regular relief allowances, and

Whereas, Those on relief in San Francisco would benefit materially from the use of such Food Stamps as a supplement to relief programs locally; now, therefore be it

Resolved, That the Board of Supervisors of the City and County of San Francisco go on record as favoring the institution of the Surplus Food Commodities Food Stamp program of the Federal Government in San Francisco at the earliest possible date, and be it

Further Resolved, That a copy of this resolution be sent to the proper Federal Authority and to our Congressmen and Senators in Washington.

July 17, 1939—*Consideration continued to July 24, 1939, at 3 P. M.*

Discussion

Supervisor Brown explained in detail the reasons prompting his presentation of the foregoing resolution and the results sought to be obtained therefrom. The proposal, he stated, merely provides that the Board of Supervisors go on record as favoring the use of Food Stamps to provide for the distribution of surplus food commodities. Such distribution, it is expected, will provide for an increase of about 40 per cent, by means of the distribution of surplus commodities, to those on relief.

Privilege of the Floor

Mr. W. P. Shields, representing Labors Unemployed Council, was granted the privilege of the floor. He voiced no objection to the use of Food Stamps, provided such use did not ultimately result in the return of the former "relief in kind" or food basket. However, he did suggest amendments to the resolution under discussion, as follows:

In the third paragraph, immediately after the word "Whereas," insert the words "The business interests, as well as," and in the first "Resolve" after the words "at the earliest possible date," insert the words, "provided there be nothing in this request which will empower the various relief agencies to institute a program of relief in kind in lieu of cash."

Amendment Approved

Supervisor Brown, author of the original resolution, offered no objection to the amendments proposed, and no objections thereto being made, the resolution, amended to read as follows, was approved by the following vote:

Requesting the Institution of the Surplus Food Commodities Food Stamp Program of the Federal Government in San Francisco

Whereas, Said Food Stamps permit those persons on relief to whom they are issued to receive surplus food commodities in addition to their regular relief allowances, and

Whereas, The business interests, as well as those on relief in San Francisco, would benefit materially from the use of such Food Stamps as a supplement to relief programs locally; now, therefore, be it

Bill No. 238, Ordinance No. _____, as follows:

(Series of 1939)

Authorizing settlement of dispute between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in connection with construction of the Richmond sewer tunnel and appurtenances.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The City Attorney having recommended the settlement of the action of City and County of San Francisco, a municipal corporation, v. MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, Superior Court, San Francisco, No. 282,136, said action being one for the purpose of determining the liability of the City and County of San Francisco, a municipal corporation, MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, for damages under the contract of August 22, 1936, wherein and whereby MacDonald & Kahn Co., Ltd., as contractor agreed to construct a sewer tunnel according to certain plans and specifications prepared

by the City and County of San Francisco, and said MacDonald & Kahn Co., Ltd., having agreed as follows:

"This Agreement, made and entered into the 17th day of March, 1939, by and between the City and County of San Francisco, a municipal corporation, hereinafter called the 'City,' party of the first part, and MacDonald & Kahn Co., Ltd., a Delaware corporation, hereinafter called the 'Contractor,' party of the second part,

Witnesseth

"Whereas, on or about the 22nd day of August, 1936, the Contractor made and entered into a contract with the City providing for the construction of a sewer tunnel known and designated as the 'Richmond Sewer Tunnel and Appurtenances,' according to plans and specifications prepared by said City; and

"Whereas, on or about the 1st day of October, 1936, the Contractor commenced the construction of said public work in accordance with said contract, which said work was completed and accepted by said City on or about the 24th day of March, 1938, and;

"Whereas, various claims and actions have been and may be presented and brought against the City and Contractor alleging liability for damage to property claimed to have been caused by the construction of said public work; and

"Whereas, City contends that the Contractor has undertaken to defend, indemnify and save harmless the City from any and all such claims arising out of the construction of said public work, and it is the contention of the Contractor that it has not agreed to undertake and is not bound to defend and indemnify or save harmless the City against such claims or suits unless the damage was caused by the negligence of the Contractor in the Construction of said public work, and it is the further contention of the Contractor that it was not negligent in the performance of said contract; and

"Whereas, the parties desire to compromise and settle said dispute in order to save the time, costs and expense of litigation;

"Now, Therefore, in consideration of the premises, it is agreed by and between the parties hereto as follows:

1. The Contractor agrees to pay two-thirds and the City agrees to pay the remaining one-third of the amount of any damages, including costs, which may be awarded by final judgment against said City and said Contractor jointly or against said City alone or said Contractor alone in favor of any property owner for damage to property caused by or arising out of the construction of said public work. In other words, it is the intent and purpose of the foregoing agreement that if any property owner shall recover final judgment against both said City and Contractor jointly, such judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said Contractor alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City and said Contractor in different amounts in the same action (said judgment not being joint), the total of such judgment against both parties shall be jointly satisfied by said City and Contractor in the proportions stated.

2. In the event any such judgment shall, through legal process or by mutual consent of said City and Contractor, be wholly satisfied by said City alone or by said Contractor alone, then the party who did not contribute to the satisfaction of such judgment shall promptly on demand pay its proportion, as stated above, of such judgment to the party who has wholly satisfied the judgment. Such demand may

be made on said City by service on the City attorney and on the Contractor by service on its attorneys of record.

3. Said City and Contractor shall use their best efforts to settle any claims or actions for damage to property caused by or arising out of the construction of said public work for which damage there is or may be liability on the part of said City and Contractor, or either of them. In the event said City and Contractor mutually agree to settle any suit, claim or action, the amount necessary to effect such settlement shall be paid to such property owner by said City and Contractor in the proportions stated above.

4. This agreement shall not include or apply to any liability established by default of either party or to any liability assumed or admitted by either party hereto without the written consent of the other party hereto, or its attorney.

5. Each party hereto shall cooperate with the other to the fullest extent in the defense of any action referred to herein and brought against both or either of the parties hereto; each party hereto shall be represented by its own attorney in any such action; the expenses of procuring expert testimony and of making investigations mutually agreed upon by the attorneys for the parties hereto as being necessary to the proper defense of any such action shall be paid by each of said parties in the proportions above set forth; other costs and expenses accruing to said parties shall be borne by the party incurring the same.

6. In consideration of this agreement and the payments to be made by said Contractor in event judgment or judgments may be recovered or settlements made as aforesaid, said City acknowledges full and complete satisfaction of any and all provisions of the contract, referred to above, and Invitation for Proposals, Proposals Submitted, Information for Bidders, and Plans and Specifications numbered 18,942 referred to and made a part of said contract, requiring said Contractor to defend, indemnify, save harmless said City from damages, costs or liability to property of others arising from said Contractor's performance of said contract, work, or operations; said City does further agree that this agreement shall supersede and take the place of the said provisions of said contract, plans and specifications and does hereby release and discharge said contractor from any and all such provisions of said contract, plans and specifications; and said City does hereby agree that it shall have no right to recover from said Contractor any payment said City may make or is required to make pursuant to the terms of this agreement.

7. It is further agreed that the terms of this agreement shall not apply to any claims or actions against the said City for value of property taken for rights of way or easements for the construction of said public work.

8. The parties hereto agree to employ some person satisfactory to the City and the Contractor for the purpose of negotiating the settlement of said claims and actions, the expense of said negotiations to be paid by each of the parties in the proportions above set forth."

And said Fidelity and Deposit Company of Maryland having agreed as follows:

"Whereas, Fidelity and Deposit Company of Maryland executed its bond in favor of the City and County of San Francisco, dated August 21, 1936, in the principal sum of Two Hundred Twenty-three Thousand Dollars (\$223,000.00), conditioned upon the faithful performance of the contract between the City and County of San Francisco and MacDonald & Kahn Co., Ltd., dated the 22nd day of August, 1936, providing for the construction of the Richmond Sewer Tunnel and Appurtenances; and

"Whereas, said City and County of San Francisco is willing to execute the foregoing agreement of settlement upon the condition that the Fidelity and Deposit Company of Maryland shall not be released of its obligations pursuant to the terms of said bond by reason of the execution of said agreement of settlement;

"Now, Therefore, in consideration of the execution of the foregoing agreement by the City and County of San Francisco the Fidelity and Deposit Company of Maryland does hereby consent and agree to the execution of said agreement and all the terms and conditions thereof, and does hereby covenant and agree that the execution of said agreement shall not in any manner be construed so as to relieve or release the Fidelity and Deposit Company of Maryland from any of its obligations or liabilities provided for in said bond.

"Dated; March 16, 1939."

Sec. 2. Said City Attorney is hereby ordered and authorized to settle said pending litigation in accordance with the terms of the foregoing agreements.

Bill No. 250, Ordinance No., as follows:

Providing for the acceptance of the roadway of Teresita Boulevard including crossings thereon as hereinafter described.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Whereas, the roadway of Teresita Boulevard, in the City and County of San Francisco, between Portola Drive and Fowler Avenue including the intersection of Teresita Boulevard and Juanita Way and between Agua Way and the south line of Los Palms Drive, including the intersections of Teresita Boulevard with Isola Way, Sequoia Way, Gaviota Way, El Sereno Way, Rio Court, Marietta Drive, Los Palms Drive, and including the crossings of Teresita Boulevard with Reposa Way and Arroyo Way and Teresita Boulevard between the north line of Stanford Heights Avenue and a line 240 feet easterly and parallel to the easterly line of Foerster Street, including the intersections of Teresita Boulevard with Stanford Heights Avenue, Kenyon Avenue and Stillings Street, has heretofore been paved in accordance with the specifications of the Department of Public Works, which said paving was completed during the year 1929; and

Whereas, it was certified by M. M. O'Shaughnessy, then City Engineer, that said paving of said Teresita Boulevard, as hereinbefore described, was so paved in accordance with said specifications and that the necessary sewers, gas and water pipes were laid therein; and

Whereas, no formal acceptance of said street was ever given by the Board of Supervisors; and

Whereas, immediately upon the completion of the paving of said Teresita Boulevard, as hereinbefore set forth, the same was thrown open to the public and used as an open public street in the City and County of San Francisco; and

Whereas, the fact that the hereinbefore described portions of the roadway of Teresita Boulevard were not accepted at the time of the completion of the paving of said boulevard in 1929, was not the fault of Meyer Brothers or of any of the property owners whose property abuts said boulevard within the boundaries referred to.

Privilege of the Floor

Mr. A. D. Wilder, Director of Public Works, explained the purport of the proposed resolution, stating that bids had been taken by his department on July 7th, based on plans for construction of proposed auditorium without a lobby. The Parent-Teacher Association and citizens in the district are not satisfied with the plans and want them modified. Under the law the bids must be awarded within twenty days, or they become automatically rejected within 20 days, or on July 17th, unless an extension of time for the award of bids is granted by the Board of Supervisors. This extension of time is requested merely to avoid the necessity of taking bids again.

The Parent-Teacher Association, through Mrs. Thomas R. Best, offered no objection to the proposed resolution.

Supervisor Uhl, thereupon, announced that he opposed the resolution before Committee, had no objection thereto, since the Parent-Teacher Association did not object.

Whereupon no further objection being raised, the foregoing resolution was adopted by the following vote:

Golden Gate Bridge Fiesta Deficit

Supervisor Brown called attention to an article in Arthur Caylor's "Behind the News" column in the San Francisco News on July 19, 1939, which he read, together with communication from him, addressed to Mr. Arthur Caylor, and requested that the article and his reply thereto be printed in the Journal of Proceedings, as follows:

Article by Mr. Caylor

A lirty pool may lift its hydra head and turn the mayoralty campaign into something played exclusively with the eight-ball—and a few well-swing cues. Fact is, some of the Rossi forces feel that when Arthur M. Brown, Jr., announced his candidacy it was the kind of betrayal which leads to nameless children. If that's the way he wants to act, they mutter, they're definitely through dallying with decency.

The administration, they argue, has been extremely decent to Supervisor Brown ever since he started the Golden Gate Bridge Fiesta—and was stuck with it. The deficit was one of the most enthusiastic ever built up by a local businessman in a civic venture. Ever since then the administration has been oozing around the law to find ways of paying something on the bill with city funds. This is all, the Rossi people argue, which has kept some creditors from suing Mr. Brown personally, since the law seems to indicate that he was personally liable.

Now, our men report, there's some flirting with the idea that if Mr. Brown doesn't reconsider and withdraw, why wouldn't it be a lesson to him for the city to discover it couldn't pay any more on the Fiesta deficit? The administration people might even advise creditors that if they want their very belated dough they'd better see Mr. Brown—in court. Since the deficit is still way up in five figures—even at this late date—such a move might give Mr. Brown pause. It might even stop him dead in his tracks.

Reply by Supervisor Brown

Mr. Arthur Caylor,
c/o San Francisco News,
San Francisco, California.
Dear Mr. Caylor:

I have read with interest the article concerning my candidacy which appeared in your column on July 19. Knowing your pride in the factual nature of your column and your desire to be accurate at all times, I am going to break the silence which I have kept for over two years and ask you a few questions.

Did you know, Mr. Caylor, that the real manager of the Golden Gate Bridge Fiesta was Eric Cullenward, now Secretary to the Mayor?

Did you know, Mr. Caylor, that Eric Cullenward was in direct charge of all expenditures for the Fiesta and that he O. K'd every expenditure for the Fiesta?

Did you know, Mr. Caylor, that the Golden Gate Bridge Fiesta was run by a Citizens Committee, from which was selected an Executive Committee and that among the members of that Executive Committee, were Mayor Rossi, Chief Administrative Officer Cleary and Eric Cullenward?

Did you know, Mr. Caylor, that the original budget of the Fiesta was much larger than the budget finally approved? That the original

budget was approved by the Executive Committee, which included the gentlemen above named?

Did you know, Mr. Caylor, that it was through my action at the time of the hotel strike, that the original budget was materially reduced and the reduced budget was again approved by the Executive Committee, of which Messrs. Rossi, Cleary and Cullenward were members?

Did you know, Mr. Caylor, that all estimates of income for the Fiesta were checked and re-checked by Messrs. Cullenward, Leonard Leavy and the writer upon numerous occasions and that we secured the best possible authorities for all estimates?

Did you know, Mr. Caylor, that at the time of the hotel strike, the writer offered to call off the whole Fiesta show, but that the Executive Committee of the Fiesta of which Messrs. Rossi, Cleary and Cullenward were members, told the writer they still wanted to go ahead with the program, that San Francisco could not afford because of the hotel strike, to call off the Golden Gate Bridge Fiesta?

Did you know, Mr. Caylor, that at the time the Fiesta shows actually started, it was apparent that the income would not meet the outgo and that at that time, Chief Administrative Officer Cleary said to me personally—"Go ahead with the show. It's the finest thing of its kind San Francisco has ever seen and I don't care if you run a large deficit. I will find ways and means of meeting it. I don't care if the deficit reaches \$40,000.00."

Did you know, Mr. Caylor, that the Finance Committee for the Fiesta did not expect the deficit to run over \$25,000, and that they were thunderstruck when they found after the Fiesta was over, thousands and thousands of dollars worth of bills which had never been approved by the Finance, or anyone else, except Eric Cullenward?

Did you know, Mr. Caylor, just for example, that one item in the Fiesta budget which had been budgeted at \$1,000, finally turned up for \$5,000 actually expended and that the only one who had authorized this increase over the budget was Eric Cullenward?

I can assure you, Mr. Caylor, that the whole story behind the Golden Gate Bridge Fiesta deficit has not been told, nor do I propose to tell it at this time, nor in fact will I tell it at any time, unless I am forced to do so. I have nothing but sympathy for the unfortunate creditors of the Golden Gate Bridge Fiesta and I am still hopeful that ways and means may be found to work out the indebtedness of the Fiesta to them.

Incidentally, Mr. Caylor, all of the above is a matter of record, and if I find it necessary, I will be glad to produce the record at the proper time and place. Further, if necessary, I can produce members of the various committees of the Fiesta who will substantiate all I have said.

It is hoped that the opposition, having started this, has decided to now complete its dirty pool and mudslinging; but that if the campaign is to be a dirty one, they can at least arm themselves with facts, for my friends can dig as deep as they can and in so doing, will dig out the facts.

I am sure since you are a fair-minded man, you will not hesitate to publish as much of the above as seems appropriate.

Very truly yours,

AMB:JR d

ARTHUR M. BROWN, JR.

Repealing Ordinance No. 63, (Series of 1939)
(Series of 1939)

Supervisor Uhl presented Bill No....., Ordinance No.....
as follows:

Repealing Ordinance No. 63 (Series of 1939), appropriating \$144,000 from the surplus existing in the Municipal Railway Operating Fund and \$84,000 from the surplus existing in the Municipal Railway Reconstruction and Replacement Fund for the purpose of establishing a trolley bus line from Beale Street to Army Street and return, along certain streets.

Whereas, The Market Street Railway Company is supplementing its present street car system, through the operation of buses on the No. 19 Line, on Polk, Larkin and 9th Streets, and

Whereas, This bus operation, on the No. 19 Line has proven far superior to the trolley car service, through the elimination of noise and through the fast service rendered thereby, and

Whereas, The Market Street Railway Company has petitioned this Board for permission to supplement its present street car service with buses on five additional lines, and

Whereas, No trackless trolley buses are being or are to be operated on any of the foregoing routes, evidenced by the fact that gas buses are preferred by the private company, by reason of their efficiency and economy of operation, and

Whereas, An appropriation of \$228,000 was voted by this Board for trackless trolley buses to be utilized on an extension to the Municipal Railway on Howard Street and Van Ness Avenue South, from Beale to Army Street, and

Whereas, Twenty (20) gasoline buses, with greater efficiency and economy and of equal capacity could be obtained for the same sum of money, 228,000, and

Whereas, Twenty (20) buses would furnish a superior service, extending to the County Line in the Mission District, thereby providing sorely needed transportation to the people in that vicinity, and

Whereas, Such service could be operated on the basis of a five-cent fare; therefore

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 2. The Chief is hereby authorized to adopt, promulgate, and enforce such rules and regulations relative to paint shops as will enable the Division of Fire Prevention and Investigation to enforce and carry out the meaning and intent of this ordinance.

Section 3. (a) No paint shop shall hereafter, from the date of passage of this ordinance, be established in any building other than a Class "A", "B", "C" or mill-constructed building as defined by the building ordinances of the City and County of San Francisco. If hereafter established in a building of Class "C" or mill construction, the ceiling shall be of not less than three-quarters ($\frac{3}{4}$) inch plaster on metal lath, and the floor shall be of cement at least two (2) inches thick, or other approved fire resistive material.

(b) No paint shop shall hereafter be established in any building

which is used or occupied in whole or in part as a residence, dwelling, hotel, or apartment house, as defined by the California State Housing Act; or as a hospital, theater, or place of public assemblage. "Paint shop", as defined in this ordinance, shall not apply to any building or structure, or any portion thereof, in the course of construction, alteration or repair. *Provided, however, that nothing in this section contained shall prevent the owner or occupant of any hotel or apartment house from spraying furniture, under such regulations as may be provided by the Chief when said furniture is actually used in said hotel or apartment house.*

(f) No spraying of paint or lacquer materials shall be conducted within a paint shop except in a spray room; provided, however, the Chief may at his discretion issue a written permit to the owner or operator of a paint shop to do minor spraying within said paint shop outside of said spray room. Said permit shall be revocable at the discretion of the Chief without the necessity of a public hearing.

(g) No open flame or spark-emitting device of any kind shall be permitted to be used in any storage room or spray room or paint shop, or in close proximity to any spraying operation. Only indirect heating systems, approved by the City and County of San Francisco, shall be used for heating purposes.

(h) Every spray room shall be equipped with fans capable of changing the air in such spray room every six (6) minutes. The number of fans, inlet and exhaust ducts required, and the location of same, shall be determined jointly by the Division of Fire Prevention and Investigation and the Department of Public Health.

(j) The spraying of paint or lacquer materials shall not be conducted unless the fan or fans are in operation; and said fan or fans shall continue to remain in operation until the conclusion of such spraying.

(k) The amount of paint or lacquer material stored or kept, and the manner of its storage in a spray room or storage room, shall be prescribed and approved by the Division of Fire Prevention and Investigation.

A limited amount of paint and lacquer material shall be permitted to remain on such bench for the purpose of mixing or the matching of color. Such bench shall be kept clean and free from accumulated drippings, waste paint, or lacquer. Tightly fitting metal covers shall be provided for all containers.

(m) Metal waste cans with self-closing covers shall be provided,

(o) Each paint shop shall be equipped with fire extinguishers of such number and kind, and so located, as shall be determined by the Division of Fire Prevention and Investigation; but in no case shall there be less than two (2) of said fire extinguishers. At least one (1) barrel of clean dry sand containing a scoop, or at least four (4) metal buckets of clean dry sand, shall be kept on the premises at all times.

(p) Every sprayman or painter shall be provided with a mask while spraying, which mask shall be of a type approved by the Department of Public Health.

Section 4. Every spray room and storage room shall be kept free from all unnecessary combustible materials. The use of sawdust for absorbing waste material or for cleaning of floors is strictly prohibited.

Section 5. Whenever any paint or lacquer material is to be sprayed or applied to a motor vehicle, or parts thereof, the battery of said motor vehicle shall be disconnected and shall remain disconnected until such time as the room has been cleared of vapor.

Section 6. It shall be unlawful for any person to conduct, operate or maintain a paint shop as defined in this ordinance of the City and County of San Francisco without first obtaining a permit so to do as set forth in this ordinance.

Any person engaged in the business of conducting or operating a paint shop in the City and County of San Francisco prior to the enforcement date of this ordinance, and who desires to continue the conducting or operation of said paint shop, shall make application for a permit so to do as hereinabove provided within thirty (30) days subsequent to the effective date of this ordinance and shall pay the fee as set forth above.

This fee shall be in addition to any and all fees required to be paid by any ordinance or ordinances of the City and County of San Francisco for the erection or alteration of any such paint shop or the installation of any equipment therein.

An application for a paint shop permit shall be acted upon within ten (10) days after the filing of such application and the fee collected shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn.

Section 8. Upon receipt of said application provided for in the preceding section, the Chief shall cause to be investigated the facts as set forth in the application and the premises for which the permit is requested. The Chief shall cause to be forwarded copies of said application to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity for investigation by their respective departments as to whether the ordinances, rules, and regulations of the City and County of San Francisco, pertaining to

their departments, are complied with. The City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity shall after such investigation either approve or disapprove such application and return same within seven (7) days after receipt with such endorsement thereon to the Division of Fire Prevention and Investigation. If the application is disapproved the reason or reasons for such disapproval shall be stated.

In the event that the application for a paint shop permit is disapproved, the Chief shall give the reason for such disapproval. Upon receiving such written notice from the Chief, such person shall have the opportunity of correcting such conditions in and about the premises wherein the paint shop is located and the equipment used therein as have been decided hazardous. This work shall be completed within thirty (30) days after receipt of such written notice, and if said conditions have been corrected to the satisfaction of the departments involved said permit may be issued.

Section 9. The Chief may issue a permit to said applicant, subject to the above approval of the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity as above provided, which permit shall be serially numbered and shall expire on June 30 of the current fiscal year; or, in the exercise of sound discretion, he may deny said permit.

The Chief shall cause to be forwarded to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of his granting or denial of the permit.

Section 10. When any permit is issued under the provisions of this ordinance, the Chief shall cause said permit to be forwarded to the office of the Tax Collector for delivery to the permittee upon the payment of an annual license fee of \$8.51 in advance to defray the cost to the City and County of San Francisco of the necessary inspection and regulation as provided for in this ordinance.

The Tax Collector shall issue a license for each paint shop for which the fee was paid, showing thereon: (a) Name and address of the permittee. (b) Address of the paint shop. (c) Number of the permit. (d) Expiration date of the license, which date shall be the expiration date of the permit.

Any person establishing, conducting or operating a paint shop subsequent to January 1 of any year shall pay one-half of the annual fee provided for that fiscal year.

Section 11. The permit and license herein provided shall not be transferable. If the paint shop is discontinued no refund shall be made.

Section 12. Application for renewal of a permit shall be made in the same manner as provided for the original application for a permit, and shall be made within thirty (30) days prior to the expiration of the current permit and shall be accompanied by a fee of \$1.50, which fee shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn. The same procedure as set forth in Section 8 of this ordinance shall be followed.

Section 13. After written notice to the permittee and after due and proper hearing the Chief shall have the power to revoke or suspend any permit issued under the provisions of this ordinance for violation by the permittee, or by any of the permittee's servants, agents, or employees, or any of the provisions of this ordinance, or when the Chief shall determine that the permittee in the use thereof is violating or attempting to violate any ordinance, rule or regulation of the City and County of San Francisco or any department thereof; or if in

the opinion of the Chief it is deemed necessary for the protection of the public.

The Chief shall cause to be forwarded to the Tax Collector, the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity written notice of any revocation, suspension, or reinstatement of any permit herein provided for.

Section 14. Every permit and license issued under the provisions of this ordinance shall be plainly posted in a conspicuous place for the public to see, on the premises for which the permit and license was issued.

Section 15. It shall be the duty of the Chief to ascertain that all of the provisions of this ordinance and any ordinances, rules or regulations of the City and County of San Francisco or any department thereof pertaining to paint shops and the equipment used therein are strictly complied with, and for that purpose the inspectors or representatives of the Division of Fire Prevention and Inspection, the Department of Public Health, and the Department of Electricity shall have access to any paint shop at any reasonable hour.

Authorizing Appointment of Committee to Provide Better Relationship Between San Francisco and Neighboring Communities.

(Series of 1939)

Resolution No. as follows:

Whereas, San Francisco—the natural distribution and marketing

center of the Northern and Central California region—will prosper only as the entire region prospers, and

Whereas, The prosperity of the entire region depends in large measure upon the mutual understanding and cooperation between urban and rural area toward achieving a goal of maximum economic development, and

Whereas, There is both opportunity and need for San Francisco to improve its services to the region, particularly to agriculture, and also to foster understanding and good will between city and country, and

Whereas, The prosperity of the community and of the region must be recognized as a proper concern of the city and county government represented by all individuals and groups within the community, and

Whereas, There is in the city and county government at present no central agency authorized and equipped to plan and carry out a coordinating program of cooperative city-country activities, and

Whereas, In the attainment of these objectives it is advisable and necessary to create such a central agency in the city and county government, to be known as the Advisory Committee on Regional Service, now, therefore, be it.

Resolved, That the Mayor be, and hereby is authorized to appoint such a committee, which committee shall consist of the following officials:

The Mayor, the President of the Board of Supervisors, the Chairman of the Finance Committee of the Board of Supervisors, the Chairman of the Streets Committee of the Board of Supervisors, the Chief Administrative Officer, the Controller, the Manager of Utilities, the Agricultural Commissioner, the City Attorney, and the Director of Public Health.

It shall be the duty of this committee to act as may be necessary, in its judgment, to:

1. Establish and maintain better relationships between San Francisco and the rural, neighboring metropolitan and suburban areas which constitute the city's trade area.
2. Improve the services rendered by San Francisco to the trade area, enlisting the cooperation of San Francisco citizens in the discharge of the city's obligations to the region.
3. Inaugurate or participate in activities designed to contribute to the prosperity of the entire region.

The Advisory Committee on Regional Service shall have the power, by majority vote of the entire committee, to increase the membership of its committee when it is deemed necessary.

The Chairman of said committee, or any person designated by him, is authorized and empowered to attend any conference, or public or quasi-public meeting where there may be under discussion or consideration any matter having to do with the stated responsibilities of the said committee.

Subject to the provisions of Section 86 of the Charter, the committee shall have the power to incur obligations to carry out the purposes of this resolution out of such funds as may be appropriated or set aside for said purposes.

Endorsing in Principle Plan Set Up in Senate Bill 2864 for Allocation of Highway Funds.

(Series of 1939)

Resolution No. 445, as follows:

Whereas, The most difficult problem facing the City of San Francisco today is the solution of the traffic problem for providing ready access both to and from the City; and

Whereas, Over a period of years, extensive studies have been made of this traffic problem and various reports and recommendations have been submitted to the electorate of the City in the effort to secure approval of bond issues for that purpose; and

Whereas, The problem is chiefly one of financing the heavy construction work that will be necessary to take care of the traffic problem and mass transportation; and

Whereas, There is now pending in Congress Senate Bill No. 2864, which contains provisions making funds available to the various States, which, in turn may negotiate the allotment of these funds to metropolitan centers for the construction of main arteries of travel; and

Whereas, The terms and conditions under which such funds are proposed to be made available lead us to believe that the City of San Francisco may be able to secure an allotment of such funds on a partial self-liquidating basis; now, therefore, be it

Resolved, That we endorse in principle the plan set up for the allocation of highway funds in this manner in Senate Bill No. 2864; and, be it

Further Resolved, That the Board of Supervisors of the City and County of San Francisco memorialize the Congress of the United States urging the adoption of Senate Bill No. 2864 before the adjournment of the present session; and, be it

Further Resolved, That copies of this resolution be immediately forwarded to the House of Representatives and the Senate at Washington, and copies sent to Senators Johnson and Downey and Congressmen Welch and Havenner.

Discussion

Question being raised by Supervisor McSheehy as to the proper parliamentary procedure, Supervisor Shannon, author of the resolution, spoke in favor of it, saying that it had been considered in committee, and recommended to the Board for adoption, that the procedure was regular and that the resolution should be passed immediately so as not to defeat its purpose.

Supervisor McSheehy spoke against the resolution alleging that it was in violation of the rules of procedure of the Board and requested to be recorded as voting no on the resolution.

Motion

Supervisor McGowan, second by Supervisor Roncovieri, moved the adoption of the resolution.

Adopted

Whereupon, the foregoing resolution was adopted by the following vote:

Ayes—Supervisors Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—9.

Noes—Supervisor McSheehy—1.

Absent—Supervisor Brown—1.

Explanation of Vote

Supervisor McSheehy explained his vote as follows: I am voting No simply because the procedure does not comply with either our book of rules or the charter. I would favor the resolution if it did comply with our book of rules or with the charter. I want this explanation made part of the record, that the charter and our book of rules passed by this Board and by the people of San Francisco are not being lived up to.

In Memoriam: Milton Esberg.

(Series of 1939)

Resolution No. 452, as follows:

Whereas, There has passed from the scene of his great endeavor, a man of noble and devoted character in the person of Milton Esberg. Prominent in the busy life of his native city, foremost in all its civic and social affairs, Milton Esberg won the affection and admiration of all irrespective of color, race or creed. His genial character, high pur-

pose and devoted service as one of the principal founders of the Community Chest and one of its most indefatigable workers has engraved his name forever in the hearts of our people; and

Whereas, Milton Esberg knew his San Francisco and loved it with an ardent affection, giving of himself unstintingly to promote and advance its interest and welfare, and was in turn dearly beloved by those who were privileged to know him—his splendid character and invincible spirit; and

Whereas, San Francisco and its people have suffered an irreparable loss in the passing of so worthy and devoted citizen; now, therefore, be it

Resolved, That when this Board of Supervisors adjourns today it does so out of respect to the revered memory of Milton Esberg, extending to the bereaved widow and sorrowing family its deepest sympathy and condolences in this their sad bereavement; and be it

Protesting Removal of State Relief Administration Headquarters from San Francisco to Los Angeles.

(Series of 1939)

Resolution No. 454, as follows:

Whereas, It has been proposed by the Governor of California to transfer headquarters of the State Relief Administration from San Francisco to Los Angeles, and

Whereas, This will mean the removal from San Francisco of the employees of the State Relief Administration and their families, and in many instances the abandonment of homes owned or established here, and in many other ways cause them great inconvenience, and

Whereas, It will also result in the removal from San Francisco of a state payroll that is now expended principally in San Francisco to the benefit of its merchants, property owners and other commercial interests, and

Whereas, The removal of these headquarters to a location far removed from the seat of the State Government at Sacramento will mean a considerable cost to the taxpayers of the State, and require a greater expenditure for transportation and other expenses of State employees traveling between the Capitol and SRA headquarters, and

Whereas, There appears no valid reason for the transfer of the SRA headquarters and the proposal seems discriminatory and unjustified; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco earnestly registers its objection to the proposal to move the State Relief Administration headquarters from San Francisco and urges His Excellency, Governor Culbert L. Olson, to reconsider any decision in this regard.

Commending American Legion for Its Stand on Neutrality.
(Series of 1939)

Resolution No., as follows:

Whereas, The people of San Francisco, in common with the people of the United States of America in general, have upon frequent occasions expressed their abhorrence of war and its folly; and

Whereas, The cost of war is measured in the appalling loss of the lives of our most vigorous youth and in the tragedy that is the consequence of disrupted homes and anguished families, not to take into account the staggering financial impost war levies on every man, woman and child; and

Whereas, The United States of America has no quarrel with any of the nations that are its neighbors, and has no concern in the international differences of opinion and interest that have led to armed conflict in other sections of the World; and

Whereas, The United States of America by remaining aloof from the partisanships that lead to involvement in international disputes shall be able to avoid the horrible consequences of another war involving the loss of lives of its citizens and demoralization of its economic life; and

Whereas, The American Legion has assumed the leadership in the inculcation of a nation-wide philosophy of neutrality among the citizens of this country with respect to the troubled conditions existent elsewhere throughout the world, and to promote the crystalization of this neutral philosophy has undertaken the circulation of petitions expressing the sentiment that this nation refrain from taking sides in any foreign controversy not involving the safety, honor or integrity of the United States; and

Whereas, The American Legion has undertaken to spread this neutrality; now, therefore, be it

Resolved, That this Board of Supervisors does hereby place itself on record in expressing its unqualified endorsement of the aims of the American Legion in the campaign to preserve this nation from war and to perpetuate peace; and be it

Application No. 134, consideration of which had previously been postponed, was again taken up and applicant heard. Appraisers renewed their recommendation for reduction of \$750 on building. Supervisor Uhl renewed his motion for a reduction of \$5,750 on building, making the assessment thereon read \$1,000. As an expression of the opinion of the appraisers, on motion by Supervisor Uhl, Mr. Phillips stated that the entire matter was within the discretion of the Board. The property in question could not be compared with any other property, and, therefore the proposed reduction would not throw them out of line with assessments on other buildings. Thereupon, the roll was called and the motion <i>carried</i> by the following vote:				
Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Shannon, Uhl—10.				
Absent: Supervisor Schmidt—1.

Applicant, although having been heard several times, again was heard in support of his petition, and requested, in addition to his previous request for a reduction of the assessment on building, a reduction of \$2500 on land. Supervisor McSheehy renewed his previous motion for a reduction of \$1000 from the assessment on the building, but did not advocate any reduction from the land assessment. Appraisers recommended no reduction. No second to the motion for a reduction of \$1000 being received, Supervisor McSheehy, seconded by Supervisor Meyer, moved a reduction of \$700 on building, to make the assessment thereon read \$800. The roll was called and the reduction <i>denied</i> by the following vote:				
Ayes: Supervisors McGowan, McSheehy, Meyer, Shannon—4.				
Noes: Supervisors Brown, Colman, Mead, Ratto, Roncovieri, Uhl—6.				
Absent: Supervisor Schmidt—1.

Thereupon, the roll was called on the original motion for a reduction of \$350, which *carried* by the following vote:

Ayes: Supervisors McGowan, McSheehy, Meyer, Ratto, Roncovieri, Shannon, Uhl—7.

No: Supervisor Colman 1.

Providing for the acceptance of the roadway of Teresita Boulevard including crossings thereon as hereinafter described.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Whereas, the roadway of Teresita Boulevard, in the City and County of San Francisco, between Portola Drive and Fowler Avenue including the intersection of Teresita Boulevard and Juanita Way and between Agua Way and the south line of Los Paltos Drive, including the intersections of Teresita Boulevard with Isola Way,

Sequoia Way, Gaviota Way, El Sereno Way, Rio Court, Marietta Drive, Los Palms Drive, and including the crossings of Teresita Boulevard with Reposa Way and Arroyo Way and Teresita Boulevard between the north line of Stanford Heights Avenue and a line 240 feet easterly and parallel to the easterly line of Foerster Street, including the intersections of Teresita Boulevard with Stanford Heights Avenue, Kenyon Avenue and Stillings Street, has heretofore been paved in accordance with the specifications of the Department of Public Works, which said paving was completed during the year 1929; and

Whereas, it was certified by M. M. O'Shaughnessy, then City Engineer, that said paving of said Teresita Boulevard, as hereinbefore described, was so paved in accordance with said specifications and that the necessary sewers, gas and water pipes were laid therein; and

Whereas, no formal acceptance of said street was ever given by the Board of Supervisors; and

Whereas, immediately upon the completion of the paving of said Teresita Boulevard, as hereinbefore set forth, the same was thrown open to the public and used as an open public street in the City and County of San Francisco; and

Whereas, by reason of excessive travel over said Teresita Boulevard the pavement thereof has in places deteriorated and is now in need of reconstruction; and

Whereas, Meyer Brothers, who are the owners of a majority of the property fronting on said Teresita Boulevard, have deposited with the Director of Public Works the sum of Six Thousand Dollars (\$6000.00) for the purpose of aiding in the repair of said Teresita Boulevard; and

Whereas, the Director of Public Works estimates that the cost of repairing said Teresita Boulevard will be approximately Twelve Thousand Dollars (\$12,000.00); and

Whereas, the fact that the hereinbefore described portions of the roadway of Teresita Boulevard were not accepted at the time of the completion of the paving of said boulevard in 1929, was not the fault of Meyer Brothers or of any of the property owners whose property abuts said boulevard within the boundaries referred to.

Section 2. Therefore, it is ordered that the Director of Public Works shall accept from Meyer Brothers the said sum of Six Thousand Dollars (\$6000.00) to be applied towards the repair of said Teresita Boulevard within the boundaries hereinbefore referred to and that such additional amounts of money as may be necessary to complete said repairs shall be furnished from funds of the City and County of San Francisco which are or may be made available for such purpose.

Authorizing Settlement of Dispute Between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in Connection with Construction of the Richmond Sewer Tunnel and Appurtenances.

(Series of 1939)

The following matter was taken up:

Bill No. 270, Ordinance No., as follows:

Authorizing settlement of dispute between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and De-

posit Company of Maryland, in connection with construction of the Richmond Sewer Tunnel and appurtenances.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The City Attorney having recommended the settlement of the action of City and County of San Francisco, a municipal corporation, v. MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, Superior Court, San Francisco, No. 282,136, said action being one for the purpose of determining the liability of the City and County of San Francisco, a municipal corporation, MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, for damages under the contract of August 22, 1936, wherein and whereby MacDonald & Kahn Co., Ltd., as contractor agreed to construct a sewer tunnel according to certain plans and specifications prepared by the City and County of San Francisco, and said MacDonald & Kahn Co., Ltd., having agreed as follows:

"This Agreement, made and entered into this 17th day of March, 1939, by and between the City and County of San Francisco, a municipal corporation, hereinafter called the 'City,' party of the first part, and MacDonald & Kahn Co., Ltd., a Delaware corporation, hereinafter called the 'Contractor,' party of the second part,

Witnesseth

"Whereas, on or about the 22nd day of August, 1936, the Contractor made and entered into a contract with the City providing for the construction of a sewer tunnel known and designated as the 'Richmond Sewer Tunnel and Appurtenances,' according to plans and specifications prepared by said City; and

"Whereas, on or about the 1st day of October, 1936, the Contractor commenced the construction of said public work in accordance with said contract, which said work was completed and accepted by said City on or about the 24th day of March, 1938, and;

"Whereas, various claims and actions have been and may be presented and brought against the City and Contractor alleging liability for damage to property claimed to have been caused by the construction of said public work; and

"Whereas, City contends that the Contractor has undertaken to defend, indemnify and save harmless the City from any and all such claims arising out of the construction of said public work, and it is the contention of the Contractor that it has not agreed to undertake and is not bound to defend and indemnify or save harmless the City against such claims or suits unless the damage was caused by negligence of the Contractor in the construction of said public work, and it is the further contention of the Contractor that it was not negligent in the performance of said contract; and

"Whereas, the parties desire to compromise and settle said dispute in order to save the time, costs and expense of litigation;

"Now, Therefore, in consideration of the premises, it is agreed by and between the parties hereto as follows:

"1. The Contractor agrees to pay two-thirds and the City agrees to pay the remaining one-third of the amount of any damages, including costs, which may be awarded by final judgment against said City and said Contractor jointly or against said City alone or said Contractor alone in favor of any property owner for damage to property caused by or arising out of the construction of said public work. In other words, it is the intent and purpose of the foregoing agreement that if any property owner shall recover final judgment against both said City and said Contractor jointly, such judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City

alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said Contractor alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City and said Contractor in different amounts in the same action (said judgment not being joint), the total of such judgment against both parties shall be jointly satisfied by said City and Contractor in the proportions stated.

"2. In the event any such judgment shall, through legal process or by mutual consent of said City and Contractor, be wholly satisfied by said City alone or by said Contractor alone, then the party who did not contribute to the satisfaction of such judgment shall promptly on demand pay its proportion, as stated above, of such judgment to the party who has wholly satisfied the judgment. Such demand may be made on said City by service on the City Attorney and on the Contractor by service on its attorneys of record.

"3. Said City and Contractor shall use their best efforts to settle any claims or actions for damage to property caused by or arising out of the construction of said public work for which damage there is or may be liability on the part of said City and Contractor, or either of them. In the event said City and Contractor mutually agree to settle any suit, claim or action, the amount necessary to effect such settlement shall be paid to such property owner by said City and Contractor in the proportions stated above.

"4. This agreement shall not include or apply to any liability established by default of either party or to any liability assumed or admitted by either party hereto without the written consent of the other party thereto, or its attorney.

"5. Each party hereto shall cooperate with the other to the fullest extent in the defense of any action referred to herein and brought against both or either of the parties hereto; each party hereto shall be represented by its own attorney in any such action; the expenses of procuring expert testimony and of making investigations mutually agreed upon by the attorneys for the parties hereto as being necessary to the proper defense of any such action shall be paid by each of said parties in the proportions above set forth; either costs and expenses accruing to said parties shall be borne by the party incurring the same.

"6. In consideration of this agreement and the payments to be made by said Contractor in event judgment or judgments may be recovered or settlements made as aforesaid, said City acknowledges full and complete satisfaction of any and all provisions of the contract, referred to above, and Invitation for Proposals, Proposals Submitted, Information for Bidders, and Plans and Specifications numbered 18,942 referred to and made a part of said contract, requiring said Contractor to defend, indemnify, save harmless said City from damages, costs or liability to property of others arising from Said Contractor's performance of said contract, work or operations; said City does further agree that this agreement shall supersede and take the place of the said provision of said contract, plans and specifications and does hereby release and discharge said Contractor from any and all such provisions of said contract, plans and specifications; and said City does hereby agree that it shall have no right to recover from said Contractor any payment said City may make or is required to make pursuant to the terms of this agreement.

"7. It is further agreed that the terms of this agreement shall not apply to any claims or actions against the said City for value of property taken for rights of way or easements for the construction of said public work.

"8. The parties hereto agree to employ some person satisfactory to the City and the Contractor for the purpose of negotiating the settlement of said claims and actions, the expense of said negotiations to be paid by each of the parties in the proportions set forth."

And said Fidelity and Deposit Company of Maryland having agreed as follows:

"Whereas, Fidelity and Deposit Company of Maryland executed its bond in favor of the City and County of San Francisco, dated August 21, 1936, in the principal sum of Two Hundred and Twenty-three Thousand Dollars (\$223,000.00), conditioned upon the faithful performance of the contract between the City and County of San Francisco and MacDonald & Kahn Co., Ltd., dated the 22nd day of August, 1936, providing for the construction of the Richmond Sewer Tunnel and Appurtenances; and

"Whereas, said City and County of San Francisco is willing to execute the foregoing agreement of settlement upon the condition that the Fidelity and Deposit Company of Maryland shall not be released of its obligations pursuant to the terms of said bond by reason of the execution of said agreement of settlement;

"Now, Therefore, in consideration of the execution of the foregoing agreement by the City and County of San Francisco the Fidelity and Deposit Company of Maryland does hereby consent and agree to the execution of said agreement and all the terms and conditions thereof, and does hereby covenant and agree that the execution of said agreement shall not in any manner be construed so as to relieve or release the Fidelity and Deposit Company of Maryland from any of its obligations or liabilities provided for in said bond.

"Dated: March 16, 1939."

Privilege of the Floor

Henry Heidelberg, Assistant City Attorney, was granted the privilege of the floor. He said that time was of the essence in the settlement of all claims for damages by reason of construction of the Richmond Sewer Tunnel and appurtenances; that the consent of the Board of Supervisors was necessary in the matter; and that blanket approval by the Board of all claims would hasten their settlement; also, that inasmuch as the city on the face of it was liable for its proportionate share of damages nothing was to be gained by delay.

Discussion

Supervisor Brown stated he had been requested to present the foregoing ordinance by the Public Welfare Department, which department had asked immediate enactment.

Reference to Public Welfare Committee

Whereupon, the matter was referred to the Public Welfare Committee.

Action to Rescind Refused

Supervisor McSheehy therefore expressed himself as being against the reference of the ordinance on the grounds that one, Mrs. Violet M. Lee, 3061 Fillmore Street, desired to be heard, and that until she had been heard as to her own particular case he was against reference of the foregoing matter to committee. He further stated he wished his vote so recorded.

He thereupon presented a communication from the Workers' Alliance calling attention to the case of Violet Lee and her five children which alleged that this family were starving as a result of the operation of the ordinance No. 123 in its present form affecting non-residents.

Privilege of the Floor

Supervisor McSheehy moved the privilege of the floor to Mrs. Violet M. Lee, 3061 Fillmore Street, who stated that since June 20 she had received no aid from the relief agency as she had not been able to maintain herself for three consecutive years. She stated she had five children, the oldest one being a boy of eighteen, another boy of fifteen who is a cripple for life, another boy of fourteen, a girl of eleven, and another boy aged two years. She is divorced from her husband and has lived apart from him since June, 1928.

Supervisor McSheehy then moved the privilege of the floor to Mrs. A. M. Croxon, 2190 Bay Street, who verified the statement made by Mrs. Lee.

Passed for Second Reading

Whereupon, the ordinance proposed by Supervisor Brown and referred to the Welfare Committee was taken up in part in order to afford immediate relief and passed for second reading by the following vote: to wit:

Amending Section 5 of Ordinance No. 121 (Series of 1939), relating to period dependent non-residents may receive relief. (Series of 1939)

Supervisor Brown presented Bill No. 269, Ordinance No., as follows:

Amending Section 5 of Ordinance No. 121 (Series of 1939) entitled, "Providing for the granting of emergency relief to dependent non-residents of the City and County of San Francisco, defining certain terms used in this Ordinance, determining the amount and character of relief which may be granted to dependent non-residents and authorizing the Public Welfare Commission to administer said relief and to make rules and regulations regarding the granting of said relief and to incur, on behalf of the City and County of San Francisco, the cost of transporting non-resident indigents to another county or state."

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 5 of Ordinance No. 121 (Series of 1939), the title of which is recited above, is hereby amended to read as follows:

Section 5. The Director of Public Welfare may, without the consent of the Public Welfare Commission, grant emergency relief to dependent non-residents as in this ordinance provided for a period of not exceeding **twenty (20)** days when it is not practicable for the Public Welfare Commission to determine the absolute necessity for said relief; provided that the Director of Public Welfare shall make a report to the Public Welfare Commission at its meeting following the granting of said relief, of any relief so granted, and no further relief shall be granted to said non-resident, without the approval of the Commission.

Motion

Supervisor Roncovieri moved that copy of letter accompanying the foregoing ordinance be sent to the San Francisco Public Welfare Commission, the Community Chest, to get their views on this particular matter, and further, that they be invited to meeting of the Public Welfare Committee Friday, August 11, 1939, at 11 A. M.

Referred

Thereupon the balance of the ordinance as follows was referred to the Public Welfare Committee and fixed for hearing Friday, Aug. 11, 1939, at 11 A. M. Clerk to notify Community Chest and Public Welfare Commission.

Amending Section 6 of Ordinance No. 45 (Series of 1939) (Series of 1939)

Bill No., Ordinance No., as follows:

Amending Section 6 of Ordinance No. 121, (Series of 1939) entitled, "Providing for the granting of emergency relief to dependent non-residents of the City and County of San Francisco, defining certain terms used in this ordinance, determining the amount and character of relief which may be granted to dependent non-residents and authorizing the Public Welfare Commission to administer said relief and to make rules and regulations regarding the granting of said relief and to incur, on behalf of the City and County of San Francisco, the cost of transporting non-resident indigents to another county or state."

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 6. Any dependent non-resident who was, on the 15th day of March, 1939, receiving emergency relief through the Board of Supervisors of the City and County of San Francisco or through the Public Welfare Commission thereof, may, if the conditions on which the allowance of said relief was made have not changed, continue to receive said relief through the agency of the Public Welfare Commission until the **15th day of February, 1940**, and the Board of Supervisors does hereby declare that said persons, as long as the conditions on which the granting of said relief were based have not changed, are entitled to emergency relief pursuant to the provisions of Section 2501 of the Welfare and Institutions Code, to and until the **15th day of February, 1940**.

Mr. President and Gentlemen of the Board:

Might I respectfully ask your kind indulgence and direct your attention to a question of great moment, vitally affecting the future destiny of our great city.

A question to which I have of late given much thought and consideration, and which I am about to offer to this honorable Board for

its study, deliberation and adoption, lest it be said that our board has failed to act and shirked its responsibility.

The fundamental basis on which the welfare and prosperity of a community rests is a peaceful and harmonious relationship between capital and labor.

Whenever there are prolonged or frequently recurring disruptions of harmony, then a sense of insecurity and lack of confidence pervades a community, with the result that basic industries cannot prosper and grow. This in turn leads to business stagnation and lessened opportunities for the employment of labor.

Owing to the fact that any deviation from normal business and labor relationships vitally and fundamentally affects every citizen whatever his vocation might be, the maintenance of industrial peace in every large community should be the responsibility of the Municipal Government.

Granted that the welfare of all of the people of San Francisco is the direct concern of the city government, representing as it does, labor, capital and the citizens at large, it is the duty of the city administration to recognize its responsibility and do its share to bring about the maintenance of industrial peace.

Without question the future prosperity of every citizen of San Francisco is based upon industrial peace. Labor wants it, capital wants it, San Franciscans at large want it. All groups are anxiously and sincerely striving and searching for ways and means of avoiding misunderstandings, lockouts and strikes. An atmosphere of suspense and uncertainty surrounds us. We must do our part to bolster the morale of our citizens. All groups are looking for a common ground on which to meet, deliberate and act.

Today the eyes of the world are focused upon San Francisco with great questioning. The country is wondering how San Francisco is going to handle the problem. The investing capital of the United States is watching San Francisco. We are fully aware of the fact that large sums of money which should be spent here for industrial development and expansion are frozen and inactive.

Any city that can present the great opportunities for investment in industry that San Francisco presents, with her incomparable harbor and accessibility to all parts of the world should give heed to the call for industrial tranquility. The possibilities for her development are unlimited if we can but present to the world a picture of **permanent industrial peace.**

Without industrial peace based upon fair returns on the investment of capital and equitable working conditions for labor, San Francisco cannot look forward to an era of growth and prosperity to which she is rightfully entitled.

Every member of a labor union in San Francisco has a right to expect and to receive a reasonable profit over and above the necessities of life for himself and his family. Every member of a labor union in San Francisco wants industrial peace, **providing** that peace gives him economic security and proper working conditions.

Every industry in San Francisco has a right to expect and to receive a reasonable profit after costs of operation are paid. The security of every industry depends on industrial peace. These common desires of capital and labor are entirely compatible.

In order to maintain industrial peace I am desirous of seeing established in San Francisco, a **Labor Peace Board** before whom either labor or industry can voluntarily and with confidence present their grievances. This Labor Peace Board shall be equally representative of labor, capital and the citizens at large, and if fairly constituted will give satisfaction to labor and capital alike, with resulting good to the entire community.

An awakened and enlightened public can bring San Francisco back to her position of industrial supremacy. Through just mediation by the Labor Peace Board, labor and capital can again establish confidence and security. To labor the security and safety of its payrolls, to capital the security and safety of its investment.

Industrial peace with its resulting establishment of confidence will be the turning point in the history of this great city. The common welfare of all our people is involved.

Confidence is the watchword of our future commercial development.

Confidence in San Francisco by her own people must be re-established.

Confidence in San Francisco by the counties of California must be re-established.

Confidence can be established by the presentation to the world of a city of industrial peace, wherein capital may safely be invested and equitable working conditions offered to the laborer.

There is now no local official body which can assist and help maintain peaceful relationships. The establishment of a Labor Peace Board to handle local labor relations with equal representation of labor, capital and citizens at large, will place in the hands of our city the necessary machinery to maintain industrial tranquility and thus enable our city to rise to new heights of business and commercial development for the benefit and prosperity of all.

"Let Us Have Peace"

Therefore, I present at this time the following resolution to this Honorable Board:

DR. ADOLPH E. SCHMIDT.

Referred to Public Welfare Committee

The following matters were read and presented by Supervisor Schmidt.

Mayor Requested to Appoint Labor Peace Board

(Series of 1939)

Resolution No....., as follows:

Whereas, There exists in the City and County of San Francisco an atmosphere of anxiety and uncertainty concerning the possibility of renewed industrial strife and misunderstanding between the interested parties of our local waterfront shipping industry; and

Whereas, Such a state of uncertainty with its resulting loss of confidence cannot help but react adversely to the welfare of both labor and capital; and

Whereas, The future industrial growth and development of our city as well as the prosperity of all its citizens is primarily dependent on industrial peace based on collective bargaining; and

Whereas, It is always desirable and easier to dispassionately consider industrial differences before any open break has occurred; and

Whereas, No local appellate board exists before whom both sides to an industrial controversy can voluntarily and with a feeling of confidence appeal; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco create an official Labor Peace Board, before whom both labor and capital can present their grievances for a fair and impartial hearing and consideration; and be it

Further Resolved, That the Labor Peace Board shall consist of five representatives of labor, five representatives of capital and five citizens representing the general public, all of whom shall serve without pay for a period of two years; and be it

Further Resolved, That His Honor the Mayor shall appoint the fifteen members of the Labor Peace Board, five each from panel lists submitted by the representatives of labor and by the Employers Association of San Francisco and five additional members representing the general public as follows: (1) A member of the Catholic Clergy; (2) A member of the Protestant Clergy; (3) A Jewish Rabbi; (4) A local Federal Judge; (5) The President of one of the representative civic organizations of San Francisco; and be it

Further Resolved, That the Labor Peace Board be supplied with the services of a clerk-stenographer and that sufficient funds for this service and incidental expenses be provided.

Purchase of Gas House Cove at Marina With P. G. & E. Franchise Payment

(Series of 1939)

Supervisor Uhl presented Resolution No., as follows:

Whereas, This Board of Supervisors has committed itself to the purchase of lands lying between Webster on the west, Laguna on the east and Beach on the north; one particular parcel in this area is owned by the Pacific Gas & Electric Company, commonly known as Gas Cove, and

Whereas, There was placed in the 1939-40 Budget the sum of \$20,000 to be applied on the purchase of the Gas Cove land owned by the Pacific Gas & Electric Company by the City and County of San Francisco, and

Whereas, The Pacific Gas & Electric Company is indebted to the City and County of San Francisco in the sum of \$400,000 covering the amount in arrears for franchise tax on gas and electricity for other than lighting, and

Whereas, To purchase the said property on the installment plan would involve a heavy interest charge, and

Whereas, It has been agreed that \$400,000 shall be the price the City and County of San Francisco pays the Pacific Gas & Electric Company for the Gas Cove, and

Whereas, Inasmuch as the City and County of San Francisco desires to purchase the holdings of the Pacific Gas & Electric Company, known as Gas Cove, it would be advisable to deduct from the \$400,000 the appraised price of the Gas Cove holdings of the Pacific Gas & Electric Company, and the balance of the \$400,000 paid in cash; therefore, be it

Resolved, That the value of the Gas Cove property of the Pacific Gas & Electric Company be immediately ascertained; that the amount of said appraisal be deducted from the \$400,000; said Gas Cove property be deeded to the City and County free of encumbrances, and the balance of the \$400,000 paid in cash to the City and County of San Francisco.

The following matter presented by the Public Utilities Committee, without recommendation, was taken up:

Application of the Market Street Railway Company for Permission to Supplement Present Street Car Service with Bus Service on Lines Nos. 10, 25, 27, 35 and 36.

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Market Street Railway Company, under and by virtue of an operating permit granted by the City and County of San Francisco and dated February 9th, 1931, is operating a street railway in the City and County of San Francisco, State of California.

That Market Street Railway Company, in conjunction with and as supplemental to said operating permit, desires to operate bus lines over and along the routes hereinafter described and set forth, it being the purpose and intent of the Company to operate its street cars over said routes during what is known as the morning and afternoon rush periods; that said bus lines will be operated subject to all the terms and conditions of said operating permit dated February 9th, 1931, except as herein stated, and such operation shall be without prejudice to any of the other rights now owned or held by the Market Street Railway Company under said operating permit.

That the said operation of street cars and bus lines will give to the residents residing along the routes hereinafter set forth a better and more convenient service, and public service will be improved.

Said permit, or any of the privileges thereby granted or exercised thereunder, shall not, in any proceeding instituted by the City and County of San Francisco to acquire the system of said Market Street Railway Company, be deemed an asset or thing of value.

In the operation of said buses the Company will comply with all state and municipal rules, laws and regulations relating to the operation of said buses.

Transfers will be issued to the street railway lines of Market Street Railway Company under the rules and regulations of said Company.

That the said permit shall not be assigned or transferred without the consent of the Board of Supervisors, and, before the same shall become effective, the Market Street Railway Company shall file with the Board of Supervisors a written acceptance of said permit in which it shall agree to accept said permit, subject to all the conditions herein contained.

Attached hereto is a proposed form of resolution, to be adopted by your Honorable Board, granting Market Street Railway Company the permission herein requested.

The following is a description of the routes along and over which Market Street Railway Company desires to operate said buses as aforesaid:

No. 10 Line—

From Genessee Street and Monterey Boulevard over Monterey Boulevard to Diamond Street, to Chenery Street, to Thirtieth Street, to San Jose Avenue, to Guerrero Street, to Fourteenth Street, to Mission Street, to the Embarcadero, to the Ferry Building, returning via same route.

No. 25 Line—

Buses will be looped at Twenty-sixth and Mission Streets as follows:

From Twenty-sixth Street to Mission Street, to Twenty-fifth Street, to Capp Street, to Twenty-sixth Street.

MARKET STREET RAILWAY COMPANY.

By Samuel A. Kahn,

President.

Note: The foregoing application is referred to the Board without recommendation and with the request that its consideration be made a special order of business for Monday, August 14th, at 2:30 p. m., by the Board sitting as a Committee of the Whole.

Several important questions, legal and otherwise, have arisen in connection with the foregoing application and it is thought prudent, in order to obviate delay, that the procedure herein suggested be followed.

The Public Utilities Committee will, in the interim, endeavor to have the City Attorney prepare legal provisions for each of the conditions which were suggested for inclusion in the proposed permit, so that the Board may have them before it at the time of consideration of the application on Monday next.

Discussion.

Supervisor Meyer, Chairman of the Public Utilities Committee, provisions having been prepared for the inclusion of certain provisions in the requested permits, the Committee was ready to recommend the granting of the application of the Market Street Railway Company.

Whereupon, Supervisor McSheehy presented the following, which was read by the Clerk:

Memoranda for Supervisors McSheehy and Meyer in Re Application for Bus Permits by Market Street Railway Company.

No. 1—No loops should be permitted into Market Street as indicated upon the application of the Company. This is in accordance with the recommendation of Mr. E. G. Cahill, Manager of Utilities. If buses are permitted to loop in and out of Market Street at either First,

Second, Fifth or Sixth Streets, that such a course will seriously hinder Market Street traffic, which, at the moment, is already overburdened, and therefore recommend that buses approaching Market Street loop from Mission Street into Howard Street and thereby relieve Market Street traffic congestion at both First and Second Streets and at Fifth and Sixth Streets.

No. 2—Irrespective of franchise provisions under which the Market Street Railway Company is operating its cars over the respective routes affected by the bus permits applied for, a definite headway for buses should be provided. This headway should be not less than fifteen minutes during off peak hours, and a study should be made as to the necessary headway to afford service during peak hours. I believe that study should be given to Sections 17 and 18 of Chapter IX, Part III of the Municipal Code, to the end that a proper headway in bus service should be maintained, and that the Board of Supervisors in the granting of any application for bus service should reserve the right to regulate bus or car headway in the future.

No. 3—All permits should contain the provision that all income from said buses shall be considered in the determination of the amount of tax to be paid by the company in so far as any franchise tax is to be paid upon income.

No. 4—No value should be given at any time to the permit to operate buses, and should the City at any time take over the properties of the Company, it should be optional with the City to evaluate the buses as a part of the operative properties or to exclude them from the operative properties of the Company; likewise the street cars supplanted by buses may at the option of the City be excluded as operative properties.

No. 5—Whenever, in the judgment of the Board of Supervisors, service to the public can be maintained during peak and off-peak hours without rails and street cars, the Company should remove street car tracks and repave the street affected by the removal.

No. 6—While the Castro Street cable line is not directly affected by the pending bus applications, nevertheless, as a condition precedent to the granting of the asked for permits, the Company should agree to an improved service on Castro Street from Eighteenth Street southward to the end of its cable terminus. While the Eighteenth Street termini of the cable road is at this time at 18th and Castro Streets, I would strongly recommend a careful study as to whether transfer arrangements could not be entered into between the Municipal Railway and the Market Street Railway Company which will accommodate the patrons of the Castro Street cable lines. Should the Board set a headway on the Castro Street line, a reservation should be made for the right to change it in the future.

Committee of the Whole

On motion by Supervisor McSheehy, seconded by Supervisor Uhl, the Board resolved itself into a Committee of the Whole, Supervisor Ratto presiding as chairman.

Communications

Communications were received and read by the Clerk, as follows:

From the Eureka District Street Car Transportation Committee, H. F. Stolz, Chairman, urging the granting of the application for bus permits, but with provisions precedent to the granting thereof to cover the headway of, and the hours during which the Market Street Railway Company shall be required to operate its cars on the Castro cable line, also, an agreement for interchange of transfers by the Company and the Municipal Railway between the Castro Cable line and the Municipal cars operating on Market Street.

From the Central Mission Improvement Association, Inc., urging the granting of the applications for bus permits, provided that the railway company be required to operate a bus on 24th Street between Rhode Island and Guerrero Streets during the day and night, and that the present route of the No. 35 Line be changed so as to run from the ferry out Howard Street and South Van Ness Avenue to 26th Street, and thence to 26th and Mission Streets; and provided further that suitable headways be specified on proposed bus lines.

From the Negro Chamber of Commerce of San Francisco, A. E. Brown, Secretary, urging the granting the applications of the Market Street Railway Company for bus permits.

Discussion

Mr. L. V. Newton, representing the Market Street Railway Company, on being granted the privilege of the floor, commented on the various recommended provisions to be incorporated in legislation approving the company's application for bus permits, as follows:

1. Company suggested that a trial for a period of six months be permitted, during which time buses would be looped on Market Street, as per the application; that if such looping should prove unsatisfactory, modifications could then be made.

However, in view of objections which were raised, Mr. Newton agreed to the looping of buses on Mint Street and on Stevenson Street, between Sixth and Fifth Streets, and between Second and First Streets, instead of the loops on Market Street.

2. The Company is willing to have inserted in application, provision providing for fifteen minute headway, as recommended, but feels such provision unnecessary since it is already contained in the original franchises.

However, on motion by Supervisor Uhl, after discussion, the City Attorney was instructed to draft in legislation granting the requested permits, provision similar to franchise provision protecting the right of the Board with respect to service to be rendered by the Company.

3. Company is willing to pay franchise taxes as imposed by the franchise governing the individual lines. However, language of Recommendation No. 3 seems to be misleading.

Thereupon, Supervisor Uhl moved that Recommendation No. 3 be approved but the language be modified as suggested.

4. The Company agreeing thereto, on motion by Supervisor McSheehy, the recommendation was approved.

5. The Company cannot agree to Recommendation No. 5. However, if and when the company ceases rail operation entirely, it will remove the tracks and repave that portion of the street affected.

Referred to City Attorney for including in proposed legislation.

6. Supervisor Uhl raised the point that consideration of the Castro Street Cable line is not part of the application of the Company, and accordingly, consideration thereof was not in order at the time.

The Chair sustained the point of order.

Privilege of the Floor

Mr. George Allen, of the Civic League of Improvement Clubs; Mr. Adolph Petry, representing the Central Council of Civic Clubs; Mr. M. P. Nelson, Chairman of Transportation Committee of the Central Mission Improvement Association; and Mr. Fisher, of the Mission Street Merchants Association, urged the granting of the application for permission to establish bus service on the various routes. Mr. E. P. Troy and Mr. Lloyd Kelman, both representing themselves, offered no objection to the granting of the application, but suggested the

incorporation in the desired legislation of safeguards for the protection of the entire city.

Committee of the Whole Arises

Thereupon, Supervisor Colman, seconded by Supervisor Uhl, moved that the Committee of the Whole rise and report.

No objection and so ordered.

Reconvening as Board of Supervisors

Whereupon, on motion duly made and seconded, the Board reconvened as a Board of Supervisors.

Approval of Application

Supervisor Colman, seconded by Supervisor Brown, moved that the Board of Supervisors approve the permits as requested by the Market Street Railway Company, and instruct the City Attorney to draw up the necessary legislation to put them into effect, subject to the changes recommended and after consultation with the representative of the Market Street Railway Company.

Amendment to Motion

Supervisor McSheehy moved, as an amendment to the foregoing, that further consideration be postponed for one week, and made a special order of business on Monday, August 21, 1939, at 2:30 P. M.

Amendment accepted as part of original motion.

Explanation of Vote

Supervisor McSheehy, in explaining his vote on the foregoing motion, stated that he was not committing himself in the matter until after the requested legislation had been prepared and presented to the Board.

Motion Carried

Thereupon, no objection being voiced, the Chair declared the motion carried, and further consideration postponed until Monday, August 21, 1939, at 2:30 P. M.

Section 5. Whenever any paint or lacquer material is to be sprayed or applied to a motor vehicle, or parts thereof, the battery of said motor vehicle shall be disconnected and shall remain disconnected until such time as the room has been cleared of vapor.

Section 6. It shall be unlawful for any person to conduct, operate or maintain a paint shop as defined in this ordinance of the City and County of San Francisco without first obtaining a permit so to do as set forth in this ordinance.

Section 7. Every person desiring to establish, conduct, or operate a paint shop in the City and County of San Francisco, shall make application for a permit so to do to the Division of Fire Prevention and Investigation on forms provided by the Division of Fire Prevention and Investigation, and shall pay to the Division of Fire Prevention and Investigation a fee of \$12.84 in advance to cover the cost to the City and County of San Francisco of the necessary investigations provided for in this ordinance prior to the approval or disapproval of said application.

An application for a paint shop permit shall be acted upon within ten (10) days after the filing of such application and the fee collected shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn.

Section 8. Upon receipt of said application provided for in the preceding section, the Chief shall cause to be investigated the facts as set forth in the application and the premises for which the permit is requested. The Chief shall cause to be forwarded copies of said application to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity for investigation by their respective departments as to whether the ordinances, rules, and regulations of the City and County of San Francisco, pertaining to their departments, are complied with. The City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity shall after such investigation either approve or disapprove such application and return same within seven (7) days after receipt with such endorsement thereon to the Division of Fire Prevention and Investigation. If the application is disapproved the reason or reasons for such disapproval shall be stated.

In the event that the application for a paint shop permit is disapproved, the Chief shall give the reason for such disapproval. Upon receiving such written notice from the Chief, such person shall have the opportunity of correcting such conditions in and about the premises wherein the paint shop is located and the equipment used therein as have been decided hazardous. The Tax Collector shall issue a license for each paint shop for which the fee was paid, showing thereon: (a) Name and address of the permittee. (b) Address of the paint shop. (c) Number of the permit. (d) Expiration date of the license, which date shall be the expiration date of the permit.

Communications

Communications from Little Business of California, Inc., and from Commercial Fixtures and Store Front Institute, opposing the enacting of the proposed Paint Spray Ordinance, were presented and read by the Clerk.

Motion for Postponement

Supervisor Uhl objected to the proposed ordinance, stating that in his opinion it was merely loading additional taxes on industry, and was unjustified. Accordingly, he moved postponement of further consideration for a period of six months.

Motion failed for want of a second.

Privilege of the Floor

Captain Frank Kelly, Chief of the Division of Fire Prevention, San Francisco Fire Department, urged the passage of the proposed ordinance.

Captain H. M. Gleason, of the American Hawaiian Steamship Company, opposed the proposed legislation.

Explanations of Votes

Supervisor Roncovieri announced his intention to vote "Aye" on the proposed legislation requested by the Fire Department. He would not, by his vote, be held responsible for any fire that might occur in a paint spray shop. It was because of his faith in the officials of San Francisco, and particularly of the Fire Department, that he was voting in favor of the proposed legislation.

Supervisor Brown stated he would vote in favor of the Paint Spray Ordinance, because he felt there was a very definite hazard involved. He did not believe there would be any abuse as long as Fire Marshal Kelley retained his position, but should there be need for amendment at a future time, that could easily be done.

Supervisor Schmidt announced that having been assured that the smaller occasional user would not be affected, he would vote in favor of the ordinance.

Supervisor Uhl suggested that provision be made in Paragraph (f) of Section to assure that no charge would be made for temporary permits for the occasional user of the spray gun. However, on the Fire Marshal's opposition to such provision, and accordingly no action

thereon being taken, Supervisor Uhl announced his intention to vote against the ordinance.

Passed for Second Reading

Thereupon, the roll was called and the foregoing ordinance was Passed for Second Reading by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt—9.

No: Supervisor Uhl—1.

Absent: Supervisor Shannon—1.

SPECIAL ORDER—4:30 P. M.

Passage for Second Reading

The following matter presented by the Finance Committee without recommendation, was taken up:

Authorizing Settlement of Dispute Between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in Connection with Construction of the Richmond Sewer Tunnel and Appurtenances.

(Series of 1939)

Bill No. 270, Ordinance No., as follows:

Authorizing settlement of dispute between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in connection with construction of the Richmond Sewer Tunnel and appurtenances.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The City Attorney having recommended the settlement of the action of City and County of San Francisco, a municipal corporation, v. MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, Superior Court, San Francisco, No. 282,136, said action being one for the purpose of determining the liability of the City and County of San Francisco, a municipal corporation, MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, for damages under the contract of August 22, 1936, wherein and whereby MacDonald & Kahn Co., Ltd., as contractor agreed to construct a sewer tunnel according to certain plans and specifications prepared by the City and County of San Francisco, and said MacDonald & Kahn Co., Ltd., having agreed as follows:

"This Agreement, made and entered into this 17th day of March, 1939, by and between the City and County of San Francisco, a municipal corporation, hereinafter called the 'City,' party of the first part, and MacDonald & Kahn Co., Ltd., a Delaware corporation, hereinafter called the 'Contractor,' party of the second part,

Witnesseth

"Whereas, on or about the 22nd day of August, 1936, the Contractor made and entered into a contract with the City providing for the construction of a sewer tunnel known and designated as the 'Richmond Sewer Tunnel and Appurtenances,' according to plans and specifications prepared by said City; and

"Whereas, on or about the 1st day of October, 1936, the Contractor commenced the construction of said public work in accordance with

said contract, which said work was completed and accepted by said City on or about the 24th day of March, 1938, and;

"Whereas, various claims and actions have been and may be presented and brought against the City and Contractor alleging liability for damage to property claimed to have been caused by the construction of said public work; and

"Whereas, City contends that the Contractor has undertaken to defend, indemnify and save harmless the City from any and all such claims arising out of the construction of said public work, and it is the contention of the Contractor that it has not agreed to undertake and is not bound to defend and indemnify or save harmless the City against such claims or suits unless the damage was caused by negligence of the Contractor in the construction of said public work, and it is the further contention of the Contractor that it was not negligent in the performance of said contract; and

"Whereas, the parties desire to compromise and settle said dispute in order to save the time, costs and expense of litigation;

"Now, Therefore, in consideration of the premises, it is agreed by and between the parties hereto as follows:

"1. The Contractor agrees to pay two-thirds and the City agrees to pay the remaining one-third of the amount of any damages, including costs, which may be awarded by final judgment against said City and said Contractor jointly or against said City alone or said Contractor alone in favor of any property owner for damage to property caused by or arising out of the construction of said public work. In other words, it is the intent and purpose of the foregoing agreement that if any property owner shall recover final judgment against both said City and said Contractor jointly, such judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said Contractor alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City and said Contractor in different amounts in the same action (said judgment not being joint), the total of such judgment against both parties shall be jointly satisfied by said City and Contractor in the proportions stated.

"2. In the event any such judgment shall, through legal process or by mutual consent of said City and Contractor, be wholly satisfied by said City alone or by said Contractor alone, then the party who did not contribute to the satisfaction of such judgment shall promptly on demand pay its proportion, as stated above, of such judgment to the party who has wholly satisfied the judgment. Such demand may be made on said City by service on the City Attorney and on the Contractor by service on its attorneys of record.

"3. Said City and Contractor shall use their best efforts to settle any claims or actions for damage to property caused by or arising out of the construction of said public work for which damage there is or may be liability on the part of said City and Contractor, or either of them. In the event said City and Contractor mutually agree to settle any suit, claim or action, the amount necessary to effect such settlement shall be paid to such property owner by said City and Contractor in the proportions stated above.

"4. This agreement shall not include or apply to any liability established by default of either party or to any liability assumed or admitted by either party hereto without the written consent of the other party thereto, or its attorney.

"5. Each party hereto shall cooperate with the other to the fullest

extent in the defense of any action referred to herein and brought against both or either of the parties hereto; each party hereto shall be represented by its own attorney in any such action; the expenses of procuring expert testimony and of making investigations mutually agreed upon by the attorneys for the parties hereto as being necessary to the proper defense of any such action shall be paid by each of said parties in the proportions above set forth; either costs and expenses accruing to said parties shall be borne by the party incurring the same.

"6. In consideration of this agreement and the payments to be made by said Contractor in event judgment or judgments may be recovered or settlements made as aforesaid, said City acknowledges full and complete satisfaction of any and all provisions of the contract, referred to above, and Invitation for Proposals, Proposals Submitted, Information for Bidders, and Plans and Specifications numbered 18,942 referred to and made a part of said contract, requiring said Contractor to defend, indemnify, save harmless said City from damages, costs or liability to property of others arising from Said Contractor's performance of said contract, work or operations; said City does further agree that this agreement shall supersede and take the place of the said provision of said contract, plans and specifications and does hereby release and discharge said Contractor from any and all such provisions of said contract, plans and specifications; and said City does hereby agree that it shall have no right to recover from said Contractor any payment said City may make or is required to make pursuant to the terms of this agreement.

"7. It is further agreed that the terms of this agreement shall not apply to any claims or actions against the said City for value of property taken for rights of way or easements for the construction of said public work.

"8. The parties hereto agree to employ some person satisfactory to the City and the Contractor for the purpose of negotiating the settlement of said claims and actions, the expense of said negotiations to be paid by each of the parties in the proportions set forth."

And said Fidelity and Deposit Company of Maryland having agreed as follows:

"Whereas, Fidelity and Deposit Company of Maryland executed its bond in favor of the City and County of San Francisco, dated August 21, 1936, in the principal sum of Two Hundred and Twenty-three Thousand Dollars (\$223,000.00), conditioned upon the faithful performance of the contract between the City and County of San Francisco and MacDonald & Kahn Co., Ltd., dated the 22nd day of August, 1936, providing for the construction of the Richmond Sewer Tunnel and Appurtenances; and

"Whereas, said City and County of San Francisco is willing to execute the foregoing agreement of settlement upon the condition that the Fidelity and Deposit Company of Maryland shall not be released of its obligations pursuant to the terms of said bond by reason of the execution of said agreement of settlement;

"Now, Therefore, in consideration of the execution of the foregoing agreement by the City and County of San Francisco the Fidelity and Deposit Company of Maryland does hereby consent and agree to the execution of said agreement and all the terms and conditions thereof, and does hereby covenant and agree that the execution of said agreement shall not in any manner be construed so as to relieve or release the Fidelity and Deposit Company of Maryland from any of its obligations or liabilities provided for in said bond.

The following recommendation of Judiciary Committee was taken up:

Submitting Charter Amendment Providing Minimum Wage for Full-Time Civil Service Employees.

(Series of 1939)

Resolution No., as follows:

Resolved, that the following proposed Charter Amendment be *submitted* to the electors and the Election of November 7, 1939 to wit:

Charter Amendment No. 1

Personal Service Estimates

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County, by amending Section 71 of the Charter of the City and County, relating to personal service estimates.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County at the general election to be held on the 7th day of November, 1939, a proposal to amend the Charter of the City and County, as follows:

Personal Service Estimates

Section 71. All increases in salaries or wages of officers and employees shall be determined at the time of the preparation of the annual budget estimates and the adoption of the annual budget and appropriation ordinances, and no such increase shall be effective prior to the fiscal year for which the budget is adopted. Salary and wage rates for classes of employments subject to salary standardization, as in this charter provided, shall be fixed in the manner provided in this charter. Salary and wage rates for classes of employment not subject to salary standardization, exclusive of compensations fixed by this charter, shall be recommended by the officer, board or commis-

sion having appointive power for such employments, and fixed by the budget and the annual salary ordinance. Pending the adoption of salary standards as in this charter provided, the salary and wage rates for positions subject to such standardization shall be as recommended by the officer, board or commission having appointing power for such positions and fixed by the budget and annual salary ordinance; *provided that the minimum compensation for employes subject to the Civil Service provisions of this charter shall be not less than Fifty (50c) per hour nor less than One Hundred Six Dollars (\$106.00) per month*; and provided further that any compensation paid as of January 1st, 1931, to an incumbent who legally held a position in the city and county service at that time, shall not be reduced so long as such incumbent legally holds such position. *No compensation other than the minimum as in this Section provided*, shall be increased so as to exceed the salary or wage paid for similar services of like character and for like service and working conditions in other city departments or in private employments, nor so as to exceed the rate fixed for such service or position in the proposed schedule of compensations issued by the civil service commission under date of April 9th, 1930, except as such proposed schedule or compensation is amended as provided in this charter, or extended by the civil service commission to include classification not included therein.

Motion for Postponement

Supervisor Colman, seconded by Supervisor Brown, moved that the foregoing matter remain on the Calendar for one week, and be made a special order of business on Monday, August 21, 1939, at 2:30 P. M.

Supervisors Colman and Brown explained at length the reasons for their request for postponement, stating that in view of the vote of the people on Salary Standardization they felt it most advisable that if opposition to the proposed charter amendment should arise it could be made known before submission to the electors was ordered.

Supervisors McSheehy and McGowan, in view of the expressed opinions of the Supervisors regarding compensations for underpaid employees, particularly institutional workers, and because of the unanimous recommendation of the Judiciary Committee, urged immediate action by the Board.

Privilege of the Floor

Mr. M. J. Rowan, representing Institutional workers, on motion by Supervisor Uhl, was granted the privilege of the floor. Mr. Rowan opposed the requested postponement, expressing fear lest the proposed amendment be joined with other proposed amendments. However, on being assured that such was not the intention he withdrew his objection.

Motion Carried

Thereupon, the motion being put and no objections voiced, same was declared carried.

Request for Charter Amendment to Provide for Payment of Prevailing Wage Scale to Laborers

During the foregoing discussion, the Clerk presented and read a communication from the Public Works Laborers Union No. 978, by Thomas A. SPECIAL ORDER—2:00 P. M.

Pursuant to Resolution No. 482, presented by Supervisor Brown, and adopted by the Board, Aug. 14, 1939, as follows:

Retention of State Emergency Relief Headquarters in San Francisco

(Series of 1939)

Whereas, Announcement has been made of the intended removal of the State Relief Headquarters from San Francisco to Los Angeles, and

Whereas, It is imperative that all effort be made to prevent this action which will automatically take from San Francisco a considerable number of residents profitably employed; now, therefore, be it

Resolved, That the Board of Supervisors issue an invitation to the leaders of all civic and labor groups, industry, commerce, shipping and all interested citizens, to meet with the Supervisors in these chambers at a special meeting, Monday, August 21, 1939, at 2 P. M., to make a united request to Governor Olson that State Emergency Relief Headquarters be retained in San Francisco.

Committee of the Whole

Supervisor Brown, after explaining the situation prompting the presentation of the foregoing Resolution, moved that the Board resolve itself into a Committee of the Whole, the President of the Board to preside as chairman.

No objection and so ordered.

Privilege of the Floor

Mr. Wesley McKenzie, Chairman of Industrial Development Committee of the Central Council of Civic Clubs; Mr. Charles J. Rousseau, Vice-President Apartment House Owners' Association of San Francisco; Mrs. Rose Walker, representing the Southern Council of Civic Clubs; Mr. Jerry Watkins, representing Nob Hill Protective Association; Mrs. A. B. Baumann, Eureka Valley Promotion Association; Mr. Joseph Pasqualetti, from the North Beach District; Assemblyman Thomas Maloney, Chairman of San Francisco's Delegation to the State Legislature; Mr. George W. Schultz, representing American Political Economy Association; Mr. Lloyd Taylor, of the Market Street Association, were granted the privilege of the floor, and on behalf of themselves or their respective organizations, urged that every effort be made to secure the retention of the State Relief Administration Headquarters in San Francisco.

Committee of the Whole Arises

Supervisor Brown moved that the Committee of the Whole rise and report.

No objection and so ordered.

Reconvening as Board of Supervisors

On motion by Supervisor Brown, the Board reconvened as a Board of Supervisors.

Supervisor Brown, seconded by Supervisor Colman, moved that the Board of Supervisors invite the various civic clubs, including those whose representatives had just addressed the Board, to go along with the Board in preparing for a mass meeting, and that a telegram be sent to the Governor, in the name of the Board and Civic groups, asking him if he will attend such meeting, and to select a date therefor.

Amendment to Motion

Supervisor Uhl moved, as an amendment to the foregoing motion, that the Board ask the Governor if it can call on him on Tuesday or

Wednesday, for the purpose of discussing the matter with him and presenting San Francisco's opposition to the proposed removal of the SRA headquarters.

Supervisor McGowan, in seconding the motion, expressed the opinion that the Board should call on the Governor, rather than ask the Governor to come to San Francisco. He suggested further, that a delegation headed by His Honor, the Mayor, should be sent to Sacramento, immediately.

The Chair, after discussion as to the proper action to be taken to achieve the desired results, suggested that the consensus of opinion was that the Clerk of the Board communicate with the Governor of the State of California, asking the time and place where he could meet with a delegation from San Francisco to discuss the matter of possible removal of SRA headquarters from San Francisco, and that the Governor should be requested not to take final action on removal of the SRA offices from San Francisco until such time as the committee of this Board, and other committees, have had an opportunity to sit down with him.

Suggestion accepted by Supervisors Uhl and McGowan in lieu of motion previously made.

Amendment to Suggestion

After further brief discussion, Supervisor Uhl suggested that the foregoing suggestion, now accepted as a motion, be amended to provide that the President of the Board, rather than the Clerk, communicate the desires of the Board to His Excellency, the Governor.

No objection, and so ordered.

Mayor to Head Delegation

Supervisor McGowan, seconded by Supervisor Roncovieri, moved that it be the sense of the Board that when a definite appointment with the Governor is made, that the Mayor of San Francisco be requested to head the delegation to wait upon the Governor.

No objection and so ordered.

Subsequently during the proceedings, the Chair announced that he had received word from the Governor's Secretary that the Governor could not make any engagement with any committee until the following week, but that any definite action looking to the removal of the SRA headquarters would be withheld until after meeting could be had with San Francisco's committee.

SPECIAL ORDER—2:30 P. M.

The following recommendation of Judiciary Committee, was taken up:

Submitting Charter Amendment Providing Minimum Wage for Full-Time Civil Service Employees.

(Series of 1939)

Resolution No. 495, as follows:

Resolved, that the following proposed Charter Amendment be *submitted* to the electors at the Election of November 7, 1939, to-wit:

Charter Amendment No. 1

Personal Service Estimates

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said City and County, by amending Section 71 of the Charter of the City and County, relating to personal service estimates.

The Board of Supervisors of the City and County of San Francisco

hereby submits to the qualified electors of said City and County at the general election to be held on the 7th day of November, 1939, a proposal to amend the Charter of the City and County, as follows:

Personal Service Estimates

Section 71. All increases in salaries or wages of officers and employees shall be determined at the time of the preparation of the annual budget estimates and the adoption of the annual budget and appropriation ordinances, and no such increase shall be effective prior to the fiscal year for which the budget is adopted. Salary and wage rates for classes of employments subject to salary standardization, as in this charter provided, shall be fixed in the manner provided in this charter. Salary and wage rates for classes of employment not subject to salary standardization, exclusive of compensations fixed by this charter, shall be recommended by the officer, board or commission having appointive power for such employments, and fixed by the budget and the annual salary ordinance. Pending the adoption of salary standards as in this charter provided, the salary and wage rates for positions subject to such standardization shall be as recommended by the officer, board or commission having appointing power for such positions and fixed by the budget and annual salary ordinance; *provided that the minimum compensation for employes subject to the Civil Service provisions of this charter shall be not less than Fifty (50c) per hour nor less than One Hundred Six Dollars (\$106.00) per month; and provided further that any compensation paid as of January 1st, 1931, to an incumbent who legally held a position in the city and county service at that time, shall not be reduced so long as such incumbent legally holds such position. No compensation other than the minimum as in this Section provided, shall be increased so as to exceed the salary or wage paid for similar services of like character and for like service and working conditions in other city departments or in private employments, nor so as to exceed the rate fixed for such service or position in the proposed schedule of compensations issued by the civil service commission under date of April 9th, 1930, except as such proposed schedule or compensation is amended as provided in this charter, or extended by the civil service commission to include classification not included therein.*

Aug. 14, 1939—Continued one week—Special Order at 2:30 P. M.

Explanation of Votes

Supervisor Colman, in explanation of his proposed vote, stated that he did not believe that salary raises belong in the Charter. He held further, that the present wages for institutional workers were higher than those generally prevailing in private employment, although he had been told to the contrary, and he did not believe the voters contemplate a change in the charter with respect to the payment of wages not higher than those generally prevailing. Supervisor Colman stated further, that the proposed wage increase, if approved by the voters, would throw out of line many existing salaries paid to other groups. For these reasons he intended to vote against presentation of the proposed charter amendment to the voters.

Supervisor Brown, in explaining his vote, stated that in the early part of the year he was opposed to the salary standardization measure and consistently spoke in opposition to it. At that time he stated that the hospital workers had the best reasons of all city employees for seeking salary increases, and he would have been in favor of such increases. Now that the case of hospital workers is before the Board, separate from any other issue, he could see no reason for the Board not to allow the voters to express themselves, and he proposed to vote in favor of submission to the voters.

Ordered Submitted

Thereupon, the roll was called and the foregoing proposed charter amendment was ordered submitted by the following vote:

Ayes: Supervisors Brown, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Shannon, Uhl—9.

No: Supervisor Colman—1.

Absent: Supervisor Schmidt—1.

Explanation of Legislation

In explaining of the proposed legislation, the City Attorney announced that he had received from Mr. Abbott, Attorney for the railway company, draft of proposed legislation acceptable to that company, to which he, the City Attorney, had drafted various additions and made changes in accord with the expressed desires of the Board.

In his explanation of the legislation as drafted by the City Attorney, the attorney for the railway company, the City Attorney informed the Board, had objected to the wording of Section 6, and suggested amendment thereof, immediately following the words "dated February 9th, 1931, and" by striking out the words "the Board of Supervisors reserves the right to alter or amend the terms and conditions upon which this permit is granted," and substituting therefor the words "subject to such rules and regulations as the Board of Supervisors may hereafter adopt."

Thereupon, Section 6, as amended, read as follows:

"Section 6. The rights and privileges granted by this ordinance are granted to the said grantee, its successors and assigns, upon the terms and conditions set forth in the several franchises heretofore granted to the grantee and to its predecessors in interest and continued in said operating permit dated February 9th, 1939, and subject to such rules and regulations as the Board of Supervisors may hereafter adopt."

Communication from United Jitney Drivers Association of San Francisco

Communication was presented from the United Jitney Drivers Association of San Francisco, urging that provisions be included in the proposed permit to the Market Street Railway Company for the protection of the people of San Francisco, and urging that under no conditions should the contemplated buses be permitted to operate on Market Street.

Communication ordered filed.

Motion for Postponement

The Chair requested that, since the Board had had no opportunity to study the proposed legislation, that consideration thereof be continued for one week.

Thereupon, Supervisor McSheehy, seconded by Supervisor Brown, moved that the entire matter remain on the Calendar for one week, and be made a special order of business on Monday, August 28, 1939, at 2:30 P. M.

Objection to Postponement

Supervisor Colman objected to postponement, stating that in view of the importance of the proposed legislation, and the demand throughout the city for service, he felt it to be unwise to postpone consideration as requested. The City Attorney, Supervisor Colman said, could explain the various sections of the Ordinance, and the Board could act without further delay.

Committee of the Whole

On motions duly made and carried, the Board resolved itself into a Committee of the Whole, for the purpose of considering the proposed ordinance, the President of the Board to preside as Chairman.

Privilege of the Floor

Mr. Louis Eagleton, representing the United Jitney Drivers Association, explained at length the recommendations of his organization. Mr. Ora Appleby, representing himself; Mr. H. S. Foley, Carmen's Union No. 518, Mr. E. P. Troy, all objected to the granting of the requested permits without, at least, additional and adequate conditions be incorporated in the proposed legislation to protect the City and County of San Francisco.

Mr. Lloyd Taylor, Mr. George W. Schultz, Mrs. Anna Lindsey and Mr. George Allen urged the granting of the permits.

Committee of the Whole Arises

Supervisor Brown, seconded by Supervisor Ratto, moved that the Committee of the Whole rise and report.

No objection.

Reconvening As Board of Supervisors

Supervisor Brown thereupon, moved that the Board reconvene as a Board of Supervisors.

No objection and so ordered.

Motion for Postponement

Supervisor McSheehy, seconded by Supervisor Brown, moved that further consideration be postponed until Monday, August 22, at 2:30 P. M.

Seriatim Consideration of Ordinance

Supervisor McSheehy requested that the proposed Ordinance be taken up seriatim.

So ordered.

Thereupon, the Clerk read Section 1 of the proposed ordinance, and no objection being offered to the first two paragraphs thereof, including the description of the proposed route for buses supplementing the No. 10 line, that portion of ordinance was approved as presented and read.

Supervisor McSheehy, seconded by Supervisor McGowan, moved that that portion of the third paragraph in Section 1, referring to the proposed route of the No. 25 line, the words "provided, however, that if, after the operation of said automobile buses from Sixth Street into

Market Street, along Market Street to and into Fifth Street, for a period of thirty (30) days, objection shall be raised to said operation by the Board of Supervisors of the City and County of San Francisco," be stricken out.

Supervisor Uhl objected to the thirty-day trial period proposed for the operation of a loop on Market Street, between Sixth and Fifth Streets, stating that he was satisfied that bus operation on Market Street would not prove practical. He would not object, however, to a seven-day trial.

Thereupon, Mr. Newton, representing the Market Street Railway Company, requested that in view of the opposition expressed thereto, all reference to the proposed loop on Market Street be stricken out, and in lieu thereof, buses be looped along Mint Street to Jessie, from Jessie Street to Fifth Street, thence along Fifth Street to Mission, and thence proceed to the point of commencement.

No objection being voiced, the proposed amendment was approved.

The fourth paragraph of Section 1, describing the proposed route for Line No. 27, was read by the Clerk.

Supervisor McSheehy objected to the proposed alternative routing along Stevenson Street, should the proposed Market Street loop, after trial, prove not satisfactory, stating that in his opinion buses could not traverse Stevenson Street.

Mr. Newton stated that buses could go along Stevenson Street, but felt that they should be permitted to use Market Street, between Second and First Street, and thence along First Street to Mission and out Mission Street, to Second Street.

Supervisor McSheehy moved, however, that buses should be routed from Mission Street to First Street, along First Street to Howard Street, along Howard Street to Second Street, and thence on Second Street back to Mission Street, thence to Second Street, and along Second Street returning by the same route.

Motion seconded by Supervisor Uhl.

Motion failed by the following vote:

Ayes: Supervisors McGowan, McSheehy—2.

Noes: Supervisors Brown, Colman, Mead, Meyer, Ratto, Roncovieri, Uhl—7.

Absent: Supervisors Schmidt, Shannon—2.

Supervisor Uhl objected to routing the No. 27 line along Fourth Street to Townsend Street, thence along Townsend Street to Third Street and thence along Third Street to Bryant, because of the congestion at the Southern Pacific Depot, and moved that the route be changed to provide for the running of buses straight down Bryant Street to Second Street. Motion seconded by Supervisor McSheehy.

However, on presentation by Mr. Newton, and by Supervisor Mead that the proposed routing to Third and Townsend Street was intended to care for the needs of passengers to and from the railway station, Supervisor Uhl announced that he was willing to permit a trial over the proposed route for a period of thirty days.

No objection.

Motion for Passage to Second Reading of Ordinance

Supervisor Colman, seconded by Supervisor McGowan, moved passage for second reading of the entire proposed ordinance.

Motion Out of Order

Motion declared out of order by the Chair, since a Supervisor has

the right to demand seriatim consideration of any legislation, and that seriatim consideration of the ordinance under discussion had already been ordered.

Seriatim Consideration Continued

No objection being raised, the balance of the proposed routing of the No. 27 line, providing for the looping of buses at the Twenty-sixth and Mission Street Terminal, and the routing of such street cars as would be operated on the No. 27 line, was approved.

In the description of Route No. 35, Supervisor McSheehy moved as an amendment, that Chatanooga Street be designated as terminus of the line in place of Guerrero Street.

Motion failed for lack of a second.

Description of Route No. 35 was approved as read.

The remainder of Section 1, no objection being made, was approved as read.

Section 2 approved as read.

Section 3 approved as read.

Section 4 approved as read.

After the reading of Section No. 5, Supervisor McSheehy moved an amendment thereto, by the insertion of the words "within one year" immediately following the words "the Company shall remove."

Motion failed for lack of a second.

Thereupon, Supervisor Uhl moved that Section No. 5 be amended by the insertion of the words "within a reasonable time" immediately after the words, "the Company shall."

On the Company, through its representative Mr. Newton, offering no objection thereto, motion was declared carried.

Thereupon, Section No. 5, as amended, read as follows:

Section 5. Should at any time the Market Street Railway Company cease to operate said street cars over and along said routes, the Company shall, within a reasonable time, remove the rails from said streets and repave that portion of the streets occupied by said rails.

Section 6 was approved as read.

Section 7 was approved as read.

Section 8 was approved as read.

Section 9 was approved as read.

After the reading of Section 10, Supervisor McSheehy moved that there be added to the section the words "including the Castro Street Line with transfers to our own municipal lines at Eighteenth and Castro Streets, under a fifty-fifty arrangement."

Motion declared out of order by the Chair.

Thereupon, Section 10 was approved.

Section 11 was approved as read.

Section 12 was approved as read.

Section 13 was approved as read.

Section 14 was approved as read.

Section 15 was approved as read.

Section 16 was approved as read.

**Endorsing Sunnyvale as Site for Aeronautical Research Laboratory
(Series of 1939)**

Supervisor Brown presented: Resolution No. 490, as follows:

Whereas, There was included in the Third Deficiency Bill, H. R. 7462 of the Seventy-Sixth Congress and approved by the President of the United States authorization for the construction and equipment

of an additional aeronautical research laboratory at a cost not to exceed ten million dollars, and

Whereas, Selection of the location for said research bureau is to be determined by the majority of the members of the National Advisory Committee for Aeronautics, and

Whereas, The City and County of San Francisco, the San Francisco Chamber of Commerce and Chambers of Commerce of all peninsula communities from San Jose north to San Francisco, have invested large sums of money over a period of years for the requisition and development of land at Sunnyvale, California, and

Whereas, This land was given without cost to the United States Government for the benefit of the Navy, the Army, and for all other purposes of National Defense, and

Whereas, There is strong likelihood of the selection of the Sunnyvale site as the permanent establishment of the Research Laboratory by reason of its geographical and climatic advantages; now, therefore be it

Resolved, That the Board of Supervisors of the City and County of San Francisco extend to the members of the National Advisory Committee for Aeronautics full assurance of the continued interest of San Francisco in the location of the proposed Research Laboratory at Sunnyvale and of its unqualified support and cooperation in all matters pertaining to construction and subsequent operation.

Waiving Usual License and Inspection Fees for Retirement Life Payment Association Circus

(Series of 1939)

Supervisor McSheehy presented: Resolution No. 491, as follows:

Whereas, Citizens in the State numbering more than 1,100,000 by initiative petition have requested and obtained by order of His Excellency, the Governor, the right to vote at the election of November 7th, 1939, on a measure officially entitled by the Attorney General as Retirement Warrants, and

Whereas, The proponents of this measure, banded together under the name Retirement Life Payments Association, are seeking to educate the voters as to the provisions of this measure, and

Whereas, As part of this education campaign the proponents are sponsoring, as an educational and not a commercial venture, a circus without wild animals as a means solely of attracting the public to hear instructive lectures on the measure, and to which only the nominal fee of 30 cents to cover expenses is charged, and

Whereas, In the City of Los Angeles and other California cities the usual license fee charged for a circus was waived because of its principal objective, namely, the education of voters; therefore, be it

Resolved, That this Board of Supervisors waive the usual license and inspection fees for the performance of this said circus in San Francisco scheduled for on or about September 2, 4 and 5, 1939.

Ayes: Supervisors McGowan, McSheehy, Mead, Meyer, Ratto, Uhl—6.

Request from His Honor, the Mayor, for Consideration of Ordinance Authorizing the Various Departments of the Municipal Government to Pay the Costs of Welfare and Recreational Activities of Their Employees.

The following communication, received from His Honor, the Mayor, was read by the Clerk and referred to the Finance Committee:

August 16, 1939.

To the Honorable
The Board of Supervisors
City Hall
Gentlemen:

As a result of enactment by the 1939 Legislature and the later approval of the Governor of Senate Bill 1162, the School Code has been amended, and effective September 19, 1939, the Board of Education will have the power to purchase uniforms and other regalia for the use of school bands and orchestras, and to purchase uniforms and equipment for the use of athletic teams.

Since the Board of Education is now authorized legally to do these things, may I suggest that an extension of such power to other departments of the municipal government would therefore seem to me to be not a new departure, but rather a step toward bringing all departments of government on an even basis.

For example, it would help the Police and Fire Department Bands if by ordinance various departments of local government were authorized to pay the costs of welfare and recreational activities of their employees, similar to the authorization given the Board of Education by the State legislation.

May I suggest therefore, your earnest consideration of such an ordinance?

Very truly yours,

ANGELO J. ROSSI, Mayor.

ADJOURNMENT

There being no further business, the Board, at the hour of 7:05 P. M., adjourned.

DAVID A. BARRY, Clerk.

Approved by the Board of Supervisors, San Francisco, August 28, 1939.

JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

MONDAY, AUGUST 28, 1939, 2 P. M.

In Board of Supervisors, San Francisco, Monday, August 28, 1939,
2 P. M.

The Board of Supervisors met in regular session.

CALLING THE ROLL

The roll was called and the following Supervisors were noted present:

Supervisors Brown, Colman, McSheehy, Mead, Meyer, Ratto, Roucovieri, Schmidt, Shannon, Uhl—10.

Absent: Supervisor McGowan—1.

Quorum present.

President Warren Shannon presiding.

Supervisor McGowan excused. However, Supervisor McGowan was noted present at 3:30 P. M., during the consideration of the Tax Rate Ordinance but left the meeting shortly after.

APPROVAL OF JOURNALS

The Journal of Proceedings of the meeting of August 21, 1939, was considered read and approved.

Supervisor Brown requested permission to have taken up out of order, the following Resolution which he presented.

No objection, and so ordered.

Urging That All Water Front Disputes be Placed Before a Board of Arbitration.

(Series of 1939)

Resolution No., as follows:

Whereas, It must be apparent to all thinking citizens that conditions on our water front are rapidly approaching a climax which may result in complete stoppage of all water front activities, and

Whereas, Past experience with such situations has demonstrated conclusively to all citizens of San Francisco that the city must inevitably be the loser by a shut down of our water front, and

Whereas, The welfare of the city must at all times be held paramount over the interest of any minority group whether employer or employe, and

Whereas, It has been conclusively demonstrated in other like disputes that the American method of arbitration of disputes between employer and employe is the only fair, sound and reasonable means toward a meeting of minds; now, therefore, be it

Resolved, That the Board of Supervisors go on record as urging both factions in the disputed water front crisis to place their disputes before a Board of Arbitration, to the end that justice and fair play may result and that the threatened closing of San Francisco Harbor may be averted.

Suspension of the Rules

Supervisor Brown, following the reading of the foregoing resolution, requested Suspension of the Rules for the purpose of the immediate consideration thereof.

No objection.

Motion for Adoption of Resolution

Thereupon, Supervisor Brown, seconded by Supervisor Colman, moved adoption.

Discussion

Supervisor Brown explained in detail the seriousness of the water front situation, and the probable effect of possible additional strikes or lockouts, and urged the adoption of the resolution presented.

Supervisor Mead discussed the possibility of submitting the present dispute to arbitration providing no agreement could be had between the parties to the controversy before the expiration of the present agreement on September 30, 1939.

Supervisor McSheehy objected to the adoption of the proposed resolution at this time, holding that the adoption of the resolution at this time would mean the endorsement of arbitration without even knowing whether there might be a strike on the water front, and without knowing whether both sides to any controversy desired to go into arbitration, and suggested that the motion for adoption be not passed, but that the resolution be referred to committee by the Chair.

Supervisor Uhl suggested that the adoption of the proposed resolution would be setting a precedent, the responsibility for which he would not care to assume. The Mayor had always given his attention to such serious matters as strikes, and before he would vote to adopt such a resolution, he desired to hear from the Mayor, himself.

Supervisor Shannon announced that because he was not sufficiently informed to vote intelligently on the matter, he must vote against adoption of the proposed resolution.

Temporary Postponement of Further Consideration

Supervisor Roncovieri stated that while he recognized the splendid purpose that Supervisor Brown had in mind, he, too, like Supervisor Shannon, was insufficiently informed on the matter, and would move temporary postponement of further consideration until the end of the day's business, and that the Board, at that time, sit as a committee of the whole.

No objection and so ordered.

Reference to Committee

Subsequently during the meeting, at the conclusion of other business, Supervisor Brown stated his willingness to defer to the wishes of the Board for further consideration of his resolution, and moved that his resolution be referred to the Public Welfare Committee, for hearing on Tuesday, August 29, at 3 P. M. Motion seconded by Supervisor Colman.

Amendment to Motion

Supervisor McSheehy, seconded by Supervisor Uhl moved, as an amendment to the foregoing motion, that the resolution be referred to a Joint Public Welfare and Judiciary Committee for hearing on Thursday, August 31st.

However, on presentation by Supervisor Brown that he was leaving the city on Wednesday, Supervisor McSheehy, with the consent of his second, Supervisor Uhl, agreed to hearing on Tuesday, August 29, as originally moved, the resolution however, to be considered by the Joint Committee.

No objection and so ordered.

Authorizing Settlement of Dispute Between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in Connection with Construction of the Richmond Sewer Tunnel and Appurtenances.

(Series of 1939)

Bill No. 270, Ordinance No. 270, as follows:

Authorizing settlement of dispute between MacDonald & Kahn Co., Ltd., and the City and County of San Francisco, and Fidelity and Deposit Company of Maryland, in connection with construction of the Richmond Sewer Tunnel and appurtenances.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The City Attorney having recommended the settlement of the action of City and County of San Francisco, a municipal corporation, v. MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, Superior Court, San Francisco, No. 282,136, said action being one for the purpose of determining the liability of the City and County of San Francisco, a municipal corporation, MacDonald & Kahn Co., Ltd., a corporation, and Fidelity and Deposit Company of Maryland, a corporation, for damages under the contract of August 22, 1936, wherein and whereby MacDonald & Kahn Co., Ltd., as contractor agreed to construct a sewer tunnel according to certain plans and specifications prepared by the City and County of San Francisco, and said MacDonald & Kahn Co., Ltd., having agreed as follows:

"This Agreement, made and entered into this 17th day of March, 1939, by and between the City and County of San Francisco, a municipal corporation, hereinafter called the 'City,' party of the first part, and MacDonald & Kahn Co., Ltd., a Delaware corporation, hereinafter called the 'Contractor,' party of the second part,

Witnesseth

"Whereas, on or about the 22nd day of August, 1936, the Contractor made and entered into a contract with the City providing for the construction of a sewer tunnel known and designated as the 'Richmond Sewer Tunnel and Appurtenances,' according to plans and specifications prepared by said City; and

"Whereas, on or about the 1st day of October, 1936, the Contractor commenced the construction of said public work in accordance with said contract, which said work was completed and accepted by said City on or about the 24th day of March, 1938, and:

"Whereas, various claims and actions have been and may be presented and brought against the City and Contractor alleging liability for damage to property claimed to have been caused by the construction of said public work; and

"Whereas, City contends that the Contractor has undertaken to defend, indemnify and save harmless the City from any and all such claims arising out of the construction of said public work, and it is the contention of the Contractor that it has not agreed to undertake and is not bound to defend and indemnify or save harmless the City against such claims or suits unless the damage was caused by negligence of the Contractor in the construction of said public work, and it is the further contention of the Contractor that it was not negligent in the performance of said contract; and

"Whereas, the parties desire to compromise and settle said dispute in order to save the time, costs and expense of litigation;

"Now, Therefore, in consideration of the premises, it is agreed by and between the parties hereto as follows:

"1. The Contractor agrees to pay two-thirds and the City agrees to pay the remaining one-third of the amount of any damages, including costs, which may be awarded by final judgment against said City and said Contractor jointly or against said City alone or said Contractor alone in favor of any property owner for damage to property caused by or arising out of the construction of said public work. In other words, it is the intent and purpose of the foregoing agreement that if any property owner shall recover final judgment against both said City and said Contractor jointly, such judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said Contractor alone, said judgment shall be jointly satisfied by said City and Contractor in the proportions stated; or if such property owner shall recover final judgment against said City and said Contractor in different amounts in the same action (said contractor not being joint), the total of such judgment against both parties shall be jointly satisfied by said City and Contractor in the proportions stated.

"2. In the event any such judgment shall, through legal process or by mutual consent of said City and Contractor, be wholly satisfied by said City alone or by said Contractor alone, then the party who did not contribute to the satisfaction of such judgment shall promptly on demand pay its proportion, as stated above, of such judgment to the party who has wholly satisfied the judgment. Such demand may be made on said City by service on the City Attorney and on the Contractor by service on its attorneys of record.

"3. Said City and Contractor shall use their best efforts to settle any claims or actions for damage to property caused by or arising out of the construction of said public work for which damage there is or may be liability on the part of said City and Contractor, or either of them. In the event said City and Contractor mutually agree to settle any suit, claim or action, the amount necessary to effect such settlement shall be paid to such property owner by said City and Contractor in the proportions stated above.

"4. This agreement shall not include or apply to any liability established by default of either party or to any liability assumed or admitted by either party hereto without the written consent of the other party hereto, or its attorney.

"5. Each party hereto shall cooperate with the other to the fullest extent in the defense of any action referred to herein and brought against both or either of the parties hereto; each party hereto shall be represented by its own attorney in any such action; the expenses of procuring expert testimony and of making investigations mutually agreed upon by the attorneys for the parties hereto as being necessary to the proper defense of any such action shall be paid by each of said parties in the proportions above set forth; other costs and

expenses accruing to said parties shall be borne by the party incurring the same.

"6. In consideration of this agreement and the payments to be made by said Contractor in event judgment or judgments may be recovered or settlements made as aforesaid, said City acknowledges full and complete satisfaction of any and all provisions of the contract, referred to above, and Invitation for Proposals, Proposals Submitted, Information for Bidders, and Plans and Specifications numbered 18,942 referred to and made a part of said contract, requiring said Contractor to defend, indemnify, save harmless said City from damages, costs or liability to property of others arising from Said Contractor's performance of said contract, work or operations; said City does further agree that this agreement shall supersede and take the place of the said provision of said contract, plans and specifications and does hereby release and discharge said Contractor from any and all such provisions of said contract, plans and specifications; and said City does hereby agree that it shall have no right to recover from said Contractor any payment said City may make or is required to make pursuant to the terms of this agreement.

"7. It is further agreed that the terms of this agreement shall not apply to any claims or actions against the said City for value of property taken for rights of way or easements for the construction of said public work.

"8. The parties hereto agree to employ some person satisfactory to the City and the Contractor for the purpose of negotiating the settlement of said claims and actions, the expense of said negotiations to be paid by each of the parties in the proportions set forth."

And said Fidelity and Deposit Company of Maryland having agreed as follows:

"Whereas, Fidelity and Deposit Company of Maryland executed its bond in favor of the City and County of San Francisco, dated August 21, 1936, in the principal sum of Two Hundred and Twenty-three Thousand Dollars (\$223,000.00), conditioned upon the faithful performance of the contract between the City and County of San Francisco and MacDonald & Kahn Co., Ltd., dated the 22nd day of August, 1936, providing for the construction of the Richmond Sewer Tunnel and Appurtenances; and

"Whereas, said City and County of San Francisco is willing to execute the foregoing agreement of settlement upon the condition that the Fidelity and Deposit Company of Maryland shall not be released of its obligations pursuant to the terms of said bond by reason of the execution of said agreement of settlement;

"Now, Therefore, in consideration of the execution of the foregoing agreement by the City and County of San Francisco the Fidelity and Deposit Company of Maryland does hereby consent and agree to the execution of said agreement and all the terms and conditions thereof, and does hereby covenant and agree that the execution of said agreement shall not in any manner be construed so as to relieve or release the Fidelity and Deposit Company of Maryland from any of its obligations or liabilities provided for in said bond.

"Dated: March 16, 1939."

Section 2. The Mayor is hereby directed to enter into said within agreement for and on behalf of the City and County of San Francisco, \$22,000 available.

Approved as to funds available by the Controller.

Approved as to form by the City Attorney.

(a) No paint shop shall hereafter, from the date of passage of this ordinance, be established in any building other than a Class "A", "B", "C" or mill-constructed building as defined by the building ordinances of the City and County of San Francisco. If hereafter established in a building of Class "C" or mill construction, the ceiling shall be of not less than three-quarters ($\frac{3}{4}$) inch plaster on metal lath, and the floor shall be of cement at least two (2) inches thick, or other approved fire resistive material.

(f) No spraying of paint or lacquer materials shall be conducted within a paint shop except in a spray room; provided, however, the Chief may at his discretion issue a written permit to the owner or operator of a paint shop to do minor spraying within said paint shop outside of said spray room. Said permit shall be revocable at the discretion of the Chief without the necessity of a public hearing.

(g) No open flame or spark-emitting device of any kind shall be permitted to be used in any storage room or spray room or paint shop, or in close proximity to any spraying operation. Only indirect heating systems, approved by the City and County of San Francisco, shall be used for heating purposes.

(h) Every spray room shall be equipped with fans capable of changing the air in such spray room every six (6) minutes. The number of fans, inlet and exhaust ducts required, and the location of same, shall be determined jointly by the Division of Fire Prevention and Investigation and the Department of Public Health.

(j) The spraying of paint or lacquer materials shall not be conducted unless the fan or fans are in operation; and said fan or fans shall continue to remain in operation until the conclusion of such spraying.

(k) The amount of paint or lacquer material stored or kept, and the manner of its storage in a spray room or storage room, shall be prescribed and approved by the Division of Fire Prevention and Investigation.

(l) A mixing bench shall be permitted in each spray room, provided that such bench shall have a working surface covered with sheet zinc or nonsparking or absorbing material. A limited amount of paint and lacquer material shall be permitted to remain on such bench for the purpose of mixing or the matching of color. Such bench shall be kept clean and free from accumulated drippings, waste paint, or lacquer. Tightly fitting metal covers shall be provided for all containers.

(m) Metal waste cans with self-closing covers shall be provided, not less than one (1) for each spray room, to accommodate rags and other waste.

(o) Each paint shop shall be equipped with fire extinguishers of such number and kind, and so located, as shall be determined by the Division of Fire Prevention and Investigation; but in no case shall there be less than two (2) of said fire extinguishers. At least one (1) barrel of clean dry sand containing a scoop, or at least four (4) metal buckets of clean dry sand, shall be kept on the premises at all times.

(p) Every sprayman or painter shall be provided with a mask while spraying, which mask shall be of a type approved by the Department of Public Health.

Section 4. Every spray room and storage room shall be kept free from all unnecessary combustible materials. The use of sawdust for absorbing waste material or for cleaning of floors is strictly prohibited.

Section 5. Whenever any paint or lacquer material is to be sprayed or applied to a motor vehicle, or parts thereof, the battery of said motor vehicle shall be disconnected and shall remain disconnected until such time as the room has been cleared of vapor.

An application for a paint shop permit shall be acted upon within ten (10) days after the filing of such application and the fee collected

shall be retained by the Division of Fire Prevention and Investigation whether the permit is granted or denied or the application is withdrawn.

Upon receipt of said application provided for in the preceding section, the Chief shall cause to be investigated the facts as set forth in the application and the premises for which the permit is requested. The Chief shall cause to be forwarded copies of said application to the City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity for investigation by their respective departments as to whether the ordinances, rules, and regulations of the City and County of San Francisco, pertaining to their departments, are complied with. The City Planning Commission, the Director of Public Health, and the Chief of the Department of Electricity shall after such investigation either approve or disapprove such application and return same within seven (7) days after receipt with such endorsement thereon to the Division of Fire Prevention and Investigation. If the application is disapproved the reason or reasons for such disapproval shall be stated.

In the event that the application for a paint shop permit is disapproved, the Chief shall give the reason for such disapproval. Upon receiving such written notice from the Chief, such person shall have the opportunity of correcting such conditions in and about the premises wherein the paint shop is located and the equipment used therein as have been decided hazardous. Final Passage

The following recommendations of the Finance Committee were taken up:

Presentation of Tax Rate Ordinance, Fiscal Year 1939-1940.

Statement by Supervisor Roncovieri, Chairman of Finance Committee.

To meet the payrolls of August 31 and to provide funds for September operations, it will be necessary to sell three and one-half million dollars worth of Tax Anticipation Notes immediately.

This must be done if salary warrants are to be released on due dates.

It is not legally possible to offer Tax Anticipation Notes for sale until the tax rate ordinance has been adopted.

In view of these circumstances, the Finance Committee is submitting to the Board for adoption today a tax rate of \$3.937 for the fiscal year 1939-1940. Your Committee is pleased to call your attention to the fact that this tax rate of \$3.937 is 10.3c lower than the tax rate for 1938-1939.

Favorable action by the Board today will make it possible to meet the payrolls on due dates.

Your Finance Committee submits to the Board the details of the rate structure.

Favorable action by the Board today will make it possible for us to maintain our record of meeting all payments on schedule.

This ordinance is passed as an emergency measure and the Board of Supervisors does by the vote by which this ordinance is passed specifically declare that an actual emergency exists which necessitates this ordinance becoming effective immediately, the nature of said emergency being as follows:

That the passage of said ordinance is required as a prerequisite to the issuance of tax anticipation warrants in accordance with the provisions of Section 81 of the Charter, and that the issuance of said notes immediately is necessary in order to provide funds for the operation of the police and fire departments, and for the maintenance of hospitals and relief homes in San Francisco and for the care of the indigent sick and dependent poor of the City and County, and for the preservation of the public peace, property, health and safety of the people of said City and County, as well as for the uninterrupted operation of the various departments of the government of the City and County of San Francisco.

Statement by Supervisor McSheehy
August 28, 1939

To the Honorable,
The Board of Supervisors,
City Hall.
Gentlemen:

On May 26, 1939, I voted "NO" on the supposed all-inclusive budget as presented to this Board by His Honor, Mayor Rossi, and under date of June 1, I gave, in writing, my reasons for so doing. As the tax rate fixed by this Board today is based upon that same budget, I find it necessary to vote "NO" on this proposed tax rate of \$3.937.

As quite fully set forth by me in my communication of June 1, this budget provides but \$300,000 for WPA this fiscal year, although by Controller Boyd's estimate there will be spent the sum of \$1,736,284. It is proposed to obtain the difference from a surplus of several years in the bond and redemption fund, and from estimated profits of \$700,000 from the Municipal Railway. This last sum should be utilized for the purchase of gasoline buses.

The proposed method of obtaining additional funds for WPA without setting them up in the budget, I maintain is not legal and is open to injunction by action of any citizen. If such injunction proceedings should be taken they would prevent the expenditure by the city of any sum in excess of \$300,000 for WPA projects, probably cause the Federal Government to withdraw its share of appropriations for projects in excess of those provided by the city's limited appropriation and result in great distress among the thousands of our citizens dependent upon WPA for their support.

My report of June 1 also protested against the use for tax purposes of an estimated profit of \$902,000 to accrue from the Water Department, contending that water meters should be removed and the daily surplus of 70,000,000 gallons of water now flowing into the sea should be made available to water users on a low flat-rate basis.

It is my contention that this budget for the fiscal year 1939-1940 calls for an expenditure of \$889,515.00 in excess of last year's expenditure, or an increase in the tax rate of 22 cents, less 5 cents realized from the \$400,000 in franchise tax settlement obtained from the Pacific Gas and Electric Company as the result of measures originated by me and pursued to a successful conclusion through my persistent efforts.

It is my conclusion, therefore, that the budget as proposed by His Honor, Mayor Rossi, and adopted by a majority of the Board is unsound, not legal, and is not a balanced budget nor a fair and reasonable budget in the public interest, and that funds and proposed expenditures have been manipulated solely in an effort to set up a fictitious reduction in the tax rate for political purposes.

For the reasons set forth I am compelled to vote against fixing the tax rate at \$3.937 on the basis of this budget and I wish my vote so recorded and this statement printed in the Journal and made a part of the record.

Sincerely,

James B. McSheehy,
Supervisor.

JBM:S

Controller to Reply to Statement

Following the reading of the foregoing statement by Supervisor McSheehy, the Controller announced that he intended, after the statement had been printed, to reply to same, not only before the Board, but elsewhere.

Discussion of Tax Rate Ordinance

Supervisor Brown discussed the effect on the proposed Tax Rate for the current fiscal year by the change of practice heretofore followed to include in the Budget and the consequent provision therefor in the tax rate, of amount necessary to meet bond interest coming due on July 1 of each year.

Supervisor Uhl called attention to estimated revenue of \$475,000 to be received from the Pacific Gas and Electric Company, as payment for franchises for the distribution of gas and electricity, and for franchise taxes. He objected to a tax rate based on the expectation of receiving such amount from the Pacific Gas and Electric Company, and suggested that such amount, when received from the company, or a portion thereof, be used for the purchase of the company's properties in the Marina desired for the extension of the yacht harbor.

Suggestion Ruled Out of Order

The Chair, however, ruled that inasmuch as funds for the purchase of properties in the Marina had not been included in the budget, such purchase, beyond the \$20,000 already set up in the budget for the first year's installment thereon, could not be financed from the current tax rate, and that the suggestion was, therefore, out of order.

Whereupon, Supervisor Uhl announced his intention to vote "No" on the proposed Tax Rate Ordinance.

Supervisors Colman, Brown and Roncovieri all stressed the necessity for action on the Tax Rate Ordinance, pointing out objections that had been raised during the consideration of the budget, but that the budget having been adopted, the necessary tax rate ordinance to provide for the financing of that budget must be enacted.

Motion for Postponement

Supervisor Uhl announced that negotiations with the Pacific Gas and Electric Company had never been before the Board for discussion. He stated further that his suggestion for the purchase of Marina property of the company, desired for the extension of the yacht harbor, and to be paid for from funds due to the City and County from the company, had been ruled out of order previously, and that he had had no opportunity to discuss the matter. For that reason, and feeling that such opportunity should be accorded him before the passing of the tax rate ordinance, he moved that the Tax Rate Ordinance remain on the calendar for consideration of the Board at its next meeting. Motion seconded by Supervisor McSheehy.

Presence of Supervisor McGowan

During the foregoing discussion, Supervisor McGowan, who had been excused from attendance at the day's meeting, appeared in the chambers.

Roll Call on Motion for Postponement

The roll was called and the motion for postponement of action on the Tax Rate Ordinance until Tuesday, September 5, 1939, failed by the following vote:

Ayes: Supervisors McSheehy, Uhl—2.

Noes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—9.

Explanations of Votes

Supervisor Uhl, in explanation of his vote, stated that because he had not had his day in court on the Marina land purchase, he would vote "No" on the Tax Rate Ordinance.

Supervisor McSheehy announced that he would vote "No" on passage of the Tax Rate Ordinance, and referred to his statement previously presented, explaining his reasons therefor.

Supervisor Roncovieri announced his intention to vote in favor of Final Passage of the Tax Rate Ordinance, as presented, pointing out that if the suggestions of Supervisors McSheehy and Uhl were approved, an increase of about fifteen cents in the tax rate would result.

Final Passage

Thereupon, the roll was again called and the Tax Rate Ordinance for the fiscal year 1939-1940 was finally passed as an emergency measure by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—9.

Noes: Supervisors McSheehy, Uhl—2.

Improvement of Miguel Street

During the foregoing discussion Supervisor McSheehy inquired as to the status of Miguel Street, and when the proposed improvement thereof could be effected.

Supervisor Ratto, in reply thereto, recalled the action of the Board during consideration of the current year's budget, and stated that Miguel Street had been placed at the head of the list of major projects to be taken care of as soon as money was available.

Final Passage

The following recommendation of the Finance Committee was taken up:

Authorizing Tax Anticipation Notes for the Fiscal Year 1939-1940.

(Series of 1939)

Bill No. 298, Ordinance No. 269, as follows:

Determining that funds are needed for the immediate requirements of the City and County of San Francisco for the fiscal year 1939-40 in accordance with appropriations made, as authorized by the Charter of said City and County of San Francisco, for said fiscal year; determining that funds therefor cannot be made available as provided in the first two paragraphs of Section 81 of said Charter; authorizing the Board of Supervisors of said City and County of San Francisco to borrow on its behalf the sum of \$8,000,000 solely for the purpose of anticipating receipt of income, and to cause to be issued notes or other evidences of indebtedness evidencing the amount or amounts so borrowed, which notes shall be payable exclusively out of taxes levied and collected by said City and County for said fiscal year 1939-40 providing that the principal amount of said notes together with the interest thereon shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which such money shall be borrowed and shall be repaid from the first moneys received from said taxes; and providing for the sale of said notes or evidences of indebtedness as provided by law and for the payment of the principal thereof and the interest thereon.

Be it ordained by the People of the City and County of of San Francisco, as follows:

Section 1. The Board of Supervisors of the City and County of San Francisco does hereby find and determine: That the sum of \$8,000,000 is needed for the immediate requirements of said City and County in the fiscal year 1939-40, to-wit: To meet and pay the appropriations heretofore made for said fiscal year as authorized by the Charter of said City and County, and which will become due and payable prior to June 30, 1940, and which may be paid in advance of receipt of the income for said fiscal year; that funds therefor cannot be made available as provided in the first two paragraphs of Section 81 of said Charter; that the Controller of said City and County has recommended that said sum of \$8,000,000 be borrowed for the purposes herein mentioned, and the Mayor of said City and County of San Francisco has approved said recommendation made by said Controller; and that the estimated aggregate amount of all taxes actually levied by said City and County for said fiscal year is \$33,276,085, and that said sum of \$8,000,000 does not exceed twenty-five (25) per centum of said estimated aggregate amount of all taxes actually levied for said fiscal year.

Section 2. The Board of Supervisors of said City and County of San Francisco is hereby authorized to borrow on behalf of said City and County, solely for the purpose of anticipating receipt of income, the sum of \$8,000,000 in lawful money of the United States of America, and to issue in the form hereinafter set forth notes of said City and County for the sum or sums so borrowed, payable as hereinafter provided.

Section 3. (a) As evidence of the sum to be so borrowed as aforesaid, there is hereby authorized to be issued by said City and County of San Francisco in the aggregate principal amount of \$8,000,000. Said notes shall be in the denomination of not less than \$1,000 each, nor more than \$100,000 each, and such denominations shall be fixed by resolution of this Board adopted at or after the time of the public sale of said notes as hereinafter provided. All of said notes shall be signed on behalf of said City and County of San Francisco by the President of said Board of Supervisors, and by the Controller of said City and County, and countersigned by the Treasurer of said City and County of San Francisco, and the seal of said City and County shall be affixed thereto. Said notes shall bear such interest as may be hereafter fixed

by resolution of said Board of Supervisors at or after the time said notes are sold, as hereinafter provided which said interest shall in no case exceed six (6) per cent per annum, and full authority is hereby given to said Board of Supervisors to fix by resolution the rate of interest on said notes and each or any of them. Said interest shall be payable at the maturity of said notes.

(b) The principal amount of said notes together with the interest thereon, issued and delivered under authority of this ordinance, shall be payable exclusively out of the taxes levied and collected by said City and County for the fiscal year 1939-40 and shall constitute a first lien and charge against the taxes collected during the half of the fiscal year in which said money shall be borrowed and shall be repaid from the first moneys received from said taxes; and the amount of taxes so levied and collected shall be applied to the payment of said notes before any part thereof is used for any other purpose; provided, however, that taxes levied for the payment of principal of, or interest on, any bonded indebtedness of said City and County now outstanding or hereafter created shall be applied to the purpose for which such taxes were levied, unless the money borrowed by such notes issued against such tax levies is in fact applied to the payment of the principal and interest of such bonded indebtedness. If at the time said notes, or any of them, become due and payable the funds in the City Treasury available for the payment thereof shall be insufficient for the payment in full of all of said notes then outstanding, such funds shall be applied pro rata to the payment of the principal and interest of all of the notes then issued and outstanding without preference or priority of any one note over any other by reason of prior issuance, or otherwise. Any of said notes not paid prior to June 30, 1940, shall, nevertheless, be paid out of moneys received from the taxes of the fiscal year 1939-40; irrespective of the date of the receipt thereof, it being the intent and purpose of this ordinance to provide for the payment of all notes issued hereunder out of the taxes levied for said fiscal year 1939-40 and to provide that such notes shall be payable out of said taxes for said fiscal year 1939-40 and to provide that such notes shall be payable out of said taxes for said fiscal year, irrespective of the actual date of the collection thereof.

(c) Each of said notes shall be substantially in the following form, to-wit:

Amending Municipal Code to Provide That Installation, Construction and Repair of Switches on the Municipal Railway Shall Constitute 'Emergency Work.'

(Series of 1939)

Bill No. 313, Ordinance No. _____, as follows:

Amending Section 46 of Article 2, Chapter X, Part II, of the Municipal Code of the City and County of San Francisco Defining an Actual Emergency Under Which Departments, Boards, Officers and Commissions May Do the Necessary Work to Meet Said Emergency When the Cost of Said Work Exceeds \$1000.00.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 46 of Article 2, Chapter X, Part II, of the Municipal Code of the City and County of San Francisco is hereby amended to read as follows:

"Section 46. EMERGENCY WORK. The Board of Supervisors hereby declares that in an actual emergency created by weather conditions, fire, flood, or other unforeseen conditions of unusual character, or the breakdown of any plant, equipment, structure, street or public work, necessitating immediate emergency repair or reconditioning to safeguard the lives or property of the citizens or the property of the city

and county or to maintain the public health or welfare, *and including the installation, repair, construction and alteration of crossings and switch work and special work in connection therewith, at street and other railway crossings and at street intersections, when the same is to be done by or for the Municipal Railway*, such repair, reconditioning or other emergency work may be executed in the most expeditious manner by the department head responsible therefor, who shall, if the emergency permits, first secure the approval in writing of the Chief Administrative Officer, if the emergency work is to be done or ordered by any department under his jurisdiction or, for departments not under the Chief Administrative Officer, the approval in writing of the president of the board or commission concerned, or of the Mayor. If the emergency does not permit such approval to be obtained before work is commenced said approval as hereinabove mentioned shall be obtained as soon thereafter as it is possible to do so.

The department head concerned shall notify the Controller immediately of the work involved and the estimated cost thereof."

Refused Passage

The following Bill referred to the Board by the Public Utilities Committee with the recommendation "Do not pass," was taken up:

Repealing Ordinance No. 63 (Series of 1939) Appropriating \$228,000 for Trackless Trolley Buses to Operate on Howard and Other Streets.

(Series of 1939)

Bill No. 312, Ordinance No.

Repealing Ordinance No. 63 (Series of 1939) Appropriating \$144,000 From the Surplus Existing in the Municipal Railway Operating Fund and \$84,000 From the Surplus Existing in the Municipal Railway Reconstruction and Replacement Fund for the Purpose of Establishing a Trolley Bus Line From Beale Street to Army Street and Return, Along Certain Streets.

Whereas, The Market Street Railway Company is supplementing its present street car system, through the operation of buses on the No. 19 line, on Polk, Larkin and 9th Streets; and

Whereas, This bus operation, on the No. 19 line has proven far superior to the trolley car service, through the elimination of noise and through the fast service rendered thereby; and

Whereas, The Market Street Railway Company has petitioned this Board for permission to supplement its present street car service with buses on five additional lines; and

Whereas, No trackless trolley buses are being or are to be operated on any of the foregoing routes, evidenced by the fact that gas buses are preferred by the private company, by reason of their efficiency and economy of operation; and

Whereas, An appropriation of \$228,000 was voted by this Board for trackless trolley buses to be utilized on an extension to the Municipal Railway on Howard Street and Van Ness Avenue South, from Beale to Army Street; and

Whereas, Twenty (20) gasoline buses, with greater efficiency and economy and of equal capacity could be obtained for the same sum of money, \$226,000; and

Whereas, Twenty (20) buses would furnish a superior service, extending to the county line in the Mission district, thereby providing sorely needed transportation to the people in that vicinity; and

Whereas, Such service could be operated on the basis of a five-cent fare; therefore, be it

Ordained by the People of the City and County of San Francisco, as follows:

That Ordinance No. 63 (Series of 1939), be and is hereby repealed.

Discussion

Supervisor Uhl, author of the foregoing Bill, explained his reasons for presenting same, by saying that it was his contention that for the same amount heretofore appropriated for the purchase of trackless trolley buses, twenty or more gasoline buses could be purchased, and service provided for the people in the district between First and Market Streets and the County Line.

Supervisor McSheehy, member of the Public Utilities Committee, explained the reasons prompting the Committee's recommendation that the Bill "Do not pass," stating that trackless trolleys would relieve the congestion on Howard Street and South Van Ness Avenue, and would furnish the transportation which the people in the district desired.

Refused Passage

Thereupon, the roll was called and the foregoing Bill was refused passage by the following vote:

Ayes: Supervisor Uhl—1.

Noes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—10.

The Board of Supervisors of the City and County of San Francisco hereby submits to the electors of said City and County at the general election to be held on the 7th day of November, 1939, a proposal to amend Section 125 of the Charter, relating to employees engaged in public utility work, to read as follows:

be deemed appointed to such positions, under, and entitled to all the benefits of, the civil service provisions of this charter; provided, however, that no person who is not a citizen of the United States shall be so continued in or appointed to his position. All persons residing outside the city and county claiming the benefit of this provision and who are not engaged on such utility work outside of the limits of the city and county shall be allowed a reasonable time, not exceeding one year, to become residents of the city and county.

Persons employed as platform men or bus operators in the operating department of the municipal railway system shall be subject to the following conditions of employment: The basic hours of labor shall be eight hours, to be completed within ten consecutive hours; there shall be one day of rest in each week of seven days; all labor performed in excess of eight hours in any one day, or six days in any one week, shall be paid for at the rate of time and one-half.

Conductors and motormen may be assigned to duty as bus operators and while assigned to such duty they shall receive the compensation fixed for such service. Such assignment shall be governed by seniority of service, subject to a qualifying test by the railroad management as to competency and to state law as to qualifications and licensing.

Positions and employments in the municipal airport, which airport by this charter is placed under the jurisdiction of the public utilities commission, shall be continued and the employees thereof shall, subject to the approval of the commission, be appointed by and hold office at the pleasure of the manager of utilities. Charter Amendment No.

**Qualifications and Tests for Places in the Classified Service—
Veterans Preference**

Supervisor McSheehy presented Charter Amendment No. _____, as follows:

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of the City and County of San Francisco, by amending Section 145 thereof relating to qualifications and tests under the classified service of the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County at the general election to be held the 7th day of November, 1939, in the City and County of San Francisco, a proposal to amend as herein set forth the Charter by amending Section 145 thereof, relating to qualifications and tests under the classified service of the City and County of San Francisco.

Section 145. All applicants for places in the classified service shall submit to tests, which shall be competitive and without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants to perform service for the City and County. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed forces of the fire and the police departments shall be not less than twenty-one years of age, nor more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such

applicants may be permitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority of application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any examination, shall be allowed an additional credit of 5 per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of 3 per cent shall be allowed to veterans or to widows of such veterans. No more than one such entrance preference, or one such promotive preference may be allowed to any one person, *provided that if any participant in any examination for either entrance or promotive positions avails himself of the preference herein allowed for veterans and said person does not attain a passing mark on the list of eligibles to be derived from said examination, or if said person should attain a place on said list of eligibles and should not receive a permanent appointment therefrom, then said person in any future or other examinations may continue to avail himself of said veterans' preference until he receives a permanent appointment from any eligible list for which he has claimed said veterans' preference; and it is further provided that any veteran may avail himself of the veterans' preference as allowed by this section in as many examinations as he may participate in until such time as he receives a permanent appointment from any eligible list created by any examination in which he may participate.* The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than 10 per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans Bureau.

The department secretary or other suitable member of the department shall be assigned by the chief of police to serve also as secretary to the police commission without extra compensation. The officer holding the position of property clerk at the effective date of this amendment and who has held such position for one year prior thereto shall have the rank and pay of captain, as long as he legally holds such position, provided that when a successor to such position is assigned thereto by the chief of police from among the members of the department, such assignment shall be made at the rank and pay of the member so assigned.

When any member of the department, detailed to any of the positions above mentioned, shall be removed from said detail or position he shall be returned to his civil service rank and position, unless removed from the department pursuant to the provisions of Section 155 of the charter.

The chief of police may refuse to issue any permit that is subject to police department investigation and issuance, if it shall appear that the character of the business or the applicant requesting such permit does not warrant the issuance thereof, or he may revoke any such permit as soon as it shall appear that the business or calling of the person to whom it was granted is conducted in a disorderly or improper manner, or that the place in which the business is conducted or maintained is not a proper or suitable place in which to conduct or maintain such business or calling.

In the suppression of any riot, public tumult, disturbance of the public peace or organized resistance against the laws or public authority, the chief of police, in the lawful exercise of his functions, shall have all the powers that are now or that may be conferred on the Sheriff by the laws of this State.

The supervisors shall provide in the annual budget an amount not to exceed in any one fiscal year the sum of \$10,000, to be known as the contingent fund of the chief of police. The chief of police may from time to time disburse such sums for contingent expenses of the department as in his judgment shall be for the best interests of the

city and county, and the police commission shall allow and order paid out of such contingent fund, upon orders signed by the chief of police, such amounts as may be required.

At his discretion or upon the petition of any person, firm or corporation, the chief of police may appoint, and at his pleasure remove special police officers. Such officers shall be subject to all the rules and regulations of the department.

The police commission may appoint patrol special police officers and for cause may suspend or dismiss said patrol special police officers after a hearing on charges duly filed with the commission and after a fair and impartial trial. Each patrol special police officer shall be at the time of his appointment not less than twenty-one years of age nor more than forty years of age and must possess such physical qualifications as may be required by the commission. Age qualifications shall not apply to present patrol special police officers acting as such at the time of the effective date of this amendment nor to their reappointment. Patrol special police officers who are designated by the police commission as the owners of a certain beat or territory as may be fixed from time to time by said commission or the legal heirs or representatives of said owners, may dispose of their interest in said beat or territory to a person of good moral character, approved by the police commission and eligible for appointment as a patrol special police officer.

On the recommendation of the chief of police, the commission may reward any member of the department for heroic or meritorious conduct. The form or amount of said reward to be discretionary with the commission, but not to exceed one month's salary in any one instance.

The chief of police shall have power, by regulation, to provide for the care and restitution of property that may come into possession of the department or into the possession of any officer or employee thereof, and the sale at public auction of all such unclaimed property, as well as the disposition of such property as shall consist of weapons or articles used or that may be used in the commission of crime, or the sale or disposition of which is prohibited by law.

City Hall,
San Francisco, California.

Dear Supervisor Shannon:

The following telegram addressed jointly to His Honor the Mayor and yourself, was received this morning:

Mayor Angelo Rossi and Chairman Shannon of Supervisors,
San Francisco.

I have been advised of the action of your Board of Supervisors appointing a committee to meet with me and discuss moving SRA offices to Los Angeles. I have discussed this matter with Acting Administrator Chambers and arrangements for transfer of Division of the State Offices are already made. However, part State SRA offices will be maintained in San Francisco. I am sending this wire to save unnecessary time and expense of Supervisors Committee in connection with the subject. I feel certain that the changes made will prove entirely satisfactory both to the San Francisco Bay District and Los Angeles area. Kindest regards.

Governor Culbert L. Olson.

Communication ordered to be made part of the record, and filed.

In commenting on the above communication, Supervisor Shannon announced that after consultation with the Mayor, upon receipt of the telegram from the Governor, he felt that the appointment of the suggested committee to interview the Governor was unnecessary.

Supervisor Brown, in commenting on the removal of the SRA headquarters from San Francisco, read two articles from the San Francisco Examiner on the subject. Following the reading, he stated that he felt that much good had been accomplished by the protests to the removal, stating that in his opinion, just so long as San Francisco continues to submit to such thing without resistance, just so long will State and Federal agencies be taken away from her, and that he proposed, in the future, to continue to fight for what is justly San Francisco's share of governmental expenditures.

Also, Supervisor Shannon read and presented a communication from Mr. Ole J. Sneider, calling attention to the imminent possibility of a major earthquake in Southern California, and suggesting that for that reason, State Relief Headquarters should not be located in that district.

Dedication of Unit of Joint Highway District No. 9

THE P. G. & E. FRANCHISES

The Question of Annual Payments

Annual Revenue

Gas: 1% of \$8,148,985.00, the Company's gross revenues for gas sold for all purposes in San Francisco during the calendar year 1938, including that sold under the untransferable constitutional franchise, would have yielded the City.....	\$ 81,489.85
Electricity: ½ of 1% of \$15,769,006.00, the Company's gross revenues for electricity sold for all purposes in San Francisco during the calendar year 1938, including electricity sold under the untransferable constitutional franchise, would have yielded the City	78,845.03
or an aggregate of	<u>\$160,334.88</u>

Franchise Act of 1937

In discussions between your Committee and the representatives of the Company, reference was made by us to the "Franchise Act of 1937," to ascertain whether the City would have received more in 1938 under the rates prescribed thereby than the sums given above.

It is provided in that Act that if an application be for a gas franchise by a company which has a constitutional franchise for gas and wishes one supplementary thereto, the annual charge shall be two per cent (2%) of the gross annual receipts of applicant arising from the use, operation or possession of said franchise; provided, however, that such payment shall in no event be less than a sum which shall be equivalent to one per cent (1%) of the gross annual receipts derived by applicant from the sale of gas within the limits of such municipality under both said gas franchises; or if the application be for an electric franchise, shall be two per cent (2%) of the gross annual receipts of applicant arising from the use, operation or possession of said franchise; provided, however, that such payment shall in no event be less than a sum which shall be equivalent to one-half per cent (½%) of the gross annual receipts derived by applicant from the sale of electricity within the limits of such municipality under both said electric franchises.

Your Committee gave particular attention to the words "*the gross annual receipts of applicant arising from the use, operation or possession of said franchise*" and ascertained that this phrase had been interpreted in County of Tulare v. City of Dinuba, 188 Cal. 664 (1922) involving the Broughton Act, and that the court had decided that the revenues arising from the sales were to be spread over all of the properties of the company and hence the municipality would be entitled to its percentage computed on its proper aliquot part of all the properties contributing to the San Francisco service.

Your Committee then sought to ascertain what the 2% mentioned in the Franchise Act of 1937 would have yielded the City under a gas

franchise in force in 1938. The Company computed that the yield would be only \$30,955 per annum, while the engineers of the City Attorney's office computed that the yield would be from \$58,000 to \$78,000, depending on the method of calculation used.

In no event, however, would any of these calculations based upon the 2% reach the sum of \$81,489.85 to be realized upon 1% of the entire 1938 gross revenue for gas, *including revenue under the untaxable constitutional franchise.*

Your Committee made similar calculations in respect of electricity and ascertained that approximately 65% of the total sales of electricity were for untaxable electricity supplied under the constitutional franchise and the remaining 35% only for heat and power. The 2% provision was applied to ascertain the 1938 yield based upon this 35% for heat and power. The Company computed it would yield \$6,122 per annum. The engineers of the City Attorney's office computed that the yield would range from \$40,000 to \$57,000 depending on the method of calculation used. In no event, however, would these figures reach the sum of \$78,845 to be used realized through 1% of 1% of the entire 1938 gross revenue for electricity, *including revenue under the untaxable constitutional franchise.*

There were differences between your Committee and the representatives of the Company about the interpretation of the Constitution, the Company giving its constitutional franchise a wider interpretation than your Committee could agree to. This, however, is not important as the matter was dealt with upon the assumption (for present purposes) that the contention of the Committee was correct.

Consideration of the Price to Be Paid for the Franchises, Gas and Electric

Your Committee dealt with one sum to cover both franchises. Its approach to the question was from the viewpoint of annual payments charged retroactively. The Company would not concede the propriety of any charge retroactively applied and insisted that any payment made by it should be treated as a price paid for the franchise and that any claims for the past should be abandoned.

The representatives of the Company proposed, subject to the approval of the Company, that it pay \$300,000 for both franchises. Your Committee, asked 1% on both gas and electric revenues retroactively for a period of three years, amounting approximately to \$717,500.

The Company suggested that approximately 50% of the electric energy sold in San Francisco was Hetch Hetchy power distributed by it as agent for the City; that in accounting to the City for its power, the Company did not, and indeed had no opportunity to, deduct 1%, or any fraction of 1%, from the revenue paid over to the City as a charge now sought retroactively to be made to the City for the use of its streets; and furthermore, that the Hetch Hetchy contract of July 1, 1925 proceeded on the assumption that the Company was lawfully occupying the streets for transmitting and distributing electricity and could not now reverse its position retroactively.

The Company also claimed that the rates lawfully established by the Railroad Commission and charged by it did not give the Company any deduction for such a charge now sought to be made retroactively against the Company; that the consumers had had the benefit of a rate without such a deduction, and such a charge now retroactively applied would be unjust.

Later, the City proposed \$500,000; then \$481,005 based on three times the computed revenues for 1938, i. e., \$160,335. The representatives of the Company next suggested that they would ask the Company for authority to make an offer of \$350,000 if the City would signify its willingness to accept that amount.

This was the situation when the Joint Committee and the City Attorney met again with the representatives of the Company on July 25th. After a long discussion, the Committee intimated to the representatives of the Company that it would recommend \$400,000 as the purchase price to this Board if the Company would immediately agree to pay that amount. The representatives of the Company telephoned the Company during our conference and were authorized to offer the \$400,000 provided the Joint Committee would then and there vote to recommend to this Board the acceptance of the offer, although it was fully understood that the recommendation would not in any manner bind the Board. The Committee did then and there so vote and the parties thereby reached their agreement.

The net result was as follows:

1. The franchises are to be indeterminate, that is to say, they are franchises from day to day. They will terminate whenever the City desires to acquire the property either by negotiation or through eminent domain. If the property is acquired through eminent domain, the Railroad Commission will fix the value of the property "used and useful" in serving the City. Of course, this Board would never tolerate a cessation of service of gas and electricity to the people; and if the City at any time can take over the property "used and useful" (note the words) in the service of the City, no more can be expected. The people will not be overcharged or underserved. The Railroad Commission controls both matters. The Board has its police powers. In addition, in fixing the terms of the franchises in accordance with the recommendation of your Committee, the Board assures to the City revenue which it is reasonable for the Company to pay and reasonable that the City shall receive.

2. It is expected that the franchises will come into operation early in January, 1940. The Company will pay the percentages as from January 1, 1940.

3. Annual payments are to be made at 1% on all gas sales and 1/2% on all electric sales in San Francisco under the franchises to be granted and the constitutional franchises. This will include all gas and electricity transmitted and distributed by the Company for its own account or for the account of another. Taking 1938 as a criterion, the annual payment would be approximately \$160,000.

4. As noted above, the Franchise Act of 1937 prescribes 1% of the gas revenues and 1/2% of the electric revenues. The two franchises here proposed adopt these percentages. In gas, the major part of the Company's revenue is derived from heat and power and the minor part from light which is furnished under the untaxable constitutional franchise. Therefore, the percentage computed on the gas revenues for light, heat and power combined should be higher than the electric percentage because the Company's revenue from electric light under the untaxable constitutional franchise is 65% of all of its electric revenue and only 35% thereof (approximately) comes from heat and power which are to be furnished under the proposed electric franchise. 1 1/2% of the electric revenue from light furnished under the untaxable constitutional franchise and from heat and power to be furnished under the proposed electric franchise in combination is exactly 1-3/7% of the Company's revenue from heat and power to be furnished under the proposed electric franchise.

5. Prior to June 30, 1940, the Company will pay the City \$75,000 as an installment on their annual payment for the year 1940.

6. Immediately after the granting of the franchises in January, 1940, the Company will pay the City \$400,000 for the purchase of the franchises; i. e., \$200,000 for each.

7. The aggregate payments to the City prior to June 30, 1940 will thus amount to \$475,000 covering purchase price of both franchises and installment on annual payment for 1940.

As a sidelight on the purchase price of \$400,000, i. e., \$200,000 for each franchise, the Company pointed out that it could not be expected to pay the City what it already had paid in accounting for sales of Hetch Hetchy power and that its revenue, excluding 50% for Hetch Hetchy power for the year 1938 would be: gas \$81,489.85; electricity \$39,422.52 (1/2 of \$78,845.03), or a total of \$120,912.37, which multiplied by three would yield \$362,737.11, measurably below its agreement to pay \$400,000 for the franchises.

It is possible that your Committee could have secured a larger sum as a flat payment under the threat that the City would otherwise order the Company to desist from serving heat and power to the people. Theoretically, this seems persuasive, but looking at the situation realistically, it would mean that all service of gas and electricity to the inhabitants of San Francisco would cease, a situation that is inconceivable.

In protecting the people of the City, the duty of the Board (which it fully recognizes) is to get them service, gas and electricity, which they need and desire, and see that they are not overcharged and that the Company pays to the City whatever it is appropriate it should pay for the privileges which it enjoys in the City.

With the grant of these franchises and the payment to the City of the sums which the Company agrees to pay, your Committee thinks all of these objectives will have been attained, and therefore recommends the adoption of the ordinances applied for.

August 28, 1939.

HONORABLE BOARD OF SUPERVISORS,
City Hall, San Francisco, Calif.

Dear Sirs:

I herewith enclose you two applications for franchises to be issued by your Board to the Pacific Gas and Electric Company, one authorizing the distribution of gas and the other the distribution of electricity. Attached to each application is a letter addressed to me by Mr. Thomas J. Straub, attorney for the Company, making certain reservations in the interpretation of the franchises, and a second letter agreeing to pay to the City, prior to June 30, 1940, the sum of \$75,000.00 as a payment on account of the percentages to become due under both franchises for the calendar year 1940.

It is estimated that the \$75,000.00 is practically one-half of the revenue under both franchises as far as the same can be estimated prior to July 1, 1940. I would suggest that these franchises be referred to such committee or committees as your Board shall deem proper and that a public hearing upon the same be had to the end that the public itself may be fully familiar with the terms of the franchises. I also suggest that copies of the franchises be printed, not only for use by the members of the Board but also for use by such members of the public as may desire to study the franchises.

Very truly yours,

Encls.

JNO. J. O'TOOLE, City Attorney.

Honorable John J. O'Toole,
City Attorney,

My dear Mr. O'Toole:

I am sending you herewith signed application to the Board of Supervisors for a gas franchise, including draft of form of ordinance for granting same.

As you will note, in drafting the form of ordinance we have assumed the interpretation which the City puts upon our constitutional rights.

We do not agree that our constitutional rights are properly defined in the ordinance, but as it is necessary in order to obtain a franchise that it should be couched to conform to the view of the City, we have prepared the ordinance accordingly.

It must not be taken to be an abandonment of our position nor a recognition of the correctness of the interpretation put upon our constitutional rights by the City or the ordinance.

Ordinance No.....

Ordinance Granting to Pacific Gas and Electric Company, its Successors and Assigns, a Franchise to Introduce Into, Transmit, Distribute and Supply to the City and County of San Francisco

and its Inhabitants Gas for Every Use and Purpose to Which it May Be Put, Exclusive of Those Uses and Purposes for Which Gas May Be Now Supplied By Pacific Gas and Electric Company or Hereafter Supplied By its Successors or Assigns Under Section 19 of Article XI of the Constitution of the State of California, as Said Section Existed Prior to Its Amendment on October 10, 1911, and to That End to Lay and Use in the Streets of Said City and County All Pipes and Appurtenances Necessary or Proper Therefor, and Likewise to Use All Gas Pipes and Appurtenances Which are Now in Place or Hereafter May Be Placed in Said Streets.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words and phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the given instance, the context wherein they are used shall import a different meaning):

(a) The word "grantee" shall mean Pacific Gas and Electric Company, its successors and assigns;

(b) The word "city" shall mean the City and County of San Francisco, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or reincorporated form, and shall include annexed territory;

(c) The word "streets" shall mean the public streets, ways, alleys and places as the same now exist or may hereafter exist within said city;

(d) The word "gas" shall mean natural gas and/or manufactured and/or artificial gas, or a mixture of natural gas and/or manufactured and/or artificial gas, including any gaseous substance usable for heat, power, illumination or fuel purposes;

(e) The phrase "pipes and appurtenances" shall mean pipes, pipelines, mains, services, traps, vents, vaults, manholes, meters, gauges, regulators, valves, conduits, appliances, attachments, appurtenances and any other property located or to be located in, upon, along, across, under or over the streets of the city, and used or useful in introducing, transmitting, distributing and supplying gas as aforesaid;

(f) The phrase "lay and use" shall mean to lay, construct, erect, install, operate, maintain, use, repair or replace;

(g) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said city and county all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted

shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants gas for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one (1%) per cent of the gross annual receipts of the grantee from the sale of gas within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said gas be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost

of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

(f) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

TUESDAY, SEPTEMBER 5, 1939, 2 P. M.

In Board of Supervisors, San Francisco, Tuesday, September 5, 1939,
2 P. M.

The Board of Supervisors met in regular session.

CALLING THE ROLL

The roll was called and the following Supervisors were noted present:

Supervisors Colman, McGowan, McSheehy, Mead, Meyer, Roncovieri, Schmidt, Shannon, Uhl—9.

Absent: Supervisors Brown, Ratto—2.

Quorum present.

President Warren Shannon presiding.

Supervisors Brown and Ratto on leave of absence.

President Warren Shannon was excused from attendance at 4:30 P. M., and Supervisor Mead took the chair.

Prayer

Supervisor Schmidt, immediately following the Roll Call, rose, and addressed the Board as follows:

"I feel at this particular meeting that we are beginning today, at a time of great stress and strain in this country and in the world, that human strength and human wisdom seem to fail that the only thing left is to call on divine guidance. After speaking to many mothers in our own community, with sons—after speaking to my own wife, who is the mother of three sons, feeling, as she does about war, and as most mothers do—with the exception of war of defense or battle in defense of firesides and homes, I feel that we, as a Board of Supervisors should set an example here today by beginning our deliberations with an invocation to Deity, and therefore, I would like to offer, at the beginning of our deliberations today, this prayer:

"We beseech Thee, Almighty God—to bestow Thy blessing upon this gathering and guide our hearts and minds into the paths of righteousness and peace.

"Let us be forever mindful of the blessings of peace. Teach us to live in harmony with our fellow men whithersoever dispersed.

"Let distrust, envy, jealousy and greed give place to the teachings of the Prince of Peace.

"Guide, O God! the Statesmen of the world to see the folly of conflict, with its destruction and waste, its suffering and sorrow.

"Teach that the tranquility and nobility of peace far transcend the glory of conquest and war with its aftermath of pestilence and depression.

"Let us again resolve that the brave men who gave their lives on the altar of freedom and democracy in the last war shall not have died in vain.

"We pray that our country will engage in no unholy war and allow

us ever to remember and keep fresh in our minds the motto of our peace loving country, that—'In God Is Our Trust.'

"We ask it all in the name of the Great Disciple of Peace, who taught us the Fatherhood of God, the brotherhood of man and who brought us the message of 'Peace on earth, good will toward all mankind.'

"AMEN."

APPROVAL OF JOURNALS

The Journals of Proceedings of the meetings of July 11, 12, 14 and 17, and of the meeting of August 28, 1939, were considered read and approved.

Appeal from decision of the City Planning Commission denying application to rezone from Second Residential District to Commercial District property located at the intersection of the northeasterly line of Richardson Avenue and the westerly line of Broderick Street.

Privilege of the Floor

Mr. Harry K. Wolff representing the appellants, urged that the decision of the City Planning Commission be disapproved and that the property in question be rezoned from Second Residential to Commercial District.

Mr. Joseph J. Phillips, Director of Property, supported the arguments presented by Mr. Wolff and stated that if the rezoning was approved by the Board, he intended to request rezoning of city property in the vicinity.

Mr. Mark Jorgensen presented the views of the City Planning Commission and the reasons which prompted the Commission to deny the application.

Action Deferred

Thereupon, at the request of Supervisor Colman, action was deferred until September 11, 1939, at 2 P. M.

Consideration Postponed**SPECIAL ORDER—2:30 P. M.****Requesting the Mayor to Negotiate with Traffic Engineers re
Furnishing Transportation Plan for San Francisco**

(Series of 1939)

Resolution No., as follows:

Whereas, The problem of transportation and traffic is daily becoming more acute, due to the visitors to the Exposition, large numbers of Delegates attending Conventions and the extensive home building program under way throughout our City; and

Whereas, It is essential that action be taken to provide adequate modern transportation to insure the proper growth and future prosperity of our City; and

Whereas, Numerous surveys have been made at a tremendous cost to the taxpayers of San Francisco, notably the McClintock report upon which no action has been taken and which contains some valuable recommendations which should be studied and adopted at the earliest possible moment; and

Whereas, The proposed employment of Mr. Chas. Purcell on a part time basis, as advocated by the Mayor, is declared to be "*quite impracticable and therefore inadvisable*" in the opinion of Frank W. Clark, State Director of Public Works; and

Whereas, The money has been appropriated for the purpose of get-

ting technical advice on our Transportation and Traffic Problem, and many valuable suggestions are being held in abeyance pending the expected survey; and

Whereas, San Francisco is in need of aggressive, intelligent traffic planning at once to provide rapid transit and relief to our citizens who are taxpayers and who are clamoring for adequate transportation to their homes; and

Whereas, Bus transportation will provide rapid transit and promote the development of our City, and the private company is now demonstrating this by adding buses to their system as rapidly as possible; now, therefore, be it

Resolved, That this Board of Supervisors request the Mayor to immediately negotiate with Traffic Engineers of proven ability on what terms they will furnish a Transportation Plan, so that immediate attention may be given the problem of transportation and traffic in this City; and, be it

Further Resolved, That the Mayor be requested to submit to this Board of Supervisors information as to the cost and time required by Traffic Engineers to properly recommend a plan of action to provide modern, rapid and adequate transportation for San Francisco, taking into consideration the proper system to be extended into San Mateo County and the Peninsula.

SPECIAL ORDER—4 P. M.

The following report of Joint Committee, Finance and Public Utilities, was taken up:

August 28, 1939.

THE P. G. & E. FRANCHISES

The Question of Annual Payments Annual Revenue

Gas: 1% of \$8,148,985.00, the Company's gross revenues for gas sold for all purposes in San Francisco during the calendar year 1938, including that sold under the <i>untaxable constitutional franchise</i> , would have yielded the City.....	\$ 81,489.85
Electricity: ½ of 1% of \$15,769,006.00, the Company's gross revenues for electricity sold for all purposes in San Francisco during the calendar year 1938, including <i>electricity sold under the untaxable constitutional franchise</i> , would have yielded the City	78,845.03
or an aggregate of	<u>\$160,334.88</u>

Franchise Act of 1937

In discussions between your Committee and the representatives of the Company, reference was made by us to the "Franchise Act of 1937," to ascertain whether the City would have received more in 1938 under the rates prescribed thereby than the sums given above.

It is provided in that Act that if an application be for a *gas* franchise by a company which has a constitutional franchise for gas and wishes one supplementary thereto, the annual charge shall be two per cent (2%) of the gross annual receipts of applicant arising from

the use, operation or possession of said franchise; provided, however, that such payment shall in no event be less than a sum which shall be equivalent to one per cent (1%) of the gross annual receipts derived by applicant from the sale of gas within the limits of such municipality under both said gas franchises; or if the application be for an electric franchise, shall be two per cent (2%) of the gross annual receipts of applicant arising from the use, operation or possession of said franchise; provided, however, that such payment shall in no event be less than a sum which shall be equivalent to one-half per cent (1/2%) of the gross annual receipts derived by applicant from the sale of electricity within the limits of such municipality under both said electric franchises.

Your Committee gave particular attention to the words "*the gross annual receipts of applicant arising from the use, operation or possession of said franchise*" and ascertained that this phrase had been interpreted in *County of Tulare v. City of Dinuba*, 188 Cal. 664 (1922) involving the Broughton Act, and that the court had decided that the revenues arising from the sales were to be spread over all of the properties of the company and hence the municipality would be entitled to its percentage computed on its proper aliquot part of all the properties contributing to the San Francisco service.

Your Committee then sought to ascertain what the 2% mentioned in the Franchise Act of 1937 would have yielded the City under a gas franchise in force in 1938. The Company computed that the yield would be only \$30,055 per annum, while the engineers of the City Attorney's office computed that the yield would be from \$58,000 to \$78,000, depending on the method of calculation used.

In no event, however, would any of these calculations based upon the 2% reach the sum of \$81,489.85 to be realized upon 1% of the entire 1938 gross revenue for gas, *including revenue under the untaxable constitutional franchise.*

Your Committee made similar calculations in respect of electricity and ascertained that approximately 65% of the total sales of electricity were for untaxable electricity supplied under the constitutional franchise and the remaining 35% only for heat and power. The 2% provision was applied to ascertain the 1938 yield based upon this 35% for heat and power. The Company computed it would yield \$6,122 per annum. The engineers of the City Attorney's office computed that the yield would range from \$40,000 to \$57,000 depending on the method of calculation used. In no event, however, would these figures reach the sum of \$78,845 to be used realized through 1/2 of 1% of the entire 1938 gross revenue for electricity, *including revenue under the untaxable constitutional franchise.*

There were differences between your Committee and the representatives of the Company about the interpretation of the Constitution, the Company giving its constitutional franchise a wider interpretation than your Committee could agree to. This, however, is not important as the matter was dealt with upon the assumption (for present purposes) that the contention of the Committee was correct.

Consideration of the Price to Be Paid for the Franchises, Gas and Electric

Your Committee dealt with one sum to cover both franchises. Its approach to the question was from the viewpoint of annual payments charged retroactively. The Company would not concede the propriety of any charge retroactively applied and insisted that any payment made by it should be treated as a price paid for the franchise and that any claims for the past should be abandoned.

The representatives of the Company proposed, subject to the approval

of the Company, that it pay \$300,000 for both franchises. Your Committee, asked 1% on both gas and electric revenues retroactively for a period of three years, amounting approximately to \$717,500.

The Company suggested that approximately 50% of the electric energy sold in San Francisco was Hetch Hetchy power distributed by it as agent for the City; that in accounting to the City for its power, the Company did not, and indeed had no opportunity to, deduct 1%, or any fraction of 1%, from the revenue paid over to the City as a charge now sought retroactively to be made to the City for the use of its streets; and furthermore, that the Hetch Hetchy contract of July 1, 1925 proceeded on the assumption that the Company was lawfully occupying the streets for transmitting and distributing electricity and could not now reverse its position retroactively.

The Company also claimed that the rates lawfully established by the Railroad Commission and charged by it did not give the Company any deduction for such a charge now sought to be made retroactively against the Company; that the consumers had had the benefit of a rate without such a deduction, and such a charge now retroactively applied would be unjust.

Later, the City proposed \$500,000; then \$481,005 based on three times the computed revenues for 1938, i. e., \$160,335. The representatives of the Company next suggested that they would ask the Company for authority to make an offer of \$350,000 if the City would signify its willingness to accept that amount.

This was the situation when the Joint Committee and the City Attorney met again with the representatives of the Company on July 28th. After a long discussion, the Committee intimated to the representatives of the Company that it would recommend \$400,000 as the purchase price to this Board if the Company would immediately agree to pay that amount. The representatives of the Company telephoned the Company during our conference and were authorized to offer the \$400,000 provided the Joint Committee would then and there vote to recommend to this Board the acceptance of the offer, although it was fully understood that the recommendation would not in any manner bind the Board. The Committee did then and there so vote and the parties thereby reached their agreement.

The net result was as follows:

1. The franchises are to be indeterminate, that is to say, they are franchises from day to day. They will terminate whenever the City desires to acquire the property either by negotiation or through eminent domain. If the property is acquired through eminent domain, the Railroad Commission will fix the value of the property "used and useful" in serving the City. Of course, this Board would never tolerate a cessation of service of gas and electricity to the people; and if the City at any time can take over the property "used and useful" (note the words) in the service of the City, no more can be expected. The people will not be overcharged or underserved. The Railroad Commission controls both matters. The Board has its police powers. In addition, in fixing the terms of the franchises in accordance with the recommendation of your Committee, the Board assures to the City revenue which it is reasonable for the Company to pay and reasonable that the City shall receive.

2. It is expected that the franchises will come into operation early in January, 1940. The Company will pay the percentages as from January 1, 1940.

3. Annual payments are to be made at 1% on all gas sales and $\frac{1}{2}\%$ on all electric sales in San Francisco under the franchises to be granted and the constitutional franchises. This will include all gas and electricity transmitted and distributed by the Company for its

own account or for the account of another. Taking 1938 as a criterion, the annual payment would be approximately \$160,000.

4. As noted above, the Franchise Act of 1937 prescribes 1% of the gas revenues and $\frac{1}{2}$ % of the electric revenues. The two franchises here proposed adopt these percentages. In gas, the major part of the Company's revenue is derived from heat and power and the minor part from light which is furnished under the untaxable constitutional franchise. Therefore, the percentage computed on the gas revenues for light, heat and power combined should be higher than the electric percentage because the Company's revenue from electric light under the untaxable constitutional franchise is 65% of all of its electric revenue and only 35% thereof (approximately) comes from heat and power which are to be furnished under the proposed electric franchise. $\frac{1}{2}$ % of the electric revenue from light furnished under the untaxable constitutional franchise and from heat and power to be furnished under the proposed electric franchise in combination is exactly 1-3/7% of the Company's revenue from heat and power to be furnished under the proposed electric franchise.

5. Prior to June 30, 1940, the Company will pay the City \$75,000 as an installment on their annual payment for the year 1940.

6. Immediately after the granting of the franchises in January, 1940, the Company will pay the City \$400,000 for the purchase of the franchises; i. e., \$200,000 for each.

7. The aggregate payments to the City prior to June 30, 1940 will thus amount to \$475,000 covering purchase price of both franchises and installment on annual payment for 1940.

As a sidelight on the purchase price of \$400,000, i. e., \$200,000 for each franchise, the Company pointed out that it could not be expected to pay the City what it already had paid in accounting for sales of Hetch Hetchy power and that its revenue, excluding 50% for Hetch Hetchy power for the year 1938 would be: gas \$81,489.85; electricity \$39,422.52 ($\frac{1}{2}$ of \$78,845.03), or a total of \$120,912.37, which multiplied by three would yield \$362,737.11, measurably below its agreement to pay \$400,000 for the franchises.

It is possible that your Committee could have secured a larger sum as a flat payment under the threat that the City would otherwise order the Company to desist from serving heat and power to the people. Theoretically, this seems persuasive, but looking at the situation realistically, it would mean that all service of gas and electricity to the inhabitants of San Francisco would cease, a situation that is inconceivable.

In protecting the people of the City, the duty of the Board (which it fully recognizes) is to get them service, gas and electricity, which they need and desire, and see that they are not overcharged and that the Company pays to the City whatever it is appropriate it should pay for the privileges which it enjoys in the City.

With the grant of these franchises and the payment to the City of the sums which the Company agrees to pay, your Committee thinks all of these objectives will have been attained, and therefore recommends the adoption of the ordinances applied for.

August 28, 1939.

HONORABLE BOARD OF SUPERVISORS,
City Hall, San Francisco, Calif.

Dear Sirs:

I herewith enclose you two applications for franchises to be issued by your Board to the Pacific Gas and Electric Company, one authorizing the distribution of gas and the other the distribution of electricity. Attached to each application is a letter addressed to me by Mr. Thomas J. Straub, attorney for the Company, making certain reservations in the interpretation of the franchises, and a second

TUESDAY, SEPTEMBER 5, 1939.

letter agreeing to pay to the City, prior to June 30, 1940, the sum of \$75,000.00 as a payment on account of the percentages to become due under both franchises for the calendar year 1940.

It is estimated that the \$75,000.00 is practically one-half of the revenue under both franchises as far as the same can be estimated prior to July 1, 1940. I would suggest that these franchises be referred to such committee or committees as your Board shall deem proper and that a public hearing upon the same be had to the end that the public itself may be fully familiar with the terms of the franchises. I also suggest that copies of the franchises be printed, not only for use by the members of the Board but also for use by such members of the public as may desire to study the franchises.

Very truly yours,

Encls.

JNO. J. O'TOOLE, City Attorney.

Application for Franchise for Distribution of Gas for Heating and Power Purposes

Honorable John J. O'Toole,
City Attorney,
City Hall,
San Francisco, California.

My dear Mr. O'Toole:

I am sending you herewith signed application to the Board of Supervisors for a gas franchise, including draft of form of ordinance for granting same.

As you will note, in drafting the form of ordinance we have assumed the interpretation which the City puts upon our constitutional rights. We do not agree that our constitutional rights are properly defined in the ordinance, but as it is necessary in order to obtain a franchise that it should be couched to conform to the view of the City, we have prepared the ordinance accordingly.

It must not be taken to be an abandonment of our position nor a recognition of the correctness of the interpretation put upon our constitutional rights by the City or the ordinance.

Very truly yours,

TJS:GD

THOS. J. STRAUB.

Mr. John J. O'Toole,
City Attorney,
City Hall,
San Francisco, California.

Dear Mr. O'Toole:

I write this letter to cover two of the matters spoken of in our conference and which we promised to cover by a letter.

(1) The revenue for gas and for electricity upon which the percentages for 1940 are to be calculated will commence January 1, 1940, although the franchises will not be effective until some day later in that year.

(2) We are to pay to the City before June 30, 1940, \$75,000 as a payment on account of the percentages which will become payable under the franchises for the calendar year 1940, say $\frac{1}{2}$ under each franchise.

If there be anything more that you require, please advise me.

Yours very truly,

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one (1%) per cent of the gross annual receipts of the grantee from the sale of gas within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said gas be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expira-

tion of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any

character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

Application for Franchise for Distribution of Electric Energy for Heating and Power Purposes

August 28, 1939.

Honorable John J. O'Toole,
City Attorney,
City Hall,
San Francisco, California.

My dear Mr. O'Toole:

I am sending you herewith signed application to the Board of Supervisors for an electric franchise, including draft of form of ordinance for granting same.

As you will note, in drafting the form of ordinance we have assumed the interpretation which the City puts upon our constitutional rights.

We do not agree that our constitutional rights are properly defined in the ordinance, but as it is necessary in order to obtain a franchise that it should be couched to conform to the view of the City, we have prepared the ordinance accordingly.

It must not be taken to be an abandonment of our position nor a recognition of the correctness of the interpretation put upon our constitutional rights by the City or the ordinance.

Very truly yours,

THOS. J. STRAUB.

Mr. John J. O'Toole,
City Attorney,
City Hall,
San Francisco, California.
Dear Mr. O'Toole,

I write this letter to cover two of the matters spoken of in our conference and which we promised to cover by a letter.

(1) The revenue for gas and for electricity upon which the percentages for 1940 are to be calculated will commence January 1, 1940, although the franchises will not be effective until some day later in that year.

(2) We are to pay to the City before June 30, 1940, \$75,000 as a payment on account of the percentages which will become payable under the franchises for the calendar year 1940, say $\frac{1}{2}$ under each franchise.

If there be anything more that you require, please advise me.

Yours very truly,

THOS. J. STRAUB.

Ordinance Granting to Pacific Gas and Electric Company, its Successors and Assigns, a Franchise to Introduce into, Transmit, Distribute and supply to the City and County of San Francisco and its Inhabitants Electricity for Every Use and Purpose to Which it May Be Put, Exclusive of Those Uses and Purposes for Which Electricity May Be Now Supplied By Pacific Gas and Electric Company or Hereafter Supplied By its Successors or Assigns Under Section 19 of Article XI of the Constitution of the State of California, as Said Section Existed Prior to its Amendment on October 10, 1911, and to That End to Construct and Use in the Streets of Said City and County All Poles, Wires, Conduits and Appurtenances Necessary or Proper Therefor, and Likewise to Use All Electric Poles, Wires, Conduits and Appurtenances Which Are Now in Place or Hereafter May Be Placed in Said Streets.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words or phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the given instance, the context wherein they are used shall import a different meaning):

There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants electricity for every use and purpose to which it may be put, exclusive of those uses and purposes for which electricity may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to construct and use in the streets of said city and county all poles,

wires, conduits and appurtenances necessary or proper therefor, and likewise to use all electric poles, wires, conduits and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants electricity for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one-half ($\frac{1}{2}$) per cent of the gross annual receipts of the grantee from the sale of electricity within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said electricity be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of electricity within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for electricity furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all poles, wires, conduits and appurtenances in conformity with all the

lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk

of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

Resolution No., as follows:

Whereas, The Golden Gate and San Francisco Bay are famed throughout the world as forming one of the greatest and most beautiful natural

Section 2. The Board of Supervisors by the vote by which this ordinance is passed does declare that an actual emergency exists as it is necessary to provide funds for the uninterrupted operation of the departments herein enumerated, as the funds heretofore appropriated for these departments have proven to be insufficient. During the hearings before the Board of Supervisors, of the 1939-40 budget estimates, it was impossible to calculate what the cost of laundry and meal allowance would be. It was then concluded that the money would be made available as herein provided as the obligations were incurred.

Recommended by the Director of Public Health.

Approved by the Chief Administrative Officer.

Approved as to Form by City Attorney.

Approved by the Mayor.

Approved as to funds available by the Controller.

Finally passed by the following vote:

Ayes: Supervisors Colman, McGowan, McSheehy, Mead, Meyer, Roncovieri, Schmidt, Shannon, Uhl—9.

Absent: Supervisors Brown, Ratto—2.

The following recommendation of the Streets Committee was taken up:

Charter Amendment No.....

**Qualifications and Tests for Places in the Classified Service—
Veterans Preference**

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of the City and County of San Francisco, by amending Section 145 thereof relating to qualifications and tests under the classified service of the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County at the general election to be held the 7th day of November, 1939, in the City and County of San Francisco, a proposal to amend as herein set forth the Charter by amending Section 145 thereof, relating to qualifications and tests under the classified service of the City and County of San Francisco.

Section 145. All applicants for places in the classified service shall submit to tests, which shall be competitive and without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants to perform service for the City and County. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall

prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed forces of the fire and the police departments shall be not less than twenty-one years of age, nor more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be permitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority of application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any entrance examination, shall be allowed an additional credit of 5 per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of 3 per cent shall be allowed to veterans or to widows of such veterans. The credits hereinbefore referred to shall be allowed each veteran in every examination in which such veteran participates and attains a passing mark. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than 10 per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans Bureau.

At the request of Supervisor McSheehy, the foregoing proposed Charter Amendment was re-referred to the Judiciary Committee.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Supervisor McSheehy presented Resolution No. _____, as follows:

Whereas, Aquatic Park is a recreation center maintained by the City and County of San Francisco for the health and pleasure of its citizens and particularly for aquatic sports, and

Whereas, The swimming beach maintained there is largely frequented during all hours of the day by women and children of all ages, and

Whereas, This beach is extensive in length and the swimming area is

devoid of markers, life ropes or other safeguards against accidents and possible loss of life, and

Whereas, There is at present but one life-guard on duty part time at said beach and there have been several occasions when tragedy was narrowly averted; therefore, be it

Referred to Education, Parks and Recreation Committee.

Removal of Car Tracks on Post Street Between Montgomery and Leavenworth Streets

(Series of 1939)

Supervisor McSheehy presented Resolution No....., as follows:

Whereas, By a resolution of the Board of Supervisors adopted June 2, 1936, the Market Street Railway Company was permitted to abandon operation of its street cars on Post Street from Montgomery to Leavenworth Street upon its agreement to remove the railway tracks and poles at its own expense from said street, and

Whereas, The Market Street Railway Company has failed to carry out the removal of said tracks and trolley wire poles from this thoroughfare although it has long since abandoned street car service thereon, and

Whereas, The said railway tracks constitute an obstruction to general traffic and the trolley poles and wires an obstruction and danger, therefore be it

Resolved, That this Board of Supervisors hereby directs that the City and County of San Francisco require the Market Street Railway to forthwith remove all said railway tracks, trolley poles and trolley wires at its own expense from said street and that the City and County of San Francisco shall immediately thereafter properly repave and repair that portion of the said street as required.

Dismissal of Temporary Firemen

Supervisor McGowan called attention to the case of several men who had been appointed as temporary firemen, with the understanding that such appointments were to be for the duration of the Exposition, but who had been dismissed after some three or four months' service. In discussing the matter, Supervisor McGowan, and Mr. J. W. Erlich, Attorney, representing the men, stated that several of the men had given up permanent employments elsewhere, feeling that the appointments offered in the Fire Department service would be for the period of at least ten months with the possibility of developing ultimately in permanent employments; that relying on what they understood to be the case, they had bought uniforms and equipment required by members of the Department.

Chief Brennan and Captain Schubert of the Fire Department explained the situation, stating that the dismissed firemen knew, when they accepted the appointments, that the employments were temporary, and might be terminated at any time; they had also been informed that because of the temporary nature of their employment they would not be required to purchase uniforms.

After full discussion of the matter, Supervisor McSheehy, seconded by Supervisor McGowan, moved that a committee be appointed, consisting of His Honor, the Mayor, the City Attorney, Chief Engineer Brennan, Mr. Henderson of the Civil Service Commission, and Supervisor McGowan, to attempt to find ways and means of placing the firemen in question on a hold-over list, so that they may have the opportunity of securing permanent employment in the future.

Supervisor Colman objected to the motion, stating that no injustice had been done these men; they knew their employments were but temporary in nature; that if there had been a misunderstanding, the Board of Supervisors had no part in it; and that the entire matter was outside the jurisdiction of the Board.

Motion Adopted

Thereupon, the roll was called and the foregoing motion was *carried* by the following vote:

Ayes: Supervisors McGowan, McSheehy, Mead, Meyer, Ratto, Schmidt, Uhl—7.

No: Supervisor Colman—1.

Absent: Supervisors Brown, Ratto, Shannon—3.

Prevention of Collisions on Bay Bridge

Supervisor Uhl read an article from the San Francisco News of September 2, re accident of the Oakland Bay Bridge, caused by machine swerving over the center line of the bridge, and again called attention to the lack of a barrier to prevent an automobile from crossing over the center line. He requested a communication be sent to the State Department of Public Works, again calling attention to the need of such barrier. At the suggestion of the Chair, Supervisors Uhl and McSheehy were authorized to draft appropriate letter to be sent to the State Director of Public Works, urging that some action, as previously suggested by the Board, be taken to prevent such accidents.

Request for Appointment of Police Sergeants

Communication was presented by Supervisor McGowan, calling attention to the non-filling of vacancies in the rank of Sergeant, Police Department, and urging the filling of those vacancies from the current Civil Service Eligible list.

Referred to Fire, Safety and Police Committee.

There being no further business, the Board, at the hour of 5:25 P. M., adjourned.

Pacific Gas and Electric Franchises

The report of the Joint Committee on Finance and Public Utilities, on applications by the Pacific Gas and Electric Company for franchises for the distribution of gas and electric energy for other than lighting purposes, filed with the Board of Supervisors August 28, 1939, consideration of which was continued from September 5, 1939, was again taken up.

Privilege of the Floor

Mr. Russell Powell, Editor of the Pacific News, discussed the proposed franchises at length, objecting to the percentages proposed to be charged the applicant. He objected also to the possible effect of the proposed franchises on the possible acquisition of the Company's properties by the City at some future time. He objected, also, to the waiving of any claims by the City for the use of the streets by grantee prior to the taking effect of the proposed franchises, holding that, in his opinion, concurred in by prominent attorneys, the statute of limitations did not apply to such cases.

The City Attorney reported at length on the deliberations which prompted the Joint Committee's recommendation. He answered specific objections raised by Mr. Powell. His remarks were supplemented by Messrs. Dion Holm and Randall Ellis, of his staff, and by Supervisor McSheehy, member of the Joint Finance and Public Utilities Committee.

Mr. E. P. Troy, representing himself, protested the granting of the proposed franchises.

Mr. George W. Schultz and Mr. George T. Baker addressed the Board at length on the subject.

Passage for Second Reading

Thereupon, no other citizens desiring to be heard, the entire matter was taken into the hands of the Board and the following Bills were taken up:

Franchise for the Distribution of Gas for Other than Lighting Purposes.

(Series of 1939)

Bill No. 325, Ordinance No....., as follows:

Ordinance Granting to Pacific Gas and Electric Company, its Successors and Assigns, a Franchise to Introduce Into, Transmit, Distribute and Supply to the City and County of San Francisco and its Inhabitants Gas for Every Use and Purpose to Which it

May Be Put, Exclusive of Those Uses and Purposes for Which Gas May Be Now Supplied By Pacific Gas and Electric Company or Hereafter Supplied By its Successors or Assigns Under Section 19 of Article XI of the Constitution of the State of California, as Said Section Existed Prior to Its Amendment on October 10, 1911, and to That End to Lay and Use in the Streets of Said City and County All Pipes and Appurtenances Necessary or Proper Therefor, and Likewise to Use All Gas Pipes and Appurtenances Which are Now in Place or Hereafter May Be Placed in Said Streets.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words and phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the given instance, the context wherein they are used shall import a different meaning):

(a) The word "grantee" shall mean Pacific Gas and Electric Company, its successors and assigns;

(b) The word "city" shall mean the City and County of San Francisco, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or reincorporated form, and shall include annexed territory;

(c) The word "streets" shall mean the public streets, ways, alleys and places as the same now exist or may hereafter exist within said city;

(d) The word "gas" shall mean natural gas and/or manufactured and/or artificial gas, or a mixture of natural gas and/or manufactured and/or artificial gas, including any gaseous substance usable for heat, power, illumination or fuel purposes;

(e) The phrase "pipes and appurtenances" shall mean pipes, pipelines, mains, services, traps, vents, vaults, manholes, meters, gauges, regulators, valves, conduits, appliances, attachments, appurtenances and any other property located or to be located in, upon, along, across, under or over the streets of the city, and used or useful in introducing, transmitting, distributing and supplying gas as aforesaid;

(f) The phrase "lay and use" shall mean to lay, construct, erect, install, operate, maintain, use, repair or replace;

(g) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said city and county all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted

shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants gas for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one (1%) per cent of the gross annual receipts of the grantee from the sale of gas within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said gas be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and

its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. (Series of 1939)

Bill No. 326, Ordinance No....., as follows:

Ordinance Granting to Pacific Gas and Electric Company, its Successors and Assigns, a Franchise to Introduce into, Transmit, Distribute and supply to the City and County of San Francisco and its Inhabitants Electricity for Every Use and Purpose to Which it May Be Put, Exclusive of Those Uses and Purposes for Which Electricity May Be Now Supplied By Pacific Gas and Electric Company or Hereafter Supplied By its Successors or Assigns Under Section 19 of Article XI of the Constitution of the State of California, as Said Section Existed Prior to its Amendment on October 10, 1911, and to That End to Construct and Use in the Streets of Said City and County All Poles, Wires, Conduits and Appurtenances Necessary or Proper Therefor, and Likewise to Use All Electric Poles, Wires, Conduits and Appurtenances Which Are Now in Place or Hereafter May Be Placed in Said Streets.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words or phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the given instance, the context wherein they are used shall import a different meaning):

(a) The word "grantee" shall mean Pacific Gas and Electric Company, its successors and assigns;

(b) The word "city" shall mean the City and County of San Francisco, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or reincorporated form, and shall include annexed territory;

(c) The word "streets" shall mean the public streets, ways, alleys and places as the same now exist or may hereafter exist within said city;

(d) The phrase "poles, wires, conduits and appurtenances" shall mean poles, towers, supports, wires, conductors, cables, guys, stubs, platforms, crossarms, braces, transformers, insulators, conduits, ducts, vaults, manholes, meters, cutouts, switches, communication circuits, appliances, attachments, appurtenances and any other property located or to be located in, upon, along, across, under or over the streets of the city, and used or useful in introducing, transmitting, distributing and supplying electricity as aforesaid;

(e) The phrase "construct and use" shall mean to construct, erect, install, lay, operate, maintain, use, repair or replace;

(f) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants electricity for every use and purpose to which it may be put, exclusive of those uses and purposes for which electricity may be now supplied by Pacific Gas and Electric Company

or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to construct and use in the streets of said city and county all poles, wires, conduits and appurtenances necessary or proper therefor, and likewise to use all electric poles, wires, conduits and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants electricity for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one-half ($\frac{1}{2}$) per cent of the gross annual receipts of the grantee from the sale of electricity within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said electricity be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of electricity within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for electricity furnished by it within the limits of the city under the franchise hereby granted such

rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all poles, wires, conduits and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars

(\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

Requesting the Mayor to Negotiate with Traffic Engineers re Furnishing Transportation Plan for San Francisco (Series of 1939)

Resolution No. _____, as follows:

Whereas, The problem of transportation and traffic is daily becoming more acute, due to the visitors to the Exposition, large numbers of Delegates attending Conventions and the extensive home building program under way throughout our City; and

Whereas, It is essential that action be taken to provide adequate modern transportation to insure the proper growth and future prosperity of our City; and

Whereas, Numerous surveys have been made at a tremendous cost to the taxpayers of San Francisco, notably the McClintock report upon which no action has been taken and which contains some valuable recommendations which should be studied and adopted at the earliest possible moment; and

Whereas, The proposed employment of Mr. Chas. Purcell on a

part time basis, as advocated by the Mayor, is declared to be "*quite impracticable and therefore inadvisable*" in the opinion of Frank W. Clark, State Director of Public Works; and

Whereas, The money has been appropriated for the purpose of getting technical advice on our Transportation and Traffic Problem, and many valuable suggestions are being held in abeyance pending the expected survey; and

Whereas, San Francisco is in need of aggressive, intelligent traffic planning at once to provide rapid transit and relief to our citizens who are taxpayers and who are clamoring for adequate transportation to their homes; and

Whereas, Bus transportation will provide rapid transit and promote the development of our City, and the private company is now demonstrating this by adding buses to their system as rapidly as possible; now, therefore, be it

Resolved, That this Board of Supervisors request the Mayor to immediately negotiate with Traffic Engineers of proven ability on what terms they will furnish a Transportation Plan, so that immediate attention may be given the problem of transportation and traffic in this City; and, be it

Further Resolved, That the Mayor be requested to submit to this Board of Supervisors information as to the cost and time required by Traffic Engineers to properly recommend a plan of action to provide modern, rapid and adequate transportation for San Francisco, taking into consideration the proper system to be extended into San Mateo County and the Peninsula.

July 10, 1939—Presented by Supervisor Uhl and referred to Public Utilities Committee.

August 28, 1939—Called out from Committee and made Special Order of Business Tuesday, September 5, 1939, at 3:00 P. M.

September 5, 1939—Consideration postponed to September 11, 1939, at 3 P. M.

Discussion

Supervisor Uhl discussed the proposed Resolution, and urged that the Board adopt the Resolution asking that the Mayor take the necessary steps outlined therein.

Objections

Supervisor McSheehy called attention to traffic surveys already made, and suggested that engineers now in the employ of the city could well make use of reports heretofore made.

Supervisor Colman announced that he felt it to be most unwise to take any action until the question of Mr. Purcell's engagement by the city was definitely settled, and he would, therefore, vote against the proposed resolution.

Supervisor Mead objected to taking any action until official notification with respect to Mr. Purcell's appointment had been received, and requested that definite information as to the status of the proposed employment of Mr. Purcell be obtained.

Thereupon, Supervisor Uhl moved that the matter remain on the Calendar until the question of Mr. Purcell's employment had been settled.

Motion failed for want of a second.

Re-reference to Committee

Whereupon, Supervisor Ratto moved that the Resolution be referred to the Public Utilities Committee for further consideration.

Motion failed for want of a second.

Refused Adoption

Thereupon, the roll was called and the foregoing Resolution was *refused adoption* by the following vote:

Ayes: None.

Noes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—10.

Absent: Supervisor Uhl—1.

September 5, 1939—Consideration postponed to September 11, 1939, at 3 P. M.

Appointment of Committee

In lieu of the adoption of the foregoing Resolution, and pursuant to motion by Supervisor Colman that the entire matter be referred to the Streets Committee for consideration, the Chair appointed the Streets Committee to carry out the purport of the resolution and to report back to the Board an outline of plan or course of action that will lead to an early solution of the traffic problems which exist between San Francisco and San Mateo County.

SPECIAL ORDER—4 P. M.

Memorializing President, Senate and House to Remove Federal Prison on Alcatraz Island, and to Replace Same with Statue of "Pacifica"
(Series of 1939)

Resolution No., as follows:

Whereas, The Golden Gate and San Francisco Bay are famed throughout the world as forming one of the greatest and most beautiful natural harbors in the world and a haven to travelers, a port to world commerce and the Western Gateway to this land of abundance, democracy, freedom and peace; and

Whereas, At the Eastern Gateway to our nation, in New York Harbor, the Statue of Liberty stands as a fitting tribute to our ideal of freedom and an example to the oppressed of other lands; and

Whereas, At the Western Gateway in San Francisco Harbor our nation displays no symbol of any ideal but instead maintains on Alcatraz Island a desecration and a symbol to crime and stern punishment in the form of a Federal prison; and

Whereas, Peace is another great ideal to which we aspire for our-

selves and all the world and it is most fitting that this be symbolized at this Western Gateway; therefore, be it

Resolved, That this Board of Supervisors of the City and County of San Francisco memorialize the President of the United States and the Congress to replace the Federal prison on Alcatraz Island in San Francisco Bay with a great statue of Pacifica, as a symbol of Peace, and that in anticipation of this magnificent objective, the United States Government immediately take steps to remove the Federal prison from this great Western Gateway; and be it further

Resolved, That copies of this resolution be sent to the President of the United States, to our representatives in the United States Senate and House of Congress, and to the Press.

September 5, 1939—Consideration postponed until September 11, 1939, at 4 P. M.

Consideration Postponed

Charter Amendment No. 2, as follows:

**Qualifications and Tests for Places in the Classified Service—
Veterans Preference**

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of the City and County of San Francisco, by amending Section 145 thereof relating to qualifications and tests under the classified service of the City and County of San Francisco.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of the City and County at the general election to be held the 7th day of November, 1939, in the City and County of San Francisco, a proposal to amend as herein set forth the Charter by amending Section 145 thereof, relating to qualifications and tests under the classified service of the City and County of San Francisco.

Qualifications and Tests

Section 145. All applicants for places in the classified service shall submit to tests, which shall be competitive and without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters

fairly to test the relative capacity of the applicants to perform service for the City and County. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed forces of the fire and the police departments shall be not less than twenty-one years of age, nor more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be permitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority of application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any entrance examination, shall be allowed an additional credit of 5 per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of 3 per cent shall be allowed to veterans or to widows of such veterans *when requested by such veterans or widows. When an eligible has secured a permanent appointment from a list of eligibles derived from an entrance examination in which he has been allowed additional credits of 5% as herein provided, and has served the full probationary period therein as provided in this Charter, such other additional credits of 5% that have been allowed him on lists of eligibles derived from other entrance examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other entrance examinations. If he has received a permanent appointment from a list of eligibles derived from a promotive examination in which he has requested and been allowed the additional credits of 3% as herein provided, and has served the full probationary period therein as provided in this Charter, such additional credits of 3% that have been allowed him on lists of eligibles derived from other promotive examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other promotive examinations.* The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than 10 per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, pro-

vided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans Bureau.

(Series of 1939)

Resolution No. _____, as follows:

Whereas, The Golden Gate and San Francisco Bay are famed throughout the world as forming one of the greatest and most beautiful natural harbors in the world and a haven to travelers, a port to world commerce and the Western Gateway to this land of abundance, democracy, freedom and peace; and

Whereas, At the Eastern Gateway to our nation, in New York Harbor, the Statue of Liberty stands as a fitting tribute to our ideal of freedom and an example to the oppressed of other lands; and

Resolved, That this Board of Supervisors of the City and County of San Francisco memorialize the President of the United States and the Congress to replace the Federal prison on Alcatraz Island in San Francisco Bay with a great statue of Pacifica, as a symbol of Peace, and that in anticipation of this magnificent objective, the United States Government immediately take steps to remove the Federal prison from this great Western Gateway; and be it further

Public Utilities Commission to Consider Flat Water Rates for Home Owners.

(Series of 1939)

Resolution No. 542, as follows:

Whereas, There is now available for the people of San Francisco, a plentiful and inexhaustible supply of water, and

Whereas, The excessive rates for water, now in effect, require the rate payers to be stinting in their use of it, and

Whereas, The home owner, particularly, is severely hampered in his endeavor to beautify his property, and the city, through the maintenance of trees, shrubs, lawns and gardens, because of the almost prohibitive cost of the water necessary therefor; now, therefore be it

Resolved, That the Public Utilities Commission be and is hereby requested to consider the inauguration of a plan under which home owners shall hereafter pay a flat monthly rate for all water used, based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan.

Discussion

Supervisor Colman, following statement by Mr. E. G. Cahill, Manager of Utilities, that he had not attended committee meeting at which the foregoing resolution had been considered, moved that the matter be re-referred to committee and Mr. Cahill be invited to appear before the committee and give his views on the question of reduction of water rates. Motion seconded by Supervisor Roncovieri.

Mr. E. G. Cahill, in reply to question by Supervisor Mead, stated that any action taken by the Board would be all right with him,

since the resolution merely requested the consideration of a proposal for a flat water rate.

Supervisor McSheehy, in urging the adoption of the resolution rather than its resubmission to committee, called attention to San Francisco's abundant water supply, asserting that 70,000,000 gallons daily were being allowed to run into the ocean, a statement with which the Manager of Utilities disagreed.

Supervisor Colman, in support of his motion for re-reference to committee, held that the Board should determine from the Manager of Utilities whether the proposed action is possible, and the results of the action, if it is taken. Unless the matter were sent back to committee and the opinion of Mr. Cahill obtained, he would vote against the proposed resolution.

Supervisor Mead, replying to Supervisor Colman, pointed out that should the resolution be adopted, the information desired by Supervisor Colman would be obtained.

Amendment Proposed

Supervisor Roncovieri, after brief discussion, moved that the resolution be amended by striking out the three "Whereases" and deleting, also, from the "Resolve" the following words: "based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan." Motion seconded by Supervisor Uhl.

Point of Order

Whereupon, Supervisor McSheehy raised as a point of order, the seconding by Supervisor Roncovieri of motion made by Supervisor Colman, stating that a subsequent motion by Supervisor Roncovieri, before the previous motion had been acted on, was out of order.

The Chair sustained the point of order.

Opinion from Manager of Utilities on the Inauguration of a Flat Rate for Consumption of Water by Home Owners

Mr. Cahill, replying to questions by Supervisor Colman, stated that he had considered a proposed flat water rate for home owners, and the Commission had discussed such a proposal, and the Commission had sufficient data available on which to base a recommendation. However, the necessary study of data available would require several weeks' time. Mr. Cahill was not in favor of a proposed flat rate for water consumers, but would prefer to say nothing further until the Commission had had an opportunity to make a recommendation.

Supervisor McGowan, in discussing the proposed motion, stated that the resolution under consideration was merely requesting an opinion from the Public Utilities Commission, and that re-reference to Committee was not at all necessary. He stated that many citizens were continually requesting the inauguration of flat rates for water consumption, and that the Supervisors should be enabled to answer such requests. Supervisor McSheehy expressed complete agreement with statement by Supervisor McGowan.

Motion Failed

Thereupon, the roll was called and the motion for re-reference to Committee was defeated by the following vote:

Ayes: Supervisors Brown, Colman, McGowan—3.

Noes: Supervisors McGowan, McSheehy, Mead, Ratto, Schmidt, Shannon, Uhl—7.

Absent: Supervisor Meyer—1.

Renewal of Motion for Amendment

Supervisor Roncovieri, seconded by Supervisor Uhl, renewed his motion previously declared out of order, that the proposed resolution be amended by striking out the three "Whereases" and deleting from the "Resolve" the following words: "based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan."

Objection to Motion

Thereupon, Supervisor Shannon, author of the proposed resolution, left the chair temporarily, and requested Supervisor McGowan to preside, while he opposed the proposed amendment.

Whereupon, Supervisor Roncovieri stated he had no objection to withdrawing his motion, with the consent of his second, providing an addition to the "Resolve" would be accepted. That addition would be "or on any other basis that will give the people of San Francisco a flat rate." Thereupon, Supervisor Uhl, who seconded the previous motion, announced he would not object to the withdrawing of the motion.

Amendment Accepted

Supervisor Shannon, author of the original resolution accepted the amendment as part of the original.

Amendment to Delete "Whereases"

Thereupon, Supervisor Brown, seconded by Supervisor Colman, moved that the three "Whereases" of the proposed resolution be stricken out.

Discussion

Supervisor Colman, as explanation of his reasons for seconding the above motion, stated that the 1st "Whereas" in the resolution was not correct, asserting that while it is true San Francisco has a plentiful supply of water, that supply is not inexhaustible. Regarding the second "Whereas," Supervisor Colman did not believe the people are paying an excessive rate, in consideration of the number of years San Francisco has been operating its own department, nor did he consider the people are stinting in their use of water. The third "Whereas," he continued, was more theoretical than practical, and he did not know whether or not it was true. These statements, he said, were based on information secured from the Public Utilities Commission. Moreover, a flat water rate for home owners might necessitate the construction of more pipe lines to bring the water into San Francisco, at the cost of another bond issue. In view of these facts, he favored the elimination of the "Whereases" from the resolution.

Mr. Cahill, in reply to inquiry by Supervisor Schmidt, stated that reductions in water rates since the acquisition of the system by the city, amounted to between 13% and 15% of a 20% increase granted the Spring Valley Water Company prior to the purchase of the properties by the City.

Supervisor McSheehy addressed the Board briefly, urging the motion by Supervisor Brown for the deletion of the "Whereases" be voted down.

Supervisor Brown, in requesting favorable action on his motion, stated that the resolution was destined for the Public Utilities Commission. It is not going to the public or to anyone who is inexperienced on the subject of water use in San Francisco. He felt the Board should be accurate in its statements, and he desired to spare the Board from making mistakes in its presentation to the Public Utilities Commission.

Motion Failed

Thereupon, the roll was called and the motion failed by the following vote:

Ayes: Supervisors Brown, Colman, Roncovieri—3.

Noes: Supervisors McGowan, McSheehy, Mead, Ratto, Schmidt, Shannon, Uhl—7.

Absent: Supervisor Meyer—1.

Explanations of Votes on Resolution

Supervisor Colman announced his intention to vote against the proposed resolution, for the following reasons:

The "Whereases" are not correct, and the "Resolve" is based on the "Whereases." If the "Whereases" are not correct and logical, the "Resolve" is certainly not. Moreover, this is not a question of asking for information. It is a case of going before the people for flat water rates. If the city's income from water should be reduced there must be an increase in taxation. In order to bring more water into San Francisco it will be necessary to build another pipe line, which will bring about another bond issue. In adopting this proposed resolution, Supervisor Colman contended, the Board would be going on record for something it knew nothing at all about. It was his opinion, Supervisor Colman held, that the establishment of a flat water rate could not be brought about, and that the resolution would, in the final analysis, give the people a wrong impression on a very important matter. The entire problem is too important and too vital to go into without a thorough investigation.

Supervisor McGowan disagreed with Supervisor Colman. The Board is not going on record in favor of flat rates. It is merely asking a question. Also, if the "Whereases" are wrong, the Utilities Commission will so inform the Board, and if the "Resolve" is wrong, the Commission will tell the Board that.

Supervisor McSheehy expressed his intention to vote in favor of the proposed resolution. He disagreed emphatically with the views of Supervisors Colman and Brown. During his argument Supervisor McSheehy requested a report from Mr. Cahill as to the amount of water sold to Palo Alto, and other small adjacent cities, and at what price.

Supervisor Brown stated that he was not opposed to a flat water rate if that seems to be the feasible way to charge for water in San Francisco. However, the determining body is the Public Utilities Commission. Had the Board seen fit to strike out the inaccuracies he would have been glad to vote for the resolution.

Adopted

Thereupon, the roll was called and the resolution, amended to read as follows, was adopted by the following vote:

Public Utilities Commission to Consider Flat Water Rate for Home Owners

(Series of 1939)

Resolution No. 542, as follows:

Whereas, There is now available for the people of San Francisco, a plentiful and inexhaustible supply of water, and

Whereas, The excessive rates for water, now in effect, require the rate payers to be stinting in their use of it, and

Whereas, The home owner, particularly, is severely hampered in his endeavor to beautify his property, and the city, through the

maintenance of trees, shrubs, lawns and gardens, because of the almost prohibitive cost of the water necessary therefor; now, therefore be it

Resolved, That the Public Utilities Commission be and is hereby requested to consider the inauguration of a plan under which home owners shall hereafter pay a flat monthly rate for all water used, based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan or on any other basis that will give the people of San Francisco a flat rate.

Requesting Public Utilities Commission to Inaugurate Bus Service Over Divisadero Street to Eureka Valley.

(Series of 1939)

Resolution No....., as follows:

Resolved, That the Public Utilities Commission be and is hereby requested to inaugurate bus service over Divisadero Street to Eureka Valley.

Discussion

Mr. E. G. Cahill, Manager of Utilities, in reply to remarks by Supervisor Colman, announced that there were some ten new buses to be put in service in various parts of San Francisco. The Utilities Commission has received requests for about twenty bus lines, one of them being on Divisadero Street. All these requests are being considered and the allocation of the buses will be made on the basis on the Commission's study and its findings. Obviously all twenty requests for bus service cannot be granted at this time.

Explanation of Vote

Thereupon, Supervisor Colman announced his intention to vote against the foregoing resolution, not that he was opposed to the Divisadero Street route, but because he did not know which of the various proposed routes were the more important, and while he favored this particular route, he also favored other routes which the Utilities Commission was considering. Supervisor Colman believed the matter should be left to the Utilities Commission rather than to the Board of Supervisors taking any part in the matter without knowing the relative merits of the various suggested bus routes.

Supervisor Schmidt announced that the proposed resolution was, in effect, simply an inquiry, and because he knew the Divisadero District, and its needs for transportation service, he would vote in favor on the resolution.

Whereupon, Mr. Cahill stated that the resolution was not merely an inquiry, but rather a request for the inauguration of the Divisadero Street bus service. However, it would make no difference to the Utilities Commission whether or not the resolution were adopted.

Amendment

On motion by Supervisor Roncovieri the foregoing resolution was amended to read as follows:

Resolved, That the Public Utilities Commission be and is hereby requested to consider the inauguration of bus service over Divisadero Street to Eureka Valley.

Adopted

Thereupon, the roll was called and the foregoing resolution was adopted by the following vote:

Ayes: Supervisors Brown, McGowan, McSheehy, Mead, Ratto, Roncovieri, Schmidt, Shannon, Uhl—9.

No: Supervisor Colman—1.

Absent: Supervisor Meyer—1.

(Series of 1939)

(a) *For the original erection or installation of each patent chimney, the sum of Fifty (\$0.50) cents.*

(b) *For the repair of each patent chimney already erected or installed, the sum of One (\$1.00) Dollar.*

Sec. 2, Section 130, Part III of the San Francisco Municipal Code is hereby repealed.

Motion

Supervisor Mead, seconded by Supervisor Roncovieri, moved that the foregoing Bill be re-referred to the Public Buildings, Lands and City Planning Committee.

Supervisor Uhl, Chairman of the Committee, objected to re-reference to committee, stating that the matter had been in committee for six or seven months, and suggested in lieu of re-reference thereto, that the matter remain on the Calendar and be considered by the Board, sitting as a Committee of the Whole, at its next meeting.

However, objection being voiced thereto, the roll was called and the motion for re-reference to committee was carried by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Ratto, Roncovieri, Schmidt, Shannon—9.

No: Supervisor Uhl—1.

Declaration of Policy with Respect to Possible Repayment of Cost of Franchises for Distribution of Gas and Electricity

(Series of 1939)

Supervisor Mead presented Resolution No. _____, as follows:

Whereas, It has come to the attention of certain members of this Board that the franchises in process of being granted to the Pacific Gas & Electric Company for the distribution of gas and electricity, for other than lighting purposes, contain a provision requiring the City and County of San Francisco, in the event that the company's properties are subsequently acquired by the City for use in the municipal distribution of power, to reimburse the Company, in the same amount which the Company has agreed to pay the City and County as the purchase price of said franchises, and

Whereas, Certain members of this Board had no knowledge of the fact that such a provision was to be incorporated in said franchises, and

Whereas, Such a provision is repugnant to the desires and theories of some members of this Board in that such a provision would tend most seriously to obstruct the City and County of San Francisco from engaging in the municipal distribution of power, and further, that any benefit to be enjoyed by the City and County of San Francisco in consideration of the granting of said franchises would be merely temporary because of the requirement of the restoration to the Company of the purchase price to or at the time of the acquisition by the City of the Company's properties; now, therefore, be it

Resolved, That it is the declared policy of this Board of Supervisors that its members and each of them, do hereby pledge themselves to, on final passage, vote against the ordinance granting the aforesaid franchises, unless in the interim the Pacific Gas and Electric Company shall file with this Board of Supervisors an agreement, to be approved by the City Attorney, under the terms of which the requirement for the repayment of the purchase price of said franchise, in the event of acquisition by the City of the Company's properties, shall be expressly waived and foregone.

Referred to Joint Finance and Public Utilities Committee.

Widening of Nineteenth Avenue and Opening of Road in Golden Gate Park Connecting with Funston Avenue

Supervisor Brown presented communication from Mr. George W. Gearhardt, Secretary of Civic League of Improvement Clubs and Associations, inquiring as to the cause of delay in letting contracts for Nineteenth Avenue widening and the opening of the road in Golden Gate Park connecting with Funston Avenue.

Mr. Sidney J. Hester, Chief Clerk, Department of Public Works, explained the status of both projects, stating that bids for the widening of Nineteenth Avenue would be awarded in October, and the work completed by March 15th, 1940, the expected date for the opening of the Funston Avenue approach to the Golden Gate Bridge. The road in the Park, connecting with Funston Avenue is not yet ready, and will not be opened until the striping for traffic is completed.

Thereupon, Supervisor Brown suggested the Clerk so inform Mr. Gearhardt.

Court Decision on Validity of Agency Contract for Distribution of Hetch Hetchy Power

Supervisor Colman expressed his pleasure at the court decision as to the validity of the agency contract with the Pacific Gas and Electric Company for the distribution of Hetch Hetchy power, stating that he

had always felt that San Francisco was reasonably complying with the terms of the Raker Act. It is a source of gratification, continued Supervisor Colman, that the contract has been declared by the higher court to be a legal one, and he believed the decision would be most beneficial in many ways, and that the question of municipal ownership and distribution of power can, as a result, be decided strictly upon its merits. Supervisor Colman felt that the Board of Supervisors and the people of San Francisco owed a debt of gratitude to the City Attorney, and to his assistants, Dion Holm and Robert M. Searles for the way in which the appeal was handled and the favorable decision resulting.

Motion

Thereupon, on motion by Supervisor Colman, the Board, by rising vote, tendered to the City Attorney and his assistants, a unanimous vote of thanks.

Declaration of Policy re Proposed Franchises to the Pacific Gas and Electric Company for the Distribution of Gas and Electricity (Series of 1939)

tion may determine but between the first day of April and the first day of October of said year 1940.

Discussion

Following the presentation and reading of the foregoing Declaration of Policy, Supervisor McGowan expressed his opinion that the Exposition has not been conducted for the interest of San Francisco, but for the interest of concessionaires on Treasure Island. San Francisco, he continued, cannot enjoy the Exposition because of the cost of attendance. He cited the admission price, the cost of parking automobiles and the bridge toll, all of which make it expensive to visit the Exposition. An extension of the Exposition, as suggested would necessitate a bond issue.

Supervisor Uhl suggested that there should be set forth in the proposal, for the information of the voters, the cost for fire and police protection, and the need for a bond issue.

Point of Order

Supervisor Brown raised the point of order that there was nothing before the Board, and all discussion was out of order.

Chair ruled the point of order well taken.

Western Union Telegraph Company Strike

A telegram from Herman Stuyvelaar, Secretary of the Industrial Union Council, addressed to President Warren Shannon, notifying the Board that a delegation representing striking messengers and operators would appear in the Chambers at 3 P. M., and requesting that arrangements be made to hear the delegation, was read by the Clerk.

Privilege of the Floor

Subsequently during the day's proceedings, the privilege of the floor was granted representatives of the striking employees, and Mr. Herman Stuyvelaar introduced the following speakers: Miss Ruth May, Western Union Operator, who made the following requests, 1. that the Board of Supervisors instruct the Western Union Company officials to meet with representatives of striking employees and discuss the issues of the strike. 2. That the Board instruct police officers to be more gentle with the pickets.

James Terrill, representing the striking messenger boys; Mrs. Nina Wagner, Supervising Telephone Operator; and Mr. Mervin Rathbone, President of American Communications Association, set forth at length the grievance of the striking employees and urged the co-operation of the Board in endeavoring to obtain a meeting between representatives of the striking employees and officials of the company.

Maurice Fuller, Attorney, representing the Western Union Telegraph Company, denied some of the allegations of the strikers, and claimed it was impossible for the company to meet with their employees since they had a contract with a union composed of the majority of company employees.

On being questioned by Supervisor Mead, Mr. Fuller admitted that no attempt had been made by the company to meet with representatives of their striking employees, stating that such meeting could not be had because of nation-wide contract with another union as bargaining agent for the employees.

Supervisor Uhl expressed himself as being in sympathy with the striking employees, and suggested that Mr. M. T. Cook, General Manager of the company, be requested, if possible, to arrange a meeting with representatives of the strikers in an endeavor to arrive at a mutually acceptable solution to their problems.

Motion

Supervisor Mead, seconded by Supervisor Uhl, moved that it be the consensus of the Board of Supervisors that the Western Union representatives take necessary steps to immediately negotiate with the representatives of the employees for the purpose of bringing about a satisfactory understanding and bringing this unnecessary strike to a satisfactory conclusion.

Explanations of Votes

Supervisor Brown, in explanation of his vote on the foregoing motion, stated that he was as much interested in industrial peace as anyone in the room. "It so happens," said Supervisor Brown, "that I conduct a business in San Francisco and my family conducted business here for 64 years. I think the Federal Government has laid down laws by which that industrial peace can be assured. This matter has transcended the power of the Board of Supervisors. I find that in view of what has been said the question of with whom the Western Union will negotiate cannot be determined until the National Labor Relations Board has handed down its ruling. Until that ruling comes down this company jeopardizes its position to do otherwise, and while these people are entitled to their opinion, the fact remains that

the body with whom the Western Union must negotiate is the existing employees' Union. The fact that these people hold a grievance is beside the point. The point is that the Western Union is bound by its agreement to negotiate with the company union as it now exists and negotiations with any other party is breach of contract with that union. The matter of fact is the Board of Supervisors has no place in the picture. The Board of Supervisors is certainly subject to federal laws, and federal laws must prevail in any controversy of this nature. I am in sympathy with the desire of these people to improve their conditions; however, I am forced to vote against the motion.

Supervisor McGowan expressed surprise at Supervisor Brown's attitude and opinion that the matter had no place before the Board of Supervisors, in view of resolution presented by him requesting water front employees to meet with their employers and submit their differences to arbitration. All these people are asking, continued Supervisor McGowan, is that their employers meet with them and give them the right to sit down and discuss any differences that exist. There is no reason why the company officials should not sit down with their employees and discuss the matter in a friendly manner, and the Western Union Company owes it to the city to negotiate with their employees.

Thereupon, Supervisor Brown, in reply to Supervisor McGowan's statement, called attention to the difference in conditions: in the case of the water front employees dispute, no strike was in progress, and his thought was, if possible, to avert a threatening strike; in this case, a strike is already on.

Supervisor Colman, in explaining his vote, stated he regretted his inability to vote in favor of the motion. The Board of Supervisors was not, in his opinion, the proper body to take such action.

Motion Carried

Thereupon, the roll was called and the foregoing motion was carried by the following vote:

Ayes: Supervisors McGowan, McSheehy, Mead, Ratto, Roncovieri, Schmidt, Shannon, Uhl—8.

Noes: Supervisors Brown, Colman—2.

Absent: Supervisor Meyer—1.

Notification to Western Union Company of Action of Board

Thereupon, Supervisor McSheehy moved that the Clerk be instructed to notify the Western Union Company immediately, of the action just taken.

Motion carried by the following vote:

Ayes: Supervisors McGowan, McSheehy, Mead, Ratto, Roncovieri, Schmidt, Shannon, Uhl—8.

Noes: Supervisors Brown, Colman—2.

Luncheon at Burlingame, September 22, 1939

At the request of Supervisor Ratto, the Board was polled to ascertain who could attend luncheon at Burlingame on September 12, 1939, invitation to which had been previously sent to the Board. Supervisors Ratto and Uhl announced their intention to attend. Supervisor Shannon would attend if possible.

Court Rooms for Additional Judges

Supervisor Ratto called attention to the expected appointment of two additional judges of the Superior Court for San Francisco, for which court rooms would be needed.

In reply thereto, the Clerk announced that request for court rooms

had been forwarded to the Director of Property, but that no reply had been received from him.

Thereupon, Supervisor Shannon requested that the matter be placed on the Finance Committee's calendar for its next meeting.

(Series of 1939)

Resolution No....., as follows:

Whereas, The Golden Gate and San Francisco Bay are famed throughout the world as forming one of the greatest and most beautiful natural harbors in the world and a haven to travelers, a port to world commerce and the Western Gateway to this land of abundance, democracy, freedom and peace; and

Whereas, At the Eastern Gateway to our nation, in New York Harbor, the Statue of Liberty stands as a fitting tribute to our ideal of freedom and an example to the oppressed of other lands; and

Whereas, At the Western Gateway in San Francisco Harbor our nation displays no symbol of any ideal but instead maintains on Alcatraz Island a desecration and a symbol to crime and stern punishment in the form of a Federal prison; and

Whereas, Peace is another great ideal to which we aspire for ourselves and all the world and it is most fitting that this be symbolized at this Western Gateway; therefore, be it

Resolved, That this Board of Supervisors of the City and County of San Francisco, memorialize The President of the United States and The Congress to replace the Federal prison on Alcatraz Island in San Francisco Bay with a great statue of Pacifica, as a symbol of Peace, and that in anticipation of this magnificent objective, the United States Government immediately take steps to remove the Federal prison from this great Western Gateway; and be it

Further Resolved, That copies of this resolution be sent to The President of the United States, to our representatives in the United States Senate and House of Congress, and to the Press.

(Series of 1939)

Supervisor Shannon presented Resolution No. 559, as follows:

Whereas, Supervisors representing fourteen interior California Counties, attending meetings under the auspices of Alta California, Inc. at Marysville, June 29, 1939 and at Modesto, July 6, 1939, adopted the following resolution:

"Whereas, the best interest of the rural counties of Northern California can be served by having an interrelated and comprehensive exchange of plans for the addition and betterment of the roads of the counties through cooperative effort, and

"Whereas, a study would be desirable on how to proceed for the organization of individual counties into composite groups, and to perfect the development of a system of interrelated county roads to enable the counties jointly to secure State and Federal aid, and

"Whereas, the facilities for such detailed studies are limited in most of the rural counties of Northern California,

"Now, therefore, be it resolved, that the representatives of the counties here assembled recommend to their respective Boards of Supervisors at their next meetings that a representative of the Board be delegated to attend a highway and roads conference of Northern California counties at an early date and that the metropolitan City and County of San Francisco be requested to call such a conference to the end that the northern section of the State may be fully represented," and

Whereas, it is in the public interest that San Francisco cooperate with neighboring counties in the solution of mutual problems, and

Whereas, an adequate net-work of roads and highways is indispensable to the prosperity of San Francisco's trade area and therefore indispensable to the prosperity of San Francisco, and

The Clerk: (Reading) "September 21, 1939. Board of Supervisors of the City and County of San Francisco, San Francisco, California. Gentlemen: Attention Mr. Joseph J. Phillips, Director of Property.

"We hereby offer to enter into a conditional year to year lease with you covering all of our real property in the Marina District lying north of Marina Boulevard between Webster and Buchanan Streets and between Buchanan and Laguna Streets, including an option therein under which you may purchase said property in parcels for the respective prices and in the manner and at the times hereinafter specified, subject to the reservation in us of an easement for our existing pipe lines and dockage facilities appurtenant to our nearby steam plant. Such lease will be for a term of one year from and after its date with the conditional right in you to renew same from year to year for an additional nine years by giving us written notice to that effect at least fifteen days prior to the close of each successively expiring lease year and paying us the rental herein and therein specified for that year, and the partial exercise of such option by paying us the sum herein and therein specified for the parcel of said real property purchasable that year.

"For the purposes hereof said real property shall be divided into ten separate parcels numbered 1 to 10, inclusive, which shall be delineated on a map thereof to be hereafter mutually agreed upon and attached to such lease. These may be purchased separately under said option, but only in the order of their respective numberings, beginning with the parcel numbered 1. The total purchase price for said real property is \$256,000, lawful money of the United States, allocated to said respective parcels as herein stated, plus interest on any unpaid portion thereof from and after December 1, 1939, at the rate of three per cent per annum, payable as herein specified. The option in respect to said respective parcels shall be exercised by payments to us as follows: \$15,000 for Parcel 1, and \$26,777.78 for each of said Parcels 2 to 10, inclusive.

"As rental for such lease you will each year as the same become due and payable pay all taxes and assessments and governmental charges levied or assessed or incurred against any of said real property subsequent to date of lease and before the close of each lease year pay to us a sum which will be equal to and in satisfaction of the then accrued interest upon said purchase price or any unpaid portion thereof. Taxes for the fiscal year 1939-1940 will be pro rated as of date of lease.

If you shall elect to renew such lease at the close of the first lease year, or any renewal lease year thereafter, you will at the time of giving your written notice to that effect as above provided, or within fifteen days thereafter, pay said rental for that year and such sum as above specified as shall be required to exercise said option in respect to the appropriate parcel of said real property for that year.

"Both the accrual of interest and option payment in respect to any given parcel for any given year are indicated on Exhibit A hereof.

"If and when you shall exercise said option in respect to any given parcel as aforesaid we will execute and deliver to you a deed conveying merchantable title thereto, subject (1) to the above reservation and (2) to existing defects, if any, in our record title; provided, however, that we will undertake to clear any such defects insofar as can be done by quiet title action.

"Concurrently with the execution of such lease and under the terms and conditions thereof you will be given possession of said real property and will be entitled to retain possession thereof so long as said lease shall continue in effect.

"By your acceptance hereof, and such lease and any deed pertaining to any of said parcels shall so provide, you will agree not to make any improvements or do anything in connection with your use of said real property which will interfere with the full use and enjoyment by us of said pipe lines and dockage facilities in respect to the purposes for which same are used by us; provided, however, that if after acquisition of title to said real property you shall decide that the maintenance and operation of our said existing pipe lines and dockage facilities interfere with any proposed developments by you of said real property we will at your expense relocate same, or any given portion thereof, as you may request, at new location on suitable easement furnished therefor by you without cost to us.

"Such lease shall contain the statement that time is of the essence of all and singular the provisions thereof.

"Unless such lease and option shall have been prepared and executed in form mutually satisfactory to you and us within sixty days from date hereof this offer will terminate.

"Very truly yours, Pacific Gas and Electric Company, by P. M. Downing, its Vice president and general manager."

Supervisor Uhl: Mr. President, this comes recommended by the finance committee?

The President: Yes.

Supervisor Uhl: It says here, "Approved by the Park Commission. Approved by the Director of Property. Approved as to form by the City Attorney. Approved as to funds available by the Controller." Just one question I should like to ask of the City Attorney—or maybe you would know, Mr. Phillips—wasn't suit brought on this particular property?

Mr. Phillips: No, the suit was brought on the piece owned by Mr. Sharp, not on this piece.

Supervisor Uhl: I want to ask one other question: What was the appraisal placed on the property by the real estate appraisers you consulted? I should like to know that, so that in approving this that estimate will show of record in these proceedings.

Mr. Phillips: This property was offered to the city, through the Park Commission, for \$350,000, and I said that in my opinion that was too high. The gas company then made an offer of \$300,000, which I thought was too high, and at my request, through the Park Commission, which I am entitled to do, there were appointed three appraisers, Vincent Finnigan, Harold Crane, and A. M. Rosenstirn, to advise with me on what they thought was the value of the property. They were instructed that in making the appraisal it should be made as of the date before the change in zone, as it has never been the purpose of the city to take advantage of a change in zone in the purchase of property. On this appraisal they brought in \$256,000, which happens to be exactly this figure. However, so there may be no misunderstanding they did include in their appraisal a part of the Sharp property. I had originally had it appraised by my office, Mr. Riordan, and I, and we appraised it at \$264,000 against these gentlemen's appraisal of \$256,000. In other words, that \$8,000 above, is, as a matter of fact, what we will be paying against this \$256,000, it will really amount to about \$266,000. We are paying more than those three men advised us to the extent of about \$10,000. But when I couldn't get anywhere with the company with my own men I employed those three men to advise me, as I am entitled to do under the charter.

Supervisor Uhl: Now, Mr. President—

Supervisor McSheehy: What is the exact amount?

Mr. Phillips: \$256,000.

Supervisor Uhl: Mr. President, please—I know you are engaged there, but a short time ago the official reporter took down Mr. Phillips' statement, and I think it is advisable that the statement by Mr. Phillips should be incorporated in the Journal of the Board of Supervisors, and I so move.

I want to take this opportunity, while I am on my feet, to say that I think Mr. Phillips made a wonderful deal for this piece of property which rounded out our waterfront and which disposes of a matter which has been more or less argumentative, and one in which all of the Marina people were interested, that is, in seeing that we acquired that property for the city.

Mr. Phillips: I might add, that when we originally started to purchase the Glen Park Playground under this plan, installment plan, we paid approximately six per cent for the rental, that is, taxes, interest and rental, but which really represents rental on the property, and which is a charge that diminishes as we buy each piece of land, and in that connection we were successful in securing land at five per cent, and then later on in the purchase of Lafayette Park and Fleischacker Playground we got it down to four per cent, and then last February when we purchased the piece of land from the California Packing Company which rounded out Aquatic Park we succeeded in getting them to carry it on a three per cent basis. This agreement now before you is on a three per cent basis, the lowest we have ever had.

Supervisor Colman: I believe that in passing this we are keeping faith here with a great many home owners, citizens, and organizations in San Francisco, and I suppose it is something we took on a moral obligation to do when we changed the zone for the purpose of acquiring Gas House Cove.

Supervisor McSheehy: The three per cent represents the net amount of interest due to the owners of the property, does it?

Mr. Phillips: As rental. We pay the taxes plus three per cent. We now pay \$15,000 out of the \$256,000 as rental, together with the year's taxes; in other words, we pay the taxes plus three per cent on the difference between 256,000 and 15,000 dollars.

The President: This is a very important piece of legislation and I suggest that we have a roll call.

Supervisor Brown: In explaining my vote on this matter I should like to say that as a member of the Board at the time the question of this purchase came before the Board I was opposed to it. I felt then it would have been to the best interests of the City of San Francisco to use that land for the purpose of building apartment houses, and I so voted at that time. However, in the wisdom of the Board the rezoning went through and the property owners apparently were faced with a loss of revenue from their property, and I am glad to see that the city has now kept faith with the property owners and has now purchased the land for the Yacht Harbor, and under the circumstances I have no hesitancy in voting for number 20 on the calendar, which provides for the purchase of that property and assures the property owners getting some return on their property.

(Report from City Attorney as to approval of above, awaited.)

Committee of the Whole

On motion by Supervisor Uhl, seconded by Supervisor McGowan, the Board resolved itself into a Committee of the Whole, President Warren Shannon to preside as Chairman.

Privilege of the Floor

Mr. William P. Caubu, Attorney, representing persons interested in the proposed patent chimney ordinance, explained at length proposed ordinance submitted by him on behalf of his clients. Mr. George Sullivan, Attorney, representing minority small dealers, answered arguments advanced by Mr. Caubu. Mr. Milton Morris, representing Associated Home Builders objected to any charge for inspection of patent chimneys in new construction, stating that such inspection was merely incidental to the general building inspection, for which a fee is now provided. However, an inspection fee of \$2.50 for patent chimneys in old construction was, he felt, reasonable. Mr. Fred Green presented the views of the Atlas Heating and Ventilating Company, and the Sheet Metal Workers' Association.

Mr. Errol Rosenthal, of the Controller's Office, presented the findings of the Controller as to costs of inspection service rendered.

Committee of the Whole Arises

Whereupon, Supervisor Uhl moved that the Committee of the Whole rise and report.

No objection, and so ordered.

Reconvening as Board of Supervisors

Thereupon, on motion duly made, seconded and carried, the Board reconvened as a Board of Supervisors.

Discussion

Supervisor Uhl, Chairman of the Public Buildings, Lands and City Planning Committee, reported on the deliberations held by his committee on the proposed ordinance, stating that originally the matter had come before the committee on the grounds of discrimination. The smaller dealers were paying as much as \$2 per permit, whereas, the larger dealers, under the blanket fee set up in the present legislation, were paying only some 13 cents for each permit.

In reply to questioning, Mr. Rosenthal explained that at the present time there is no segregation of costs in building inspection, as between the general building inspection and the inspection of patent chimneys.

Supervisor Uhl, in continuing his discussion, announced that the Committee had requested the Controller, at the earliest possible time, to pick up the cost of inspecting buildings and of inspecting the flues. The Controller is not prepared, however, for a repeal of fees on patent chimneys. The Committee, however, has agreed on a charge of 50 cents for new construction, and \$1 for old construction.

Proposed Substitution for Committee's Recommendation

Supervisor Ratto, seconded by Supervisor Mead, moved that the proposed ordinance as presented by Mr. Caubu, be substituted for the Committee's recommendation.

Before the foregoing motion was put, Supervisor Mead suggested that inasmuch as the proposed substitution was in reality a new ordinance, it should be referred to committee.

Amendment to Motion

Supervisor McSheehy, pursuant to statement by Supervisor Uhl that the proposal of Mr. Caubu had been considered and rejected by the Committee, moved that the entire matter remain on the calendar and be made a special order of business for Monday, October 9, 1939, at 2:30 P. M., the Board to sit as a committee of the whole at that time.

No objection and so ordered.

(Series of 1939)

Bill No. 356, Ordinance No....., as follows:

Authorizing a supplemental appropriation of \$6000.00 from the surplus existing in Appropriation 948.804.00 to the credit of Appropriation 948.903.00 for city aid necessary for street construction in Brunswick Street between Gutenberg to Allison Street; said work to be performed under the Street Improvement Ordinance of 1934.

Section 111 of the Charter provides that when street assessments are authorized to be paid in installments over a period not to exceed ten years, no annual installment payment shall exceed twenty-five per cent of the assessed value of the land against which the assessment is levied; therefore, this appropriation is necessary to make the assessment valid.

Requesting Re-establishment of North End Police Station.

(Series of 1939)

Supervisor McGowan presented Resolution No., as follows:

Whereas, The citizens of the Marina district and its immediate adjacent area has an estimated population of more than 100,000 persons, and represents the highest assessed valuation of property in San Francisco; and

Whereas, It appears that the citizens of this district are without adequate police service; and

Whereas, The North End police station on Greenwich Street near Scott was abandoned in 1936, and its personnel consolidated with the Ellis-Polk station, now known as the Northern station, supposedly in the interests of economy and efficiency; and

Whereas, The estimated savings has not materialized, but instead the citizens of the Marina district and its environs have been deprived of proper police service; and

Whereas, The Northern police station, located on Ellis Street, near Polk, is more than three miles from the Marina district, and has the largest area in San Francisco to patrol, approximately seven square miles; and

Whereas, The protection of life and property is the first duty of the Police Department, and the said Northern station is undermanned at the present time to afford proper police protection to the citizens of the district;

Now, Therefore, Be It Resolved, That the Board of Supervisors of the City and County of San Francisco requests the honorable Board of Police Commissioners to take the necessary steps to re-establish the North End police station at the earliest possible date.

Declaration of Policy with Regard to Transfer of Title to Adjoining Property Owners of Land in Streets or Portions of Streets Which Have Been Closed and Abandoned.

(Series of 1939)

Supervisor Mead presented Resolution No....., as follows:

Whereas, From time to time this Board of Supervisors is petitioned to close and abandon streets which are no longer necessary to public convenience, and

Whereas, In most of such cases the land comprising such streets (when closed and abandoned) reverts, under the law, to the adjoining property owners, and

Whereas, Ordinarily, the purpose which prompts the request for closing and abandonment of a public street is to permit the persons who acquire the property through such closing to build thereon, thus increasing the assessment roll, and

Whereas, Although it is impossible under the law to sell the land comprising a public street where the land for such street was originally given to the City and dedicated for street purposes, a practice has recently sprung up by which property owners adjoining that involved in a street which is closed are required, in consideration of such closing, to make a gift either of land or money to the City, and

Whereas, In order to stimulate and increase building and industry in San Francisco, every possible manner of permitting the growth and expansion thereof should be encouraged and facilitated by the City itself; now, therefore, be it

Resolved, That it is the declared policy of this Board of Supervisors, that in future when this Board is petitioned to close and abandon a public street which is no longer necessary to public convenience, and it is demonstrated by petitioner to the satisfaction of this Board that the property acquired by petitioner through such closing will be used for building purposes, thereby increasing the assessment roll, then and in that event said closing and abandonment shall be done and made without the requirement of any further consideration whatsoever, moving from petitioner to the City and County of San Francisco.

Referred to Streets and Industrial Development Committee.

2. How does the rental account with the Crystal Springs Golf Links stand? What is the total of rent from the entering into of lease until September 1, 1939, and what amount has been paid on same?

Bus Transportation

Supervisor Uhl presented and read an article in the San Francisco Chronicle, Sunday, October 1, 1939, by Leon J. In commenting on the article just read, Supervisor Uhl commended the writer on the stand taken by him, and requested the article to be referred to the Fire, Safety and Police Committee.

Committee Recommendation Approved

The roll was called and the Committee's recommendation that the Parking Meter Ordinance be not repealed was approved by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Shannon—8.

Noes: Supervisors McSheehy, Schmidt, Uhl—3.

Reconsideration

Before the result of the foregoing vote had been announced, Supervisor Uhl changed his vote from "No" to "Aye" and moved for reconsideration at the next meeting of the Board.

The vote then stood:

Ayes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Shannon, Uhl—9.

Noes: Supervisors McSheehy, Schmidt—2.

Motion for Reconsideration

Supervisor Uhl, pursuant to notice given at the meeting of October 2, 1939, moved that the vote by which the Board approved the recommendation of the Streets Committee that the Parking Meter Ordinance be not repealed, be rescinded. Motion seconded by Supervisor McGowan.

Supervisor Uhl, in urging favorable consideration of his motion, stated that the Board of Supervisors had not heard from the public on the subject, and that there were citizens present who desired to present their views and the reasons for requesting the repeal of the Parking Meter Ordinance. Thereupon, he requested the privilege of the floor for Mr. Herbert T. Hunt, representing the California Automobile Association.

On objection to hearing from citizens on the motion of reconsideration, the floor was granted to Mr. Hunt.

Committee of the Whole

Thereupon, Supervisor Uhl, seconded by Supervisor McGowan, moved that the Board sit as a committee of the whole.

Motion failed by the following vote:

Ayes: Supervisors McGowan, McSheehy, Mead, Ratto, Schmidt, Uhl—6.

Noes: Supervisors Brown, Colman, Meyer, Roncovieri, Shannon—5.

Objection to Ruling of the Chair

Supervisor McSheehy objected to the ruling of the chair that motion to sit as Committee of the Whole requires a two-third vote, holding that nowhere in the Rules of the Board or in Robert's Rules of Order does such a rule appear. However, he did not appeal from the ruling of the Chair.

Discussion

Supervisor Colman, in discussing the motion, opposed the motion to reconsider, and reminded the Board that action was not on repeal of the Parking Meter Ordinance, but merely affected the decision as to approval of the Committee's recommendation thereon. The Parking Meter Ordinance could at any time be repealed if that should be considered advisable or necessary.

Supervisor McGowan explained his reason for seconding the motion for reconsideration, stated that there were a number of citizens who desired to be heard on the matter. If Supervisor Uhl's motion should not carry, the entire matter of parking meters would then pass entirely out of the hands of the Board.

Supervisor Brown, thereupon, announced that he had no objection to granting the privilege of the floor to Mr. Hunt, provided he spoke only on the motion to reconsider. He would object, however, to Mr. Hunt speaking on the Parking Meter Ordinance itself.

The Chair ruled, however, that the motion to reconsider opened up the entire subject matter.

Thereupon Supervisor Brown reiterated his objection to hearing from any citizen before the Board had acted on the motion to reconsider.

Renewal of Motion to Sit as Committee of the Whole

Supervisor McSheehy, seconded by Supervisor Uhl, moved that the Board sit as a Committee of the Whole for the purpose of hearing the public as to why the Board should consider its vote whereby the report of the Streets Committee recommending that the Parking Meter Ordinance be not repealed, was approved.

Motion failed by the following vote:

Ayes: Supervisors McGowan, McSheehy, Uhl—3.

Noes: Supervisors Brown, Colman, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—8.

Reconsideration Refused

Thereupon, the roll was again called and the motion to reconsider failed by the following vote:

Ayes: Supervisors McGowan, McSheehy, Schmidt, Uhl—4.

Noes: Supervisors Brown, Colman, Mead, Meyer, Ratto, Roncovieri, Shannon—7.

Oct. 2, 1939—Consideration postponed until Monday, Oct. 9, 1939—the Board to sit as a Committee of the Whole.

Proposed Amendment Submitted by William P. Caubu, Attorney
at Law

September 30th, 1939.

Mr. John Ratto,
c/o Board of Supervisors,
City Hall,
San Francisco, California.
Dear Mr. Ratto:

Persons interested in the patent chimney ordinance to be presented to the Board of Supervisors on Monday have suggested that I enclose to you a proposed amendment to the ordinance.

In considering the ordinance thought is to be given to the fact that inspection of flues is covered by the fee required to be paid when obtaining a building permit, namely \$5.00 per \$1,000.

Apparently 90% of those engaged in this business desire that a certificate of competency be issued; this is now done as a protection to our plumbers and electricians; at present men from adjoining cities and towns can do patent chimney work here without restriction while our men engaged in that work must pay a fee in every town and city around us when they engage in this work in such a community.

There are at present some 50 to 60 persons engaged in this work; if put on a certificate basis a number of more persons may be expected to obtain such a certificate. On the basis of 50 persons this fee would produce \$1000.00.

To be added to this is a fee of \$2.50 for permit on each flue installed in an older building; such an installation does require a special trip for inspection and this fee would be fair; it is estimated there were 800 of such flue permits obtained last year, and this would produce \$2000.00.

Last year the total realized from permit fees was approximately \$3300.00, as I recall figures given by Mr. Rosenthal, of Controller's office.

In the event additional money is to be required we submit herewith another fee schedule:

The competency certificate at \$20.00 each.....	\$1000.00
Old flue installation, \$2.50 per flue.....	2000.00
New flue installation, \$0.50 per flue, 1000 on last year's figures	500.00
Option at \$300.00 per, on last year's figures..	2000.00

This will produce a revenue of \$5500.00, the amount Mr. Rosenthal seems to think will be required.

Thanking you for your help in this matter, I am

Very truly yours,

(Signed) W. P. CAUBU.

On Proposed Ordinance Relating to Patent Chimneys, Etc.

That the proposed ordinance be amended so that the proposed fees set forth therein be stricken and in lieu thereof the following be inserted:

That every corporation, co-partnership or individual engaged in conducting the business of constructing, erecting, installing and repairing of patent chimneys and flues in the City and County of San Francisco shall first obtain a certificate of competency to be issued in manner as follows: that before a certificate of competency shall be granted to any applicant to carry on such business the applicant, following the filing of his application with the Department of Public Works, shall pass a satisfactory examination of his or their fitness and ability to practice such business. That such examination shall be conducted by a committee constituted as follows: a representative of the Journeymen Sheet Metal Workers, of the Furnace Dealers and Sheet Metal Contractors Association, and of the Department of Public Works of San Francisco.

That for conducting such examination and the issuing of such certificate, as herein required, said Department of Public Works shall collect therefor the sum of \$20.00 and may require a deposit of such sum prior to conducting such examination; and a fee of \$20.00 is hereby imposed upon the holder of such certificate, the same to be paid annually.

Fees: For the erection and installation of each flue in a building, not being newly constructed, a fee of \$2.50 shall be paid to the Central Permit Bureau for expenses in investigation of conditions and inspection of operations.

Additional Fee Suggestion to be Added to the Proposed Amendment

Fees: That for a permit to install patent chimneys and flues each holder of a certificate of competency shall pay to the Central Permit Bureau for expenses in investigating of conditions and inspection of operating in connection therewith the following fees:

(a) For the erection and installation of each flue in a building, not being newly constructed, a fee of \$2.50;

(b) For the erection and installation of each flue in a building being newly constructed a fee of \$0.50;

(c) Any person, holding such certificate of competency, as an option and in lieu of the above required permit fee as described in Subdivision "b" hereof, may pay an annual fee of \$300.00 payable quarterly in advance.

Committee of the Whole

On motion by Supervisor Uhl, seconded by Supervisor McGowan, the Board resolved itself into a Committee of the Whole, President Warren Shannon presiding as chairman.

Privilege of the Floor

Mr. W. P. Caubu, who had previously presented suggestions for inclusion in the Patent Chimney Ordinance, reported the deliberations had in the City Attorney's office, by the various parties interested in the proposed legislation.

The City Attorney explained in detail proposed legislation to be drafted along the lines of the present ordinance providing for examinations and certificates of competency for plumbing contractors, should the board desire such legislation.

Mr. Caubu, representing furnace dealers and sheet metal workers; Mr. Morton, of the Journeymen Plumbers Union; Mr. Sullivan; Mr. Beaumont, of the Beaumont Furnace and Sheet Metal Works; and Mr. Errol Rosenthal of the Controller's Office, were granted the privilege of the floor.

Following the presentations by the above speakers, Supervisor Meyer, in order to get the matter before the committee of the whole, offered as amendment to the Committee's recommendations, proposals submitted by Mr. Caubu at the previous meeting of the Board.

Whereupon, the City Attorney announced that because of the great difference between the proposals by Mr. Caubu and the Committee's recommendations, the legislation proposed by the Committee would not be susceptible to amendment to incorporate Mr. Caubu's proposals. If Mr. Caubu's proposals should be approved by the Board, an entirely new ordinance must be drafted.

Thereupon, Supervisor McSheehy moved that further consideration be postponed for one week, and in the meantime, Mr. Caubu and the City Attorney draft legislation along the lines suggested by Mr. Caubu. He moved further that the Board, at its next meeting, again sit as a committee of the whole, to consider the legislation presented at that time, and suggested that any amendments to carry out the ideas of Mr. Sullivan could also be considered at that time.

No second to motion.

Whereupon, Supervisor Uhl stated that the proposals made by Mr. Caubu had already been considered by the Committee, and been rejected, and moved the adoption of the Committee report, fixing fees for patent chimney inspection at 50 cents for new construction, and \$1 for old construction.

Supervisor Mead, seconded by Supervisor Colman, moved, as an amendment to the motion, that the entire matter be re-referred to committee for some concrete recommendation to the Board.

In explaining the reasons for his motion, Supervisor Mead stated that he felt that the various groups were not far apart in their views, and that if possible, every effort should be made to get together and come to a definite conclusion. However, if the groups cannot come to an agreement, they can each bring in their proposals and the Board can then decide the matter.

Committee of the Whole Arises

Supervisor Uhl, seconded by Supervisor McGowan, moved that the Committee of the Whole rise and report.

No objection and so ordered.

Reconvening as Board of Supervisors

Thereupon, on motion duly made and carried, the Board reconvened as a Board of Supervisors.

Motion to Approve Committee Report

Supervisor Uhl, seconded by Supervisor Ratto, moved that the Board approve the committee report, as printed on the calendar, subject, however, to necessary additions as advised by the City Attorney, re procedure for use of coupon books.

Discussion

Thereupon, Supervisors Mead and Ratto renewed the suggestion previously made while sitting as a committee of the whole, that the parties concerned make every reasonable effort to get together. However, if they cannot do that, let them bring in separate reports. The Board can then make its own decision.

Supervisor Roncovieri expressed agreement with the suggestion by Supervisors Mead and Ratto, and stated that he felt every effort should be made to come to an understanding. Then within a week the interested parties can come back and the Board can act.

Supervisor McSheehy suggested that the interested parties meet with the City Attorney; that the City Attorney prepare the necessary legislation for the Board's consideration at its next meeting.

Further Consideration Postponed

Thereupon, on substitute motion by Supervisor McSheehy, the City Attorney was requested to prepare the necessary legislation and the entire matter be made a special order of business on Monday, October 23, 1939, at 2:30 P. M.

SPECIAL ORDER — 3:30 P. M.

Discussion of Old Age Security Legislation

Privilege of the Floor

Mr. William B. Hornblower, representing the Fraternal Order of Eagles, sponsor for old age pension legislation throughout the United States, on being granted the privilege of the floor, recited in detail the history of efforts to secure old age security aid for the needy aged.

Following his recital of the history of old age security legislation, and full explanation of such legislation enacted, Mr. Hornblower suggested that the Board go on record as not exercising its right to require an agreement from any applicant for old age security aid that he would not encumber his property. The Board can exercise its right in that respect by declaring that hereafter no person shall be

required, as a prerequisite, to sign a written agreement that he will not, during his lifetime, encumber his property. However, if a pensioner dies intestate and has no surviving spouse, the City and County will be a preferred creditor of his estate.

Supervisor Uhl, following Mr. Hornblower's presentation, suggested that the Board inquire from the Public Welfare Department, how many old age pensioners there were on September 1, and how many such pensioners there are now.

Thereupon, Supervisor McGowan presented the following resolution:

Declaration of Policy re Encumbering or Transferring of Property by Applicants for or Recipients of Old Age Security Aid

(Series of 1939)

Resolution No....., as follows:

Whereas, aid granted to the needy aged prior to 1937 by the State and Counties constituted a lien upon the property of the recipient; and

Whereas, the Legislature at its regular session in 1937 amended the law by amending Section 2225 of the Welfare and Institutions Code, providing that aid to the needy aged shall not constitute a lien upon any property of the recipient, and all liens and mortgages heretofore created were released and the Boards of Supervisors were directed and authorized to execute and record proper instruments of release; and

Whereas, pursuant to the said Legislative amendment of 1937 the Board of Supervisors of the City and County of San Francisco authorized the release of all liens heretofore taken on the property of the needy aged receiving aid from the City and County of San Francisco; and

Whereas, the Legislature at its regular session this year has amended the law relating to the needy aged by adding Section 2226, providing that a recipient for aid who owns or acquires any property or estate or interest therein *may* be required by the Board of Supervisors to enter into an agreement that he will not, during his lifetime, without the consent of the Board of Supervisors, transfer or encumber his property; and

Whereas, the present law provides that aid to the needy aged as amended in 1939 shall not constitute a lien upon the property of any recipient; and

Whereas, the Director of the Public Welfare Department has notified all recipients of aid under the Needy Aged Act of the State of California that the recipients who own real property will be compelled to enter into a written agreement between the City and County of San Francisco and the recipient for aid, that said recipient will not transfer or encumber his real property without the consent of the County; that unless said agreement is signed and executed by any recipient of aid owning property in the City and County of San Francisco, aid will not be granted; and

Whereas, the Attorney General has rendered his opinion to the Director of the State Welfare Department that Section 2226 does not make it mandatory upon the Board of Supervisors of any County to require that an agreement be executed by a recipient of aid who owns property in the County, agreeing that he will not transfer or encumber the property during his lifetime without the consent of the Board of Supervisors, the said Attorney General ruling that it is discretionary with the Boards of Supervisors in the various Counties whether or not they desire to require such an agreement in writing before granting aid to a needy aged person seeking aid under the Act for Aid to the Needy Aged; and

Whereas, many of the aged persons who are receiving aid have been property owners and tax payers for many years in the City and County of San Francisco, and as property owners have shown that they have made good citizens by demonstrating their faith in our County government by the acquisition of real property, and whereas in most cases the property consists of a home which in many instances has been purchased through hard labor and represents the last of an aged person's fortune or wealth;

Now, Therefore, Be It Resolved, That the Board of Supervisors of the City and County of San Francisco will not require recipients of aid under the Act for Aid to the Needy Aged receiving aid from the City and County of San Francisco who own real property to sign any agreement that said persons will not during their lifetime, without the consent of the Board of Supervisors, transfer or encumber such property; and

Be It Further Resolved, That all persons whose applications are now pending for said to the needy aged which may hereafter be approved by the Board of Supervisors of the City and County of San Francisco will not be required to sign any agreement that they will not transfer or encumber their property without the consent of the Board of Supervisors; and the Public Welfare Department is hereby directed, in making its investigations for the Board of Supervisors in the granting of aid to the needy aged, not to require as a prerequisite for approval of aid to any person owning property entitled to aid under the act known as "Aid to the Needy Aged" to sign any written agreement that during his lifetime he will not transfer or encumber said real property without the consent of the Board of Supervisors or the City and County of San Francisco.

Referred to the Public Welfare Committee.

Improvement of Traffic Conditions on Polk Street

The following recommendation of the Fire, Safety and Police Committee was taken up:

Regarding improved traffic conditions on Polk, Larkin and Ninth where Market Street buses are operating, the committee offers the following suggestions:

1. That the Police Department under whom the jurisdiction of traffic matters rests under the charter, kindly inform the Board of Supervisors why it would not be desirable to remove the buttons on Polk, Larkin and Ninth Streets and in place of same, paint the safety zone white.

2. That the buses shall make only skip stops for loading and unloading passengers at every other street north of Market and that a sign be erected with the words "Bus Stop." Curb painted red in order that the space may be reserved for buses.

The foregoing matter, consideration of which was temporarily postponed, was subsequently during the proceedings again taken up.

Discussion

Supervisor McGowan, Chairman of the Committee on Fire, Safety and Police, in discussing the foregoing matter, stated that the committee recognized the impossibility of removing the safety zones on Polk Street while street cars are being operated on that street. He called attention to the efforts of the Committee to have the Chief of Police, or representative from the Police Department attend meetings of the Committee, and the impossibility of the Committee's functioning properly because of the failure of the Chief of Police, or his representative, to attend meetings when requested, and moved, that the Board of Supervisors invoke Section 21 of the Charter and subpoena the Chief of Police to be in attendance at a meeting of the Committee on Wednesday, October 11, 1939, at 3 P. M.

Supervisor Colman, in discussing the motion, stated he did not think it necessary or advisable to subpoena the Chief of Police to attend a meeting of the committee, and expressed confidence that the Chief of Police would attend meetings, if possible, or furnish any necessary information to enable the committee to function.

Amendment to Motion

Whereupon, Supervisor Brown expressed dislike for taking any drastic action, and moved, seconded by Supervisor Ratto, that the Board of Supervisors, through the Clerk, request the Chief to appear before the Committee at its meeting on Wednesday, October 11, 1939.

Discussion

Supervisor McGowan announced he was opposed to the amendment proposed, stating the Committee had sent the Chief of Police four letters, requesting him to attend committee meetings, and he had talked to him over the telephone. He felt that to be sufficient notice, and believed the Chief should be subpoenaed to attend meetings, since he had ignored so many requests.

Motion Carried

Thereupon, the roll was called and the motion by Supervisor Brown, that the Board of Supervisors, through the Clerk, request the Chief to appear before the Committee on Fire, Safety and Police, at its meeting on Wednesday, October 11, 1939, was carried by the following vote:

Ayes: Supervisors Brown, Colman, Mead, Meyer, Ratto, Roncovieri, Shannon—7.

Noes: Supervisors McGowan, McSheehy, Uhl—3.

Absent: Supervisor Schmidt—1.

Indefinitely Postponed

The following matter, called out from committee by Supervisor McGowan, was taken up:

Reduction of Rates of Admission to Exposition

(Series of 1939)

Resolution No. _____, as follows:

Whereas, The Golden Gate International Exposition has established an admission rate of 25 cents for children up to the age of 12, and 50 cents for adults; and

Whereas, Many families are unable to afford the cost of visiting the Exposition because of the present admission rates, in addition to transportation costs to reach Treasure Island from the mainland; and

Whereas, The public and private schools of San Francisco will soon close for the summer vacation; and

Whereas, All children should have an opportunity to attend the Exposition at popular rates and to visit the many scientific, industrial, art and cultural and other exhibits of interest to them as part of their education; and

Whereas, All citizens of San Francisco and other visitors to our City should likewise have the opportunity to visit the Exposition at the least possible expense; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco hereby goes on record favoring a five-cent admission rate at all times for children under the age of 12 years to the Golden Gate International Exposition; frequent designation of "Dime Days" when the admission rate to the Exposition for adults shall be ten cents; and also a reduction in the regular 50-cent admission for adults; and be it

Further Resolved, That a Committee of three members of said Board of Supervisors be appointed by the President of the Board to confer with the Board of Management of the Exposition to take up this matter of lowering admission rates at the earliest possible date.

Discussion

Supervisor McGowan, in discussing the foregoing resolution, which he had called out from committee, reminded the Board of the presen-

tation of the Resolution several months previously, its reference to committee and the failure of the committee to act thereon. He stated further that he felt the attendance at the Exposition on Sunday, October 8, 1939, under the reduced admission charges made possible by the Safeway Company, demonstrated the truth of his belief that reduction of cost of attendance would enable thousands of citizens who had been unable heretofore to attend, to enjoy the Exposition. However, due to the announced closing of the Exposition on October 29, his resolution, as presented, would not be applicable. Accordingly, he moved, that consideration thereof be indefinitely postponed.

Motion

Whereupon, Supervisor McGowan, moved, as a substitute for the resolution, consideration of which had been indefinitely postponed, that it be the sense of the Board of Supervisors that the Exposition Commission, in the event that it continues the Exposition during the coming year, should fix admission prices at twenty-five cents for adults, five cents for children under twelve years of age, and the price for parking automobiles at twenty-five cents.

Discussion

Supervisor Colman opposed the motion, stating he considered it to be meddling in some one else's affairs. He felt it to be unfair and unjustified, and he would not suggest to the Exposition Commission how to do its work. Supervisor Colman stated further that he considered the motion, particularly at this time while efforts are being made to raise some \$1,600,000 for the continuation of the Exposition for another year, as a hampering, embarrassing and destructive piece of legislation, and he would, most emphatically, register "No" thereon.

Amendment to Motion

Supervisor Brown announced he had no objection to the Board offering suggestions it desired to the Exposition Commission, providing such suggestions were made in good faith, and did not presume upon authority the Board did not possess. However, he did not think it part of the duty of the Board to recommend a flat reduction, to a specific figure, and he moved, as an amendment to the motion, that the Board suggest to the Exposition management that it give thorough consideration to a reduction in admissions, both to adults and to children, and a reduction in the cost of parking automobiles at the Exposition. Motion seconded by Supervisor Roncovieri.

Discussion

Supervisor McSheehy opposed the foregoing motion by Supervisor Brown.

Amendment to the Amendment

Supervisor Colman, in explanation of his opposition, repeated in substance, remarks previously made, and moved, as an amendment to the amendment, that the entire matter be re-referred to the Public Welfare Committee, and the Board of Management of the Exposition be invited to appear before the committee and present its views as to the feasibility of reducing admissions to the Exposition.

Motion failed for lack of a second.

Supervisor Mead, in continuing the discussion of Supervisor McGowan's motion, stated he was not interested as to why some members of the Board are so fearful of embarrassing the Exposition officials, when thousands of San Francisco's citizens are embarrassed when they are asked if they have seen the Exposition and they must answer "No." He felt the management should listen to some recommendations of the officials of San Francisco. For that reason he favored Supervisor McGowan's motion.

Supervisor Schmidt expressed agreement with statement by Supervisor Mead. He stated further that promises had been made regarding the Exposition, which had not been kept, among which was a promise that the Exposition would be held within a five-cent car fare for the people of San Francisco, or, were that found to be impossible, any difference in carfare would be reflected in the admission rate. The Board is not embarrassing the Exposition management by passage of this proposed motion; the management has embarrassed itself by not living up to its promises.

Supervisor Roncovieri, in his discussion of the proposed motion, although he had seconded the motion, suggested to the maker, Supervisor Brown, that the motion, instead of suggesting the consideration of reduced admissions to the Exposition be changed to "request the consideration of reduced admissions," but was opposed to fixing any specific amount, as was Supervisor Brown. However, Supervisor Roncovieri added, what the Board does really is nothing at all. It is merely a request, and the management will decide whether or not the admission will be twenty-five cents.

Motion Failed

After further brief discussion, during which Supervisor McGowan expressed opposition to the amendment offered by Supervisor Brown, the roll was called and the amendment to the motion failed by the following vote:

Ayes: Supervisors Brown, Roncovieri—2.

Noes: Supervisors Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Schmidt, Shannon, Uhl—9.

Original Motion Carried

The roll was then called on the original motion as presented by Supervisor Brown, that it be the sense of the Board of Supervisors that the Exposition Commission, in the event that it continues the Exposition during the coming year, should fix the admission prices at twenty-five cents for adults, five cents for children under twelve years of age, and the price for parking automobiles at twenty-five cents.

Motion carried by the following vote:

Ayes: Supervisors McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—9.

Noes: Supervisors Brown, Colman—2.

Endorsing and Commending "Thanksgiving for America"
Celebration

(Series of 1939)

Supervisor McGowan presented Resolution No. 580, as follows:

Whereas, Democracy is being savagely attacked throughout the world today, and, even in our own country, whole sections of our population are being ceaselessly bombarded with anti-democratic propaganda from abroad, and

Whereas, On the American Continent, we still cherish the inalienable rights which are set forth in our Constitution and which no longer exist in many countries today, where freedom of speech, religious tolerance, freedom of press, and political equality have been destroyed, and

Whereas, We Americans of every race, class and creed, are actually blessed with a degree of political, economic and social good-fortune, which is unparalled elsewhere in the world, and

Whereas, There is no holiday of the entire year more suitable for affording local and national utterance to our basic American ideals than Thanksgiving the day above all others when we Americans have, since 1621, paused annually in grateful rededication; now, therefore be it

Resolved, That we, the members of the Board of Supervisors do declare that it is timely and needful for all Americans to express our common determination to protect our country from all enemies, whether within or without, who would subvert our democratic institutions and expose our citizens to the ravages of religious, racial, economic and political strife, and be it further

Resolved, Also, that with the above needs and objectives in mind, we do endorse and commend a "Thanksgiving for America" Celebration to be held in this city during the Thanksgiving Holidays.

Declaration of Policy to Take No Official Action on Matters Over Which the Board Has No Jurisdiction

(Series of 1939)

Resolution No. 581, as follows:

Whereas, This Board of Supervisors is frequently importuned to officially express opinions upon highly controversial matters, totally irrelevant and extraneous to the functions of this legislative body, and over which matters this Board has absolutely no jurisdiction; and

Whereas, The requested expressions of opinion upon such controversial matters presume and purport to be the attitude of the people of the City and County of San Francisco, and are so received by those to whose attention they are directed; and

Whereas, The practice whereby this Board is importuned to officially express itself upon controversial matters over which it has no jurisdiction or control is subversive to good government as well as to the interests of the people of San Francisco, and constitutes a violation of the spirit of the Charter, which, fairly interpreted, provides that the function of the Board of Supervisors shall be confined strictly to the legislative affairs of the City and County of San Francisco; now, therefore, be it

Resolved, That this Board of Supervisors declares it as a policy to which its members and each of them pledge themselves strictly to ad-

here, that in the future no official action will be taken upon extraneous or irrelevant matters, or upon affairs over which the members of this Board, representing all of the people of San Francisco, have no jurisdiction or control.

The following recommendation of the Finance Committee was taken up:

Resolution Directing Request Be Made to United States Housing Authority for Extension of Time Within Which Housing Authority of the City and County of San Francisco May Offer Proof of Ability to Use Balance of Earmarked Funds.

(Series of 1939)

Resolution No., as follows:

Whereas, the Housing Authority of the City and County of San Francisco has advised the Board of Supervisors of the City and County of San Francisco that the United States Housing Authority has given notice that unless the local Authority shall give proof to the United States Housing Authority by October 6, 1939, that it can and will use the balance of the fifteen million dollars earmarked for the use of the local Authority, not yet under loan contract or application for loan, to wit, the sum of \$2,728,000.00, the United States Housing Authority will reduce said earmarking by said \$2,728,000.00, and

Whereas, the local Authority has already under loan contract and

application more money than any other local Authority in the State of California and is actually farther advanced in its program than any other local Authority in the State of California and

Whereas, the local Authority has accomplished its work in the City and County of San Francisco where suitable sites within which the price permitted by the United States Housing Authority cannot easily be found and in the face of opposition and difficulties attendant upon a new undertaking and

Whereas, the local Authority has requested the United States Housing Authority for an extension of time within which to submit proof of its ability to use the balance of said earmarked funds.

Now Therefore Be It Resolved,

1. That it is the opinion of this Board that there is need of and San Francisco can and will use the entire \$15,000,000.00 now earmarked for the use of the Housing Authority of the City and County of San Francisco.

2. That it is the opinion of this Board that the Housing Authority of the City and County of San Francisco can and will within a reasonable time submit satisfactory proof to the United States Housing Authority that it can and will use the balance of said earmarked funds, to wit, said sum of \$2,728,000.00.

3. That it is the opinion of this Board that in view of the fact that the Housing Authority of the City and County of San Francisco is farther advanced in its program than any other local Authority in the State of California, that it would be unjust to penalize the local Authority and the City and County of San Francisco by diverting to other localities earmarked funds which San Francisco needs and can and will use.

4. That this Board request the United States Housing Authority to grant to the Housing Authority of the City and County of San Francisco an extension of not less than sixty days within which to submit proof of its ability to use the balance of said earmarked funds.

5. That the Clerk of this Board be authorized and directed to wire Mr. Nathan Strauss, Administrator of the United States Housing Authority, requesting on behalf of this Board that such extension be granted.

6. That the Clerk of this Board be directed to mail forthwith to the United States Housing Authority and to the Housing Authority of the City and County of San Francisco a copy of this resolution.

7. This resolution shall take effect immediately.

Adopted by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—11.

Closing of Golden Gate International Exposition

(Series of 1939)

Supervisor McSheehy presented Resolution No., as follows:

Whereas, The Golden Gate International Exposition was originally scheduled to close on December 2, 1939, and

Whereas, The Directors of the Exposition Company have now decided to officially close the Exposition on October 29, 1939, and

Whereas, The termination of the Exposition prior to the time originally set therefor will not only deprive many of the eastern visitors wintering in California of the opportunity to see and enjoy it, but will also create, in the minds of the people of the nation, a conclusion that the operations of the Fair were unsuccessful, and will have an adverse effect on San Francisco; now, therefore, be it

Resolved, That this Board of Supervisors hereby addresses itself to the Directorate of the Golden Gate International Exposition Company and requests that body to inform this Board of the reason for closing the Fair prior to the date originally scheduled by them and so advertised to the nation.

Referred to the Exposition Committee.

(Series of 1939)

Supervisor Mead presented Resolution No., as follows:

Whereas, The Board of Management of the Golden Gate International Exposition has announced that the Exposition will finally close on October 29, 1939, and

Whereas, It is fitting and proper that the final curtain on this Exposition be observed with appropriate closing ceremonies, and

Whereas, The citizens of San Francisco have actively supported the Exposition from the time the project was first proposed, and have contributed financially to its building and its progress and development, and

Whereas, It is problematical whether the necessary finances can be raised to re-open the Exposition next year; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco request his Honor, the Mayor, to appoint a citizens' committee to arrange for suitable ceremonies to be held at Treasure Island on Sunday, October 29, 1939, to commemorate this historic event of the closing of this great Exposition.

Hearing Appeals Against Assessments for Street Improvements

Hearing of appeals against assessments for the costs of construction of sidewalks on the west $\frac{1}{2}$ of Alemany Boulevard between Cotter Street and 29 feet southerly, and elsewhere by George A. Gibbs and Victor Bjorkman, as described in Declaration of Intention, Order No. 9677, of January 6, 1939.

Privilege of the Floor

Mrs. Josephine L. Cozosovick, representing Miss Mary Tarcy, was granted the privilege of the floor, and on behalf of Miss Tarcy, after explaining in detail the reasons for Miss Tarcy's protest, urged that the city pay part of the cost for construction of sidewalk fronting Miss Tarcy's property, in accordance with provisions set forth in the Street Improvement ordinance.

Mr. A. D. Wilder, Director of Public Works, explained the situation, stating that the work of sidewalk construction had been held up as long as possible to give Miss Tarcy a chance to fix the sidewalk. That she did not do so, because she did not believe the sidewalk to be dangerous. Mr. Wilder further stated that Miss Tarcy's previous protest had been overruled by his Department, and that his department had been sustained by the Board of Supervisors.

Thereupon, at the suggestion of the City Attorney that he would attempt to work out the problem and see what could be done in Miss

Tarpy's behalf, and on motion by Supervisor Ratto, further consideration was postponed for two weeks.

However, Mr. Edward F. Lucette also protested against the cost of work fronting his property on Lafayette Street.

Request for Survey of Operation and Maintenance of Golden Gate Bridge with View to Ultimate Acquisition as Part of State Highway System.

(Series of 1939)

Resolution No. 599, as follows:

Whereas, the Golden Gate Bridge connecting San Francisco and the Redwood Empire counties to the north was financed by the counties of San Francisco, Marin, Sonoma, Napa, Mendocino and Del Norte, with a \$35,000,000 bond issue, and

Whereas, the Golden Gate Bridge is a vital public convenience and necessity, carrying virtually all vehicular traffic between San Francisco and the North bay counties and is, in effect, an integral part of the State Highway System, and

Whereas, the first \$200,000 of the bond issue matures in 1942, and the Golden Gate Bridge and Highway District propose to set aside, as a sinking fund, the sum of \$50,000 in 1939, the sum of \$50,000 in 1940 and the sum of \$100,000 in 1941 to meet this obligation, and

Whereas, these bonds will be retired out of present bridge revenues without any cost or burden to the taxpayers of the bridge district, and

Whereas, the State Highway Commission is vested by law with the authority to construct, maintain and operate bridges as part of the State Highway System, and

Whereas, the citizens of San Francisco contribute millions of dollars annually in gasoline taxes to help support the maintenance and operation of the State Highway System and should be permitted to travel across the Golden Gate Bridge by automobile or other vehicle without the payment of tolls,

Now Therefore Be It Resolved, that the Board of Supervisors of the City and County of San Francisco respectfully requests the State Highway Commission to conduct an immediate survey of the maintenance and operation of the Golden Gate Bridge and Highway District with a view of acquiring the Golden Gate Bridge out of gasoline tax funds and maintaining it as a toll free bridge

And Be It Further Resolved that copies of this resolution be sent to His Excellency, Governor Culbert Olson, members of the State Highway Commission, and the Board of Supervisors of the counties of Marin, Sonoma, Napa, Mendocino and Del Norte.

In Memoriam, Dr. John Gallwey

Supervisors Mead, Shannon, Schmidt and Roncovieri, and Dr. J. C. Geiger joined in paying tribute to the memory of the late Dr. John Gallwey, his character as a man, his eminence as a physician, and the affection and esteem of all San Franciscans for him. Supervisor Shannon, particularly, recalled his own debt to the Doctor, considering that he owed his life to Dr. Gallwey's skill and attention during a most serious illness, and expressed his own feeling of great personal loss, which feeling was shared by all who knew the eminent Doctor.

Supervisor Roncovieri, in concluding his tribute to the memory of the late Doctor, suggested that the entire Board attend the funeral services.

In Memoriam Resolution

Resolved, San Francisco today mourns the passing of one of her noblest citizens, a man universally loved and admired by all who had the privilege of knowing him, Dr. John Gallwey, a man who stood at the head of his profession, nationally distinguished as a great physician and surgeon.

A product of the Golden Era of California, born in Grass Valley in 1863, he inherited from a pioneer mother and father all the splendid

characteristics of that brave and noble age. His Christ-like ministrations in San Francisco, the city he loved, are a part of its glorious history. A man of great courage with a commendable modesty before man and a profound humility before his God, he typified the highest kind of Christian gentleman.

Kind and considerate, Dr. John Gallwey's ministrations were as sweet and gentle as a mother's. His gentle smile and kindly touch healed many a wrecked body, where his medicine was futile and unavailing. A unique character, he served rich and poor, Jew and Gentile alike, and financial remuneration for his services was the last thought in his mind.

Wherefore, when we adjourn today let us do so out of respect and in honor of this truly great character, one of God's noblemen, Dr. John Gallwey. We who knew him and loved him are deprived of a good and faithful counselor and friend, and realize our irretrievable loss, for "his like we shall never see again."

Resolved, that this Board of Supervisors participate in the services at St. Mary's Cathedral and attend the funeral in a body.

Thereupon, Supervisor McSheehy moved that Supervisors Shannon, Mead and Schmidt be appointed to draft the proper resolution for the late Dr. Gallwey, and that same be properly engrossed for presentation to the deceased's widow.

Unanimously adopted by rising vote.

No person, firm or corporation shall engage in the business of erecting, constructing or installing or repairing brick, stone or other chimneys, flues or fireplaces in the City and County of San Francisco, nor shall any person, firm or corporation erect, construct, install or repair any chimney, flue or fireplace in said City and County unless said person, firm or corporation is duly licensed to so do as provided in this section. Any person desiring to obtain a license to engage in the business of erecting, constructing, installing or repairing chimneys, flues or fireplaces in the City and County of San Francisco shall make application for such license to the Central Permit Bureau of the Department of Public Works, and upon said license being granted shall pay to the Tax Collector the fee for said license, which is hereby fixed at Twenty Dollars (\$20.00) per year, provided that no license or other fee provided for in this section for the erection, construction, installation or repair of chimneys, flues or fireplaces shall be charged for chimneys, flues or fireplaces constructed of brick or stone, for the reason that the cost of the inspection of the last mentioned chimneys is provided for in Section 64 of this chapter. The said license fee shall be payable on January 1st of each year, and said license shall remain effective for one year. The full license fee for any license issued after January 1st in any year shall be paid, and such license shall expire on the 1st day of January of the following year. Upon said license being issued the name of the licensee shall be registered with said Central Permit Bureau, and said license shall be posted in a conspicuous place in the place of business of the licensee. Persons, firms or corporations paying the license herein provided for shall not be subject to the payment of any license fee as provided for in Sections 200 to 207 of Part III of the Municipal Code, so long as they perform only chimney work.

Upon the completion of the erection or repair of any brick, stone or patent chimney or fireplace connected with a patent chimney, it shall be the duty of the corporation, co-partnership or individual who performed said work to notify the Department of Public Works of such completion, who shall at once cause the same to be inspected, and if

found in compliance herewith shall make and deliver a certificate or report of such inspection to the corporation, co-partnership or individual that performed said work, which certificate or report shall specify whether or not said work has been performed in compliance with the provisions of this Chapter, and if not in compliance therewith shall state wherein said work does not comply with the provisions of this Chapter. It shall be the duty of the Department of Public Works to keep on file in its office a duplicate of said certificate or report which shall at all times be subject and readily accessible to the inspection of the public.

No flue, chimney, patent chimney or fireplace connected with a patent chimney hereafter constructed, altered or repaired shall be used until the same has been inspected by the building inspection bureau of the Department of Public Works, and until a label has been affixed to said flue, pipe or chimney by the Department of Public Works, certifying that said work has been done in compliance with the provisions of this Chapter; nor shall any gas flue pipe, gas vent, chimney, patent chimney be plastered over or otherwise enclosed in any building until such label shall have been so affixed.

No person, firm or corporation shall erect, construct, alter or repair any patent chimney or flue without a permit to so do issued by the Central Permit Bureau. The fees to be paid for said permit shall be as follows:

For each permit for patent chimneys or flues in new buildings Fifty Cents for each building, and for patent chimneys or flues in old buildings Two Dollars for each building. Said fees shall be payable to the Central Permit Bureau at the time said permit is issued, provided that said Central Permit Bureau may issue said permits for patent chimneys or flues in new buildings in books of twenty-five permits in each book upon the payment of Twelve Dollars and Fifty Cents (\$12.50) for each book, and in books of ten permits in each book for patent chimneys or flues in old buildings upon the payment of Twenty Dollars (\$20.00) for each book. The Director of Public Works and the Controller are hereby authorized to make the necessary rules and regulations for the issuance, use, accounting and return of said permits issued in book form.

Nothing in this ordinance contained shall prevent any person, firm or corporation that has been duly licensed and registered as a master plumber, as provided in Chapter 7, Part II, of this Code, from erecting, constructing, altering, installing or repairing patent chimneys and flues, provided that said master plumber shall pay to the Central Permit Bureau the fees herein provided for permits to erect, construct, alter, install or repair said chimneys and flues, and said master plumbers shall not be required to pay the license fee hereinbefore provided for in this ordinance.

Section 64, Chapter 1, Part II, of the San Francisco Municipal Code, in so far as it is in conflict with this section, is hereby repealed, and Section 130 of Part III of said Code is also repealed.

SPECIAL ORDER—4:00 P. M.

Consideration of Report of E. G. Cahill, Manager of Utilities, on Water Rates

Resolution No. 542 on the subject of Water Rates presented by Supervisor McSheehy.

Consideration of the following report by Mr. E. G. Cahill, Manager of Utilities, on the subject of Water Rates, presented to the Board pursuant to request contained in Resolution No. 542, Series of 1939, was taken up:

Subject: Water Rates

October 9, 1939.

To the Honorable
The Board of Supervisors
City Hall, San Francisco.
Gentlemen:

The Public Utilities Commission has directed me to report on the subject matter of Resolution No. 542, Series of 1939, adopted by the Board of Supervisors on September 18, 1939. This resolution reads as follows:

"Whereas, there is now available for the people of San Francisco a plentiful and inexhaustible supply of water, and

"Whereas, the excessive rates for water now in effect, require the rate payers to be stinting in their use of it, and

"Whereas, the home owner, particularly, is severely hampered in his endeavor to beautify his property, and the city, through the maintenance of trees, shrubs, lawns and gardens, because of the almost prohibitive cost of the water necessary therefor, now therefore, be it

"Resolved, that the Public Utilities Commission be and is hereby requested to consider the inauguration of a plan under which home owners shall hereafter pay a flat monthly rate for all water used, based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan, or on any other basis that will give the people of San Francisco a flat rate."

The premises contained in the preamble of this resolution are not

factual. As every recognized authority and every public regulatory commission in the United States, having the jurisdiction over water supply systems, agree that metered sale of water is preferable to any system of flat rates, San Francisco would be justified in stepping back into an archaic water delivery scheme only if local conditions were entirely different from those generally found and upon which the conclusions of these experts are based.

It will be evident upon consideration of the assertions contained in the preamble to the resolution that there is nothing therein contained which would set San Francisco apart from other cities so as to make flat rates desirable here. It is stated:

"There is now available for the people of San Francisco a plentiful and inexhaustible supply of water."

This is not the fact.

Availability of water for the city of San Francisco and consumers on the San Francisco peninsula who purchase water from the city's system, is limited by the capacity of transmission mains and pumping plants which transport this water from storage reservoirs to consumers.

Delivery of water from the Hetch Hetchy project is limited to the capacity of the San Joaquin valley pipe line of the Hetch Hetchy aqueduct. This pipe line is 47½ miles in length and will carry 70 million gallons of water per day. To increase the capacity of the Hetch Hetchy aqueduct would require the laying of a parallel pipe line at a cost of from five to seven million dollars.

Delivery of water into San Francisco is further limited by the capacity of transmission mains from peninsula storage reservoirs into San Francisco. These mains, when completely utilized, will carry approximately 120 million gallons of water daily, which is the total supply the existing San Francisco Water Department can deliver.

Examining the problem of available water supply from another standpoint, we find that in a year of normal rainfall the peninsula and Calaveras watersheds of the San Francisco Water Department may be expected to produce about 50 million gallons of water per day. If we add that to the quantity available from Hetch Hetchy, that is, 70 million gallons of water daily, we find that in a normal year the total available supply is approximately 120 million gallons.

I want to emphasize that this quantity is available in a normal year, and that in a year of deficient rainfall the productivity of the Water Department sources, together with the quantity available from Hetch Hetchy, might fall as low as 90 million gallons of water per day. Two successive dry years such as have been experienced many times in the past would seriously deplete the reserves held in storage.

As against this available system capacity in a normal year, let us examine present and past consumption records. During the month of August, 1939, a total of 79,482,000 gallons of water was drawn from sources daily to meet consumption needs. In the month of August, 1938, the average daily input of water into the system was 67,896,000 gallons. In August, 1934, five years ago, the corresponding figure was 54,619,451 gallons.

Thus we find that the average daily consumption has increased from August 1934 to August 1939, a period of five years, by 24,863,000 gallons per day. This is an increase of 45.5 per cent or 7.75 per cent per year. If this same percentage of increase is maintained during the next five years, it will require 115 million gallons daily to supply San Francisco and peninsula water consumers during August 1944. This is close to the system's capacity.

It must be remembered that no matter what quantity of water the city may have in storage in far away reservoirs, the availability of that water for daily consumption is limited to the capacity of the pipe lines serving consumers, together with the few days' supply of

water stored in distribution reservoirs. Therefore, the system must be sufficiently large to meet the maximum peak demands for water service which ordinarily occur during the summer months. On Saturday, September 23, 1939, during the recent hot spell, demands on the Water Department system reached a record high of 92,543,000 gallons.

It has been shown that the available capacity of the peninsula pipe transmission mains is 120 million gallons daily. Thus we find that at the rate of increased consumption under metered deliveries which has been experienced during the past five years, the city's water system will be fully utilized by 1944 and that in the event we should experience two or more dry years in succession the producing capacity of the watershed lands would not be sufficient to meet requirements. This condition can be remedied only by extensive and expensive additions to the water transmission system.

For 60 years prior to 1916 all residential water service provided by the Spring Valley Water Company was on a flat rate basis. From 1916 to 1918 the company was engaged in installation of meters. Under an order of the California State Railroad Commission, since 1918 the Spring Valley system, which later became the system of the San Francisco Water Department, has been operated on a basis of metered delivery.

Careful records of water consumption by individuals and for the system as a whole were kept both by the Spring Valley Water Company and the California State Railroad Commission to determine the effect on consumption of water of metered delivery as compared with flat rate delivery. It was found that installation of meters resulted in a decrease of 25 per cent in the amount of water required to operate the system.

The substitution now of flat rate delivery of water for metered delivery would result in at least a 25 per cent increase in water requirements. By far the larger portion of this increase would represent wasted water not beneficially used by consumers.

Assuming that the increased consumption would amount to 25 per cent, we find that if a flat rate system had been in effect in San Francisco during the month of August 1939 it would have required 99,000,000 gallons of water daily to supply the city's consumers. On the same basis it would require 107,000,000 gallons of water daily to supply consumers in August 1940, and 115,000,000 gallons in August 1941.

If revenues are "frozen" at their present amount through a flat rate system increased only by the addition of new consumers to the system, sufficient funds cannot be provided from revenues to enlarge the system to the capacity required to transport wasted water. We cannot pay as we go, as we should, and it will be necessary to resort to repeated and expensive bond issues for this purpose. Under flat rates we would reach the limit of capacity of our present system in two years. It would be necessary to start bond proceedings immediately for construction of pipe lines needed in 1941.

The second assertion contained in the preamble to the resolution states:

"The excessive rates for water, now in effect, require the rate payers to be stinting in their use of it."

Three substantial water rate reductions have been ordered by the Public Utilities Commission during the seven years of operation under its jurisdiction. These reductions have meant a saving of approximately one million dollars a year to the system's consumers.

Under the plan proposed for flat rate deliveries by the resolution, which would base monthly rates on the average of each consumer's water bills for the 24 months preceding the installation of such a plan, consumers could not possibly enjoy a reduction in the amount of their present water bills. I believe most consumers would prefer a

reduction in water bills through lowered rates based on an equitable metered charge for water economically and beneficially used, rather than to pay the amount they now pay for the privilege of wasting water under a flat rate delivery.

It is the policy of the Public Utilities Commission, as evidenced by three rate reductions in the past, to make further reductions in rates based on actual consumption as recorded by meters as rapidly as revenues from the city's water properties justify further lowering of rates.

In considering the problem of proper water rates in San Francisco we must bear in mind that this city is located at the tip of a narrow peninsula without local watershed areas or adjacent rivers sufficient to supply the city's water needs at low cost. The semi-arid climate of the state of California, and the geographical location of San Francisco, have made it necessary to go first to the peninsula, then to Alameda County, and finally to the Sierra Nevada Mountains to obtain water supplies for the growing city and to provide storage facilities sufficient to meet the city's needs for water over extended periods of deficient rainfall. These undertakings have been expensive. They have been ever more expensive because it was economical to develop them then only in a manner which would provide for the city's water needs far into the future. It is natural that the cost of water in San Francisco, based largely upon the capital costs of the system, is higher than in many other cities enjoying water supply from close-by sources.

This fundamental reason for water cost in San Francisco cannot be cured by substitution of flat rates for metered rates. On the contrary, freezing of revenues by a flat rate system can result only in indefinite postponement of rate reductions.

The resolution of the Board of Supervisors states:

"The home owner, particularly, is severely hampered in his endeavor to beautify his property, and the city, through the maintenance of trees, shrubs, lawns and gardens, because of the almost prohibitive cost of the water necessary therefor."

The Spring Valley Water Company started serving water in San Francisco in 1858. From that time until 1918 all residential consumers of the company's system were served on a flat rate basis. For a period of sixty years home owners had the opportunity to plant and care for trees, shrubs, lawns and gardens under a flat rate charge. In spite of the presumed advantage of flat rates, comparatively few trees, shrubs, lawns and gardens were planted. Investigation discloses that most of the gardens and landscaped areas in San Francisco have been planted and irrigated with water supplied under metered delivery.

Most of the outlying residential districts of San Francisco in which the construction of individual homes makes possible development of garden areas in the front and rear of the structures, have been built since 1918. Any impartial survey of these areas will show that homes without gardens are comparatively rare. Block after block of the city's residential streets disclose well-cared for and fully irrigated lawns and gardens. This indicates that the cost of water for garden use is not prohibitive.

During the fiscal year 1938-1939 the San Francisco Water Department supplied free water to other city departments which, if paid for at metered rates, would have cost \$476,000. A large portion of this free water was used for irrigation of city-owned parks, playgrounds and other landscaped areas. In addition to this water furnished free by the department, the Public Utilities Commission now furnishes free water for irrigation of all parked and landscaped areas in or adjacent to public streets where the land is owned by the city and the developed area is maintained by property owners or district associations. This policy contributes materially to the beauty of the city.

It has been shown that San Francisco does not have a large quan-

tity of surplus water available to its consumers and that flat rates will lead to wastage of water, require premature enlargement of the system and make impossible the lowering of bills of consumers. These disadvantages could be overbalanced only by some material benefit to consumers. Such a benefit does not exist.

Experience in San Francisco and other cities has shown that more than 52 per cent of the consumers of a water system pay lower bills under metered delivery than they would pay under flat rates.

Flat rates work an injustice upon the small family and upon the family which is economical in use of water, and operate to the advantage of consumers who permit wastage through extravagant use of water, leaky pipes and plumbing fixtures. Flat rates encourage waste and ultimately make necessary increase in rates or in taxes to meet the cost of bond issues which must be voted to enlarge the water system to provide and deliver wasted water.

Under metered delivery sensible economy in use of water is encouraged. As the city grows, increased revenue from beneficial use of water makes possible necessary enlargement of the system on a pay-as-you-go plan, and provides funds to meet increased pumping costs to care for the growth.

Every major city of the United States and every recognized authority have found that the use of meters is the best plan under which the cost of providing water service may be fairly proportioned among the users. Under the flat rate system not only is the amount of money needed to operate the water system greater because of wastage, but the careful consumer who does not waste water is unjustly required to pay for the waste of his neighbor.

No just basis can be found for the assessment of water cost under flat rates. If flat rates are based on floor space of the home a family of two may be required to pay the same charges as a family of five or more.

Basing of flat rates on metered bills presented over a preceding 24 months' period provides no means of variation of charges with increase or reduction of the size of the family. This proposed basis would not permit any equitable method of assessing charges against new consumers.

To illustrate the difficulty of fixing water charges on a flat rate basis one has only to look at the flat rate ordinance passed by the Board of Supervisors to regulate charges of the Spring Valley Water Company prior to metering of the system. This ordinance made basic charges in accordance with the floor area of the home. In addition to this basic charge, a charge of 37c was made for each bathtub in a home. A charge of 21c was made for each horse and 10c for each cow. Boarding and lodging houses were charged 8c for each boarder or lodger in addition to the rates for private families. Irrigation for private gardens and private grounds cost .575c per square yard with no monthly charge less than 17c. Toilets in private buildings were charged at the rate of 25c each and stationary wash basins were assessed at 10c each. The ordinance also provided penalties for proven wastage.

Public records and authoritative treatises abound in evidence supporting the use of meters. In its issue of January 18, 1939, "Water Works Engineering," the official publication of the American Water Works Association, states:

"This office has no record of a city where metering has not proved beneficial."

Last year the Congress of the United States appointed a special board to survey the water system of Washington, D. C. In its report to Congress on June 30, 1939, this board stated:

"Unquestionably one lesson learned by the survey was the value of metered utility service. It seems almost incredible that a city would sell water to customers and charge them on a basis no public regulatory agency would permit a private utility to use. The further conclusion to be drawn from our experience was that no water ought to be furnished on any basis other than metered service."

W. W. Brush, formerly General Manager and Chief Engineer of the New York Water Supply, now a widely known consulting engineer, states:

"The gradual disappearance of flat rate cities is encouraging and Chicago is about to join the fully metered group. In time, we hope to have in the water supply industry the delivery of all our product through meters that are correctly selected for the work to be done and are efficiently maintained. Then we will be able to bill the consumers with justice to all."

The California State Railroad Commission has joined with the public service commissioners of practically every state in the union in ordering metered delivery of water by all major systems.

In its decision ordering metered rates in San Francisco, the Commission said:

"Throughout California, flat rates for water service have come to be recognized as unfair and inequitable as between consumers. These rates encourage the wasteful and selfish user to impose an unfair burden upon the thrifty and considerate.

"The equity and fairness of rates by measurement cannot be successfully challenged.

"With these considerations in mind we have adopted the meter rates set out in the order."

In the face of this unanimous conclusion by experts, abandonment of metered delivery in San Francisco would be a step back into the "dark ages" of public service.

There is a further and highly important factor in the problem. San Francisco's water rights in the Tuolumne River are based on the Raker Act passed by Congress in 1913, which granted the city the right to construct the Hetch Hetchy project. The right to divert water from the Tuolumne river into San Francisco is limited by that Act to the amount necessary to supplement the city's local supply. The Act requires that all of this water be "beneficially used." The city's Hetch Hetchy rights are further limited by the constitution of the State of California which requires that any appropriator of water in this semi-arid state may take only the amount which he can use beneficially and without wastage.

It is highly important to San Francisco that the city remain on friendly and co-operative terms with the great agricultural districts of the San Joaquin valley which are also dependent upon the waters of the Tuolumne river. Relations between the irrigation districts of the Tuolumne river and the city are now extremely good. By co-operation in utilizing the water resources of the Tuolumne, it has been possible to meet the needs of all irrigationists as well as the city. This co-operation has been possible only because of the evident good faith of San Francisco in utilizing its local water supplies to their utmost and in careful conservation of Tuolumne river water during years of deficient rainfall.

That the good relations existing between the irrigationists of the San Joaquin valley and the city of San Francisco may be endangered

by wastage of water through flat rates is evidenced by the following letter received by the Public Utilities Commission under date of September 26, 1939, from Mr. R. V. Meikle, Chief Engineer of the Turlock Irrigation District:

"To the Honorable
The Public Utilities Commission
City and County of San Francisco.
Gentlemen:

It has come to the attention of the Turlock Irrigation District through newspaper articles that the Board of Supervisors of the City and County of San Francisco, at its meeting of September 18, 1939, adopted a resolution requesting the Public Utilities Commission to consider the substitution of a 'flat rate' schedule for consumers of the San Francisco water system in place of the charges now made on the basis of metered delivery service.

The Turlock Irrigation District owns extensive water rights on the Tuolumne River, which water rights are prior to any held by San Francisco for its Hetch Hetchy water supply. The District desires to protest most vigorously against any scheme of flat rate water delivery in San Francisco for the reason that it would result in a large wastage of water and thus would require materially increased diversions from the Tuolumne river.

In this connection may I call your attention to Section 9, Paragraph H, of the Raker Act, reading as follows:

'That the said grantee shall not divert beyond the limits of the San Joaquin valley any more of the waters from the Tuolumne watershed than, together with the waters which it now has or may hereafter acquire, shall be necessary for its *beneficial use* for domestic and other municipal purposes.'

I have underlined the words 'beneficial use' to emphasize the fact that the Congress of the United States never intended that the City and County of San Francisco should be permitted to waste the water which it is taking from the natural watershed of the Tuolumne River in the San Joaquin valley.

Reports published by the Spring Valley Water Company show that more than twenty per cent saving in water consumption was realized by that company when it substituted meter rates for flat rate charges twenty years ago. With an increase in per capita consumption of water for domestic purposes, it seems likely that the substitution of flat rates for meter charges at this time would result in at least a twenty-five per cent, and probably a larger, increase or wastage of water by San Francisco. This cannot be considered to be 'beneficial use.'

I believe that any such wastage of water from the Tuolumne river by San Francisco, thus depleting the total supply of water available for the many users on the river who are already frequently faced with water shortages, would lead to the bringing of appropriate legal action, both to enforce the provisions of the Raker Act and to protect the District and riparian users whose rights are prior to those of San Francisco.

I am transmitting this protest in good faith and in the belief that the people of San Francisco do not desire to take such a step with the knowledge that it would work a hardship on this District as well as other users; would breed animosity and would be of no material benefit to the people of San Francisco.

Very truly yours,

(Signed) R. V. MEIKLE,
Chief Engineer."

This letter was transmitted to Mr. John J. O'Toole, City Attorney of the City and County of San Francisco, with a request for an opinion as to the validity of the contention that the city may be restrained by the courts from adopting a water delivery system entailing increased consumption. After quoting the section of the Raker Act incorporated in Mr. Meikle's letter, the City Attorney states:

"It is not necessary to determine at this time how binding this particular provision is upon the City, for the reason that it has never been construed by the courts, but irrespective of the Raker Act the general laws and the decisions of our courts will prevent any wastage of water which will damage any person having a right to the water, no matter whether that right be superior or subsequent to that of the waster, or whether it be appropriative or riparian."

The opinion then quotes section 3 of the constitution of California dealing with the conservation of water and restricting all use of water in California to the amount which may be beneficially or reasonably used without waste. The City Attorney further states:

"This section of the Constitution was given consideration in the recent case, MERIDIAN, LTD., v. CITY AND COUNTY OF SAN FRANCISCO, 97 Cal. Dec. 593, in which case the rights of the city to the waters of the Tuolumne river were adjudicated. In commenting upon the effect of the section the court said:

"Inasmuch as the prevention of waste of water is imposed on the riparian under the new doctrine, counsel for the plaintiff, in the "Questions Involved," inquire if this same restriction against waste is not imposed on a subordinate taker under an inferior right or no right. Obviously the answer is in the affirmative. The duty not to commit waste is enjoined on all users of water. An accepted definition of the term "waste," as applied to the use of water, may be said to be: "To use needlessly or without valuable result; to employ prodigally or without any considerable return or effect, and to use without serving a purpose."

"In view of the above provisions of the Raker Act and of the Constitution, and the construction placed on the last mentioned provision by our Supreme Court, I am of the opinion that if the eliminating of water meters would effectuate an undue wastage of water, anyone interested in the waters of the Tuolumne River would be in a position to call upon the courts to prevent such a wastage."

We therefore find:

1—That flat rates would lead to a wastage and non-beneficial use of water in San Francisco which could and would be restrained by the courts under provisions of the Raker Act and the constitution of the State of California.

2—That the present transmission main facilities of the Water De-

partment system are not sufficient to transport water which would be needlessly wasted under a flat rate system of delivery and it would therefore be necessary to undertake immediate enlargement of inadequate units of the system.

3—That this enlargement could not be financed from revenues under a pay-as-you-go plan and that it would be necessary to vote repeated, expensive bond issues for this purpose.

4—That rate reductions which may be possible from time to time as metered delivery of water legitimately increased would be postponed or made impossible by a flat rate system.

5—That experience of the Spring Valley Water Company indicates that 52 per cent of consumers in San Francisco pay less for water under a metered delivery than they paid under flat rates.

6—That all recognized authorities agree that the only fair and equitable method of apportioning the cost of water service is by means of meters, and that no public regulation agency would permit a major private utility to use flat rates.

7—That flat rates would be unfair and would inequitably distribute the cost of furnishing water to the citizens of San Francisco.

For these reasons I will not recommend to the Public Utilities Commission the substitution of flat rates for metered delivery in San Francisco.

Respectfully submitted,

E. G. CAHILL,
Manager of Utilities.

EGC:S

Argument

Following the reading of the foregoing report, the following reply thereto was presented by Supervisor Schmidt and read by the Clerk:

To the Honorable
Board of Supervisors
City Hall.
Gentlemen:

On September 18, 1939, our Board adopted Resolution No. 542, Series of 1939, introduced by our President, Supervisor Shannon, which reads as follows:

"Whereas, there is now available for the people of San Francisco a plentiful and inexhaustible supply of water, and

"Whereas, the excessive rates for water now in effect, require the rate payers to be stinting in their use of it, and

"Whereas, the home owner, particularly, is severely hampered in his endeavor to beautify his property, and the city, through the maintenance of trees, shrubs, lawns and gardens, because of the almost prohibitive cost of the water necessary therefor, now therefore, be it

"Resolved, that the Public Utilities Commission be and is hereby requested to consider the inauguration of a plan under which home owners shall hereafter pay a flat monthly rate for all water used, based on the average for each home consumer's water bills for the twenty-four months preceding the inauguration of such plan, or on any other basis that will give the people of San Francisco a flat rate."

The above resolution was referred to the Public Utilities Commission for a report, which was sent to this Board on October 9, 1939, some six weeks later. Copies of this 15-page report were sent to each

member of the Board, stating that a great waste of water would result if the plan proposed in the resolution introduced by Supervisor Shannon were carried out, or in other words, the Commission is unalterably opposed to the removal of meters and the inauguration in San Francisco of a plan whereby water would be sold on a flat-rate basis similar to the system which existed for sixty years when the Spring Valley Water Company was the owner of the water system.

I feel that the Public Utilities Commission and its manager, Mr. Cahill, are making a great mistake and retarding the growth of San Francisco by maintaining here the highest water rates of any city of comparable size in the United States, thus penalizing home owners and industry alike by not permitting the use of our water surplus for beneficial purposes, while an average of 70,000,000 gallons of water is flowing into the Pacific Ocean every day from our own Hetch Hetchy supply.

May I submit to you the following statement of facts as to the statement that I just made in reference to high cost of water in San Francisco and the average of 70,000,000 gallons of water flowing into the ocean every day. I have here at hand telegrams from 15 large cities—Albany, Baltimore, Cincinnati, Kansas City, Cleveland, Columbus, Buffalo, Milwaukee, New York City, Pittsburgh, Detroit, Portland, Oregon, Minneapolis, Philadelphia, Boston—showing that the average cost of water of these fifteen cities to the consumer is 10½c per 100 cu. ft., while the average cost of water to the consumer here in San Francisco is 30c per 100 cu. ft., almost three times as much.

The following article appeared in the San Francisco "News" of September 11, 1937:

"10c WATER FOR PALO ALTO FORESEEN.

"HETCH HETCHY PIPELINE TO BE PROJECTED.

"CAHILL PLAN CALLS FOR EXTENSION OF SERVICE FROM REDWOOD CITY REGION.

"Ten-cent water for Palo Alto, Stanford University, Menlo Park and the Veterans' Home at Mayfield was foreseen today in Utilities Mgr. E. G. Cahill's plan to build a new Hetch Hetchy water pipeline.

"Mr. Cahill announced he would urge the Public Utilities Commission Monday to construct immediately a \$265,000 pipeline from Redwood City to Mayfield. Palo Alto would pay \$60,000, Stanford \$10,000, San Francisco the remainder.

"The line will bring Hetchy water to the Peninsula communities at the rate of 10c per 100 cubic feet. The low rate now applies only to new consumption, but will be general by the time the pipe is installed.

"Mr. Cahill said the quality of water consumed by residents of the affected communities would be far better than at present.

"A Public Works Administration grant of \$117,000 had been sought.

" 'We can't wait for this money any longer,' Mr. Cahill said. 'We're losing good business every day we delay. So I shall ask the commission to go ahead and build the pipe line with local funds.' "

The following statement was made in the San Francisco "Examiner" on August 16, 1937:

"SAN JOSE, S. F. IN WATER RATE PACT.

"San Jose, Aug. 15.—San Jose may have Hetch Hetchy water at 6 cents per thousand gallons if the city lays its own pipes from the Irvington portal and maintains its own lines, officials of San Francisco and San Jose agreed today.

"Following a conference between E. G. Cahill, manager of San Francisco's water system, and City Manager Clarence Goodwin of San Jose, the rate provided for an average daily consumption of 7,000,000 gallons here."

In the San Francisco "Call-Bulletin" on April 10, 1937, the following article appeared:

"'FOUNTAIN CITY' PROPOSAL FOR S. F. HAILED.
"Make San Francisco a 'City of Fountains'—

"This proposal, advanced editorially by the Call-Bulletin this week, has aroused enthusiastic response from San Francisco citizens and public officials.

"I heartily endorse this public spirited suggestion,' declared Mayor Rossi. 'I have wished for a long time that some citizen might donate two fountains for the ponds in our Civic Center.

'To make San Francisco famous as a "City of Fountains," thus calling attention to our marvelous Hetch Hetchy water system, would do more to advertise the city than perhaps any other project.'

"City water might be furnished for the fountains without cost, E. G. Cahill, manager of utilities, revealed.

"Should such fountains be built, I would recommend to the Utilities Commission that the city furnish water,' he said.

"CAHILL POINTED OUT THAT MILLIONS OF GALLONS OF SURPLUS WATER ARE NOW FLOWING DAILY TO THE SEA.

"Meanwhile the Call-Bulletin offices had been swamped with enthusiastic letters and telephone calls lauding the scheme.

"It will be brought before the City Planning Commission at an early date, it was indicated."

The following editorial appeared in the San Francisco "Examiner" on January 8, 1937:

"CITY WATER IS FOR USE!

"Supervisor James B. McSheehy has performed a service to San Francisco in urging that water rates to individual consumers be reduced. He urges that lower charges will benefit the consumer and will encourage the development of gardens and the planting of trees along the city's streets.

"The definite fact is that San Francisco receives more water from Hetch Hetchy than it can dispose of. More than half of its daily outlet of 128,000,000 gallons is turned over to the Modesto-Turlock Irrigation District for impounding, simply because the city has no other use for it.

"To encourage industry, wholesale rates on water were reduced recently, but there has been no cut in the charges to the individual consumer and property owner since December, 1934.

"Negotiations are pending to sell water at wholesale rates to suburban communities, which, the City's Water Department believes, will be a good business proposition.

"But good business should begin at home.

"Supervisor McSheehy advocates cancelling the present meter charges and placing flat rates on water, such as obtained prior to 1921. This system, he asserts, would encourage dooryard gardens.

"The Supervisor also advises the consumers' water bills be reduced by 10 per cent.

"San Francisco, with its magnificent and practically inexhaustible water supply, might well try 'Wholesaling' its product to the individual consumer, as it will do to business.

"The encouragement of gardens is part of the spirit of San Francisco.

"The city is curiously treeless, yet trees will grow here, as is proved by the results in Golden Gate Park and the parkway along Funston Avenue.

"A start could be made in planting trees along the wider streets, under the supervision of the Park Department.

"Until Hetch Hetchy water reached San Francisco, this city had only a bare necessity; now it has superabundance and should take advantage of that great supply.

"No one advocates impoverishing the Water Department through uneconomic rates, but the citizens should share in the advantage which the surplus usage of water gives.

"The Hetch Hetchy system was built for the good of the city. Its purpose should be fulfilled."

Section 130 of the Charter places the entire responsibility and the management of the Water Department under the Utilities Commission, and that Commission, which is appointed by his Honor the Mayor, through its manager, in a 15-page report state there is no wastage of water and not one gallon runs into the Pacific Ocean. That is not correct and the total consumption of water from Hetch Hetchy by all users in and outside of San Francisco, as compared with the flow over the dam, proves the statement is false. If there is no great surplus of water as Mr. Cahill contends, why are we selling it to other communities? And why are we selling it at rates less than one-third the rates charged our own consumers? I challenge Mr. Cahill and the Public Utilities Commission to justify those conditions.

The policy of the Water Department as it is being managed today under the Public Utilities Commission is not the one the people of San Francisco adopted when they bonded this City for \$130,000,000. We did so with the one thought in mind and that was to have the City receive a bountiful supply of water for the needs and growth of this City, and we find ourselves today with a Commission which has an entirely different thought. Their thought and object is to make money out of the Water Department and reflect it in the tax rate. This policy is entirely wrong and greatly retards the growth of this City.

For the first six years under their supervision the net profits of the Water Department were \$6,105,110, or an average of \$1,017,519 per year. They have carried their program of profit-making into our neighboring cities to the south, as revealed in the newspaper clippings which are part of this statement, showing the great advantages that other communities have over the bona fide home-owners of our City. The only beneficiaries of this average of \$1,000,000 per year contri-

bution to the budget and tax rate are the owners of large hotels and office buildings downtown, who use very little water on account of having their own wells.

Gentlemen, it is simply a matter of policy. On one hand you have Mr. Cahill representing the Public Utilities Commission stating that meters should not be taken out and the water rates should remain as they are, the highest of any city in the United States of comparable size; and on the other hand you have a resolution that this Board had adopted requesting their removal. The Charter is very clear, and places the supervision of the Water Department and the power to fix rates under the Utilities Commission. If the Commission does not consent to change the rates in the next five years, they will remain just as they are and we are powerless as a Board of Supervisors to change them. There is only one way that change can be made and that is by influencing the members of the Utilities Commission to change its policy or to remove the present Commission and replace it with members whose policy it will be, not to make money on the Water Department so as to reflect the same in the tax rate, but to cut the water rates, remove the meters and utilize an average of 70,000,000 gallons of water that is flowing into the Pacific Ocean every day, as outlined in Resolution No. 542. The matter to be determined is one of policy. The Public Utilities Commission favors the policy of using the profits from the operation of our Water Department to reflect a reduction in the tax rate, leaving the rates and the meters as they are, and allowing an average of 70,000,000 gallons of water daily to flow from Hetch Hetchy into the Pacific Ocean, while this Board of Supervisors and the people generally favor the policy of Resolution No. 542, introduced by our President, Supervisor Shannon, and adopted by this Board on September 18, 1939.

In view of the fact that Mayor Rossi appoints the members of the Public Utilities Commission, it would seem incumbent upon him to legally exert his influence upon the Utilities Commission in an endeavor to have that body reconsider its present policy on water rates and act to comply with the obvious desires of the public, by the establishment of flat rates for water to individual consumers.

I therefore move that this Board request his Honor the Mayor to prevail upon the Public Utilities Commission to the end that the policy set forth in Resolution No. 542 may be put into effect.

Yours very truly,

JAMES B. McSHEEHY,

Supervisor.

October 23, 1939.

Motion to Table

Supervisor Uhl, following the reading of the report by Mr. E. G. Cahill, and the reply thereto by Supervisor McSheehy, moved that both reports be tabled until after November 7, 1939.

Motion failed for want of a second.

Motion for Reference to the Mayor

Supervisor McSheehy, thereupon, repeated the motion incorporated in and made part of his report, that the Board request his Honor the Mayor to prevail upon the Public Utilities Commission to the end that the policy set forth in Resolution No. 542 may be put into effect. Motion seconded by Supervisor Mead.

Objection to Motion

Supervisor Colman, in speaking to the motion, stated that the answer to the resolution was given by Mr. Cahill in his report, and the matter was concluded, as far as he was concerned. He would not request the Mayor to put into effect the policy set forth in the resolution, in view of the report thereon by Mr. Cahill.

Thereupon, the roll was called and the motion failed by the following vote:

Ayes: Supervisors McSheehy, Mead—2.

Noes: Supervisors Brown, Colman, McGowan, Ratto, Shannon, Uhl—6.

Absent: Supervisors Meyer, Roncovieri, Schmidt—3.

Notice of Reconsideration

Before the result of the foregoing vote was announced, however, Supervisor McSheehy changed his vote from "Aye" to "No" and gave notice that he would move for reconsideration at the next meeting of the Board.

The vote then stood:

Ayes: Supervisor Mead—1.

Noes: Supervisors Brown, Colman, McGowan, McSheehy, Ratto, Shannon, Uhl—7.

Absent: Supervisors Meyer, Roncovieri, Schmidt—3.

Closing of Golden Gate International Exposition

(Series of 1939)

Supervisor McSheehy presented Resolution No....., as follows:

Whereas, The Golden Gate International Exposition was originally scheduled to close on December 2, 1939, and

Whereas, The Directors of the Exposition Company have now decided to officially close the Exposition on October 29, 1939, and

Whereas, The termination of the Exposition prior to the time originally set therefor will not only deprive many of the eastern visitors wintering in California of the opportunity to see and enjoy it, but will also create, in the minds of the people of the nation, a conclusion that the operations of the Fair were unsuccessful, and will have an adverse effect on San Francisco; now, therefore, be it

Resolved, That this Board of Supervisors hereby addresses itself to the Directorate of the Golden Gate International Exposition Company and requests that body to inform this Board of the reason for closing the Fair prior to the date originally scheduled by them and so advertised to the nation.

October 16, 1939—Consideration postponed until October 23, 1939.

Supervisor Colman, following request by Supervisor McSheehy for expression of opinions by members of the Board, and after stating that he believed the Exposition Company would be embarrassed by the adoption of the foregoing, moved for indefinite postponement of same.

Urging Increased Numerical Strength of Police Department to Number Permitted Under the Charter

(Series of 1939)

Supervisor McGowan presented Resolution No. _____, as follows:

Whereas, The present population of San Francisco, as estimated from school enrollment and other gauges, is 731,000, and

Whereas, In the past ten years the population of the City and County of San Francisco has increased in the neighborhood of 20%, and

Whereas, The numerical strength of the police department has not been increased to handle this growth in population, and

Whereas, This lack of increase has caused a serious lack of proper police protection throughout the city as is evidenced by the continued and vociferous complaints of merchant groups who are demanding more patrolmen in their districts, and by parent-teacher associations who rightly claim that police officers, because of lack of numbers, are seldom available to supervise traffic at school crossings, and

Whereas, It is not uncommon for a San Francisco police district ten square miles in area to be covered by one solitary foot patrolman on a watch, a condition due to one reason only—lack of sufficient men in the police department, and

Whereas, The city charter allows not to exceed one policeman for every 500 population, and

Whereas, The present numerical strength of the police department is 1273 (not including 50 temporary men), and the permissible strength is 1462 under this clause of the charter, therefore, the City and County of San Francisco is being policed by 189 less men than allowed by the charter with the correspondent lack of the required strength in the ranks of commissioned and non-commissioned officers; namely, 17 sergeants, 10 lieutenants, and 2 captains, and

Whereas, In private employment, the accepted method of recognizing efficient workmanship and application to the job is by an increase in salary, while the only means of according like recognition to a police officer is by a promotion in rank after a Civil Service Examination to ascertain his fitness, and

Whereas, The Chief of Police during the past twelve months has asked for an additional fifty patrolmen, and the present administration

has indicated a sympathetic attitude and has intimated that it sees the justice of this request and also the morale building possibilities of these appointments and promotions, and

Whereas, At the present time there are patrolmen performing sergeants' duties which is subversive to good discipline and is also unfair to the patrolman who is compelled to shoulder responsibilities of a higher rank without receiving the additional remuneration to which he is entitled, and

Whereas, It is the opinion of this Board that, in the interest of public safety and welfare the members on the present eligible lists for entrance to, and promotions in, the San Francisco Police Department and the six or seven hundred members of the department who are interested in future examinations are justified in the stand that the department should be increased numerically at the present time, at least to include the 50 temporary patrolmen now in the department, and enough additional patrolmen to fill the vacancies created by bringing the department up to the numerical strength of commissioned and non-commissioned officers maintained five years ago; now, therefore, be it

Resolved, That the Police Commission be and is hereby requested to give consideration to the facts set forth in this resolution, and to take such action as is necessary to increase the numerical strength of the Police force to that number permitted under the Charter, and be it

Further Resolved, That the Police Commission be and is hereby requested to take such steps as are necessary to provide, by promotional examination, for such appointments among the personnel as are required not only for proper direction and supervision of the main body, but also to provide incentive for the many ambitious young men in the ranks who are wholly deserving of promotion but are precluded therefrom as a result of the policy now in effect, and be it

Further Resolved, That a copy of this resolution be sent to the Police Commission.

Referred to Fire, Safety and Police Committee.

Supervisor Ratto, following the presentation of the foregoing resolution, and its reference to committee, called attention to the fifty temporary police officers now stationed at the Exposition, stating that it was his understanding that funds had been appropriated to provide for their employment until the expiration of the Exposition, and requested information from the Controller as to the correctness of his understanding.

Passage for Second Reading

The following recommendation of the Finance Committee, presented by Supervisor Shannon, was taken up:

Supplemental Appropriation of \$90,000 for Purchase of a Minimum of 10 Automotive Buses for Municipal Railway

(Series of 1939)

Bill No. 391, Ordinance No..... as follows:

Authorizing a supplemental appropriation of \$90,000 out of the surplus in the Municipal Railway Operating Fund for the purchase of a minimum of 10 automotive buses, including necessary engineering and traveling expenses to extend Municipal Railway.

Be it ordained by the People of the City and County of San Francisco,

Section 1. The sum of \$90,000 is hereby appropriated out of the surplus existing in the Municipal Railway Operating Fund to the credit of Appropriation No. 965,400.00 Equipment, to provide funds for the purchase of a minimum of 10 automotive buses, including necessary engineering and traveling expenses, to extend the Municipal Railway service.

Privilege of the Floor

Mr. E. G. Cahill, Manager of Utilities, who had, at the request of Supervisor Uhl, been granted the privilege of the floor in order to furnish certain desired information with respect to the proposed bus purchases, stated that no decision had yet been reached as to routes where new buses would be installed, but that hearings were still under way at which proponents of some twenty-five requested routes were being heard. While no contracts had been awarded it was expected the cost of the proposed buses would be about \$7500 each. Buses would have a seating capacity of approximately 27 passengers.

Thereupon, Supervisor Uhl moved passage for second reading of proposed ordinance.

Explanation of Vote

Supervisor McSheehy, in explanation of his vote, stated that he would vote for the proposed appropriation, but he was doing so under protest, feeling it not to be good business to vote for such a blanket appropriation, and that he hoped, in the near future that the Board would receive from the Purchaser an estimate showing the exact cost of proposed buses.

Thereupon, the roll was called and the foregoing ordinance was passed for second reading by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—11.

Non-participation of American Soldiers in Foreign Combat; Favoring Increasing of Home Defenses; Curbing Subversive Propaganda.

(Series of 1939)

Supervisor Shannon presented Resolution No., as follows:

Whereas, The world of today is rife with tension; with antagonism, hatred and war between many of the great powers of the earth, and with subversive and hostile influences assiduously at work in the United States either to embroil us in affairs which, under the Monroe Doctrine, are strictly not our business, or to substitute for our tried and eminently satisfactory democratic form of government some Utopian theory or novel "ism," all of which activities find their sponsorship in some foreign land, and

Whereas, The net result of our participation in the last World War is reflected in the thousands of American graves in Flander's fields, together with a debt still owing to this country, the magnitude of which still gives us pause to consider, and

Whereas, Wondering and anguished mothers of our soldier dead and wounded in the last war, and anxious mothers of the younger generation look with trepidation upon the prevalent propaganda being circulated throughout this country today, the purpose of which is to involve us in another European controversy, and

Whereas, Conservative and patriotic Americans are cognizant and exceedingly tired of the constant, if futile, endeavors of various minority factions in the United States to supplant our form of government with some totalitarian formula; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco publicly announces its attitude in connection with the aforesaid matters to be as follows:

1. Strenuously opposed to the participation by American soldiers in any combat whatsoever, except in defense of our own country.
2. Heartily in favor of a movement to increase and supplement our national defenses.
3. Unsympathetic to and condemning of any and all activities, proposals and propaganda looking to any change in the present form of our national government.

Referred to Public Welfare Committee.

Whereas, The City Planning Commission, on its own motion, after due and legal notice first being given, held a public hearing on its proposal to change the zoning classification of the property hereinafter described from the Light Industrial District to the Second Residential District; and

Whereas, After due deliberation, the City Planning Commission considers it to be in the public interest to effect such proposed change as aforesaid; now, therefore, be it

Resolved, That Section 7 of the Use of Property Zone Maps, constituting a part of the Building Zone Ordinance, be, and the same is hereby changed so as to place the northerly side of 19th Street, commencing at Lapidge Street and running thence westerly 235 feet; and extending to the depths of the rear lot lines of the lots fronting thereon in the Second Residential District instead of the Light Industrial District;

is hereby approved.

Complimenting Mr. Julius L. Gerard on Horticultural Results Achieved by Him at the Exposition

Supervisor Colman called attention to the plants, flowers and horticultural work at the Exposition which has been the subject of most favorable comment. He called particular attention to the difficulties met in the achieving of such wonderful results stating that while nominally, of course, full credit must be given to John McLaren, Superintendent of the Park, recognition must also be given to his first assistant, Mr. Julius L. Gerard. Accordingly, he moved that the Board compliment Mr. Gerard for the splendid job he has done at the Exposition.

Motion seconded by Supervisor Mead, and unanimously carried.

Proffer of Solution to Traffic Problem

Mr. George W. Schultz, on being granted the privilege of the floor by motion of Supervisor Shannon, addressed the Board at length on the subject of San Francisco's traffic problem. Mr. Schultz suggested that he could solve San Francisco's traffic problem at a cost of about \$1500 plus stenographic and other clerical aid, and the use of an automobile and driver to enable him to make proper check of the needs in the various sections of the city.

Proposal referred to Streets and Traffic Committee.

Mr. Edwin J. Cooley, Director of State Relief Administration for San Francisco, on being granted the privilege of the floor by motion of Supervisor Uhl, explained in detail the aims and the working of SRA and urged San Francisco's greater cooperation and use of the facilities offered by SRA. He outlined work programs suggested by Municipal Departments and Civic Organizations which would provide a living wage for workers rather than a virtual dole supplied by WPA.

Following Mr. Cooley's presentation, Supervisor Shannon announced a meeting of the Coordinating Committee to be held on Thursday, October 26, 1939, at 4 P. M., in room 228, City Hall, at which the entire matter as outlined by Mr. Cooley, would be considered. The Coordinating Committee, continued Supervisor Shannon, would report to the Board at its next meeting.

Opinion of City Attorney

The following opinion of the City Attorney was presented and read by the Clerk:

October 30, 1939.

Subject: In Re. Contributions to Property Owners
for Repair of Sidewalks.

Dear Sirs:

You have sent me three protests against the assessment for street work upon the following properties:

Mrs. M. M. Tarpy—property at 15th and Sanchez Streets.

Mr. A. R. Schubert—property on Waller Street between Clayton and Belvedere Streets.

Mr. Edward Lucette—property on Lafayette Street at Natoma.

All of these property owners are protesting against the amount of the assessment upon the ground that it is excessive and further ask that the City pay two-thirds of the assessment as they contend is provided for in Subdivision B, Section 192, Chapter X, Article VI of the Municipal Code.

Section 192 is a part of the Street Improvement Ordinance and provides for the payment by the City, under certain conditions, of two-thirds of the expense of any street improvement. Subdivision A contains certain limitations which apply. Subdivision B provides:

"This section shall not be considered as a limitation upon the power of the supervisors to make any appropriation from the Treasury at any other time or in any other manner to pay not to exceed two-thirds of the cost of any work mentioned in this Article."

Opinion

It appears that the improvements made on the sidewalk in front of the property of the above mentioned owners were done on the recommendation of the Director of Public Works and the Board of Supervisors. As far as the record appears, the proceedings seem to be regular and the only question is as to the power of your Board, under the above quoted Subdivision B of the section, to make an allotment of two-thirds of the amount of the assessment to these property owners.

I direct your attention to Section 108 of the Charter which provides:

"It shall be the duty of the owner of any property fronting on a public street to keep the sidewalk in front thereof in good repair and condition and the board of supervisors is hereby empowered to provide by ordinance for the repair of such sidewalks in all cases where the owner fails and neglects to repair the same."

It is quite clear from this language that the Charter forces upon the property owner the responsibility of keeping his sidewalk in good repair. There is some doubt in my mind if the provision in the ordinance permitting a contribution from the City applies to the repair of sidewalks. If it does it will be discretionary with the Board to make an allowance to every property owner for the construction of the sidewalk or the repair of an existing sidewalk and it would be practically impossible to compel any owner to repair a sidewalk without an allowance from the City, no matter how dangerous the condition of the sidewalk might be to the general public. If an allowance is made to one property owner it must be made to all.

If your Board, in these cases, should direct an allowance to be made you are setting a very dangerous precedent which in the future might

entail a considerable expense upon the City. I further direct your attention to the fact that, at the moment, your Board has not under its control any moneys which could be used to compensate these property owners. If, in your judgment, you think these owners should be compensated, the Mayor should be requested to make a supplemental appropriation to the Director of Public Works to meet the expense of the City's contribution. This appropriation would have to be recommended by the Chief Administrative Officer and submitted to the Board with the supplemental budget.

In the particular ordinance which included the street work the cost of which is being protested before your Board, there are possibly some fifty separate pieces of property all included in the one improvement ordinance. If an allowance was made to one, each property owner would have the right to make the same request.

Very truly yours,

(Signed) JNO. J. O'TOOLE,

To the Board of Supervisors.

City Attorney.

Discussion

Following the reading of the foregoing opinion by the City Attorney, Mrs. Josephine Lyons Cosovitch, Attorney, representing Miss Mary Tarp, a protestant, questioned the applicability of the opinion to the case in question, inasmuch as Mrs. Tarp was not protesting against excessive assessment, but against the necessity for the work performed fronting her property.

In reply to statements made by Miss Tarp, through her attorney, Mr. A. D. Wilder, in reciting the history of the case, stated that early in 1938, after report as to the dangerous condition of the sidewalk fronting Miss Tarp's property, and investigation thereof, Miss Tarp was notified that her sidewalk was in a dangerous condition and needed repairs. However, nothing was done by Miss Tarp even after several notices to do the work required, so in the latter part of 1938 proceedings were taken by the Department of Public Works in accordance with the 1934 Street Improvement Ordinance. Miss Tarp was notified to repair the sidewalk or the city would have to make the necessary repairs and charge her. Miss Tarp protested, saying the sidewalk did not need repairing. However, the Director of Public Works agreed with his inspectors, and the protests of Miss Tarp were overruled and the improvement ordered.

Consideration Postponed

Supervisor Brown, pursuant to request by Mrs. Cosovich, moved that further consideration of her protest, and other protests, be continued until November 13, 1939.

No objection and so ordered.

Passage for Second Reading Refused

The following matter, presented by the Joint Streets and Judiciary Committee, with recommendation "Do Not Pass," was taken up:

Amending Chapter XI, Part II, San Francisco Municipal Code, By Amending Section 100 Thereof, Relating to Early Morning Parking.

(Series of 1939)

Bill No. 402, Ordinance No....., as follows:

Amending Chapter XI, Part II, San Francisco Municipal Code, by amending Section 100 thereof, relating to early morning parking.

Whereas, The so-called "Prima Facie" law passed at the last session of the Legislature is now in effect; and

Whereas, Because of the lack of convenient garage space, and in many cases the inability to pay overnight storage charges, a severe hardship will be worked upon many of the one hundred sixty odd thousand owners of passenger automobiles in San Francisco, who have been parking on the street during the night hours; and

Whereas, No real traffic problem has resulted from this practice in the past, nor could be expected to result therefrom in the future; now, therefore,

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 100, Article 5, Part II, Chapter XI of the San Francisco Municipal Code, the subject matter of which is recited above, is hereby amended to read as follows:

Section 100. Notwithstanding any other provision of this Chapter in conflict herewith or to the contrary, it shall be lawful to park upon any street between the hours from 12:00 p. m. and 8:00 a. m., of the following day, except as such parking is prohibited by Sections 76, 78 and 82 of this Article.

Approved as to form by the City Attorney.

Objections

Following the reading of the foregoing report, Supervisor Shannon, who had relinquished the chair temporarily, objected to the suggestion contained therein for re-reference to committee and postponement of any further consideration of the proposal to repeal the provisions of the Municipal Code prohibiting early morning parking.

Supervisors Mead, McGowan, Brown and Ratto also objected to the passage of the legislation as proposed and urged that the Committee's recommendation be concurred in by the Board.

Minority Report Disapproved

Whereupon, the roll was called on approval and the Minority Report presented by Supervisor McSheehy was disapproved by the following vote:

Ayes: Supervisor McSheehy—1.

Noes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—10.

Refused Passage

Thereupon, the roll was again called on passage of proposed legislation as presented by Supervisor McSheehy, and same was refused passage by the following vote:

Aye: Supervisor McSheehy—1.

Noes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—10.

Minority Report

San Francisco, California, October 27, 1939.

The Board of Supervisors.
Gentlemen:

In connection with the Bill which I introduced on September 25, proposing amendment of the Traffic Code to permit parking of automobiles on the public streets between the hours of 12 p. m. and 8 a. m. of the following day, the Streets and Judiciary Committee, to which this matter was referred at its meeting on October 25, sent this matter

to the Board with the recommendation "Do Not Pass." As sponsor of this proposed legislation I, therefore, desire to file a minority report and to request that it be set forth in full in the Journal.

Some of the reasons which impelled me to submit this Bill are set forth in the preamble thereof. I have been informed that because of lack of adequate garage facilities approximately 30,000 cars are parked upon our streets each night. It is my honest belief that there is not sufficient convenient garage space to accommodate, in addition to the cars already stored in garages, this additional amount.

As you are aware, the prima facie law is now in effect, although, probably for reasons which can best be answered by the Administration, it is not now being enforced. It should not be indelicate to presume that the impending election may be the reason for the failure of the Administration to enforce this law at the present time.

I introduced this Bill in good faith. It was my firm belief that there is insufficient space, particularly in the apartment house district, to store the cars of all the tenants residing therein. I am still of this opinion and shall continue in my belief until such time as there are produced official and authentic figures compiled as a result of a survey which demonstrates that my position in this matter is erroneous.

Although the Committee requested information from the Police Department, the Fire Department and the Department of Public Works, which would show whether or not there are sufficient garages to accommodate all of the cars in San Francisco, this information has not yet been produced, and I want to emphasize here and assign as most irregular, and without precedent so far as I am aware, the action of the joint Streets and Judiciary Committee in referring this matter to the Board with the recommendation "Do Not Pass," before it had sufficient information to intelligently act upon the matter. Apparently they were influenced by the strong garage lobby which appeared to protest this Bill. Until such time as an official survey can be made to determine whether or not the statements set forth in the preamble of this Ordinance are true, it is impossible for anyone to successfully refute them, and I therefore urge that this Board do not concur in the recommendation of the Streets and Judiciary Committee, but that, on the other hand, they re-refer this matter to Committee with instructions to hold it there until such time as the official data necessary to intelligent action on the Bill is forthcoming. If, after this data is received, it demonstrates that my position as set forth in this Bill is untenable, I shall not press the matter further, but it seems only fair and logical that the request which I make herein should, for the welfare of the automobile public, be complied with.

JAMES B. McSHEEHY, Supervisor.

Adopted

The following recommendations of Fire, Safety and Police Committee were taken up:

Urging Increased Numerical Strength of Police Department to Number Permitted Under the Charter

(Series of 1939)

Supervisor McGowan presented Resolution No. 618, as follows:

Whereas, The present population of San Francisco, as estimated from school enrollment and other gauges, is 731,000, and

Whereas, In the past ten years the population of the City and County of San Francisco has increased in the neighborhood of 20%, and

Whereas, The numerical strength of the police department has not been increased to handle this growth in population, and

Whereas, This lack of increase has caused a serious lack of proper police protection throughout the city as is evidenced by the continued and vociferous complaints of merchant groups who are demanding more patrolmen in their districts, and by parent-teacher associations who rightly claim that police officers, because of lack of numbers, are seldom available to supervise traffic at school crossings, and

Whereas, It is not uncommon for a San Francisco police district ten square miles in area to be covered by one solitary foot patrolman on a watch, a condition due to one reason only—lack of sufficient men in the police department, and

Whereas, The city charter allows not to exceed one policeman for every 500 population, and

Whereas, The present numerical strength of the police department is 1273 (not including 50 temporary men), and the permissible strength is 1462 under this clause of the charter, therefore, the City and County of San Francisco is being policed by 189 less men than allowed by the charter with the correspondent lack of the required strength in the ranks of commissioned and non-commissioned officers; namely, 17 sergeants, 10 lieutenants, and 2 captains, and

Whereas, In private employment, the accepted method of recognizing efficient workmanship and application to the job is by an increase in salary, while the only means of according like recognition to a police officer is by a promotion in rank after a Civil Service Examination to ascertain his fitness, and

Whereas, The Chief of Police during the past twelve months has asked for an additional fifty patrolmen, and the present administration has indicated a sympathetic attitude and has intimated that it sees the justice of this request and also the morale building possibilities of these appointments and promotions, and

Whereas, At the present time there are patrolmen performing sergeants' duties which is subversive to good discipline and is also unfair to the patrolman who is compelled to shoulder responsibilities of a higher rank without receiving the additional remuneration to which he is entitled, and

Whereas, It is the opinion of this Board that, in the interest of public safety and welfare the members on the present eligible lists for entrance to, and promotions in, the San Francisco Police Department and the six or seven hundred members of the department who are interested in future examinations are justified in the stand that the department should be increased numerically at the present time, at least to include the 50 temporary patrolmen now in the department, and enough additional patrolmen to fill the vacancies created by bringing the department up to the numerical strength of commissioned and non-commissioned officers maintained five years ago; now, therefore, be it

Resolved, That the Police Commission be and is hereby requested to give consideration to the facts set forth in this resolution, and to take such action as is necessary to increase the numerical strength of the Police force to that number permitted under the Charter, and be it

Further Resolved, That the Police Commission be and is hereby requested to take such steps as are necessary to provide, by promotional examination, for such appointments among the personnel as are required not only for proper direction and supervision of the main body, but also to provide incentive for the many ambitious young men

in the ranks who are wholly deserving of promotion but are precluded therefrom as a result of the policy now in effect, and be it

Further Resolved, That a copy of this resolution be sent to the Police Commission.

October 16, 1939—Presented by Supervisor McGowan.

Referred to Fire, Safety and Police Committee.

Privilege of the Floor

Captain Michael Riordan, representing Chief William J. Quinn, of the Police Department, on being granted the privilege of the floor at the request of Supervisor McGowan, explained that he understood, and had no reported to Chief Quinn, and Chief Quinn had agreed that the foregoing proposed resolution merely sought consideration of the Police Commission, and for that reason neither he nor Chief Quinn saw any objection to its adoption.

Objections

Supervisor Colman in objecting to the resolution, called attention to a number of the "Whereases" therein, holding them to be erroneous, or at least not proven to be true, and stating that any "Resolve" based thereon must necessarily suffer from the same defects. Supervisor Colman considered that the need for increased numerical strength in the Police Department should be determined through a survey of the Department by the Civil Service Commission, and moved that the proposed resolution be referred to that Commission with request that a study of the alleged statement that patrolmen are performing sergeants' duties be investigated. Motion seconded by Supervisor Brown.

Supervisor Brown, after seconding the foregoing motion, suggested there be incorporated in the motion, also, reference to the City Attorney, stating he considered the resolution to be in violation, not only of the intent, but of the letter of the charter. Whereupon, Supervisor Colman accepted the suggestion to include reference to the City Attorney as well as to the Civil Service Commission.

Supervisors McGowan, McSheehy, Mead and Schmidt all voiced objections to reference of the resolution to the Civil Service Commission.

Privilege of the Floor

A Mr. Masterson, on being granted the privilege of the floor, objected to any increase in the numerical strength of the Police Department, holding the numbers to be entirely adequate to care for what he considered proper police functions.

Supervisor Roncovieri, in discussing the motion for reference to the Civil Service Commission and to the City Attorney, stated that in his opinion, the proposed resolution was merely one asking for information, and, therefore, could not be in contravention of Section 22 of the Charter. However, he suggested compromise by the deletion of several of the "Whereases" to which objection had been raised, and moved that the first "Whereas," reading "Whereas, The present population of San Francisco as estimated from school enrollment and other gauges, is 731,000, and."

Motion Out of Order

Whereupon, the Chair ruled that any such motion for deletions of any part of the proposed Resolution, or for any other amendment, was out of order pending action on the motion for reference.

Motion Failed

Thereupon, the roll was called and the motion for reference to the

Civil Service Commission and to the City Attorney failed by the following vote:

Ayes: Supervisors Brown, Colman—2.

Noes: Supervisors McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—10.

Amendment to Resolution

Supervisor Roncovieri, thereupon, proceeded to consider the various "Whereases" in the proposed resolution. To the first three "Whereases," he offered no objection, but, in view of statements made by Supervisors Colman and Brown, denying the truth of the fourth "Whereas," or at least denying that the truth thereof had been demonstrated, he moved deletion of the fourth "Whereas," reading as follows:

"Whereas, This lack of increase has caused a serious lack of proper police protection throughout the city as is evidenced by the continued and vociferous complaints of merchant groups who are demanding more patrolmen in their districts, and by parent-teacher associations who rightly claim that police officers, because of lack of numbers, are seldom available to supervisor traffic at school crossings, and."

Motion seconded by Supervisor Colman.

Arguments

Supervisor Colman, in seconding the foregoing motion, stated that for lack of better knowledge he could truthfully say that there have been no "vociferous complaints" made to him, and that he did not know of any such complaints, and he did not believe the Board should adopt any resolution based on incorrect premises.

Supervisors McGowan, Mead and McSheehy answered objections raised by Supervisor Colman and urged that the motion for deletion be not carried.

Privilege of the Floor

Mr. Lang, Editor of the "Police Signal," in answer to Supervisor Colman's objections, on being granted the privilege of the floor, recited that from his own observations and knowledge he knew the statements objected to, to be correct.

In support of the contention that there is a lack of proper police protection throughout the city, the following telegram was presented by the Chair and read by the Clerk:

San Francisco, Calif., Oct. 30, 1939.

Secretary, Board of Supervisors,
City Hall, San Francisco, Calif.

Marina Merchants Association wishes to reiterate their plea to the Police Commission and the Board of Supervisors for the re-establishment of the North End Police Station. We urgently need more and better policing of the Marina district and herewith ask that favorable action be granted by your Board on this matter immediately.

Bud Weiser, President; Madame Loretta Whitford, Secretary.

Following the above presentations, Supervisor Roncovieri announced he would not press his motion for deletion of the fourth "Whereas," but suggested it be amended by the insertion immediately following the word "Whereas," of the words "It has been reported to us that," making that paragraph read as follows:

"Whereas, It has been reported to us that this lack of increase has caused a serious lack of proper police protection throughout the city as is evidenced by the continued and vociferous complaints of merchant

groups who are demanding more patrolmen in their districts, and by parent-teacher associations who rightly claim that police officers, because of lack of numbers, are seldom available to supervise traffic at school crossings, and."

Explanation of Vote

Supervisor Colman, in explanation of his vote stated that he must vote "No" on the proposed resolution. He did not recognize Mr. Lang as an authority to speak for the Police Department of San Francisco and he could not take his word on questions that affect the policing of San Francisco. He is not an official of the department in any way whatsoever; the Police Commission and the Chief of Police are running the Police Department. To take the word of the men, or the representatives of the men as against that of the heads of the Department would tend to demoralize the discipline of the whole Department. However, Supervisor Colman continued, if it were shown to him that there is need for reform, he would be for it, but the Police Department's duty primarily is the preservation of law and order and it should be the last department in the city government in which to encourage any variation of the proper methods of conduct of the department.

Adopted

After further brief discussion, the roll was called and the foregoing resolution, amended to read as follows, was adopted by the following vote:

Urging Increased Numerical Strength of Police Department to Number Permitted Under the Charter

(Series of 1939)

Supervisor McGowan presented Resolution No., as follows:

Whereas, The present population of San Francisco, as estimated from school enrollment and other gauges, is 731,000, and

Requesting Re-establishment of North End Police Station.

(Series of 1939)

Supervisor McGowan presented Resolution No..... as follows:

Whereas, The citizens of the Marina district and its immediate adjacent area has an estimated population of more than 100,000 persons, and represents the highest assessed valuation of property in San Francisco; and

Whereas, It appears that the citizens of this district are without adequate police service; and

Whereas, The North End police station on Greenwich Street near Scott was abandoned in 1936, and its personnel consolidated with the Ellis-Polk station, now known as the Northern station, supposedly in the interests of economy and efficiency; and

Whereas, The estimated savings has not materialized, but instead the citizens of the Marina district and its environs have been deprived of proper police service; and

Whereas, The Northern police station, located on Ellis Street, near Polk, is more than three miles from the Marina district, and has the largest area in San Francisco to patrol, approximately seven square miles; and

Whereas, The protection of life and property is the first duty of the Police Department, and the said Northern station is undermanned at the present time to afford proper police protection to the citizens of the district;

Now, Therefore, Be It Resolved, That the Board of Supervisors of the City and County of San Francisco requests the honorable Board of Police Commissioners to take the necessary steps to re-establish the North End police station at the earliest possible date.

October 2, 1939—Presented by Supervisor McGowan and referred to Committee on Fire, Safety and Police.

Privilege of the Floor

Dr. H. B. Hambly, representing the Marina Merchants Association, on being granted the privilege of the floor, pointed out the rapid growth of the Marina District and its consequent lack of adequate police protection, and urged the adoption of the foregoing resolution.

The Chair, in support of the proposed resolution, again presented and the Clerk read the telegram from the Marina Merchants Association previously taken up during the discussion of the preceding resolution urging increased numerical strength of the Police Department.

Objections

Supervisor Colman, in objection to the adoption of the foregoing resolution, held that the Board was running into the same situation as prevailed with respect to the preceding resolution, stating that the proposed action of the Board constituted meddling with the affairs of the Police Department. He felt that representatives of the Department should be called into committee hearing and explain the reasons for the abandonment of the North End Police Station, and express the willingness for its restoration. He would vote against the resolution.

Supervisor Brown, in explanation of his views, agreed with Supervisor Colman that members of the Police Commission should be invited to appear in committee and give their views on the matter.

Discussion

Dr. Hambly, on again being granted the privilege of the floor, answered objections raised by Supervisors Colman and Brown, stating that the people of the District, through him, were pointing out the need of the district for better police protection. Dr. Hambly felt that the Board should listen to the public, and then request the proper department to give consideration to the matter.

Supervisor Uhl raised the objection that in his opinion, the resolution, as presented would, if adopted, constitute a violation of Section 22 of the Charter.

Amendment

Thereupon, Supervisor Schmidt, in discussing the matter, suggested the "Resolve" be amended to read:

"Now, Therefore, Be It Resolved, That the Board of Supervisors go on record inquiring of the Police Department as to the feasibility of re-establishing the North End Police Station.

However, the Chair suggested amendment by striking out the words "to re-establish" and inserting in lieu thereof the words "to give consideration to the re-establishment of." Amendment accepted by Supervisor McGowan, the author of the resolution.

Inclusion of Request for Re-establishment of Bay View Station

Supervisor Mead pointed out the need for better police protection in the Bay View District, and moved amendment by the insertion of the words "and Bay View" immediately after the words "North End." Motion seconded by Supervisor McSheehy. Amendment accepted by Supervisor McGowan.

Adopted

Thereupon, the roll was called and the resolution, amended to read as follows, was adopted by the following vote:

Requesting Re-Establishment of North End and Bayview Police Stations

(Series of 1939)

Resolution No. 619, as follows:

Whereas, The citizens of the Marina district and its immediate adjacent area has an estimated population of more than 100,000 persons and represents the highest assessed valuation of property in San Francisco, and

Whereas, It appears that the citizens of this district are without adequate police service, and

Whereas, The North End police station on Greenwich Street near Scott was abandoned in 1936, and its personnel consolidated with the Ellis-Polk station, now known as the Northern Station, supposedly in the interests of economy and efficiency, and

Whereas, the estimated savings has not materialized, but instead the citizens of the Marina district and its environs have been deprived of proper police service, and

Whereas, The Northern police station, located on Ellis Street, near Polk, is more than three miles from the Marina District, and has the largest area in San Francisco to patrol, approximately seven square miles, and

Whereas, The protection of life and property is the first duty of the Police Department, and the said Northern station is undermanned at the present time to afford proper police protection to the citizens of the district; now, therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco requests the honorable Board of Police Commissioners to take the necessary steps to give consideration to the reestablishment of the North End and Bayview police stations at the earliest possible date.

Ayes: Supervisors Brown, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—10.

Noes: Supervisor Colman—1.

Endorsing Reopening of Exposition in 1940, and Pledging Support Therefor

The following resolution, presented by Supervisor Meyer, was taken up out of order, immediately after the first Roll Call:

Resolution No. 637, as follows:

Whereas, The Golden Gate International Exposition focused the attention of the World upon the City and County of San Francisco during its past season and made known to millions of visitors from every land the natural advantages and beauties of this City; and

Whereas, The Exposition attracted over \$70,000,000.00 in new money to this City from February to October, 1939, giving the entire business community a vital increase and affording employment to many thousands of the City's citizens; and

Whereas, The continuance of the Golden Gate Exposition will further the commerce of the City, will give employment to its people, will attract many more millions of people from all of the States of the Union and from many lands; and

Whereas, The people of the City have enthusiastically demonstrated that they desire the Exposition to be reopened for a 1940 season; and

Whereas, The President of the United States has announced his desire that the Exposition be reopened in 1940 and has pledged his

support to the procurement of additional Congressional appropriations for support of the Exposition and further Federal participation; and

Whereas, The best interests of the City and County of San Francisco and its people will be fostered and promoted by a 1940 season of the Golden Gate International Exposition;

Therefore, Be It Resolved, That it be the sense of the Board of Supervisors of the City and County of San Francisco that the Golden Gate International Exposition be reopened in the year 1940; and

Be It Further Resolved, That this Board pledge the whole-hearted support of the City and County government and of this Board to the Exposition in 1940, and that all possible aid and support be given by the City and County of San Francisco; and

Be It Further Resolved, That the City Attorney be directed to appear for the City and County of San Francisco in the proceedings pending in the United States District Court involving San Francisco Bay Exposition, a corporation, and take such steps therein as he may deem advisable to present the view of the City and County that the Exposition shall continue in 1940.

Opinion from City Attorney

The Chair, following the presentation and reading of the foregoing Resolution, announced that before he would vote thereon, he would insist upon a written opinion from the City Attorney as to the legality of appropriating a suggested \$250,000 to a private corporation, i. e., the Exposition Company.

Subsequently, the City Attorney, his presence having been requested, ruled that the suggested appropriation was legal, and in order, and cited Section 4056b of the State Political Code to substantiate his opinion. He would be glad to furnish the Board with a written statement to that effect. However, the City Attorney continued, the resolution just presented does not make any definite appropriation.

Suspension of the Rules

No objection being offered, the Rules of the Board were suspended, at the request of Supervisor Meyer, for the purpose of immediate consideration of the Resolution.

Discussion

Supervisor Uhl objected to passage of the resolution until he had received certain information as to contributions toward the re-opening of the Exposition in 1940, by other counties, especially Los Angeles and Alameda Counties.

Supervisor McGowan, also objected to passage until information had been received from the Exposition Company as to proposed rates of admission to the Exposition, and charges for parking automobiles, pursuant to Resolution previously presented by him.

Supervisors Colman and Meyer urged passage.

Recess

However, Supervisor Uhl, having been informed that the information desired by him could probably be obtained at a meeting to be held at the St. Francis Hotel, at 3 P. M., at which the proposed continuation of the Exposition in 1940 was to be considered, and pursuant to suggestion by Supervisor Schmidt, immediately after the convening of the Board at 2 P. M., moved that further consideration of the Resolution be postponed until after the meeting at the St. Francis Hotel, and that the Board resume its regular order of business until 2:55 P. M., at which time it recess, to reconvene at the call of the Chair, at the conclusion of meeting at the St. Francis Hotel.

No objection and so ordered.

Reconvening of Board

The Board, having recessed at 2:55 P. M., pursuant to motion by Supervisor Uhl, reconvened at 4:15 P. M., and subsequently during the proceedings, other business having been completed, resumed its consideration of resolution pledging support for the reopening of Exposition in 1940.

Explanation of Votes

Supervisor Uhl, in explanation of his vote on the foregoing resolution, stated he was in sympathy with those persons who wanted to see the Exposition re-opened in 1940, but, on the other hand he was in sympathy with the small taxpayers who are not in favor of an additional five, six or seven cents in the tax rate for the Exposition. In addition to the proposed appropriation of \$250,000, there must be placed in the budget a sufficient amount for police and fire protection at Treasure Island. Continuing, Supervisor Uhl stated that he was amazed that Los Angeles County had not contributed a single dollar toward the re-opening, and he resented the failure of Alameda County so to contribute. He was willing to vote for the same budget items set up in the current budget, but beyond that he would not go.

Supervisor Colman, in reply to statement by Supervisor Uhl, called attention to the fact that the San Francisco Chamber of Commerce, the Junior Chamber of Commerce, the Central Council of Civic Clubs, Parkside Improvement Club, Fairmount Improvement Club, Fillmore Street Merchants Association, Divisadero Street Merchants Association, and other organizations had approved the reopening of the Exposition, but he did not know the attitude of Mission Street groups who, Supervisor Uhl had reported, were opposed to the re-opening of the Exposition. Supervisor Colman stated further that if a Supervisor was voting against the proposed resolution on the grounds of how the people felt, that Supervisor, he believed, was misinterpreting the feeling of the people.

Resolution Adopted

Thereupon, the roll was called and the resolution, as presented, was adopted by the following vote:

Ayes: Supervisors Brown, Colman, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—9.

No: Supervisor Uhl—1.

Absent: Supervisor McSheehy—1.

Reduction of Hours of Duty for Members of Uniformed Forces of Fire Department and Retention in Department of Members Subject to Dismissal Due to Closing of Exposition.

(Series of 1939)

Supervisor McGowan presented Resolution No....., as follows:

Whereas, The Fire Commissioners of the City and County of San Francisco recently adopted the following resolution, to-wit:

"Whereas, With the close of the Golden Gate International Exposition on October 29th, 1939, there arises the problem of caring for the employments of 77 members in the San Francisco Fire Department of various ranks by reason of the fact that salaries therefor have been provided in the 1939-40 Budget only to the dates of December 2nd, 1939 and February 1st, 1940, respectively, and

"Whereas, This Board of Fire Commissioners is in possession of a submitted plan which would retain these men within the Department by granting the entire uniformed membership of the Department a slight reduction in their weekly hours of duty, and

"Whereas, This Board of Fire Commissioners is convinced of the practicability of such measure, and furthermore is in sympathy with and approves the plan, now

"Therefore Be It Resolved, That this Board of Fire Commissioners does whole-heartedly recommend to the Mayor, Controller, Board of Supervisors, Board of Civil Service Commissioners, and all interested parties, the adoption and installation of such plan to become effective December 3rd, 1939, in the interest of humane treatment to and the welfare of the entire Fire Department, for the following reasons, to-wit:

"1. To circumvent the loss of employment to 77 deserving members of the Fire Department and the resulting subjection of them and their dependents to economic uncertainties.

"2. To reduce the hours of duty for members of the uniformed force from an average of 72 hours to 67½ hours weekly, which would yet remain considerably in excess of the average hours worked in most all other lines of endeavor.

"3. To provide a more simple and equitable method of operation within the Department, the details of which the members of this Board and the Chief Engineer are fully cognizant.

"4. To follow in the trend, national in scope, of reducing the general hours of labor, as evidenced in the fire service by the '8-hour-day' applicable in the cities of New York, Toledo and others, as well as having been adopted as a State law in numerous instances. Recognition is likewise given to the general provisions of the 'National Wage and Hour Act.'

"5. To acknowledge, as a Commission, the specific improvements made in all other Municipal Departments, consistent with such act, but not applicable to the Fire and Police service. To acknowledge, as a Commission, the known approved action of the Board of Police Commissioners in recommending a 44-hour week for Policemen, and in so doing, by calling attention to the similarity of services performed.

"6. To admit in the comparison of costs that the proposed plan submitted, in addition to providing an adequate solution to the present problem, does accomplish nearly all of the admirable features of an '8-hour-day,' at a fractional expenditure of funds, now

"Therefore, Be It Further Resolved, That a copy of this Resolution be forwarded to the Mayor, Controller, Board of Supervisors and the Board of Civil Service Commissioners with the request that the necessary steps be taken to put into effect the intent of this resolution."

Therefore, Be It Resolved, That the Finance Committee of the Board of Supervisors give consideration to the statements above recited and report back to the Board of Supervisors next Monday as to available funds for putting into effect the proposed plan of the Board of Fire Commissioners, for retaining within the San Francisco Fire Department the 77 members of the Fire Department who, as a result of the closing of the Golden Gate International Exposition on October 29, 1939, will be out of employment by reason of the inadequacy of appropriation in the 1939-40 Budget.

Referred to Finance Committee.

Rental Costs—Holly Park Low Cost Housing

Supervisor Brown called attention to proposed rental charges for apartments in the Holly Park low cost housing project, and in connection therewith quoted from the Housing Authority's Annual Report for the year ending April 18, 1939, as follows:

"It is estimated that the shelter rent will average about \$4.07 per room per month, excluding heat, gas and electricity for tenants' individual use."

On a 3½ room unit, this makes a total of \$14.25 per month.

Supervisor Brown then read the following, a news item appearing in a recent issue of the San Francisco Chronicle:

Holly Park Rent Schedules Listed

"Rents ranging from \$19 to \$22.25 per month for apartments in the Holly Park low cost housing project were fixed by the San Francisco Housing Authority yesterday, subject to approval by the USHA.

"The rent schedule covered the three classes of apartments in the 112-dwelling unit project--those containing three and a half rooms, four and a half rooms and five and a half rooms. The half room represents dining space. The units contain one, two and three bedrooms, respectively.

"The rentals and minimum and maximum numbers of persons permitted to occupy units under the adopted plan follows:

"Three and a half rooms, two to three persons, \$19;

"Four and a half rooms, three to four persons, \$20.75 ;

"Five and a half rooms, four to six persons, \$22.25."

Following the reading of the foregoing, Supervisor Brown called attention to the fact that only in the 5½ room, or larger units, does the actual rental come anywhere near the estimate previously made. In addition to the rental charges there will be a utility charge of about \$3.00 per month, which will make the cost of a 3½ room apartment at least \$22 per month. When the Housing Authority was before the Board, they stated the rental cost of a 3½ room unit would be \$14.25 per month, whereas the actual cost will be \$19, or about 33½% over that estimate.

November 17, 1939.

Mr. Dan London, President,
1940 Exposition, Inc.,
San Francisco, California.
Dear Mr. London:

I am intensely interested in your campaign to re-open the Exposition in 1940. Thousands of visitors have come to San Francisco during this year to visit Treasure Island, and in the light of existing world conditions, it seems reasonable to believe that the Exposition would prove an irresistible magnet to tourists next year.

The extent of our tourist trade is reflected in San Francisco's business life, and I believe that business in general would benefit greatly, as it has in 1939, if the Exposition were re-opened.

It is my intention to recommend in the budget for the fiscal year 1940-1941, the sum of \$250,000 for the participation by the City and County of San Francisco in the continuance of the Exposition during the summer of 1940.

Please accept my good wishes for the success of your campaign.

Yours sincerely,

ANGELO J. ROSSI, Mayor.

Approving the Intended Recommendation of the Mayor to Include in the 1940-1941 Budget the Sum of \$250,000.00 for the Participation by the City and County of San Francisco in the Continuance of the Exposition During the Summer of 1940.

(Series of 1939)

Resolution No. 647, as follows:

Approving the intended recommendation of the Mayor to include in the 1940-1941 budget the sum of \$250,000.00 for the participation by the City and County of San Francisco in the Continuance of the Exposition during the Summer of 1940.

Whereas, His Honor, Mayor Angelo J. Rossi, has advised the President of 1940 Exposition, Inc., that it is his intention to recommend in the budget for the fiscal year 1940-1941 the sum of \$250,000.00 for the participation by the City and County of San Francisco in the continuance of the Exposition during the summer of 1940; and

Whereas, If such item is included in said budget by the Mayor it is subject to the approval or disapproval of the Board of Supervisors; and

Whereas, This Board of Supervisors is heartily in accord with the proposition of continuing the said Exposition during the summer of 1940 in accordance with the plans of 1940 Exposition, Inc.

Now, Therefore, Be It Resolved, That this Board of Supervisors does hereby declare that it is the sense of said Board that the said sum of \$250,000.00, if recommended by the Mayor for the participation by the City and County of San Francisco in the continuance of said Exposition, should be included in the final budget adopted by this Board for said fiscal year 1940-1941, and this Board does hereby pledge itself to co-operate in every way for the inclusion of said sum of \$250,000.00 for the above mentioned purpose in said budget for the coming fiscal year.

Discussion

Supervisor Uhl, in objecting to the adoption of the foregoing resolution, announced that there was a great deal of opposition to the inclusion in the next year's budget some half-million dollars for the continuance of the Exposition in 1940. Supervisor Uhl asserted that it was not a question merely of pledging a \$250,000 contribution, but that the actual cost to the City and County of San Francisco would be about \$500,000. There were many citizens opposed to such contribution by the city, and moved that the matter remain on the calendar for one week, in order that those citizens opposed might be heard on the subject.

Motion failed for want of a second.

Thereupon, Supervisor Uhl announced his intention of voting against the proposed resolution, and should same receive the majority vote of the Board, to change his vote and move for reconsideration at the next meeting of the Board.

Supervisor Roncovieri, in discussing the proposed resolution and answering Supervisor Uhl's objections thereto, denied that any \$500,000 appropriation in the next year's budget was contemplated at this time, and that the proposed resolution calls only for \$250,000 for the purpose of saving to San Francisco a \$55,000,000 investment. In continuing, Supervisor Roncovieri called attention to what San Francisco has received as a result of the Exposition, i. e., the island itself, which cost about \$7,000,000 to create; buildings thereon which have cost more than \$1,000,000 and the building at Bush and Stockton Streets. If, in the future, there should be requests for additional appropriations, such requests could then be considered. The Chicago fair, Supervisor Ron-

covieri pointed out, was, in its first year a financial failure, but during its second year it got out of the "red" and well into the "black" and made money.

Supervisor McGowan called attention to meeting called by the Mayor several weeks earlier, at which no opposition to the fair's continuance for another year was raised, stating that all citizens and civic groups had been informed of the meeting and that any opposition should have been expressed at that time.

Adopted

Thereupon, the roll was called on adoption of the foregoing resolution, as follows:

Ayes: Supervisors Brown, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—8.

No: Supervisor Uhl—1.

Absent: Supervisors Colman, McSheehy—2.

Notice of Reconsideration

Before the result of the foregoing vote was announced, Supervisor Uhl changed his vote from "No" to "Aye" and gave notice that he would move for reconsideration at the next meeting of the Board. The vote then stood:

Ayes: Supervisors Brown, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon, Uhl—9.

Absent: Supervisors Colman, McSheehy—2.

Suspension of the Rules for Purpose of Immediate Reconsideration

Whereupon, Supervisor Brown, seconded by Supervisor McGowan, moved suspension of the rules of the Board for the purpose of immediate reconsideration.

Motion carried by the following vote:

Ayes: Supervisors Brown, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—8.

No: Supervisor Uhl—1.

Absent, Supervisors Colman, McSheehy—2.

Reconsideration Denied

Thereupon, on motion by Supervisor Brown that reconsideration be denied, the roll was again called and reconsideration denied by the following vote:

Ayes: Supervisors Brown, McGowan, Mead, Meyer, Ratto, Roncovieri, Schmidt, Shannon—8.

No: Supervisor Uhl—1.

Absent: Supervisors Colman, McSheehy—2.

Paint Spray Shop Ordinance

Gentlemen:

As spokesman for the various groups interested in the Paint Spray Shop Ordinance which has been under consideration in various forms for the last two years. I desire to enter in the record this protest against the final passage of this ordinance.

The reasons for such protest have been stated by our groups before the Committees that considered the ordinance, and in hearings before Board of Supervisors. Briefly and for purposes of record the reasons may be summarized as follows:

(1) After being before the Fire, Safety and Police Committee for nearly two years, that committee submitted the ordinance *without recommendation*.

(2) It was proposed by the Automotive Maintenance and Garage Association as an attempt to regiment certain shops in that industry, and later taken up and sponsored by Fire Prevention Bureau as a safety measure.

(3) Its passage on the grounds that it is a safety measure, is seriously questioned by the record of the Fire Prevention Bureau, as reported to the Board, for the *last eleven years* in which it was shown that in paint shops of *all kinds* and paint manufacturing plants 83 fires occurred, or less than 8 fires per year. The cause of the fires was reported as not known, and none of record were directly due to spraying operations. It is well known that the most likely cause of fires in paint shops generally is spontaneous combustion, so it may be said that few, if any, of the fires reported were due directly to spraying operations.

(4) Although the Ordinance has been materially modified from its original form, it still represents a type of regimentation that undoubtedly will work a hardship upon some types of business, the extent of which is not known. At the August 14, 1939 meeting of the Board of Supervisors, when the ordinance was passed on its first reading, some of the Supervisors stated if the ordinance worked a hardship on business they would favorably consider an amending ordinance to eliminate such hardships. It is submitted that this is equivalent to an admission of seeking to pass legislation regardless of its consequences.

(5) It is believed that this ordinance should not be passed in its present form, and that a study of at least six months should be made to determine just what it may mean to various businesses affected.

(6) The various groups mentioned in the first paragraph are as follows:

Associated Home Builders
 Associated General Contractors
 Shipbuilding Interests of San Francisco
 Cabinet Manufacturers Institute
 Southern Pacific Company
 Employers Council
 Pacific American Steamship Association
 Chamber of Commerce
 Spray Equipment Companies
 Hotel Owners Association
 Apartment House Owners and Managers Association

Yours truly,

H. M. GLEASON,

HMG/MdS

Following the reading thereof, Supervisor Uhl moved postponement for six months and that the Fire Department be requested, during that time, to report to the Board regarding any fires caused by the use of spray gun equipment.

Motion not seconded.

Thereupon, Supervisor Uhl announced his intention to vote against the proposed ordinance, but stated that if the ordinance should be passed, he would move, later on, that the Fire Department be requested

to submit, by July 1, 1940, a report regarding any fires caused by the use of spray gun equipment.

Passage for Second Reading

Thereupon, the roll was called and the foregoing matter was passed for second reading by the following vote:

Ship Clerk's Strike

The following communication was presented by Supervisor Shannon and read by the Clerk:

San Francisco, Calif., November 20, 1939.

Board of Supervisors,
Warren Shannon, Chairman,
City Hall, San Francisco.
Gentlemen:

The present waterfront dispute has reached proportions which the Ship Clerks' Association feel qualifies it as a due subject for consideration by the Board of Supervisors of the City of San Francisco.

This organization respectfully requests the permission of the Board for a representative of the Union to speak briefly before your body on behalf of the Union during your session this afternoon.

Respectfully yours,

CHARLES F. HUSTON, President.

Privilege of the Floor

Mr. Joseph N. Henry, Chairman of the Negotiating Committee of the Ship Clerks' Association, was, pursuant to motion by Supervisor Mead, granted the privilege of the floor.

However, before Mr. Henry addressed the Board, Supervisor Brown called attention to Resolution No. 581, adopted by the Board, setting up policy of refraining from considering matters over which the Board has no jurisdiction.

Supervisor Mead, in reply thereto, held that the policy of the Board, as expressed in Resolution No. 581, did not prohibit the Board from hearing any citizens or representatives of citizens who might desire to address the Board on any matter.

Supervisor McGowan pointed out that the Regional Service Committee, appointed several months previously, pursuant to action by the Board, could, possibly, do something in the matter, and he felt that the matter should be referred to some such group that could act in the matter.

The Controller, on being questioned, stated that as Chairman of the Regional Service Committee he would do what he could to hold a public meeting in the Civic Auditorium, at which both sides to the waterfront controversy could be heard.

Thereupon, Mr. Henry addressed the Board, pointing out the issues being contested, particularly ambiguities in the present contract which should be straightened out.

Mr. Henry Schmidt, representing the Longshoremen's Union, also addressed the Board, and denied statements alleged to have been made with respect to the control of Harry Bridges over San Francisco's waterfront.

Reference to Regional Service Committee

Supervisor McGowan, thereupon, again called attention to the Regional Service Committee, which, he believed, could consider the matter and arrange for hearing thereon. The Controller, Supervisor McGowan stated, was willing to call a meeting of that committee in the Civic Auditorium, and he, therefore, moved that the matter be referred to the Regional Service Committee, and that committee be requested to hold its meeting as quickly as it possibly could, in the Civic Auditorium.

Motion seconded by Supervisors Mead and Brown, and unanimously carried.

Mr. Charles A. Christin addressed the Board, briefly, and exhorted the striking waterfront employees to continue their work while arbitrating their differences.

Supervisor Mead suggested that members of the Board of Supervisors be invited to attend the meeting of the Regional Service Committee.

Adjournment

There being no further business, the Board, at the hour of 4:55 P. M., adjourned.

DAVID A. BARRY, Clerk.

Approved by the Board of Supervisors, November 27, 1939.

SPECIAL ORDER—2:30 P. M.

City Aid Toward Assessments for Sidewalk Construction

Consideration of granting city aid toward assessments for sidewalk construction for Miss Mary Tarcy, Mr. A. R. Schubert and Mrs. Mary V. Anderson. On motion by Supervisor Uhl,

Privilege of the Floor

Mrs. Josephine L. Cozovovich, representing Miss Mary Tarcy, was granted the privilege of the floor.

Mr. A. D. Wilder, Director of Public Works, reiterated his previous statement that the sidewalk in question, fronting Miss Tarcy's property, was not in good condition, and that the entire sidewalk had to be repaired, and the sidewalks on that street all being fifteen feet in width, it was necessary that Miss Tarcy's sidewalk also be constructed to that width.

Supervisor Uhl read to the Board report by Supervisor McSheehy, set forth in Journal of Proceedings of the meeting of April 3, 1939, wherein he had reported that the sidewalk, in his opinion, was not in a dangerous condition, and did not need reconstruction.

Supervisor McSheehy, at the request of Supervisor Uhl, repeated the statement above referred to.

Mr. Wilder, on being questioned by the Chair, stated that his department could, and did, in some instances, repair sidewalks rather than replace them in their entirety, where such repairs could be made, but that in his opinion, the sidewalk of Miss Tarpv could not be so repaired, but had to be completely reconstructed. The sidewalk, he stated, on being questioned by Mrs. Cozovich, was not of full official width, and was full of holes, making same dangerous to pedestrians.

City Aid Proposed

Thereupon, Supervisor Uhl moved that the City and County contribute to the aid of Miss Tarpv, Mr. Schubert and Mrs. Mary V. Anderson, two-thirds of the amount of the costs of sidewalk construction which they were protesting. Motion not seconded.

The City Attorney, in reply to question by the Chair as to the Board's right to make such a contribution, stated that there was in his mind some question as to that right, and in support of his views quoted from Section 108 of the Charter, with respect to the liability of the property owner to keep his sidewalks in repair. However, he would study the matter and report to the Board his findings.

Consideration Postponed

Thereupon, on motion by Supervisor Uhl, further consideration was postponed until December 4, 1939, at 2:30 P. M.

Section 3. The grantee of this franchise and privilege, its successors and assigns, shall, during the life of this franchise continue to furnish service, free of charge, to said City and County of San Francisco by and through such fire alarm devices or auxiliary fire alarm boxes as are now maintained by said Company in the De Young Museum in Golden Gate Park, in the California Palace of the Legion of Honor, and in such School Buildings of said City and County as are now equipped with devices or boxes of said Company, and shall also, during the life of this franchise, maintain, free of charge, such devices or boxes to a total number not exceeding fifty (which said fifty shall include those now maintained) in such other public buildings of said City and County except the Opera House and the Veterans' War Memorial Building, and at such place or places in said other public buildings, as the Mayor and the Board of Supervisors of said City and County may direct, the expense of installing said devices or boxes at the place or places so directed to be borne by said Company, and all expense of wiring and other construction necessary to connect said place or places with the City fire alarm boxes to be borne by said City and County. Should the gross receipts of said grantee arising from the use, operation or possession of the rights and privileges hereby granted equal or exceed \$30,000.00 in any year then said grantee shall pay to said City and County of San Francisco a sum of money equal to 2% of said gross receipts for said year over and above said \$30,000.00.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words and phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the given instance, the context wherein they are used shall import a different meaning):

(a) The word "grantee" shall mean Pacific Gas and Electric Company, its successors and assigns;

(b) The word "city" shall mean the City and County of San Francisco, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or reincorporated form, and shall include annexed territory:

(c) The word "streets" shall mean the public streets, ways, alleys and places as the same now exist or may hereafter exist within said city;

(d) The word "gas" shall mean natural gas and/or manufactured and/or artificial gas, or a mixture of natural gas and/or manufactured and/or artificial gas, including any gaseous substance usable for heat, power, illumination or fuel purposes;

(e) The phrase "pipes and appurtenances" shall mean pipes, pipelines, mains, services, traps, vents, vaults, manholes, meters, gauges, regulators, valves, conduits, appliances, attachments, appurtenances and any other property located or to be located in, upon, along, across, under or over the streets of the city, and used or useful in introducing, transmitting, distributing and supplying gas as aforesaid;

(f) The phrase "lay and use" shall mean to lay, construct, erect, install, operate, maintain, use, repair or replace;

(g) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said city and county all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants gas for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one (1%) per cent of the gross annual receipts of the grantee from the sale of gas within the limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said gas be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the

grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the

necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

Pledging Support for the Continuation of the Exposition in 1940

Supervisor Meyer presented Resolution pledging support for the continuation of the Golden Gate International Exposition in 1940 and requesting the appointment of a committee by the Chairman of the Board, to call upon representatives of several major Fair Creditors

who have not yet publicly stated whether or not they are willing to accept the pledge of the Mayor and the Board of Supervisors to contribute toward the continuation of the Fair, to attempt to induce those creditors to accept the pledge of the City and County so as to insure the reopening of the Exposition in 1940.

Discussion

Supervisors Roncovieri and McGowan, in discussing the resolution as presented, felt that no reference should be made to any specific creditors of the Fair who had not signified their acceptance of the City's pledge for support of the Fair during 1940, and suggested the resolution be referred to committee.

However, upon the Chair's statement that the City Attorney was preparing a draft of the resolution, omitting any reference to specific creditors, and at the suggestion by Supervisor Colman, pursuant to the Chair's statement, further consideration was temporarily postponed.

Adopted

Subsequently during the proceedings, Supervisor Meyer withdrew his resolution previously presented, and the following recommendation of the Exposition Affairs and Industrial Development Committee was taken up:

Pledging Support for the Continuation of the Golden Gate International Exposition for Certain Months During the Year 1940 Under the Jurisdiction of the 1940 Exposition, Inc.

(Series of 1939)

Resolution No. 668, as follows:

Pledging support for the continuation of the Golden Gate International Exposition for certain months during the year 1940 under the jurisdiction of the 1940 Exposition, Inc.

Whereas, the fate of a 1940 season of the Golden Gate International Exposition now appears to depend on the acceptance by the Fair creditors of the contributions and pledges procured by 1940 Exposition, Inc., which funds exceed the sum of \$1,000,000; and

Whereas, the Board of Supervisors of the City and County of San Francisco did heretofore and on the 13th day of November, 1939, by resolution duly adopted, pledge the whole hearted support of the City and County government and of this Board to the Exposition in 1940; and

Whereas, this Board did heretofore and on the 20th day of November, 1939, by resolution duly adopted pursuant to the recommendation of His Honor, the Mayor of the City and County of San Francisco, pledge that there would be included in the budget of the City and County of San Francisco for the next fiscal year the sum of \$250,000 for use in connection with the reopening of the Golden Gate International Exposition in 1940; and

Whereas, the question has been raised by certain Fair creditors as to whether the amount pledged by the Mayor and this Board of Supervisors shall be included in the amount of financing arranged by 1940 Exposition, Inc.; and

Whereas, many other Fair creditors have indicated their willingness to accept the City's pledge, but certain major creditors have not yet stated publicly whether or not they are willing to accept the pledge of the Mayor and this Board of Supervisors, and if these corporations do accept such pledge sufficient acceptances will have been obtained so as to insure the reopening of the Exposition in 1940; and

Whereas, it is to the best interests of the City and County of San Francisco that the Golden Gate International Exposition reopen in 1940 and, to that end, it is necessary that the pledge of the Mayor and the Board of Supervisors of the City and County of San Francisco be accepted by the Fair creditors,

Now, Therefore, Be It Resolved, that the Chairman of this Board be, and he hereby is, authorized and directed to appoint a suitable committee for the purpose of calling upon the representatives of the major creditors who have yet indicated their acceptance of the City's pledge to procure their acceptance of the pledge of the Mayor and this Board of Supervisors and their cooperation in arranging for the reopening of the Golden Gate International Exposition in 1940.

Discussion

Supervisor Uhl, in explanation of his intended vote, stated that since certain large creditors, named in the resolution as originally presented, would profit immensely, in his judgment, were the Exposition to be continued, they must know whether or not they would want to see the Fair continued during 1940. He considered the proposed resolution as interference by the Board, and would, therefore, vote against same.

Supervisor Ratto recalled the meeting at the St. Francis Hotel, which members of the Board had attended, and wondered if such action of the Board might be construed as going over the heads of the London committee which had been so active in securing financial support of the Fair's continuance.

Mr. Lawrence Livingston, representing contractor contributors to the Exposition, answering Supervisor Ratto, stated that the work of the "London" committee was finished; that the proposed action of the Board would not be so construed as Supervisor Ratto feared, but would, rather, be welcomed.

Thereupon, the roll was called and the foregoing resolution adopted by the following vote:

Ayes: Supervisors Colman, McGowan, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt—8.

No: Supervisor Uhl—1.

Absent: Supervisors Brown, Shannon—2.

Appointment of Committee

Before the end of the meeting, the Chair announced the appointment of Supervisors Colman, Meyer, McGowan, Mead and Roncovieri to the Committee as requested by the resolution just adopted.

Proposed License Fee for Occupancy of Sidewalk Space

(Series of 1939)

Supervisor Uhl presented Resolution No....., as follows:

Whereas, A recent decision of the State Supreme Court declares, in effect, that San Francisco authorities are vested with power to license for revenue, and

Whereas, It is the opinion of this Board that any person, firm or corporation utilizing and transacting business upon the public sidewalks, rent-free and in competition with merchants occupying stores, should pay a license fee somewhat more commensurate with the privilege enjoyed; now, therefore

Be It Resolved, That the City Attorney be and is hereby requested to prepare an amendment to the License Code to provide that as to those businesses upon which such a license tax may legally be imposed, every person, firm or corporation who or which, in the conduct of business, utilizes a public sidewalk for occupation by boxes, stands, counters or other structures, shall pay to the City and County of San Francisco a monthly license fee of *fifty cents* (\$0.50) for each square foot of sidewalk space so occupied.

Referred to the Finance Committee.

Consideration of Revision of License Code

Immediately following presentation of the foregoing resolution, Supervisor Roncovieri, Chairman of the Finance Committee, announced that the revision of San Francisco's license ordinances was being considered in committee, and that a meeting for November 28, 1939, at 3 P. M., in the City Attorney's office, had been arranged, to which the Mayor, the City Attorney, the Controller, representatives from the Tax Collector's Office (License Bureau and Bureau of Delinquent Revenue), and members of the Finance Committee had been invited.

Postponement of Reconsideration of Action on Report by Manager of Utilities, re Water Rates

At the written request of Supervisor McSheehy, reconsideration of vote of October 23, 1939 (previously set for Monday, December 4, 1939, at 2:30 P. M.) whereby motion by Supervisor McSheehy, incorporated in his reply to report by Mr. E. G. Cahill, Manager of Utilities, on the subject of water rates, requesting his Honor, the Mayor to prevail upon the Public Utilities Commission to the end that the policy set forth in Resolution No. 542 (Flat Water Rates) may be put into effect, failed, was postponed to December 18, 1939, at 2:30 P. M.

Request for Public Hearing on Waterfront Situation

Communication from Reverend Herrick J. Lane, Pastor of Olivet Presbyterian Church, requesting on his own behalf and that of other clergymen that a public meeting be held in the Civic Auditorium, at which representatives of the waterfront unions and employers might present their views of the causes and desirable solutions of the present waterfront difficulties, was presented and read by the Clerk.

Communication referred to the Public Welfare Committee.

Extension of Ocean Shore Boulevard from Santa Cruz

Communication from Mr. P. E. Springer, 4141 23d Street, San Francisco, protesting against a requested change of route of Ocean Shore Boulevard, south, routing same through Watsonville, as requested by citizens and the mayor of that city, was presented and read by the Clerk.

Supervisor Ratto, following the reading of the above communication announced that a group from Watsonville had attended several meetings of the State Highway Commission and urged the change of route of the proposed extension of the Ocean Shore Boulevard. Supervisor

Ratto stated further that should the proposed highway be routed through the main street of Watsonville, federal appropriation to aid in its construction would be withdrawn.

Adjournment

There being no further business, the Board, at the hour of 4:10 P. M., adjourned.

DAVID A. BARRY, Clerk.

Approved by the Board of Supervisors, December 4, 1939.

Pursuant to Resolution No. 3402 (New Series) of the Board of Supervisors of the City and County of San Francisco, I, David A. Barry, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the date hereon stated and approved as recited.

Absent: Supervisors Brown, McGowan, Shannon—3.

Quorum present.

The Journal of Proceedings of the Meeting of November 27, 1939, was considered read and approved

SPECIAL ORDER—2 P. M.

Hearing of Appeal, South Side of Quesada Avenue 125 Feet East of Ingalls Street.

Resolved, that the decision of the City Planning Commission by its Resolution No. 2068, dated October 19, 1939, denying application to rezone from First Residential District to Second Residential District, property located at the south side of Quesada Avenue, commencing at a point 125 feet easterly from Ingalls Street, and running thence easterly 25 feet, is hereby disapproved.

At the request of George Collins, Attorney for the applicant, and on motion by Supervisor Ratto, consideration was postponed until December 11, 1939, at 2 P. M.

SPECIAL ORDER—2:30 P. M.

City Aid Toward Assessments for Sidewalk Construction

Consideration of granting city aid toward assessments for sidewalk construction for Miss Mary Tarpy, Mr. A. R. Schubert and Mrs. Mary V. Anderson. On motion by Supervisor Uhl.

Discussion

Supervisor Uhl moved, after reciting briefly the history of the foregoing matter, that the City and County of San Francisco contribute two-thirds of the amount of assessment for improvement of sidewalks of Miss Tarp, Mrs. Anderson and Mr. Schubert.

Motion failed for want of a second.

Opinion from City Attorney

The City Attorney, however, informed the Board that it has no power to make such an appropriation unless it be recommended by the Mayor. The matter of making such appropriation is entirely out of the hands of the Board, except at the time of passage of the annual appropriation ordinance.

Proposed Reference to the Mayor

Thereupon, Supervisor Uhl moved that the Mayor be informed as to what had occurred in the matter, and that the Board felt that the citizens who had filed complaints against their assessments should be given some assistance.

No second.

In discussing the motion, Supervisor McSheehy objected to its form, and suggested that the matter be referred to the Finance Committee and that Committee refer same to the Mayor.

The City Attorney, in commenting on the suggestion by Supervisor McSheehy, stated that he felt any recommendation to the Mayor should come from the Department of Public Works rather than from the Board of Supervisors.

Renewal of Motion for Reference to the Mayor

Thereupon, Supervisor Uhl in re-wording his previous proposal for reference to the Mayor, moved that the Clerk forward to the Mayor the history of objections raised by the protestants against their assessments, and that the Mayor be requested to give consideration of an appropriation of two-thirds of the amount of the bills charged against them, as the city's contribution toward the work performed.

No second.

Referred to Finance Committee

Supervisor McSheehy moved that the entire matter be referred to the Finance Committee and that Committee report to the Board its findings in the matter.

No second.

Discussion

Supervisor Colman objected to any further action by the Board, stating that he believed that every reasonable consideration had been given to the appellants, and it was his belief that no injustice had been done to them.

However, the Chair announced that the appeals had been denied and assessments confirmed with the understanding that the appellants would be given some sort of relief by the Board of Supervisors.

Thereupon, the Clerk presented a written protest by Josephine Lyons Kovacevick, Attorney, representing Miss Mary Tarp, in which she recited the previous action of the Board in the matter and renewed protests previously filed.

Privilege of the Floor

Mrs. Mary V. Anderson, on being granted the privilege of the floor on motion by Supervisor McSheehy, expressed briefly the basis of her protest.

Reference to Chief Administrative Officer

Supervisor Uhl, seconded by Supervisor McSheehy moved that the entire matter be referred to the Chief Administrative Officer.

In objection to the motion, Supervisor Colman repeated his objections previously made, stating he felt that a very fair hearing on the matter had been held. He felt that in making any appropriation as suggested on behalf of the protestants, would be most unwise, and the precedent would be most dangerous and might result in a tremendous financial loss and would clog the business of the Board with matters that did not concern it. He would vote "No" on the motion.

Thereupon, the roll was called and the motion for reference to the Chief Administrative Officer was carried by the following vote:

Ayes: Supervisors McSheehy, Mead, Meyer, Ratto, Schmidt, Uhl—6.

Noes: Supervisors Colman, Roncovieri—2.

Absent: Supervisors Brown, McGowan, Shannon—3.

SPECIAL ORDER—2:30 P. M.**Report on Stop and Go Signals**

Mr. Ralph Wiley, Department of Electricity, on motion by Supervisor Uhl, invited to appear before the Board to discuss the matter of "Stop" and "Go" signals.

December 4, 1939—Action postponed until December 11, 1939, at 2:30 P. M. On motion of Supervisor Uhl.

SPECIAL ORDER 3 P. M.

The following matter, referred by Public Buildings, Lands and City Planning Committee without recommendation, was taken up:

Petition for Repeal of All Ordinances Providing for License Fees for Revenue

Mr. William Merryman, representing a group of people affected by the recent Supreme Court decision which validated the license for revenue ordinances which have, for the past five or six years, been deemed by city officials to be invalid, on being granted the privilege of the floor, on motion by Supervisor Colman, presented and read the following communication:

December 4, 1939.

To the Honorable The Board of Supervisors,
City Hall,
San Francisco, California.

Gentlemen:

The following resolution was unanimously passed by representatives of practically every group affected by the recent Supreme Court decision, which validated the license for revenue ordinances which for the past five or six years have been deemed by city officials to be invalid.

Resolution

Whereas, the Supreme Court of the State of California has recently handed down a decision, indicating that the City and County of San Francisco has the power under its charter to enact license ordinances for revenue purposes, and

Whereas, on account of a Superior Court decision city officials have not demanded the payment of a large number of license fees provided for in certain license ordinances, and

Whereas, the individuals affected by these license ordinances in good faith did not pay the license fees, and

Whereas, because of the Supreme Court decision the Tax Collector's office has indicated that it plans to proceed against all those persons who have not paid these fees for the past three years, and to collect said fees and the 25% penalties, and

Whereas, such collection would be unfair to all of the persons affected inasmuch as non-payment of the fees was acquiesced in by the officials of the City and County of San Francisco, and the individuals have set up no reserve for the payment of these taxes,

Now, Therefore, Be It Resolved, that the representatives of the organizations in attendance at this meeting petition the Board of Supervisors for repeal of all ordinances providing for license fees for revenue.

I hereby certify that the above is a true and correct copy of a resolution passed at a meeting held in Room 206, San Francisco Chamber of Commerce Building, 333 Pine Street, 11:00 A. M., Monday, December 4, 1939, at which representatives of the following businesses and professions were in attendance: Attorneys-at-law, chiropractors, physicians and surgeons, real estate brokers, drugless physicians, architects, optometrists, master barbers, certified public accountants, mechanical engineers, civil engineers, structural engineers, mining engineers, chemical engineers, radio engineers, draymen, truck owners, dentists, outdoor posters, veterinarians, osteopaths, showcard writers, interior decorators, beauty shops, chiropractors, theatrical agencies.

WILL C. MERRYMAN,
Chairman.

The following communication from the Taxpayers Defense League, Inc., was presented and read:

December 4, 1939.

To the Honorable, The Board of Supervisors
Of the City and County of San Francisco,
San Francisco, California.

Gentlemen:

The Taxpayers Defense League, Inc., is unalterably opposed to the long dormant license fee ordinance for the following reasons, to-wit:

1. In 1934 the people of the City and County of San Francisco by an overwhelming majority refused to vote an amendment to the Charter to permit license fees to be imposed for revenue purposes.

2. The principle of raising revenue through license fees is unfair and inequitable and unduly burdensome to the taxpayers affected thereby.

3. By reason of their intrinsic character license fees should be restricted to the cost of inspection and this was the mandate of the City and County of San Francisco.

4. The result of imposing such license taxes will not increase the net revenue to any appreciable degree because of the obvious costs that will be entailed in the administration of such ordinance.

The Taxpayers Defense League recommends and strongly urges your Honorable Board to repeal the license tax ordinance at the earliest possible date in order that the will of the people of this City and County will be recognized and given effect.

Respectfully submitted,

THE TAXPAYERS DEFENSE LEAGUE, Inc.

JESSE J. BRILLIANT,

President.

The following communications were presented by the City Attorney:

November 16, 1939.

Board of Supervisors of the
City and County of San Francisco,
City Hall,
San Francisco, California.

Re: Levy of License Taxes for Revenue.

Dear Sirs:

For about five or six years past there has existed in San Francisco a controversy concerning the right of the City and County to levy license taxes for revenue raising purposes as distinguished from the levy of license taxes for regulatory purposes.

Several years ago, Superior Court Judge Walter Perry Johnson rendered an opinion to the effect that the City and County could not license for revenue but was restricted to licensing for regulation alone. This opinion of Judge Johnson was followed by other trial court judges who from time to time held to the same effect.

Meanwhile, and for the past three or four years numerous persons affected by licensing ordinances, providing for licensing for revenue, have not been paying such license taxes.

In order that we might actually determine our right to levy license taxes for revenue raising purposes, a test case was taken to the Supreme Court (West Coast Advertising Company vs. City and County of San Francisco). This case resulted favorably to the City and County, and in the opinion of the Judges of the Supreme Court it was held that the City and County has the right to levy license taxes for revenue.

During this period of controversy numerous suits were filed by various individuals for the recovery of license taxes previously paid by them. These suits totaled approximately \$250,000.00. We shall not have to reimburse these license taxpayers in view of the de-

cision of the court in the West Coast Advertising Company case. However, the City and County is now confronted with the collection of the license taxes which have not been paid during the past three years by the various persons affected. I estimate that at least \$350,000.00 is owing to the City and County of San Francisco under various ordinances.

The Tax Collector can now proceed to enforce collection of these license taxes. However, numerous complaints have been made by many of the people affected so that the thought occurred to me that the Board of Supervisors might want to know how to proceed to eliminate unpaid license taxes to date, so that the various persons affected by the decision will not have to pay the license taxes for the delinquent period.

I am of the opinion that the present due and owing license taxes might be eliminated by a repeal of the present existing license tax ordinance. Immediately after the repeal these ordinances may be re-enacted in slightly different form, thus providing for future license taxes. I might add in passing that in some instances this has already been done. Quite a number of ordinances have been revised during the past few years upon the assumption that the City and County could not levy license taxes for revenue raising purposes, thereby destroying the right of the City and County to collect license taxes under the repealed ordinances.

Yours very truly,

WALTER A. DOLD,
Chief Deputy City Attorney.

December 4, 1939.

Board of Supervisors,
City Hall, San Francisco:

Dear Sirs:

I herewith enclose you copy of telegram I have this day received from the President and Vice-President and Committee of the San Francisco Bar Association.

This matter relates to licenses to be collected from practicing attorneys in San Francisco.

Very truly yours,

JOHN J. O'TOOLE,
City Attorney.

COPY OF TELEGRAM

December 4, 1939.

John J O'Toole, City Attorney,
City Hall, San Francisco.

The Bar Association of San Francisco speaking for two thousand lawyers respectfully urges you to use your good efforts to immediately repeal the existing license tax ordinance heretofore held to be unconstitutional by Judge Walter Perry Johnson, whose ruling has been accepted and acquiesced in by the collection officials and tax payers up to this date. The retroactive collection at this time with a pen-

alty of 25% would inflict grievous injustice upon those affected. It would work hardship on a great many citizens who have set aside no reserve to meet same.

HARTLEY F. PEART, President.

HARRY S. YOUNG, Vice-President.

Committee: Walter McGovern, George B. Harris, Arthur W. Brouillet, Henry Robinson, Percy Creede, William A. O'Brien, F. M. McAuliffe, Mathew O. Tobriner, Walter H. Duane, John H. Riordan, Francis McCarty, Milton Marks, Jack Redhead.

December 4, 1939.

Honorable Board of Supervisors,
Room, 235, City Hall,
San Francisco, Calif.

Attn. David A. Barry, Clerk

San Francisco Real Estate Board strongly protests against what we consider an unfair attempt to collect delinquent license taxes levied against many professions in this city. We respectfully urge upon you the importance of immediate repeal of all those license taxes which are levied for other than regulators purposes.

SAN FRANCISCO REAL ESTATE BOARD,

By LESLIE E. BURKS,

Secretary-Manager.

The following communication from the Chief Administrative Officer was presented and read:

November 29, 1939.

To the Honorable,
The Board of Supervisors,
City Hall,
San Francisco.

Gentlemen:

The recent decision of the Supreme Court, permitting the City and County of San Francisco to license for revenue, had made it mandatory for the Tax Collector to enforce the terms of the license fee ordinance and collect license fees, together with penalties for a period of three years.

Pursuant to a ruling of the Superior Court, the Tax Collector was unable to enforce the terms of said ordinance until the Supreme Court rendered its decision.

It is therefore evident that although the Tax Collector could not accept the payment of license fees tendered during the past three years, he is now obliged to collect not only the fees set forth in the ordinance, but also the penalties provided by law.

This policy is manifestly unfair to the citizens of San Francisco, and I have instructed the Tax Collector to delay action on the matter until such time as your Honorable Board has had an opportunity to discuss the matter fully.

Therefore I request that an ordinance be submitted to repeal the

license fee ordinance at the earliest possible date. I also request that a license fee ordinance be resubmitted and acted upon after public hearings, so that all interested citizens may have an opportunity to express fully their views on the subject before it is finally adopted.

Respectfully,

ALFRED J. CLEARY,
Chief Administrative Officer.

Discussion

Supervisor Roncovieri, in discussing the proposal for repeal of all existing ordinances which provide for imposing of license fees for revenue purposes, quoted from letter of December 4, 1939, which he had sent to the Chief Administrative Officer, as follows:

"I wish you to know that I am strongly of the opinion that only when the new substitute ordinance is ready for enactment should consideration be given to the repeal of the existing one. I base my opinion upon the fact that the City Attorney has stated to the Finance Committee that the moment the existing law is repealed, there will be no law on the books governing the subject of licenses, and further, that too long a period of time might elapse before the new ordinance would be adopted. No harm can come to anyone involved while you are drafting the new ordinance, since the Tax Collector has been instructed by you to delay action in the matter of collecting delinquencies. In your study of this matter, I would respectfully request you to consider what can be done for those who have already paid their licenses without protest."

In closing his discussion, Supervisor Roncovieri again insisted that something be done for those citizens who had paid their license fees during the past several years, and reiterated his opposition to the repeal of the existing ordinance before a substitute therefor is ready for adoption.

The City Attorney, in reply to Supervisor Roncovieri, announced that the entire matter had received his most careful consideration, and stated that he was doubtful if a new ordinance could be considered while the present one was still in effect and at the same time effect the repeal of the penalty provisions of ordinances now in force. If the Board desires to relieve the present liability under the existing ordinance, it must repeal same and then enact a new ordinance at a subsequent date.

Mr. Harry S. Young, Attorney, in reply to question by Supervisor Colman, stated that the Committee appearing before the Board, of which he was a member, had no authority to speak as to the attitude of the Bar regarding the imposing of license fees for other than inspection or regulatory requirements.

Mr. Merryman, in commenting on suggestions offered objected to the consideration of any new license ordinance until after the old license ordinance had been repealed.

Reference to Committee

Consideration of Legislation Granting Franchises to the Pacific Gas and Electric Company for the Distribution of Gas and Electricity for Other than Lighting Purposes.

The City Attorney presented and read the following communications:

December 4, 1939.

Subject: In Re: Pacific Gas and Electric Franchise.

Dear Sirs:

The Finance Committee of your Board has asked me to advise you as to the matter of the final passage of the ordinance pending enactment which, if passed, will grant to the Pacific Gas and Electric Company franchises to distribute both gas and electricity for purposes other than those provided in their Constitutional franchises.

I understand that the main objection which certain members of your Finance and Public Utilities Committee had to the ordinances which are now pending, is that it was not clear as to whether the amount to be paid for the respective franchises would have to be refunded by the City in the event the latter proceeded to construct its own distribution system for either of said utilities.

Opinion

The pertinent provisions on this subject are found in Section 10 of the pending ordinances (No. 325—Gas and No. 326—Electricity) so it is proper to consider the provisions of both ordinances together. Section 10 reads as follows:

"Section 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than non-compliance with its terms by the grantee or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000), shall be forthwith repaid by the city to the grantee."

I direct your attention to the underscored portion of the above mentioned section. This language, in my opinion, does not prevent the City from engaging in the distribution of power, nor does it entitle the Company to a refund of the amount paid for the franchise should the City proceed to build its own system to distribute either of the utilities mentioned.

The fact that the City might build its own system without acquiring the Company's system would not prevent the Company from continuing its operations. True, the Company would have to suffer competition, but the fact that the City would be its competitor would not prevent it from doing business, if it could obtain the business.

This doctrine has been upheld by the Supreme Court of the United States. See *Madera Waterworks v. City of Madera*, 228 U. S. 452, 57 Law Ed. 915, in which the Court said:

"It is argued that this provision, coupled with the duty imposed on the governing body to fix water rates annually, and the corresponding duty of the water company to comply with the regulations, both under severe penalties (art. 14, Secs. 1, 2, act of March 7, 1881, Secs. 1, 7, 8), imports a contract that the private person or corporation constructing works as invited shall not be subject to competition from the public source. Otherwise, it is pointed out, the same body will be called upon to regulate the plaintiff's charges and to endeavor to make a success of the city works. Furthermore, the plaintiff is forbidden by other provisions to divert its property to other uses, and, again, will be called on to pay taxes to help its rival to succeed. Thus, it is said, the city proposes to destroy the plaintiff's property, contrary to the 14th Amendment of the Constitution of the United States.

"But if, when the plaintiff built, the Constitution of the state authorized cities to build waterworks as well after works had been built there by private persons as before, the plaintiff took the risk of what might happen. An appeal to the 14th Amendment to protect property from a congenital defect must be vain. It is impossible not to feel the force of the plaintiff's argument as a reason for interpreting the Constitution so as to avoid the result, if it might be, but it comes too late. There is no pretense that there is any express promise to private adventurers that they shall not encounter subsequent municipal competition. We do not find any language that even encourages that hope, and the principles established in this class of cases forbid us to resort to the fiction that a promise is implied.

"The constitutional possibility of such ruinous competition is recognized in the cases, and is held not sufficient to justify the implication of a contract. (Citing cases.) So strictly are private persons confined to the letter of their express grant that a contract by a city not to grant to any person or corporation the same privileges that it had given to the plaintiff was held not to preclude the city itself from building waterworks of its own. (Citing cases.) As there is no contract, the plaintiff stands legally in the same position as if the Constitution had given express warning of what the city might do. It is left to depend upon the sense of justice that the city may show.

"Decree affirmed."

A more recent case is *Tennessee Power Co. v. T.V.A.* decided by the Supreme Court of the United States on January 30th of the present year, and reported in 306 U. S. 118. In this case the Supreme Court followed the rule laid down in the previous case cited, and said:

"The appellants say that the franchise to be a public utility corporation and to function as such, with incidental powers, is a species of property which is directly taken or injured by the Authority's competition. They further urge that, though non-exclusive, the local franchises and easements, which grant them the privilege to serve within given municipal subdivisions, and to occupy streets and public places, are also property which the Authority is destroying by its competition. Since what is being done is justified by reference to the Tennessee Valley Authority Act, they say they have standing to challenge its constitutionality.

"The vice of the position is that neither their charters nor their local franchises involve the grant of a monopoly or render competition illegal. The franchise to exist as a corporation, and to function as a public utility, in the absence of a specific charter contract on the subject, creates no right to be free of competition, and affords the corporation no legal cause of complaint by reason of the state's subsequently authorizing another to enter and operate in the same field. The local franchises, while having elements of property, confer no contractual or property right to be free of competition either from individuals, other public utility corporations, or the state or municipality granting the franchise. The grantor may preclude itself by contract from initiating or permitting such competition, but no such contractual obligation is here asserted."

In view of the foregoing, I have no hesitancy in saying that, in my opinion, the construction by the City of a competing system without acquiring the systems of the Company will not entitle the Company to a refund of the amount paid for the franchise. However, to avoid any question in the matter the Company has sent to me two communications, one dealing with each requested franchise. These communications speak for themselves and I herewith enclose them.

To briefly state their contents—the Company agrees that the construction by the City of a competing system will not entitle the Company to a refund of any amount paid for the franchises. In addition to these letters, the Company will agree to insert in its acceptance of the franchise, if they are granted, the same stipulation.

Therefore, if your Board is satisfied with the other conditions of the ordinances, I believe that the City is secure in the fact that no refund will have to be made should the City embark upon the distribution of either power or gas without purchasing the properties of the Company.

There are two other matters which I desire to call to your attention.

1. Why could not the stipulation mentioned in the Company's letter now be included in the franchise ordinance?

Had the suggestion been made in time it might have been done. However, I direct your attention to the fact that the respective ordinances were passed for second reading on September 11th and are now before your Board for final passage. I direct your attention to Section 15 of the Charter, and especially to the last sentence thereof:

"Section 15. All ordinances, after final passage or upon their becoming effective shall be certified by the Clerk of the Board and recorded in a book kept for that purpose, and resolutions adopted shall be certified and recorded in like manner. Except in case of an emergency measure passed and not previously published, and except as otherwise specified in this charter, publication of ordinances and resolutions in full shall not be required after final passage. Notice that an ordinance or resolution has passed or become final shall be published once within five days of such final passage. To amend an ordinance which has proceeded to a second reading shall require publication of the ordinance as amended and proceeding *de novo*."

There is grave doubt in the minds of the attorneys for the Company as to the meaning of the words "and proceeding *de novo*." If these words mean that an amendment to the ordinances would necessitate them being again referred to committee and be looked upon as the introduction of the ordinance as amended, ninety days from the present time would have to elapse before it could be finally passed and the effective date of the ordinance would be postponed until sixty days after final passage. This extension of time might postpone the effective date beyond the present fiscal year. These are all matters for the consideration of your Board.

2. At the time the ordinances under discussion were passed for

second reading. Ordinance No. 276 prescribing the procedure for the granting of franchises had not become final. The attorneys for the Company have requested that the pending ordinances be again passed for second reading and be finally passed at the expiration of the usual ten days thereafter. I so recommend.

Communications from the Company are herewith transmitted.

Sincerely,

JOHN J. O'TOOLE
City Attorney.

Board of Supervisors.

Privilege of the Floor

Mr. E. P. Troy, who was granted the privilege of the floor, opposed the granting of the proposed franchises.

Setting Aside the Action of This Board Taken on the 11th Day of September, 1939, Passing Bill No. 325 for Second Reading and Directing That Said Bill Be Re-passed for Second Reading on the Date Hereof.

Thereupon, following the reading of the foregoing communication, Supervisor Roncovieri, seconded by Supervisor Colman, moved as follows:

Setting aside the action of this board taken on the 11th day of September, 1939, passing Bill No. 325 for second reading and directing that said bill be re-passed for second reading on the date hereof.

Whereas, Bill No. 325 entitled as follows: "Ordinance granting to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereinafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said City and County all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes, and appurtenances which are now in place or hereafter may be placed in said streets", was on the 11th day of September, 1939, passed for second reading; and

Whereas, Said Bill No. 325 has not been finally passed; and

Whereas, At the time of the passage of said Bill No. 325 for second reading Ordinance No. 276, (series of 1939, approved August 30, 1939), prescribing procedure respecting applications for and granting of franchises, had not then, but since has become effective, and it is deemed advisable that said Bill No. 325 should be again passed for second reading; and

Whereas, After the passage of said Bill No. 325 for second reading a question arose as to whether the amount to be paid for the said franchise to be granted in conformity with Section 10 of Bill No. 325 would have to be refunded to the City in the event that the City exercised its right to build a system for the distribution of gas in the City and County of San Francisco; and

Whereas, a conference was had on November 30, 1939, between the City Attorney and the representatives of the Pacific Gas and Electric Company upon the point and it was the opinion of all of them that under the Bill as passed for second reading the amount to be paid for such franchise would not be repayable by the City to the grantee in the event the City constructed, installed, maintained, and/or operated such a competing system, but did not acquire the properties of the grantee as provided in said Bill; and

Whereas, the representatives of the Company, at the request of the City Attorney, and to allay any misgivings there might be upon the point and to put the question beyond debate, agreed that the Company would execute and make delivery of a communication of the tenor and effect below; and

Whereas, On the first day of December, 1939, the Pacific Gas and Electric Company addressed to the City and County of San Francisco and to the Board of Supervisors the following communication:

"To the City and County of San Francisco,
a Municipal Corporation, and to the
Honorable The Board of Supervisors Thereof.

"Gentlemen:

Pacific Gas and Electric Company, a public utility corporation, hereby agrees that in the event the franchise for gas set out in Bill No. 325 is finally enacted, that the \$200,000 repayable by the City to the grantee in the events set out in Section 10, will not be repayable by the City to the grantee, in the event the City constructs, installs, maintains and/or operates a competing system but does not acquire the properties of the grantee, as provided in said Bill No. 325.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY,
By P. M. DOWNING,
Its Vice-President and
General Manager;
and By D. H. FOOTE,
Its Secretary."

Now, therefore, Relying upon the covenants and promises set forth in the aforesaid letter, and for the purpose of avoiding any question as to the legality of the action of this Board heretofore taken on the 11th day of September, 1939, in passing said Bill No. 325 for second reading, it is hereby moved that said Bill No. 325, entitled as aforesaid be again passed for second reading.

Motion carried by the following vote:

Ayes: Supervisors Colman, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Uhl—8.

Absent: Supervisors Brown, McGowan, Shannon—3.

Be it ordained by the People of the City and County of San Francisco:

SECTION 1. Whenever in this ordinance the words and phrases hereinafter in this section defined are used they shall have the respective meanings assigned to them in the following definitions (unless, in the

given instance, the context wherein they are used shall import a different meaning):

(a) The word "grantee" shall mean Pacific Gas and Electric Company, its successors and assigns;

(b) The word "city" shall mean the City and County of San Francisco, a municipal corporation of the State of California, in its present incorporated form or in any later reorganized, consolidated, enlarged or reincorporated form, and shall include annexed territory:

(c) The word "streets" shall mean the public streets, ways, alleys and places as the same now exist or may hereafter exist within said city;

(d) The word "gas" shall mean natural gas and/or manufactured and/or artificial gas, or a mixture of natural gas and/or manufactured and/or artificial gas, including any gaseous substance usable for heat, power, illumination or fuel purposes;

(e) The phrase "pipes and appurtenances" shall mean pipes, pipelines, mains, services, traps, vents, vaults, manholes, meters, gauges, regulators, valves, conduits, appliances, attachments, appurtenances and any other property located or to be located in, upon, along, across, under or over the streets of the city, and used or useful in introducing, transmitting, distributing and supplying gas as aforesaid;

(f) The phrase "lay and use" shall mean to lay, construct, erect, install, operate, maintain, use, repair or replace;

(g) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said city and county all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes and appurtenances which are now in place or hereafter may be placed in said streets.

If the grantee should surrender or otherwise lose any rights under its said constitutional franchise, then the franchise hereby granted shall to the extent of such loss include the right of the grantee to introduce into, transmit, distribute and supply to said city and county and its inhabitants gas for all uses and purposes theretofore covered by said constitutional franchise to the extent of such loss.

SECTION 3. The franchise hereby granted shall be and continue in full force until, with the consent of the Railroad Commission of the State of California, or other lawful authority having jurisdiction in the premises, it shall be voluntarily surrendered or abandoned by the grantee, or until the city by agreement shall purchase or through eminent domain shall condemn and acquire all property actually used and useful in the exercise of said franchise and situate within the territorial limits of the city, or until it shall be forfeited for non-compliance with its terms by the grantee.

SECTION 4. The grantee of said franchise shall annually pay to the city a sum which shall be equivalent to one (1%) per cent of the gross annual receipts of the grantee from the sale of gas within the

limits of the city, under both said constitutional franchise and the franchise hereby granted, and whether or not said gas be transmitted or distributed by the grantee for its own account or the account of another. The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other

legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

Setting Aside the Action of This Board Taken on the 11th Day of September, 1939, Passing Bill No. 326 for Second Reading and Directing That Said Bill Be Re-passed for Second Reading on the Date Hereof.

Supervisor Roncovieri, seconded by Supervisor Colman, moved as follows:

Setting aside the action of this board taken on the 11th day of September, 1939, passing Bill No. 326 for second reading and directing that said bill be re-passed for second reading on the date hereof.

Whereas, Bill No. 326 entitled as follows: "Ordinance granting to

Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants electricity for every use and purpose to which it may be put, exclusive of those uses and purposes for which electricity may be now supplied by Pacific Gas and Electric Company or hereinafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to construct and use in the streets of said City and County all poles, wires, conduits and appurtenances necessary or proper therefor, and likewise to use all electric poles, wires, conduits and appurtenances which are now in place or hereafter may be placed in said streets", was on the 11th day of September, 1939, passed for second reading; and

Whereas, Said Bill No. 326 has not been finally passed; and

Whereas, At the time of the passage of said Bill No. 326 for second reading Ordinance No. 276, (series of 1939, approved August 30, 1939), prescribing procedure respecting applications for and granting of franchises, had not then, but since has become effective and it is deemed advisable that said Bill No. 326 should be again passed for second reading; and

Whereas, After the passage of said Bill No. 326 for second reading a question arose as to whether the amount to be paid for the said franchise to be granted in conformity with Section 10 of Bill No. 326 would have to be refunded to the City in the event that the City exercised its right to build a system for the distribution of electricity in the City and County of San Francisco; and

Whereas, a conference was had on November 30, 1939, between the City Attorney and the representatives of the Pacific Gas and Electric Company upon the point and it was the opinion of all of them that under the Bill as passed for second reading the amount to be paid for such franchise would not be repayable by the City to the grantee in the event the City constructed, installed, maintained and or operated such a competing system, but did not acquire the properties of the grantee as provided in said Bill; and

Whereas, the representatives of the Company, at the request of the City Attorney, and to allay any misgivings there might be upon the point and to put the question beyond debate, agreed that the Company would execute and make delivery of a communication of the tenor and effect below; and

Whereas, On the first day of December, 1939, the Pacific Gas and Electric Company addressed to the City and County of San Francisco and to the Board of Supervisors the following communication:

"To the City and County of San Francisco,
a Municipal Corporation, and to the
Honorable The Board of Supervisors Thereof.
"Gentlemen:

Pacific Gas and Electric Company, a public utility corporation, hereby agrees that in the event the franchise for electricity set out in Bill No. 326 is finally enacted, that the \$200,000 repayable by the City to the grantee in the events set out in Section 10, will not be repayable by the City to the grantee, in the event the City constructs, installs, maintains and or operates a competing system but does not acquire the properties of the grantee, as provided in said Bill No. 326.

Yours very truly,

PACIFIC GAS AND ELECTRIC COMPANY,
By P. M. DOWNING,
Its Vice-President and
General Manager;
and By D. H. FOOTE,
Its Secretary."

Now, therefore, Relying upon the covenants and promises set forth in the aforesaid letter, and for the purpose of avoiding any question as to the legality of the action of this Board heretofore taken on the 11th day of September, 1939, in passing said Bill No. 326 for second reading, it is hereby moved that said Bill No. 326, entitled as aforesaid be again passed for second reading.

Motion carried by the following vote:

Ayes: Supervisors Colman, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Uhl—8.

Absent: Supervisors Brown, McGowan, Shannon—3.

Amending San Francisco Municipal Code by Repealing Various Sections of Article 2, Part III, of Said Code—License Ordinance.

At the request of Supervisor Roncovieri the following copy of a communication from him, to Mr. Hartley F. Peart, President, Bar Association of San Francisco, is hereby inserted in the Journal of Proceedings.

COPY

December 6, 1939.

Mr. Hartley F. Peart, President
Bar Association of San Francisco
Mills Tower
San Francisco, Calif.

Dear Mr. Peart:

In reply to your telegram requesting the immediate repeal of the existing license tax ordinance, I wish to say that I am not at this time opposed to your aims, which I understand to be relief from the collec-

tion of taxes for the past three years plus the penalty of twenty-five per cent. If, however, your objective is to completely do away with a license tax ordinance for the future, then I shall be opposed to the repeal of the present ordinance. If the only way to relieve the delinquents is by means of the repeal of the existing ordinance, I shall not oppose that, provided, however, that a fair and equitable ordinance will be ready for enactment, *before* the existing one is repealed.

I express myself frankly to you in this matter, and trust that I may receive from your group an equally frank reply regarding the question of a new substitute ordinance to be enacted immediately after the existing license tax ordinance shall have been repealed.

Is it the intention of your group to oppose any license tax ordinance for revenue, regardless of how fair it may be in its application to the various professions, etc.? If it is not your intention to oppose or to call a referendum on a fair and equitable license tax ordinance for revenue, I would then ask the members of your group to make such recommendations as you would deem fair in connection with amendments to or modifications of the present ordinance.

No harm can come to anyone involved while the substitute ordinance is being drafted, since the Tax Collector has been instructed by our Chief Administrative Officer, Mr. Alfred J. Cleary, to delay action in the matter of collecting delinquencies.

In justification of a license ordinance for San Francisco, I wish to state that the existing ordinance, if not interfered with, will mean a future annual reduction of not less than ten cents in the tax rate. This ten-cent reduction will benefit approximately 125,000 real and personal property taxpayers who now carry almost the entire burden of taxation. License ordinances of a much more substantial nature in some respects exist in Los Angeles, Oakland and other cities in California and throughout the nation. And lastly, we must not forget that many who, under this ordinance, are obligated to pay licenses in San Francisco, reside elsewhere and contribute nothing to San Francisco's governmental support.

I assure you that as Chairman of the committee that will consider this matter, I will welcome for study your suggestions for any changes, modifications or amendments to the existing ordinance. There is no reason why we cannot have a meeting of minds in this matter.

Trusting that I may have the benefit of your cooperation, I remain

Very respectfully yours,

ALFRED RONCOVIERI

Chairman of the Finance Committee,
Board of Supervisors.

Discussion

Mr. Richardson, of the Bureau of Delinquent Revenues, at the request of members of the Board, explained the purport of the proposed legislation, giving the titles of the various sections sought to be repealed but which were, in the proposed legislation referred to merely by numbers.

Supervisor Roncovieri called attention to license fees imposed on people engaged in certain professions, calling attention particularly to attorneys and citing, for example, those attorneys whose annual gross receipts come within the \$40,000 to \$50,000 per year bracket and are, under the present license ordinances, subject to a license fee tax of but \$37.50 per quarter.

Mr. Richardson, in commenting on statement by Supervisor Roncovieri, stated that the large majority of attorneys are in the low income brackets, and, including penalties would be subject to a license fee tax for the past three years, under the present ordinance, of \$45.

The City Attorney, in answer to question by Supervisor Uhl, advised the Board that the penalties imposed by the present ordinances could not be waived, leaving those subject to payment of license fee taxes subject only to the tax. The only relief would be by the repeal of the various sections of the license fee ordinances.

The City Attorney, replying to Supervisor Colman who suggested the repeal of the present license fee ordinances to be followed by their immediate reenactment expressed doubt as to whether that could be done. He advised the Board that citizens should be accorded a hearing on any proposed license ordinance before its enactment.

Mr. William L. Merryman, representing various groups affected by the present license ordinances, in answer to inquiry by Supervisor Uhl, stated that he could not speak with any authority as to the attitude of his people with respect to reenactment of license ordinances, but that he was calling a meeting for Friday, December 15, 1939, at which the matter would be placed before them.

Mr. R. J. O'Rourke, representing Property Owners League, opposed the repeal of the present license ordinances and the consequent loss to the city of license fees and penalties collectible thereunder. He questioned the right of the Chief Administrative Officer to order the Tax Collector not to proceed with the collection of license fees and penalties due under the present ordinance and stated that his group were contemplating taking action against city officials should the license ordinances be repealed.

Mr. Alfred Del Carlo, representing the Retail Cleaners Union, requested that the Section of the License Ordinance imposing a license fee on cleaning and dyeing offices be included with those sections proposed to be repealed.

Mrs. Rose Walker, speaking for herself, was opposed to the proposed repeal of the various sections of the License Ordinance, and stated that while she was not authorized to speak for her organization, the Southern Council of Civic Clubs, she believed that organization would, after the proposal had been considered by it, be likewise opposed.

Mr. George Baker, representing the Citizens Voters Unity Council, expressed the opposition of his organization to the proposed legislation.

Mr. Charles Christin and Mr. George Gearhardt also opposed the repeal of the Sections of the license ordinance referred to in the proposed legislation. Mr. Christin, however, stated that although he was opposed to the proposed repeal, he did favor the thought that any penalties incurred be not collected.

Mr. A. V. Revello, speaking for the barbers, urged that the Section of the Ordinance referring to them be included among those sections proposed to be repealed.

Supervisor Ratto proposed amendments to the Ordinance as presented, to provide for the repeal of various additional sections of the License Code—which he subsequently withdrew.

The Chief Administrative Officer, Mr. Alfred J. Cleary, in urging that the proposed legislation be enacted, stated that he did not believe that the Board should impose on professional men of San Francisco these three years' back taxes, together with the penalties thereon, since they were not responsible for those accumulations. Any action with respect to enacting another license ordinance would be the business of the Board, and he would not transgress on the time of the Board, or advise the Board in the matter unless he were requested so to do. However, he did feel it to be most unjust to impose the back taxes and the penalties accrued under the present legislation, and he believed that every member of the Board felt the same way. For that reason he had directed the Tax Collector to do nothing toward making collections until he gave the word to proceed. However, unless the Board repealed the present ordinances, as proposed, he would have to

give instructions to proceed with the collection of amounts due thereunder. That, he did not wish to do.

Mr. Cleary, continuing, and in answer to request by Supervisor McSheehy that further consideration be postponed for two weeks, stated that he had taken a grave responsibility on himself in ordering that collections be not undertaken immediately. The Controller had requested that collection of the disputed license revenue fees be resumed. Mr. Cleary said further that he had been advised that in taking the action that he did, he might be transgressing his rights as a city official. He could not longer withhold his order to the Tax Collector to proceed with collections, nor would he, unless the Board passed for second reading the proposed legislation. He could no longer bear the onus of instructing the Tax Collector not to collect taxes unless he was sustained by the Board in such action.

Supervisor Schmidt, speaking to Supervisor McSheehy's request for postponement of action, called attention to the fact that Passage for Second Reading did not mean any commitment as to any future action or vote when the matter would again be before the Board for Final Passage. His vote on final passage of the ordinance would not necessarily be the same as his vote on passage for second reading.

Supervisor Colman, in support of enactment of the proposed legislation stated that because the overwhelming majority of the people who would be relieved of the payment of back taxes and accrued penalties were those in the lower income brackets and would be the hardest burdened if they were compelled to pay such taxes, the Board should repeal the present license fee ordinance as requested. Such repeal would be in the interest of people whom the Board represents. It is most unfair, continued Supervisor Colman, to compel the payment of these taxes under telling the people they need not be paid, and the taxpayers, under the circumstances, would not suffer should the Board support the Chief Administrative Officer and accede to his request. He urged the enactment of the proposed ordinance.

Supervisor McSheehy, after being assured by the Chief Administrative Officer that it was his intention, should the proposed ordinance not be enacted, to instruct the Tax Collector immediately (Tuesday morning, December 12, 1939) to proceed with the collection of license fee taxes, announced his intention to vote "No" on the proposed ordinance on Passage for Second Reading. He did not believe the ordinance to be legal, or properly written. He considered that more time should be given for study of an ordinance of such great importance, and he urged the Board not to approve the proposed legislation until after more time had been allowed for its study.

Supervisor Uhl, in explaining his vote stated that he was particularly influenced by the matter of penalties, but inasmuch as Mr. Merryman had stated that he was calling a meeting of this group during the week for consideration of a new ordinance to take the place of the present one, and that because the repeal of the present ordinances was the only way by which the people affected could be relieved of the taxes and the penalties imposed thereby, he would vote in favor of repeal, reserving, however, the right to change his vote when the matter came before the Board for Final Passage.

Supervisor Ratto announced that the explanation as made by Supervisor Uhl also expressed his views.

Supervisor Mead stated that he believed the explanations as made expressed the views of all members of the Board.

Supervisor Roncovieri explained his vote as follows:

"I am voting 'aye' on the question of passage to second reading of the ordinance repealing certain sections of the license code for the sole purpose of correcting an injustice by relieving those who innocently have become delinquent in the payment of their license taxes under

the misapprehension that the decision of the Superior Court, declaring that the City had not the right to license for revenue, was the law, and because of the further fact that certain city officials gave advice to stop all collections of licenses for revenue.

"I desire the record to show, that while I am voting in favor of repeal of these sections, I am doing so on the basis of a statement made by the City Attorney to the effect that repeal is the only manner by which the delinquents may be relieved of their obligation to pay the accrued license taxes and penalties. I also understand that my vote in this matter will not render me liable to the charge of malfeasance in office nor make me and my bondsmen subject to monetary liability.

"In addition, I wish to make the following stipulation, which I desire most emphatically to be clearly understood, viz.:—If, at the time when the repeal of these sections of the license code shall be before this Board on final passage, there is not prepared and ready for consideration by the Board a satisfactory ordinance of similar import, proposing the imposition of licenses for revenue, then and in that event I shall resist final passage of the ordinance repealing the sections now being considered, and I shall vote an emphatic 'no' on the question of Final Passage."

Condemning Aggressive Acts Against and Urging Citizens to Lend Moral and Financial Support to Finland

(Series of 1939)

The Clerk presented for Supervisor McGowan Resolution No. _____,
as follows:

Whereas, Little great Finland, one of the nations for which the people of the United States hold the highest regard and the most profound admiration, now finds itself the victim of a vicious and unwarranted onslaught at the hands of a domineering aggressor which, though purporting to be a civilized nation and the instigator of new and improved political and social philosophies, has invoked that rule of barbarism which proclaims that "might is right," and thrown its armed forces at overwhelming odds against an innocent and peace-loving people, whose only offense appears to lie in the geographic location of their country, and

Whereas, Such actions on the part of the aggressor nation are grossly unfair and repugnant to American ideals of decency and fair play, and

Whereas, The people of Finland, fighting valiantly to protect and preserve their integrity as a sovereign state, find themselves sorely in need of financial assistance, and

Whereas, Indignation and revulsion for the cowardly and unjustifiable treatment of Finland have created a spontaneous and almost universal movement looking to her assistance particularly in the matter of finances, and

Whereas, There is a movement in San Francisco the purpose of which is to procure financial contributions for the succor of Finland; now, therefore, be it

Resolved, That this Board of Supervisors, cognizant of the distressing position in which Finland finds itself, takes this opportunity to publicly condemn the activities of the aggressor nation hereinbefore referred to, and exhorts the people of San Francisco to join not only morally, but by the donation of financial assistance to the end that Finland may emerge from the present controversy, which as to her, was wholly unprovoked, victorious and vindicated in the causes of justice and decency; and be it

Further Resolved, That a copy of this resolution be sent to the Consul of Finland.

Referred to Public Welfare Committee.

November 27, 1939—Consideration postponed until December 4, 1939, at 3 P. M., the Board to sit as a Committee of the Whole. On motion by Supervisor Uhl.

December 4, 1939—Consideration postponed until December 18, 1939, at 2:30 P. M. the Board to sit as a Committee of the Whole on motion by Supervisor Uhl.

Discussion

Supervisor Uhl, immediately after the foregoing bill was called up, explained the intent of the proposed legislation to reduce the maximum seating capacity of all theatres, not constructed of concrete throughout, from 399 seats to 299 seats, and requested the privilege of the floor for all citizens who desired to be heard.

Proposed Amendments

The Chair announced that he understood that the opponents and the proponents of the proposed legislation were not far apart, and he suggested the following amendments:

In Section 610, 2d line, delete the words "constructed" and "or altered," and to add the following language to the Section: "This ordinance shall not apply to reconstruction, alteration or remodeling of any existing theatres."

In Section 611, Subdivision (g), strike out the words "one (1) exit door," and insert in lieu thereof the words "two (2) operating room doors."

In Section 611, Subdivision (h), after the word "fireproof," strike out the words "and the picture machine must be operated entirely by hand." Also, delete the second paragraph of Subdivision (h), read-

ing "The use of a motor to turn the picture machine is hereby strictly prohibited."

Mr. Gerber, Chief Assistant, Department of Electricity, in discussing the proposed ordinance suggested that in Section 611, Subdivision (h) there be added to the first sentence thereof the words "State Safety Orders and the rules of the Department of Electricity."

Motion for Re-reference to Committee

Supervisor Roncovieri, seconded by Supervisor Ratto, moved that the entire matter be re-referred to Committee.

Supervisor Uhl, in discussing the above motion, objected to re-reference to Committee, stating that the real question involved is the reduction of seating capacity in the smaller theatres.

Amendment to Motion

Thereupon, Supervisor McSheehy, seconded by Supervisor Uhl, moved that the Board resolve itself into a Committee of the Whole.

Objection to Amendment

Supervisor Colman, in voicing his objection to the amendment to the motion stated that it seemed to him that the Board should continue its orderly conduct of its business by the Committee plan. The Board should be given the benefit of a committee recommendation. The matter should go back to committee. For that reason he would vote against the Board resolving itself into a Committee of the Whole.

Supervisors Brown and Roncovieri also expressed objection to the motion.

Motion Carried

Thereupon, the roll was called and the motion that the Board resolve itself into a Committee of the Whole carried by the following vote:

Ayes: Supervisors McSheehy, Mead, Meyer, Schmidt, Uhl—5.

Noes: Supervisors Brown, Colman, Ratto, Roncovieri—4.

Absent: Supervisors McGowan, Shannon—2.

Supervisor Mead to Act as Chairman

On motion by Supervisor McSheehy, no objection being offered, Supervisor Mead was appointed to act as Chairman of the Committee of the Whole.

Privilege of the Floor

Mr. Alfred Graziani, Attorney, representing Bridge Theatres, Inc., objected to the proposed ordinance, holding that under the terms of the ordinance it would be economically impossible to operate small neighborhood theatres. His clients would willingly abide by any safety provisions, but did object to the proposed reduction of seating capacity. His only objection to the proposed ordinance was the reduction from the present permissible 399 seating capacity to 299.

Mr. George Allen also opposed passage of the proposed ordinance.

Mr. L. S. Hamm, representing San Francisco Theatre Owners Chamber of Commerce, California Theatre Owners Association, Golden Gate Theatre and Realty Corporation and a number of independent theatre owners; Mr. R. A. McNeill, theatre owner; Mrs. Rose Walker, representing Southern Council of Civic Clubs; Mabel Erickson, representing Longfellow Improvement Club; Mrs. Claverly, of the Visitacion Valley district, and Mr. Edward Kenny, favored the enactment of the proposed legislation.

Mr. Frank Kelly, Chief of the Bureau of Fire Prevention, explained the present provision which permits the erection of theatres of seating capacity of less than 400 people, outside the fire limits, of frame

construction. Within the fire limits such theatres must be of Class A, B or C construction. His chief concern was that all theatres, within or outside the fire limits, must be of Class A, B or C construction. He offered no objection, though, to a seating capacity of 399 instead of 299 as proposed in the legislation under consideration. In answer to question by Supervisor Schmidt, Mr. Kelly stated that he did feel that theatres of 400 seating capacity, or more, should be of Class A construction.

Mr. Graziani made no objection to the proposed requirement that the small theatres be of Class C construction. He expressed a willingness to comply with any safety measures required under the proposed ordinance. His concern was with the requiring Class A construction for smaller theatres, which, he held, would render their operation economically impossible.

Consideration of Proposed Legislation Taken into the Hands of the Board

On motion by Supervisor McSheehy, no objection being raised, the entire matter was taken into the hands of the Board.

Committee of the Whole Rise and Reports

Thereupon, Supervisor Brown moved that the Committee of the Whole Rise and Report to the Board.

Supervisor McSheehy objected, stating that members of the Board, sitting as a Committee of the Whole, had not been heard. However, he did not press his objection and the Chair declared the motion carried.

Supervisor Brown, seconded by Supervisor Colman, moved that the figures and words "three hundred (300)" wherever they appeared in the proposed legislation, be changed to read "four hundred (400)."

In discussing the reason for proposing such amendment, Supervisor Brown stated that with such change it would be permissible to erect theatres of Class A, B or C construction with a seating capacity not to exceed 399. Fire Marshal Kelly had signified that such construction would be satisfactory to him and to his department. The attorney representing the proponents of the ordinance as presented, providing for a maximum seating capacity of 299, Class C construction had agreed to the proposed amendment. Supervisor Brown did not believe further restrictions to be either necessary or feasible.

Supervisor Schmidt expressed opposition to the proposed amendment, and urged that Class A construction be required for all theatres, regardless of their seating capacity.

Supervisor Colman, in supporting the amendment, stated he did so because it would bring everybody together and, in his opinion, there had been no reason advanced why the amendment should not carry. The opinion of experts in the matter guided him to that conclusion. There was, he held, no greater hazard with 399 people than with 299 people, provided the theatre was of class A, B or C construction, in or outside the fire limits. He had heard no one advance any reason for reduction in the permissible number of seats for Class C constructed theatres.

Supervisor Uhl, after questioning Mr. McNeill about his Noe Theatre, and others, their seating capacity and their admission charges, agreed with Supervisor Schmidt's views, and moved, as an amendment to the amendment, that Section 611, Subdivision (a) be amended by striking out the words "Class B, or Class C buildings," thus providing that all theatres should be of Class A construction.

Point of Order

Supervisor Brown raised the point of order that Supervisor Uhl's motion was out of order, because it was on an entirely different subject from his motion, and consequently had no bearing thereon. The proper procedure would be to dispose of his motion before considering the motion by Supervisor Uhl.

Thereupon, the chair ruled the motion by Supervisor Uhl was out of order.

Appeal from Ruling of the Chair

Supervisor Uhl appealed from the ruling of the Chair.

Chair Sustained

On Supervisor Colman's placing the appeal, at the request of the Chair, and after brief statements by Supervisor Uhl and by the Chair, the Chair was sustained by the following vote:

Ayes: Supervisors Brown, Colman, McSheehy, Meyer, Ratto, Roncovieri—6.

Noes: Supervisors Schmidt, Uhl—2.

Excused from voting: Supervisor Mead—1.

Absent: Supervisors McGowan, Shannon—2.

Supervisor Brown, in his closing argument in support of his motion, stated that if the seating capacity of "Class C" theatres should be limited to 299, there could be no more "Class C" constructed theatres. However, with a seating capacity of 399 permitted in "Class C" construction, San Francisco would have new neighborhood theatres, with the new jobs that go along with them. For years San Francisco has been going along on the supposition that 399 seats are all right, and the law now permits 400 seats. Naturally with 299 seats there would not be the hazard as with 399 seats, but the line of demarcation has to be fixed at some point, and for many years it has been set at 399 seats. His amendment merely provided that the permissible seating capacity for "Class C" constructed theatres remain as it has been for many years.

Supervisor Roncovieri, in explaining his vote on the proposed amendment, announced his intention to vote therefor, since it was provided that all theatres must be of Class C construction, either within or outside the fire limits.

Motion Lost

Thereupon the roll was called and the proposed amendment lost by the following vote:

Ayes: Supervisors Brown, Colman, Ratto, Roncovieri—4.

Noes: Supervisors McSheehy, Mead, Meyer, Schmidt, Uhl—5.

Absent: Supervisors McGowan, Shannon—2.

Additional Amendments Proposed

Thereupon, Supervisor Uhl, at the suggestion of the Chair, moved that Section 610, second line, be amended by striking out the words "constructed," and "or altered." Motion seconded by Supervisor McSheehy.

Mr. Frank Kelly, chief of the Division of Fire Prevention, objected thereto, stating that if those words were stricken out the Fire Department would have absolutely no control over any alteration of theatres.

Whereupon, Supervisor Mead, announced that in suggesting the amendment for which Supervisor Uhl had moved, he had done so in the belief that same would be satisfactory to all parties concerned, including the Fire Department and the Bureau of Fire Prevention.

Thereupon Supervisor Uhl, with the consent of his second, withdrew his motion.

Re-reference to Committee

Supervisor Colman, seconded by Supervisor Roncovieri, moved that the entire matter be referred to committee.

Motion carried by the following vote:

Ayes: Supervisors Brown, Colman, McSheehy, Mead, Meyer, Ratto, Roncovieri, Schmidt, Uhl—9.

Absent: Supervisors McGowan, Shannon—2.

Cahill, Manager of Utilities, on the subject of water rates, requesting his Honor, the Mayor to prevail upon the Public Utilities Commission to the end that the policy set forth in Resolution No. 542 (Flat Water Rates) may be put into effect, failed.

(g) The phrase "constitutional franchise" shall mean the rights possessed by the grantee under the provisions of Section 19 of article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911.

SECTION 2. There is hereby granted to Pacific Gas and Electric Company, its successors and assigns, a franchise to introduce into, transmit, distribute and supply to the City and County of San Francisco and its inhabitants gas for every use and purpose to which it may be put, exclusive of those uses and purposes for which gas may be now supplied by Pacific Gas and Electric Company or hereafter supplied by its successors or assigns under Section 19 of Article XI of the Constitution of the State of California, as said section existed prior to its amendment on October 10, 1911, and to that end to lay and use in the streets of said city and county all pipes and appurtenances necessary or proper therefor, and likewise to use all gas pipes and appurtenances which are now in place or hereafter may be placed in said streets.

The computation of the amount payable annually by the grantee to the city, hereunder, on the basis of the grantee's receipts under its constitutional franchise, as well as its receipts under the franchise hereby granted, is not intended to be and shall not be deemed to be an assertion by the city or a recognition by the grantee that the city has any authority to tax the grantee's right of enjoyment of its said constitutional franchise, but such basis of computation has been adopted merely as a convenient method for measuring the amount which the grantee should annually pay for the enjoyment of the franchise hereby granted.

SECTION 5. The grantee shall, within three months after the expiration of the calendar year in which the franchise hereby granted shall become effective, and within three months after the expiration of

each and every calendar year thereafter, file with the Clerk of the Board of Supervisors a duly verified statement showing in detail the total gross receipts of grantee during the preceding calendar year from the sale of gas within the limits of the city, as specified in Section 4 hereof, and within fifteen days after the time for filing such statement grantee shall pay to the city in lawful money of the United States the aforesaid percentage of its gross receipts for such calendar year, as shown by such statement, and as specified in Section 4 hereof. The grantee shall keep its accounts in such form as to enable the city, or its duly authorized representatives, to ascertain and check the amounts due the city under said franchise. In the event of any neglect, omission or refusal by the grantee to file such verified statement, or to pay said percentage, at the time and in the manner specified, or within any extension of time granted by the Board of Supervisors or other legislative body of the city, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 6. The grantee may charge for gas furnished by it within the limits of the city under the franchise hereby granted such rates only as shall be fixed in accordance with laws now in force or hereafter enacted.

SECTION 7. The grantee shall (a) construct, install and maintain all pipes and appurtenances in conformity with all the lawful ordinances, rules and regulations heretofore or hereafter adopted by the Board of Supervisors, or other legislative body of the city, in the exercise of the police powers of the city; (b) pay to the city on demand the cost of all repairs to public property made necessary by any of the operations of the grantee; (c) indemnify and hold harmless the city and its officers and employees from any and all liability for damages proximately resulting from any operations under the franchise hereby granted; (d) remove or relocate without expense to the city any facilities installed, used and maintained under the franchise hereby granted, if and when made necessary by any lawful change of grade, alignment or width of any street, or by any work to be performed under the governmental authority of the city; and (e) should the city or any department thereof make or issue any lawful order, law or ordinance directing the grantee to extend its facilities for the purpose of supplying the service provided for in this franchise, it shall be the duty of the grantee to provide such facilities and supply such service with all due diligence after having been notified to do so by the city or any of its departments having authority so to do.

SECTION 8. If the grantee shall fail, neglect or refuse to comply with any of the provisions or conditions prescribed in the franchise hereby granted, and shall not within thirty (30) days, or such additional time as may be allowed by the Board of Supervisors or other legislative body of the city, after written demand for compliance therewith, begin the work of compliance, or after such beginning, shall not prosecute the same with due diligence to completion, the city may sue in its own name in the manner provided by law without the necessity of resorting to proceedings in quo warranto for the forfeiture of the franchise hereby granted.

SECTION 9. The franchise hereby granted shall not in any way or to any extent impair or affect the right of the city to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge the city's right to exercise the power of eminent domain. In any proceeding of any character before any court or other public authority the franchise hereby granted shall be deemed to have a value equivalent to the purchase price paid therefor by the grantee and no other or greater value.

SECTION 10. The grantee shall pay to the city the sum of two hundred thousand dollars (\$200,000) as the purchase price of the franchise hereby granted. If, at any time after the payment of said sum, it shall be adjudged that said franchise did not become effective or was or is invalid, or if the grantee shall, at any time, be prevented by the city or by judgment procured by any other person from exercising the same for any reason other than noncompliance with its terms by the grantee, or if a certificate of convenience and necessity to exercise the same be refused by the Railroad Commission of California, then said sum of two hundred thousand dollars (\$200,000) shall be forthwith repaid by the city to the grantee.

SECTION 11. Upon the acceptance of the franchise hereby granted and the payment of the aforesaid purchase price thereof, the grantee shall stand discharged from any and all claims of the city for the use of the streets by grantee prior to the taking effect of said franchise.

SECTION 12. The grantee shall accept the franchise hereby granted and pay to the city the aforesaid sum of two hundred thousand dollars (\$200,000) within thirty days after this ordinance becomes effective, and after the Board of Supervisors shall, by resolution, so declare and, in writing, request acceptance of the franchise by the grantee and payment of said sum of two hundred thousand dollars (\$200,000) to the city. If the grantee shall fail to file its acceptance with the Clerk of the Board of Supervisors and pay said two hundred thousand dollars (\$200,000) to the city, within the aforesaid time, or such additional time as may be allowed by the Board of Supervisors, the franchise hereby granted shall be ipso facto void and no longer of effect.

cision of the court in the West Coast Advertising Company case. However, the City and County is now confronted with the collection of the license taxes which have not been paid during the past three years by the various persons affected. I estimate that at least \$350,000.00 is owing to the City and County of San Francisco under various ordinances.

The Tax Collector can now proceed to enforce collection of these license taxes. However, numerous complaints have been made by many of the people affected so that the thought occurred to me that the Board of Supervisors might want to know how to proceed to eliminate unpaid license taxes to date, so that the various persons affected by the decision will not have to pay the license taxes for the delinquent period.

I am of the opinion that the present due and owing license taxes might be eliminated by a repeal of the present existing license tax ordinance. Immediately after the repeal these ordinances may be re-enacted in slightly different form, thus providing for future license taxes. I might add in passing that in some instances this has already been done. Quite a number of ordinances have been revised during the past few years upon the assumption that the City and County could not levy license taxes for revenue raising purposes, thereby destroying the right of the City and County to collect license taxes under the repealed ordinances.

Yours very truly,

WALTER A. DOLD,
Chief Deputy City Attorney.

December 4, 1939.

Board of Supervisors,
City Hall, San Francisco:

Dear Sirs:

I herewith enclose you copy of telegram I have this day received from the President and Vice-President and Committee of the San Francisco Bar Association.

This matter relates to licenses to be collected from practicing attorneys in San Francisco.

Very truly yours,

JOHN J. O'TOOLE,
City Attorney.

COPY OF TELEGRAM

December 4, 1939.

John J O'Toole, City Attorney,
City Hall, San Francisco.

The Bar Association of San Francisco speaking for two thousand lawyers respectfully urges you to use your good efforts to immediately repeal the existing license tax ordinance heretofore held to be unconstitutional by Judge Walter Perry Johnson, whose ruling has been accepted and acquiesced in by the collection officials and tax payers up to this date. The retroactive collection at this time with a pen-

alty of 25% would inflict grievous injustice upon those affected. It would work hardship on a great many citizens who have set aside no reserve to meet same.

HARTLEY F. PEART, President.

HARRY S. YOUNG, Vice-President.

Committee: Walter McGovern, George B. Harris, Arthur W. Brouillet, Henry Robinson, Percy Creede, William A. O'Brien, F. M. McAuliffe, Mathew O. Tobriner, Walter H. Duane, John H. Riordan, Francis McCarty, Milton Marks, Jack Redhead.

December 4, 1939.

Honorable Board of Supervisors,
Room, 235, City Hall,
San Francisco, Calif.

Attn. David A. Barry, Clerk

San Francisco Real Estate Board strongly protests against what we consider an unfair attempt to collect delinquent license taxes levied against many professions in this city. We respectfully urge upon you the importance of immediate repeal of all those license taxes which are levied for other than regulators purposes.

SAN FRANCISCO REAL ESTATE BOARD,

By LESLIE E. BURKS,

Secretary-Manager.

The following communication from the Chief Administrative Officer was presented and read:

November 29, 1939.

To the Honorable,
The Board of Supervisors,
City Hall,
San Francisco.

Gentlemen:

The recent decision of the Supreme Court, permitting the City and County of San Francisco to license for revenue, had made it mandatory for the Tax Collector to enforce the terms of the license fee ordinance and collect license fees, together with penalties for a period of three years.

Pursuant to a ruling of the Superior Court, the Tax Collector was unable to enforce the terms of said ordinance until the Supreme Court rendered its decision.

It is therefore evident that although the Tax Collector could not accept the payment of license fees tendered during the past three years, he is now obliged to collect not only the fees set forth in the ordinance, but also the penalties provided by law.

This policy is manifestly unfair to the citizens of San Francisco, and I have instructed the Tax Collector to delay action on the matter until such time as your Honorable Board has had an opportunity to discuss the matter fully.

Therefore I request that an ordinance be submitted to repeal the

license fee ordinance at the earliest possible date. I also request that a license fee ordinance be resubmitted and acted upon after public hearings, so that all interested citizens may have an opportunity to express fully their views on the subject before it is finally adopted.

Respectfully,

ALFRED J. CLEARY,
Chief Administrative Officer.

Discussion

Supervisor Roncovieri, in discussing the proposal for repeal of all existing ordinances which provide for imposing of license fees for revenue purposes, quoted from letter of December 4, 1939, which he had sent to the Chief Administrative Officer, as follows:

"I wish you to know that I am strongly of the opinion that only when the new substitute ordinance is ready for enactment should consideration be given to the repeal of the existing one. I base my opinion upon the fact that the City Attorney has stated to the Finance Committee that the moment the existing law is repealed, there will be no law on the books governing the subject of licenses, and further, that too long a period of time might elapse before the new ordinance would be adopted. No harm can come to anyone involved while you are drafting the new ordinance, since the Tax Collector has been instructed by you to delay action in the matter of collecting delinquencies. In your study of this matter, I would respectfully request you to consider what can be done for those who have already paid their licenses without protest."

In closing his discussion, Supervisor Roncovieri again insisted that something be done for those citizens who had paid their license fees during the past several years, and reiterated his opposition to the repeal of the existing ordinance before a substitute therefor is ready for adoption.

The City Attorney, in reply to Supervisor Roncovieri, announced that the entire matter had received his most careful consideration, and stated that he was doubtful if a new ordinance could be considered while the present one was still in effect and at the same time effect the repeal of the penalty provisions of ordinances now in force. If the Board desires to relieve the present liability under the existing ordinance, it must repeal same and then enact a new ordinance at a subsequent date.

Mr. Harry S. Young, Attorney, in reply to question by Supervisor Colman, stated that the Committee appearing before the Board, of which he was a member, had no authority to speak as to the attitude of the Bar regarding the imposing of license fees for other than inspection or regulatory requirements.

Mr. Merryman, in commenting on suggestions offered objected to the consideration of any new license ordinance until after the old license ordinance had been repealed.

Reference to Committee

Thereupon, the Chair referred to the Finance Committee, the entire matter of repeal of the present license ordinance and the re-enactment of new ordinances, announcing that he would, later during the proceedings, present a proposed ordinance to provide for the repeal of the ordinance now in effect.

Privilege of the Floor

Mr. Arthur W. White, representing California Finance Conference, was, on motion by Supervisor Brown, granted the privilege of the floor. Mr. White requested that Section 155 of Article 2, Part III, of the San Francisco Municipal Code, Money Lenders, be included among other sections proposed to be repealed by the foregoing Bill.

Amending Section 74, Chapter 1, Part II, of San Francisco Municipal Code, Relating to Patent Chimneys

(Series of 1939)

Bill No. 451, Ordinance No....., as follows:

Amending Section 74 of Chapter 1, Part II, of the San Francisco Municipal Code relating to chimneys, other than chimneys of masonry construction, providing for certificates of registration to be issued to persons, firms and corporations engaged in the business of altering, constructing or erecting chimneys, flues, vents or fireplaces, other than those of masonry construction, and providing for the amount to be paid for said certificates of registration as well as the amount to be paid for a permit to erect a chimney, flue, vent or fireplace, other than those of masonry construction, and repealing certain sections of the Municipal Code in conflict with this ordinance.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 74, of Chapter 1, Part II, of the San Francisco Municipal Code is hereby amended to read as follows:

Section 74. *Chimney or Fireplace Installers.* No person, firm or corporation shall engage in the business of erecting, constructing, installing or repairing chimneys, flues, fireplaces or vents in any building in the City and County of San Francisco, except when said chimney or fireplace is of masonry construction, unless said person, firm or corporation has obtained a certificate of registration to so do as provided

in this section. Any person, firm or corporation desiring to obtain a certificate of registration to engage in the business of erecting constructing, installing or repairing chimneys, flues, vents or fireplaces in the City and County of San Francisco, other than chimneys or fireplaces of masonry construction shall make application for such certificate to the Central Permit Bureau of the Department of Public Works on forms provided by said Bureau, and upon said certificate being granted shall pay to the Central Permit Bureau the fee for said certificate which is hereby fixed at \$20.00 per year, provided that no certificate shall be necessary for the erection, construction, installation or repair of chimneys, flues or fireplaces when said chimneys, flues or fireplaces are of masonry construction, for the reason that the cost of the inspection of the last mentioned character of chimneys is provided for in subsection (a) of Section 64 of this Chapter. The fee for any certificate of registration provided for in this section shall be payable to the Central Permit Bureau on January 1st of each year and said certificate shall remain effective for one year. The full fee to be paid for any certificate issued after January 1st in any year shall be paid at the date of the issuance of said certificate and the right to do business under said certificate shall expire on the 1st day of January following the issuance of said certificate. Upon said certificate being issued the name of said person, firm or corporation to whom said certificate has been issued shall be registered with said Central Permit Bureau and said certificate shall be posted in a conspicuous place in the place of business of the person, firm or corporation named in said certificate. Persons, firms or corporations paying the amount herein provided for the issuance of said certificate shall not be subject to the payment of any license fee as provided for in Sections 200 to 207 of Part III of the Municipal Code so long as they perform only chimney work.

Upon the completion of the erection, construction or repair of any chimney, fireplace, flue or vent, other than those of masonry construction, it shall be the duty of the individual, co-partnership or corporation erecting, constructing or repairing said chimney, fireplace, flue or vent to notify the Department of Public Works of such completion and the latter shall at once cause the same to be inspected and if found in compliance with the provisions of this section shall make and deliver to the person, firm or corporation constructing, erecting, repairing or completing said chimney, fireplace, flue or vent a certificate or report of such inspection, which said certificate or report shall specify whether or not said work has been performed in compliance with the provisions of this Chapter, and if not in compliance therewith, said certificate or report shall state wherein said work does not comply with the provisions of this Chapter. It shall be the duty of the Department of Public Works to keep on file in its office a duplicate of all certificates or reports issued in conformity with the provisions of this section, which at all times shall be subject to the inspection of the public.

No flue, chimney, fireplace or vent hereafter constructed, altered or repaired, other than those of masonry construction, shall be used until the same have been inspected by the Building Inspection Bureau of the Department of Public Works and until a label has been affixed to said flue pipe or chimney by the Department of Public Works certifying that the said work has been done in compliance with the provisions of this Chapter, nor shall any chimney, flue pipe or vent be plastered over or otherwise enclosed in any building until such label shall have been so affixed.

No person, firm or corporation shall erect, construct, alter or repair any chimney, vent or flue without a permit to so do by the Central Permit Bureau, except when said chimney or flue is of masonry construction and is subject to inspection and approval by the general building laws applicable to the building or structure in which said chimney or flue is situated.

In addition to the amount to be charged for the certificate of registration hereinbefore provided for, any person, firm or corporation erecting, constructing, altering or repairing any chimney, vent or flue, other than those of masonry construction, shall pay to the Central Permit Bureau the following sums, to-wit:

For each permit for chimneys, flues or vents in new buildings Fifty Cents for each building in which said chimney, flue or vent is situated, and for each chimney, flue or vent in any old building Two Dollars for each building in which said chimney, flue or vent is situated. Said fee shall be payable to the Central Permit Bureau at the time said permit is issued provided that said Central Permit Bureau may issue said permits for chimneys, vents or flues in new buildings in books of twenty-five permits in each book upon the payment of \$12.50 for each book, and in books of ten permits in each book for chimneys, flues or vents in old buildings upon the payment of \$20.00 for each book. The Director of Public Works and the Controller are hereby authorized to make the necessary rules and regulations for the issuance, use, accounting and return of said permits issued in book form.

Nothing in this ordinance contained shall prevent any person, firm or corporation that has been duly licensed and registered as a master plumber, as provided in Chapter 7, Part II, of this Code, from erecting, constructing, altering, installing or repairing chimneys, vents and flues, other than those of masonry construction, provided that said master plumber shall pay to the Central Permit Bureau the fees herein provided for permits to erect, construct, alter, install or repair said chimneys, vents and flues, and said master plumbers shall not be required to pay the certificate of registration fee hereinbefore provided for in this ordinance.

Annual or quarterly permits issued any individual, firm or corporation pursuant to the provisions of subdivision (c) of Section 64, Chapter 1, Part II, of this Code, and extending for periods of time beyond December 31, 1939, are hereby declared to be null and void after December 31, 1939. Upon application by such permittee to the Central Permit Bureau, said permit extending for a period of time beyond December 31, 1939, shall be prorated up to and including December 31, 1939, and the unused balance of such permit fee refunded to the permittee.

Section 64, Chapter 1, Part II, of the San Francisco Municipal Code, in so far as it is in conflict with this section, is hereby repealed, and Section 130 of Part III of said Code is also repealed.

Mr. S. J. Rosenblum, representing the Central Bureau, explained the intent of the foregoing Bill, stating that the purpose thereof was merely to clarify an ambiguity and permit the proper functioning of his office.

Thereupon, Supervisor Uhl, who had previously objected to consideration and had moved reference to the Public Buildings, Lands and City Planning Committee, withdrew his motion and announced his willingness to vote for the measure on question of Passage for Second Reading, reserving the right to change his vote and oppose final passage later on, should he deem it advisable.

Request for Postponement

Supervisor Roncovieri, Chairman of the Finance Committee, announced that the foregoing matter would not have been on the Calendar for consideration by the Board, on question of final passage, except for the request by Supervisor Mead. It was promised by the Finance Committee to allow thirty days' time, if necessary, within which, Mr. William Merryman or the group represented by him, would present to the Committee a substitute ordinance or suggestions for amendments to the existing ordinances proposed to be repealed. In reiterating his views, previously expressed, Supervisor Roncovieri read a portion of letter sent by himself to Mr. Hartley Peart, as follows:

"Is it the intention of your group to oppose any license tax ordinance for revenue, regardless of how fair it may be in its application to the various professions, etc.? If it is not your intention to oppose or to call a referendum on a fair and equitable license tax ordinance for revenue, I would then ask the members of your group to make such recommendations as you would deem fair in connection with amendments to or modifications of the present ordinance."

Thereupon, as Chairman of the Finance Committee he moved that the Board postpone action on final passage of this license ordinance until the first Monday after re-organization of the Board in January, and that the entire matter be referred back to the Finance Committee. He asked this for the following reasons:

"1. I believe an attempt is to be made to permanently abolish an ordinance for licensing purposes.

"2. There is no valid reason for us to wipe out the existing ordinance which has been on the books for twenty years except for the sole and doubtful purpose of forgiving over a million dollars of delinquencies legally accrued and due under the law and a decision of the Supreme Court.

"3. If a majority of this Board feels that the existing ordinance should be repealed in order to relieve certain licensees from their past legally accrued tax obligation, that is one thing; but if the purpose of

repealing the existing ordinance is to permanently abolish all license taxes and have no license ordinance to take the place of the existing one we should consider carefully what this would mean to 127,000 real property taxpayers.

"4. Before repealing the existing ordinance let us at least have a satisfactory substitute ordinance ready to take its place.

"5. Unless this is done I predict that the high pressure groups that want to escape paying their honest share of taxes for city and county governmental support will use all the power and influence at their command to prevent the adoption of a substitute ordinance.

"6. We have before us two groups—our real estate and personal property taxpayers to the number of 127,000, and about 8,500 licensees. If we wipe out permanently the legitimate obligation of 8,500 licensees to pay their honest taxes and let them go Scot free how can we honorably face 127,000 property taxpayers on whom we must inevitably transfer this burden of taxation?

"7. The permanent repeal of this ordinance means an increase of ten to fifteen cents in the general tax rate.

"8. I would consider myself unworthy of the confidence of the people if I voted to relieve an especially favored group of their obligation to pay a fair tax and knowingly loaded this same tax on another group of taxpayers.

"I warn you, gentlemen, if there is any attempt permanently to abolish license taxes for revenue—I will never vote for that. It would be an insult to our real and personal property taxpayers, who would thereby be compelled to bear the entire burden of taxation. If the purpose of the proposed repeal of the present ordinance is solely to forgive the three years' back taxes with penalties, I would be willing to vote for that. My reason is that I know that certain officials told the public that they did not have to pay those taxes at all during the past five years, and we all believed this to be true. If public officials make a mistake, based on a Superior Court decision, and tell the people they don't have to pay their license taxes, I feel somewhat in sympathy with those who have become delinquent under the circumstances, and I will vote to save them from the penalties for non-payment of license fees which they honestly and innocently believed they would never have to pay.

"For these, and other reasons, I am requesting that further action on the entire matter be postponed until the first Monday after the reorganization of the Board, in January, in order to give Mr. Merryman and his group a chance to point out wherein the existing ordinance should be amended, and thereby show good faith in the matter of assisting this Board in the preparation of a new license ordinance for revenue."

Supervisor Uhl announced he would second the motion as made, in order to bring it before the Board. However, he felt that every Section proposed to be repealed should be gone through very carefully, and for that reason, the matter should be referred to the Committee of the Whole rather than to the Finance Committee. Supervisor Roncovieri agreed to the suggestion.

Thereupon, Supervisor Roncovieri, following the above suggestion, again moved that the Board postpone action on final passage of the license ordinance until the first Monday after re-organization of the Board in January, and that the entire matter be referred to a Committee of the Whole. Motion seconded by Supervisor Uhl.

The City Attorney, who had been informed that the purpose of the foregoing motion for postponement was to allow time for the drafting of new legislation to be substituted for that sought to be repealed, announced that he had previously advised that the Board must be "off with the old" before it could be "on with the new." There must be a clean break between the existing ordinance and the adoption of a

new one. Should the Board repeal one license ordinance and enact another, merely changing the amounts, it would still be the same system of licensing and would not repeal the penalties provided under the old ordinance.

Supervisor Roncovieri, following the above statement by the City Attorney, asked if it would, in any way, conflict with the opinion given in the Los Angeles case to which reference had been made if the groups requesting repeal of the present ordinances should by themselves, away from the Board, study the existing ordinance and prepare, themselves, a statement to be presented to the Board sometime in the future, indicating what would be acceptable to them.

Privilege of the Floor

Mr. William Merryman, acting as chairman of the groups affected by the matter before the Board, in reply to remarks of Supervisor Roncovieri, objected to statements made by him. While it was true that an agreement had been made that the representatives of the various groups affected would be called together in a meeting to determine what their attitude would be and what they could do with respect to a new ordinance, there was no agreement as to what the groups were going to do. The meeting was held on Friday, December 15, 1939, at the Chamber of Commerce Assembly Hall, in San Francisco, and the following Resolution was unanimously adopted:

"It is the consensus of opinion of the representatives of the various groups affected, who have heretofore been officially led to believe that the San Francisco Professional and Occupational License Tax for Revenue was invalid, that any present retroactive application of such tax and the penalties would be extremely unfair and unjust; that this opinion is concurred in by many of the principal officials of the City, by newspapers and by public opinion generally; that the legal adviser of the Board of Supervisors, the City Attorney, has advised in substance that the contemplated repeal may be invalidated by the concurrent consideration of a new or substitute revenue measure; that, therefore, in the interest of all concerned, the said tax should be repealed forthwith."

Following the presentation of the resolution adopted by the groups represented by him, Mr. Merryman recited the history of the adoption of the existing ordinance, and after arguments as to why substitute ordinances should not be considered until after the existing ordinances have been repealed, stated that neither he, nor any of the representatives of other groups could bind their groups to any proposal at all.

Mr. John H. Riordan, representing the San Francisco Bar Association; Dr. R. L. Blake, representing San Francisco District Dental Society; Mr. A. V. Ravella, representing the Associated Master Barbers; Dr. Charles B. Hobrecht, Optometrist; Mr. H. A. Kellogg, Certified Public Accountant; Miss Sue Brooks, of the Sue Brooks Beauty Salon; Mr. Chester McPhee, representing the Real Estate Board; Mr. John F. Foley, representing the barbers; and Mr. Alfred Del Carlo, representing the Retail Cleaners and Dyers Offices, all urged Final Passage of the repealing ordinance under consideration.

No opposition to final passage was voiced by citizens present.

Explanation of Votes on Motion for Postponement

Supervisor Colman, in opposing the motion for postponement, stated he believed the only thing to do was to take final action on the proposed repealing ordinance. He felt it to be unfair and unjust to attempt to collect the old taxes and the penalties, and believed every member of the Board felt the same way.

Supervisor Uhl agreed somewhat with Supervisor Roncovieri. The Board should give the matter immediate attention. He intended to vote for the repeal of the present license ordinances, but felt the matter should receive very careful consideration. Postponement of vote

on "Final Passage" as proposed, would not be blocking the contemplated repeal.

Supervisor Roncovieri, in explaining his views, announced that he was in favor of repeal for the *sole purpose* of relieving those who, during the past three or four years, have not paid their license taxes because of the advice of city officials following the ruling of the Superior Court. However, he did not believe any harm could come to anyone by postponement of action for a reasonable time. To say that he would vote for repeal of the present ordinance without any intention of enacting another Revenue Ordinance would not be true. He hoped the Board would agree to postponement in order to provide an opportunity for further study of this most important matter. As the repeal ordinance is written, no Supervisor can definitely tell what is being repealed. The repealing ordinance about to be enacted refers to numbers, and not one member of this Board knows what these numbers refer to.

Supervisor McSheehy stated that because he was not in accord with the ordinance as a whole when it was before the Board for Passage for Second Reading, he had voted "No" thereon. Now, under the conditions confronting the Board, and because of the advice from the City Attorney, he could see no reasons for postponement of final action on the ordinance. He believed the repealing ordinance should be Finally Passed without further delay, after which machinery could be started for the enactment of a new ordinance.

Motion Failed

Thereon, the roll was called and the motion for postponement of action until after the reorganization of the Board in January, failed by the following vote:

Ayes: Supervisors Roncovieri, Uhl—2.

Noes: Supervisors Colman, McSheehy, Mead, Meyer, Ratto, Schmidt—2.

Absent: Supervisors Brown, McGowan, Shannon—3.

Question on Final Passage

Supervisor Colman, in discussing the proposed ordinance, stated he intended to vote for final passage thereof. Everything that Supervisor Roncovieri desired could still be done. No member of the Board has indicated his attitude on any future license matters, which he felt to be proper. That question would be considered after the disposition of the present matter.

Supervisor Roncovieri announced that he would vote against the repeal of the present ordinance because he feared the Board would never have another license ordinance for revenue to replace that one now being considered. He would not vote for final passage of the present repealing ordinance without some indication of the attitude of other Supervisors regarding the passage of a new ordinance to take the place of the existing one.

Supervisor McSheehy, pursuant to statement by Supervisor Roncovieri, moved that the Board agree that following the repeal of the existing ordinances, a new ordinance to provide for licensing for revenue, would be offered to the Board. Motion seconded by Supervisor Roncovieri.

However, on objections being raised to the motion on the grounds that such motion would jeopardize the matter of forgiving the delinquencies now being considered, the reluctance of several Supervisors to commit themselves on any future action, and the request by the City Attorney that such motion be not approved and the promise that his office would render every possible aid in the preparation of any desirable legislation to provide for licensing for revenue, Supervisor McSheehy declared he would not press his motion, and would, with the

consent of his second, withdraw same. Thereupon, with the consent of Supervisor Roncovieri, the motion was withdrawn.

Final Passage

The Roll was then called and the ordinance repealing the various sections of the License Ordinance, providing for licensing for revenue, was finally passed by the following vote:

Ayes: Supervisors Colman, McSheehy, Mead, Meyer, Ratto, Schmidt, Uhl—7.

No: Supervisor Roncovieri—1.

Absent: Supervisors Brown, McGowan, Shannon—3.
